C. NIFA Review of Shortage Situation Nominations

1. Review Panel Composition and Process

NIFA will convene a panel of food supply veterinary medicine experts from Federal and State agencies, as well as institutions receiving Animal Health and Disease Research Program funds under section 1433 of NARETPA, to review the nominations and make recommendations to the NIFA Program Manager. NIFA will review the panel’s recommendations and designate the VMLRP shortage situations. The list of approved shortage situations will be made available on the VMLRP Web site at www.nifa.usda.gov/vmlrp.

2. Review Criteria

Criteria used by the shortage situation nomination review panel and NIFA for certifying a veterinary shortage situation will be consistent with the information requested in the shortage situations nomination form. NIFA understands the process for defining the risk landscape associated veterinary service shortages within a State may require consideration of many qualitative and quantitative factors. In addition, each shortage situation will be characterized by a different array of subjective and objective supportive information that must be developed into a cogent case identifying, characterizing, and justifying a given geographic or disciplinary area as deficient in certain types of veterinary capacity or service.

To accommodate the uniqueness of each shortage situation, the nomination form provides opportunities to present a case using both supportive metrics and narrative explanations to define and explain the proposed need.

While NIFA anticipates some arguments made in support of a given shortage situation will be qualitative, respondents are encouraged to present verifiable quantitative and qualitative evidentiary information wherever possible. Absence of quantitative data such as animal and veterinarian census data for the proposed shortage area(s) may lead the panel to recommend disapproval of the shortage nomination.

The maximum point value that panelists may award for each element is as follows:

- 20 points: Describe the objectives of a veterinarian to meet the needs of the shortage situation in the community, area, State/insular area, or position requested above.
- 20 points: Describe the activities required of a veterinarian to meet the needs of the shortage situation in the community, area, State/insular area, or position requested above.

C. NIFA Review of Shortage Situation Nominations

20 points: Describe any past efforts to recruit and retain a veterinarian to achieve the objectives and activities in the shortage situation identified above.

35 points: Describe the risk of this veterinarian position not being filled or retained. Include the risk(s) to the production of a safe and wholesome food supply and/or to animal, human, and environmental health not only in the community but in the region, State/insular area, nation, and/or international community.

An additional 20 points will be used to evaluate overall merit/quality of the case made for each nomination.

SUPPLEMENTARY INFORMATION:

I. Background

The American Battle Monuments Commission (ABMC) builds and maintains suitable memorials commemorating the service of American Armed Forces and maintains permanent American military cemeteries in foreign countries. ABMC employs U.S. citizens, lawful permanent residents, and non-U.S. citizens or nationals from foreign countries. ABMC maintains the ABMC–6, Personnel and Payroll System, to manage payroll and personnel data for ABMC employees, ensure proper payment of salary and benefits to ABMC personnel, and track time worked and leave or other absences for reporting and compliance purposes. ABMC is publishing this new system of records notice to reflect updates to ABMC payroll and personnel data processes and services.

ABMC has entered into an agreement with the Department of the Interior (DOI) Interior Business Center (IBC), a Federal agency shared service provider, to provide payroll and personnel processing services through DOI’s Federal Personnel and Payroll System (FPPS). Although DOI will host and process payroll and personnel data on behalf of ABMC, ABMC will retain ownership and control over its own data. ABMC has included a routine use in this notice to permit sharing of records with DOI for hosting and support services. Individuals seeking access to their records owned and maintained by ABMC must submit their requests to ABMC as outlined in the Record Access Procedures, Contesting Record Procedures, and Notification Procedures sections below.

II. Privacy Act

The Privacy Act of 1974, as amended, embodies fair information practice principles in a statutory framework governing the means by which Federal agencies collect, maintain, use, and disseminate individuals’ records. The Privacy Act requires each agency to publish in the Federal Register a description denoting the existence and character of each system of records that the agency maintains and the routine uses of each system. The ABMC–6, Personnel and Payroll System, system of records notice is published in its entirety below. In accordance with 5 U.S.C. 552a(r), ABMC has provided a report of this system of records to the Office of Management and Budget and to Congress.
