

pursuant to general guidelines issued by OMB.

OMB's guidelines were published at 67 FR 8452 (February 22, 2002), and DOE's guidelines were published at 67 FR 62446 (October 7, 2002). DOE has reviewed this proposed rule under the OMB and DOE guidelines and has concluded that it is consistent with applicable policies in those guidelines.

K. Executive Order 13211

Executive Order 13211, "Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use," 66 FR 28355 (May 22, 2001) requires Federal agencies to prepare and submit to the OMB, a Statement of Energy Effects for any proposed significant energy action. A "significant energy action" is defined as any action by an agency that promulgated or is expected to lead to promulgation of a final rule, and that: (1) Is a significant regulatory action under Executive Order 12866, or any successor order; and (2) is likely to have a significant adverse effect on the supply, distribution, or use of energy, or (3) is designated by the Administrator of OIRA as a significant energy action. For any proposed significant energy action, the agency must give a detailed statement of any adverse effects on energy supply, distribution, or use should the proposal be implemented, and of reasonable alternatives to the action and their expected benefits on energy supply, distribution, and use. For the reasons discussed in section I.C, this regulatory action would not have a significant adverse effect on the supply, distribution, or use of energy, and therefore is not a significant energy action. Accordingly, DOE has not prepared a Statement of Energy Effects.

IV. Approval of the Office of the Secretary

The Secretary of Energy has approved the publication of this proposed rule.

List of Subjects in 10 CFR Part 590

Administrative practice and procedure, Exports, Natural gas, Reporting and recordkeeping requirements.

Issued in Washington, DC, on August 25, 2017.

Robert J. Smith,

Acting Assistant Secretary, Office of Fossil Energy.

For the reasons stated in the preamble, DOE proposes to amend part 590, chapter II of title 10, subchapter G, Code of Federal Regulations as set forth below:

PART 590—ADMINISTRATIVE PROCEDURES WITH RESPECT TO THE IMPORT AND EXPORT OF NATURAL GAS

■ 1. The authority citation for part 590 continues to read as follows:

Authority: Secs. 301(b), 402(f), and 644, Pub. L. 95–91, 91 Stat. 578, 585, and 599 (42 U.S.C. 7151(b), 7172(f), and 7254), Sec. 3, Act of June 21, 1938, c. 556, 52 Stat. 822 (15 U.S.C. 717b); E.O. 12009 (42 FR 46267, September 15, 1977); DOE Delegation Order Nos. 0204–111 and 0204–127 (49 FR 6684, February 22, 1984; 54 FR 11437, March 20, 1989).

■ 2. Section 590.102 is amended by:

- a. Redesignating paragraph (p) as paragraph (q), respectively;
- b. Adding new paragraph (p).

The revisions to read as follows:

§ 590.102 Definitions.

* * * * *

(p) *Small-scale natural gas export* means an export of natural gas to nations with which there is not in effect a free trade agreement with the United States requiring national treatment for trade in natural gas and with which trade is not prohibited by U.S. law or policy, provided that the application for such export authority satisfies the following two criteria:

(1) The application proposes to export natural gas in a volume up to and including 0.14 billion cubic feet per day, and

(2) DOE's approval of the application does not require an environmental impact statement or an environmental assessment under the National Environmental Policy Act, 42 U.S.C. 4321 *et seq.*

* * * * *

■ 3. Section 590.208 is revised to read as follows:

§ 590.208 Small volume exports.

(a) *Small-scale natural gas exports.* Small-scale natural gas exports are deemed to be consistent with the public interest under section 3(a) of the Natural Gas Act, 15 U.S.C. 717b(a). DOE will issue an export authorization upon receipt of any complete application to conduct small-scale natural gas exports. DOE's regulations regarding notice of applications, 10 CFR 590.205, and procedures applicable to application proceedings, 10 CFR part 590, subpart C (10 CFR 590.303 to 10 CFR 590.317), are not applicable to small-scale natural gas exports.

(b) *Scientific, experimental, or other non-utility natural gas exports.* Any person may export up to 100,000 cubic feet of natural gas (14.73 pounds per square inch at 60 degrees Fahrenheit) or

the liquefied or compressed equivalent thereof, in a single shipment for scientific, experimental, or other non-utility gas use without prior authorization of the Assistant Secretary.

BILLING CODE 6450–01–P

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

14 CFR Part 39

[Docket No. FAA–2017–0660; Product Identifier 2017–NE–21–AD]

RIN 2120–AA64

Airworthiness Directives; General Electric Company Turbofan Engines

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: We propose to adopt a new airworthiness directive (AD) for certain General Electric Company (GE) GENx–1B64/P2, –1B67/P2, –1B70/P2, –1B70/75/P2, –1B70C/P2, and –1B74/75/P2 turbofan engines. This proposed AD was prompted by a report of the failure of the high-pressure turbine (HPT) stage 1 blade retainer and subsequent in-flight shutdown of the engine. This proposed AD would require inspection of the HPT stage 1 blade retainer. We are proposing this AD to address the unsafe condition on these products.

DATES: We must receive comments on this proposed AD by October 16, 2017.

