Commission

[Project No. 2343-086]

**PE Hydro Generation, LLC; Notice of  
Availability of Draft Environmental  
Assessment**

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47879), the Office of Energy Projects has reviewed the application for a new license for the Millville Hydroelectric Project, located on the Shenandoah River, near the town of Harpers Ferry in Jefferson County, West Virginia, and has prepared a draft Environmental Assessment (draft EA) for the project. The project does not occupy federal land.

In the draft EA, Commission staff analyze the potential environmental effects of relicensing the project and conclude that continued project operation under a new license, with appropriate measures, would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the draft EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at [www.ferc.gov](http://www.ferc.gov) using the eLibrary link. Enter the docket number, excluding the last three digits, in the docket number field to access the document. For assistance, contact FERC Online Support at [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov) or toll-free number at 1-866-208-3676, or for TTY, 202-502-8659.

You may also register online at [www.ferc.gov/docs-filing/esubscription.asp](http://www.ferc.gov/docs-filing/esubscription.asp) to be notified via email of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

For further information, please contact Michael Spencer by telephone at (202) 502-6093 or by email at [michael.spencer@ferc.gov](mailto:michael.spencer@ferc.gov).

Dated: August 16, 2017.

Federal Energy Regulatory  
Commission[Docket Nos. EF17-2-000; EF17-3-000;  
EF17-4-000]**Notice of Filing; Bonneville Power  
Administration**

Take notice that on August 10, 2017, Bonneville Power Administration submitted a Second Errata to its July 31, 2017 tariff filing per: BP-18 Power and Transmission Rates.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the eLibrary link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email [FERCOnlineSupport@ferc.gov](mailto:FERCOnlineSupport@ferc.gov), or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

*Comment Date:* 5:00 p.m. Eastern Time on August 30, 2017.

Dated: August 16, 2017.

Federal Energy Regulatory  
Commission

[Docket No. CP17-46-000]

**Southern Natural Gas Company, LLC;  
Notice of Availability of the  
Environmental Assessment for the  
Proposed Fairburn Expansion Project**

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Fairburn Expansion Project, proposed by Southern Natural Gas Company, LLC (Southern) in the above-referenced docket. Southern requests authorization to acquire, upgrade, construct, and operate certain natural gas pipeline and compression facilities in Clayton, Cobb, Fayetteville, Fulton, and Monroe Counties, Georgia. The project would provide approximately 343 million cubic feet per day of new firm transportation capacity to delivery points in Southern's Zone 2 and Zone 3 systems.

The EA assesses the potential environmental effects of the construction and operation of the Fairburn Expansion Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The U.S. Army Corps of Engineers and the U.S. Environmental Protection Agency participated as a cooperating agency in the preparation of the EA. Cooperating agencies have jurisdiction by law or special expertise with respect to resources potentially affected by the proposal and participate in the NEPA analysis.

The proposed Fairburn Expansion Project includes the following facilities in Georgia:

- One new 4.9-mile-long 30-inch-diameter Fairburn Lateral pipeline, extending from the Transcontinental Gas Pipe Line Company interconnect in Fayette County to a new proposed 18,000-horsepower electric Fairburn Compressor Station with pig<sup>1</sup> receiver in Fulton County;

<sup>1</sup> A pig is a tool that the pipeline company inserts into and pushes through the pipeline for cleaning the pipeline, conducting internal inspections, or other purposes.
