SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

B. How can I get copies of this document and other related information?

The docket for this action, identified by docket identification (ID) number EPA–HQ–OPP–2010–0014, is available at <http://www.regulations.gov> or at the Office of Pesticide Programs Regulatory Public Docket (OPP Docket) in the Environmental Protection Agency Docket Center (EPA/DC), West William Jefferson Clinton Bldg., Rm. 3334, 1301 Constitution Ave. NW., Washington, DC 20460–0001. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566–1744, and the telephone number for the OPP Docket is (703) 305–5805. Please review the visitor instructions and additional information about the docket available at <http://www.epa.gov/dockets>.

II. What does this correction do?

EPA issued notices in the **Federal Register** of June 8, 2016 (FRL–9943–68), and July 5, 2017 (9962–88), concerning receipt of requests to voluntarily cancel

certain pesticide registrations and its follow-up product cancellation order, respectively. In the notice of July 5, 2017, EPA inadvertently listed the pesticide products Dithiopyr 0.13% Plus Fertilizer (EPA Reg. No. 53883–207), Dithiopyr 0.25% Plus Fertilizer (EPA Reg. No. 53883–208), Dithiopyr 0.172% Plus Fertilizer (EPA Reg. No. 53883–209), Dithiopyr 0.107% Plus Fertilizer (EPA Reg. No. 53883–210), Dithiopyr 0.06% Plus Fertilizer (EPA Reg. No. 53883–211), Dithiopyr 0.086% Plus Fertilizer (EPA Reg. No. 53883–212), Dithiopyr 0.1% Plus Fertilizer (EPA Reg. No. 53883–213), Dithiopyr Concentrate for Fertilizer (EPA Reg. No. 53883–268) and Quali-Pro Dithiopyr 2L (EPA Reg. No. 53883–311). The registrant had responded with a letter to the Office of Pesticide Programs dated June 10, 2016 requesting that the nine products not be cancelled. The letter was never forwarded to be included in the public docket for this **Federal Register** notice so the products were listed in the notice of July 5, 2017, in error. Therefore, EPA is not cancelling the pesticide products Dithiopyr 0.13% Plus Fertilizer (EPA Reg. No. 53883–207), Dithiopyr 0.25% Plus Fertilizer (EPA Reg. No. 53883–208), Dithiopyr 0.172% Plus Fertilizer (EPA Reg. No. 53883–209), Dithiopyr 0.107% Plus Fertilizer (EPA Reg. No. 53883–210), Dithiopyr 0.06% Plus Fertilizer (EPA Reg. No. 53883–211), Dithiopyr 0.086% Plus Fertilizer (EPA Reg. No. 53883–212), Dithiopyr 0.1% Plus Fertilizer (EPA Reg. No. 53883–213), Dithiopyr Concentrate for Fertilizer (EPA Reg. No. 53883–268) and Quali-Pro Dithiopyr 2L (EPA Reg. No. 53883–311). Herein this document is removing the cancellation order for EPA Reg. Numbers 53883–207, 53883–208, 53883–209, 53883–210, 53883–211, 53883–212, 53883–213, 53883–268 and 53883–311 listed in the July 5, 2017, **Federal Register** notice.

Registration Review; Draft Human Health and/or Ecological Risk Assessments for Several Pesticides; Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces the availability of EPA’s draft human health and/or ecological risk assessments for the registration review of asulam, chloroxlylenol, dichlobenil, EPTC, etofenprox, gamma- and lambda-cyhalothrin, imidacloprid, indoxacarb, metribuzin, nitrpyrin, oxamyl, pendimethalin, permethrin, prometryn, pyrethrins, tau-fluvalinate, and trifloxystrobin. Registration review is EPA’s periodic review of pesticide registrations to ensure that each pesticide continues to satisfy the statutory standard for registration, that is, the pesticide can perform its intended function without unreasonable adverse effects on human health or the environment. As part of the registration review process, the Agency has completed comprehensive draft human health and/or ecological risk assessments for all pesticides listed in the Table in Unit III. After reviewing comments received during the public comment period, EPA may issue a revised risk assessment, explain any changes to the draft risk assessment, and respond to comments and may request public input on risk mitigation before completing a proposed registration review decision for the pesticides listed in the Table in Unit III. Through this program, EPA is ensuring that each pesticide’s registration is based on current scientific and other knowledge, including its effects on human health and the environment.

DATES: Comments must be received on or before November 13, 2017.

ADDRESSES: Submit your comments, to the docket identification (ID) number for the specific pesticide of interest provided in the Table in Unit III, by one of the following methods:

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this action apply to me?