ADDRESSES: You may send comments, using the procedures found in 14 CFR 11.43 and 11.45, by any of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov>. Follow the instructions for submitting comments.

- *Fax:* 202–493–2251.

- *Mail:* U.S. Department of Transportation, Docket Operations, M–30, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590.

- *Hand Delivery:* Deliver to Mail address above between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

For service information identified in this NPRM, contact General Electric Company, GE-Aviation, Room 285, 1 Neumann Way, Cincinnati, OH 45215, phone: 513–552–3272; fax: 513–552–3329; email: geae.aoc@ge.com. You may view this service information at the FAA, Engine and Propeller Standards Branch, Policy and Innovation Division,

1200 District Avenue, Burlington, MA. For information on the availability of this material at the FAA, call 781-238-7125.

Examining the AD Docket

You may examine the AD docket on the Internet at <http://www.regulations.gov> by searching for and locating Docket No. FAA-2017-0660; or in person at the Docket Management Facility between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The AD docket contains this NPRM, the regulatory evaluation, any comments received, and other information. The street address for the Docket Office (phone: 800-647-5527) is in the **ADDRESSES** section. Comments will be available in the AD docket shortly after receipt.

FOR FURTHER INFORMATION CONTACT:

Christopher McGuire, Aerospace Engineer, FAA, ECO Branch, Compliance and Airworthiness Division, 1200 District Avenue, Burlington, MA 01803; phone: 781-238-7120; fax: 781-238-7199; email: Chris.mcguire@faa.gov.

SUPPLEMENTARY INFORMATION:

Comments Invited

We invite you to send any written relevant data, views, or arguments about this proposal. Send your comments to an address listed under the **ADDRESSES** section. Include “Docket No. FAA-2017-0660; Directorate Identifier 2017-NE-21-AD” at the beginning of your comments. We specifically invite comments on the overall regulatory, economic, environmental, and energy aspects of this NPRM. We will consider all comments received by the closing date and may amend this NPRM because of those comments.

We will post all comments we receive, without change, to <http://www.regulations.gov>, including any personal information you provide. We will also post a report summarizing each substantive verbal contact we receive about this NPRM.

Discussion

We learned of the failure of an HPT stage 1 blade retainer that resulted in an in-flight shutdown of the engine. This condition, if not corrected, could result in failure of one or more engines, loss of thrust control, and damage to the airplane.

Related Service Information Under 14 CFR Part 51

We reviewed GE Service Bulletin (SB) GENx-1B SB 72-0326 R02, dated August 16, 2017. The SB describes procedures for piece-part inspection of the HPT stage 1 blade retainer. This service information is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in the **ADDRESSES** section.

FAA’s Determination

We are proposing this AD because we evaluated all the relevant information and determined the unsafe condition described previously is likely to exist or develop in other products of the same type design.

Proposed AD Requirements

This proposed AD would require inspection of the HPT stage 1 blade retainer.

Costs of Compliance

We estimate that this proposed AD affects 11 engines installed on airplanes of U.S. registry.

We estimate the following costs to comply with this proposed AD:

ESTIMATED COSTS

Action	Labor cost	Parts cost	Cost per product	Cost on U.S. operators
Inspection of the HPT stage 1 blade retainer	1 work-hour × \$85 per hour = \$85	\$0	\$85	\$935

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA’s authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs, describes in more detail the scope of the Agency’s authority.

We are issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701: “General requirements.” Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

This AD is issued in accordance with authority delegated by the Executive Director, Aircraft Certification Service,

as authorized by FAA Order 8000.51C. In accordance with that order, issuance of ADs is normally a function of the Compliance and Airworthiness Division, but during this transition period, the Executive Director has delegated the authority to issue ADs applicable to engines, propellers, and appliances to the Manager, Engine and Propeller Standards Branch, Policy and Innovation Division.

Regulatory Findings

We determined that this proposed AD would not have federalism implications under Executive Order 13132. This proposed AD would not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify this proposed regulation:

(1) Is not a “significant regulatory action” under Executive Order 12866,

(2) Is not a “significant rule” under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979),

(3) Will not affect intrastate aviation in Alaska to the extent that it justifies making a regulatory distinction, and

(4) Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

List of Subjects in 14 CFR Part 39

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Proposed Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA proposes to amend 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by adding the following new airworthiness directive (AD):

General Electric Company: Docket No. FAA–2017–0660; Product Identifier 2017–NE–21–AD.

(a) Comments Due Date

We must receive comments by October 16, 2017.

(b) Affected ADs

None.

(c) Applicability

This AD applies to General Electric Company (GE) GENx–1B64/P2, –1B67/P2, –1B70/P2, –1B70/75/P2, –1B70C/P2, and –1B74/75/P2 turbofan engines, with a high-pressure turbine (HPT) stage 1 blade retainer, part number (P/N) 2445M91P01 or 2383M99P02, with a serial number listed in Planning Information, paragraph 1.A., of GE GENx–1B Service Bulletin (SB) 72–0326 R02, dated August 16, 2017.

