To address whether this condition adequately protects affected employees, a petition for partial revocation under 49 U.S.C. 10502(d) must be filed.

Pursuant to the provisions of 49 CFR 1152.29(e)(2), CLC shall file a notice of consummation with the Board to signify that it has exercised the authority granted and fully abandoned the Line. If consummation has not been effected by CLC's filing of a notice of consummation by August 31, 2018, and there are no legal or regulatory barriers to consummation, the authority to abandon will automatically expire.

SURFACE TRANSPORTATION BOARD

[Docket No. AB 1243X; Docket No. AB 1244 (Sub-No. 1X)]

Patriot Woods Railroad, LLC—Abandonment Exemption—in Cowlitz County, Wash.; Columbia & Cowlitz Railway, LLC—Discontinuance of Service Exemption—in Cowlitz County, Wash

Patriot Woods Railroad, LLC (PW) and Columbia & Cowlitz Railway, LLC (CLC) (collectively, Applicants), have jointly filed a verified notice of exemption under 49 CFR pt. 1152 subpart F—*Exempt Abandonments and Discontinuances of Service* for PW to abandon, and for CLC to discontinue service over, an approximately 21.50-mile rail line between milepost 8.5 at Ostrander Junction and the end of the line at milepost 30 in Cowlitz County, Wash. (the Line).¹ The Line traverses United States Postal Service Zip Codes 98611, 98626, and 98649 and includes the Headquarters station at milepost 14.2 and the Landfill station at milepost 16.2.

Applicants have certified that: (1) No local or overhead traffic has moved over the Line for at least two years; (2) there is no overhead traffic to be rerouted; (3) no formal complaint filed by a user of rail service on the Line (or by a state or local government entity acting on behalf of such user) regarding cessation of service over the Line either is pending with the Surface Transportation Board (Board) or with any U.S. District Court or has been decided in favor of complainant within the two-year period; and (4) the requirements at 49 CFR 1105.7(c) (environmental report), 49 CFR 1105.11 (transmittal letter), 49 CFR 1105.12 (newspaper publication), and 49 CFR 1152.50(d)(1) (notice to governmental agencies) have been met.

Where, as here, the carrier is abandoning its entire line, the Board does not normally impose labor protection under 49 U.S.C. 10502(g), unless the evidence indicates the existence of: (1) A corporate affiliate that will continue substantially similar rail operations; or (2) A corporate parent that will realize substantial financial benefits over and above relief from the burden of deficit operations by its subsidiary railroad. See *Honey Creek R.R.—Aban. Exemption—in Henry Cty., Ind.*, AB 865X (STB served Aug. 20,

According to PW, after abandonment PW's parent company and corporate affiliate will not continue similar operations, nor will PW's parent company realize substantial financial benefits over and above relief from the burden of its subsidiary railroad. Therefore, employee protection conditions will not be imposed.

Any employee of CLC adversely affected by the discontinuance shall be protected under *Oregon Short Line Railroad—Abandonment Portion Goshen Branch Between Firth & Ammon, in Bingham & Bonneville Counties, Idaho*, 360 I.C.C. 91 (1979). DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Agency Information Collection Activities: Requests for Comments; Clearance of Reinstatement Approval of Information Collection: Notice of Proposed Outdoor Laser Operations

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to reinstate a previously approved information collection. In order for the FAA to ensure safety it proposes to collect information from potential outdoor laser operators. The FAA will review the proposed laser activity against air traffic operations and

verify that the laser operation will not interfere with air traffic operations.

DATES: Written comments should be submitted by October 30, 2017.

ADDRESSES: Send comments to the FAA at the following address: Barbara Hall, Federal Aviation Administration, ASP-110, 10101 Hillwood Parkway, Fort Worth, TX 76177.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

FOR FURTHER INFORMATION CONTACT: Barbara Hall by email at: Barbara.L.Hall@faa.gov; phone 940-594-5913.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 2120-0662.

Title: Notice of Proposed Outdoor Laser Operations.

Form Numbers: FAA Form AC 7140-1.

Type of Review: Reinstatement of an information collection.

Background: The FAA will use the information gathered from laser operators planning to conduct outdoor laser operations to evaluate potential hazards to aircraft operating in the National Airspace System (NAS). Ultimately, the goal is to prevent an aircraft from being hit by the laser operation. The information will be reviewed by one of the three FAAs service centers and sent to the facility, which can be a Tower, TRACON or Center, that is being impacted by the operation. The facility will review the proposed operation and state no objection or list an objection to the operation. If the facility lists an objection, then the service center will contact the proponent and see if adjustments can be made to the proposed operation.

Respondents: Approximately 405 laser operations.

Frequency: One time per laser operation.

Estimated Average Burden per Response: Approximately 4 hours per form.

Estimated Total Annual Burden: An estimated 1,620 hours.