This action is directed to the public in general, and may be of interest to a wide range of stakeholders including environmental, human health, farm worker, and agricultural advocates; the chemical industry; pesticide users; and members of the public interested in the sale, distribution, or use of pesticides. Since others also may be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action. If you have any questions regarding the applicability of this action

to a particular entity, consult the Chemical Review Manager identified in the Table in Unit III.

B. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or email. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD-ROM that you mail to EPA, mark the outside of the disk or CD-ROM as CBI and then identify electronically within the disk or CD-ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <http://www.epa.gov/dockets/comments.html>.

3. *Environmental justice.* EPA seeks to achieve environmental justice, the fair treatment and meaningful involvement of any group, including minority and/or low income populations, in the development, implementation, and enforcement of environmental laws, regulations, and policies. To help address potential environmental justice issues, the Agency seeks information on any groups or segments of the population who, as a result of their location, cultural practices, or other

factors, may have atypical or disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

II. Authority

EPA is conducting its registration review of the chemicals listed in the Table in Unit III pursuant to section 3(g) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Procedural Regulations for Registration Review at 40 CFR part 155, subpart C. Section 3(g) of FIFRA provides, among other things, that the registrations of pesticides are to be reviewed every 15 years. Under FIFRA, a pesticide product may be registered or remain registered only if it meets the statutory standard for registration given in FIFRA section 3(c)(5) (7 U.S.C. 136a(c)(5)). When used in accordance with widespread and commonly recognized practice, the pesticide product must perform its intended function without unreasonable adverse effects on the environment; that is, without any unreasonable risk to man or the environment, or a human dietary risk from residues that result from the use of a pesticide in or on food.

III. Registration Reviews

As directed by FIFRA section 3(g), EPA is reviewing the pesticide registration for the pesticides listed in the Table to ensure that it continues to satisfy the FIFRA standard for registration—that is, that these chemicals can still be used without unreasonable adverse effects on human health or the environment.

DRAFT RISK ASSESSMENTS BEING MADE AVAILABLE FOR PUBLIC COMMENT—Continued

Trifloxystrobin, Case Number 7028	EPA-HQ-OPP-2013-0074	Moana Appleyard, appleyard.moana@epa.gov (703) 308-8175.

Pursuant to 40 CFR 155.53(c), EPA is providing an opportunity, through this notice of availability, for interested parties to provide comments and input concerning the Agency's draft human health and/or ecological risk assessments for the pesticides listed in the Table in Unit III. Since an ecological risk assessment for the pyrethroids, including etofenprox, gamma-cyhalothrin, lambda-cyhalothrin, permethrin, pyrethrins, and tau-fluvalinate, was previously published for comment in the **Federal Register** in November 2016, this Notice is announcing the availability of the human health risk assessments for these chemicals. For imidacloprid, a preliminary pollinator only risk assessment was completed in January 2016 and an aquatic species only ecological risk assessment was completed in January 2017. Both of these were previously published for comment in the **Federal Register** and thus this Notice is announcing the availability of the human health assessment for imidacloprid. The Agency will consider all comments received during the public comment period and make changes, as appropriate, to a draft human health and/or ecological risk assessment. EPA may then issue a revised risk assessment, explain any changes to the draft risk assessment, and respond to comments. In the **Federal Register** notice announcing the availability of the revised risk assessment, if the revised risk assessment indicates risks of concern, the Agency may provide a comment period for the public to submit suggestions for mitigating the risk identified in the revised risk assessment before developing a proposed registration review decision for the pesticides identified above.

1. **Information submission requirements.** Anyone may submit data or information in response to this document. To be considered during a pesticide's registration review, the submitted data or information must meet the following requirements:

- To ensure that EPA will consider data or information submitted, interested persons must submit the data or information during the comment period. The Agency may, at its discretion, consider data or information submitted at a later date.

- The data or information submitted must be presented in a legible and useable form. For example, an English translation must accompany any material that is not in English and a written transcript must accompany any information submitted as an audiographic or videographic record. Written material may be submitted in paper or electronic form.

- Submitters must clearly identify the source of any submitted data or information.

- Submitters may request the Agency to reconsider data or information that the Agency rejected in a previous review. However, submitters must explain why they believe the Agency should reconsider the data or information in the pesticide's registration review.

As provided in 40 CFR 155.58, the registration review docket for each pesticide case will remain publicly accessible through the duration of the registration review process; that is, until all actions required in the final decision on the registration review case have been completed.