(d) Subject

Joint Aircraft System Component (JASC) Code 7250, Turbine Section.

(e) Unsafe Condition

This AD was prompted by a report of the failure of the high-pressure turbine (HPT) stage 1 blade retainer and subsequent in-flight shutdown of the engine. We are issuing this AD to prevent failure of the HPT stage 1 blade retainer. The unsafe condition, if not corrected, could result in failure of one or more engines, loss of thrust control, and damage to the airplane.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(1) At the next engine shop visit after the effective date of this AD, perform a one-time inspection of the HPT stage 1 blade retainer. Use the Accomplishment Instructions, paragraph 3.A.(1), in GE GENx–1B SB 72–0326 R02, dated August 16, 2017, to do the inspection.

(2) If any cracks are found in the HPT stage 1 blade retainer, or the retainer does not meet the dimensional criteria found in the Accomplishment Instructions, paragraph 3.A.(1), in GENx–1B SB 72–0326 R02, dated August 16, 2017, replace with a part eligible for installation.

(g) Definition

For the purpose of this AD, an “engine shop visit” is the induction of an engine into the shop for maintenance involving the separation of pairs of major mating engine case flanges, except separation of engine flanges solely for the purposes of

transportation or for replacing the fan or propulsor, without subsequent maintenance, does not constitute an engine shop visit.

(h) Alternative Methods of Compliance (AMOCs)

(1) The Manager, FAA, ECO Branch, Compliance and Airworthiness Division, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the manager of the ECO Branch, send it to the attention of the person identified in paragraph (i)(1) of this AD. You may email your request to: ANE-AD-AMOC@faa.gov.

(2) Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office.

(i) Related Information

(1) For more information about this AD, contact Christopher McGuire, Aerospace Engineer, FAA, ECO Branch, Compliance and Airworthiness Division, 1200 District Avenue, Burlington, MA 01803; phone: 781–238–7120; fax: 781–238–7199; email: Christopher.mcguire@faa.gov.

(2) GE GENx–1B SB 72–0326 R02, dated August 16, 2017, can be obtained from GE using the contact information in paragraph (i)(3) of this AD.

(3) For service information identified in this proposed AD, contact General Electric Company, GE-Aviation, Room 285, 1 Neumann Way, Cincinnati, OH 45215, phone: 513–552–3272; fax: 513–552–3329; email: geae.aoc@ge.com.

(4) You may view this service information at the FAA, Engine and Propeller Standards Branch, Policy and Innovation Division, 1200 District Avenue, Burlington, MA. For information on the availability of this material at the FAA, call 781–238–7125.

Issued in Burlington, Massachusetts, on August 29, 2017.

Robert J. Ganley,

Manager, Engine and Propeller Standards Branch, Aircraft Certification Service.

BILLING CODE 4910–13–P

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Part 74

RIN 2900–AO63

VA Veteran-Owned Small Business Verification Guidelines

AGENCY: Department of Veterans Affairs.

ACTION: Withdrawal of proposed rule.

SUMMARY: The Department of Veterans Affairs (VA) published a rule in the **Federal Register** on November 6, 2015, 80 FR 68795 that proposed amending its

regulations governing the VA’s Veteran-Owned Small Business (VOSB) Verification Program. The Verification Program has been the subject of reports from both the Government Accountability Office and VA’s Office of Inspector General stating that despite VA’s Verification Program, fraud still exists in the Veterans First Contracting Program. Some stakeholder feedback has been that the current regulation is too open to interpretation and is unnecessarily more rigorous than similar certification programs run by the United State Small Business Administration (SBA).

The proposed rule sought to clarify the eligibility requirements for businesses to obtain “verified” status, added and revised definitions, reordered requirements, redefined the definition of “control,” and provided explanatory information on VA’s examination and review processes and procedures. The proposed rule additionally sought to implement new changes to community property restrictions, unconditional ownership, and day-to-day requirements and full-time requirements. An exception for majority, supermajority, unanimous, and other voting provisions for extraordinary business decisions were also proposed.

Comments to the proposed rule were to be provided to the Office of Small and Disadvantaged Business Utilization on or before January 5, 2016. Due to the nature of the adverse comments received, VA has determined not to pursue implementation of the rule as originally proposed. Accordingly, this document withdraws the proposed rule.

DATES: The proposed rule published on November 6, 2015, 80 FR 68795 is withdrawn as of September 1, 2017.

FOR FURTHER INFORMATION CONTACT: Tom Leney, Executive Director, Office of Small and Disadvantaged Business Utilization, Department of Veterans Affairs, 810 Vermont Ave. NW., Washington, DC 20420; (202) 462–4300. (This is not a toll-free number.)

SUPPLEMENTARY INFORMATION: In the proposed rule published in the **Federal Register** on November 6, 2015, 80 FR 68795, VA sought to amend 38 CFR part 74 to find an appropriate balance between preventing fraud in the Veterans First Contracting Program and providing a process that would make it easier for more VOSBs to become verified.

VA received 203 comments from 96 commenters. 134 of these comments were adverse to the proposed rule and VA’s verification program in general. Of the 134 adverse comments, several were
