DTV Delay Act included the extension of applicable 700 MHz construction benchmarks and reporting requirements by a period of 116 days.

On October 29, 2013, the Commission issued a Report and Order and Order of Proposed Modification in WT Docket No. 12–69 and WT Docket No. 12–332, FCC 13–136 (700 MHz Interoperability Order), in which it revised certain technical rules and extended or waived construction deadlines for certain licenses in order to resolve issues resulting from the lack of interoperability in the Lower 700 MHz Band. The Report and Order did not revise any of the information collection requirements that are contained in this collection. It simply waived or revised the dates on which the information collection requirements are required.

Comments are requested concerning: Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission’s

In particular, the Commission amended section 61.45(b)(1)(iv) of its rules to state that the X-factor shall equal 2 percent effective December 1, 2017. To ease the burden on industry, the only factor that changes in the revised TRPs is the X-factor. Base period demand and the value of GDP–PI will stay constant for this particular filing.
