### FOR FURTHER INFORMATION CONTACT:

Helen Jackson, NSTAC Designated Federal Officer, Department of Homeland Security, (703) 705–6276 (telephone) or *helen.jackson@ hq.dhs.gov* (email).

**SUPPLEMENTARY INFORMATION:** Notice of this meeting is given under *the Federal Advisory Committee Act*, 5 U.S.C. Appendix (Pub. L. 92–463). The NSTAC advises the President on matters related to National Security and Emergency Preparedness (NS/EP) telecommunications and cybersecurity

policy. Agenda: The committee will meet in an open session on October 11, 2017, receive remarks from Department of Homeland Security (DHS) leadership and other senior Government officials regarding the Government's current cybersecurity initiatives and NS/EP priorities. The meeting will include a keynote address and a panel discussion on a cybersecurity moonshot, which looks at identifying new processes to address cybersecurity challenges. NSTAC members will also deliberate and vote on the Committee's NSTAC Report to the President on Internet and Communications Resilience which addresses ways in which the private sector and Government, together, can improve the resilience of the Internet and communications ecosystem (e.g.,

The committee will also meet in a closed session to receive a classified briefing regarding cybersecurity threats and discuss future studies based on the Government's NS/EP priorities and perceived vulnerabilities.

Basis for Closure: In accordance with 5 U.S.C. 552b(c), The Government in the Sunshine Act, it has been determined that two agenda items require closure, as the disclosure of the information discussed would not be in the public interest. The first of these agenda items, the classified briefing, will provide members with a cybersecurity threat briefing on vulnerabilities related to the communications infrastructure. Disclosure of these threats would provide criminals who seek to compromise commercial and Government networks with information on potential vulnerabilities and mitigation techniques, weakening the Nation's cybersecurity posture. This briefing will be classified at the top secret level, thereby exempting disclosure of the content by statute. Therefore, this portion of the meeting is

required to be closed pursuant to 5 U.S.C. 552b(c)(1)(A) & (B) The second agenda item, a discussion of potential NSTAC study topics, will address areas of critical cybersecurity vulnerabilities and priorities for Government. Government officials will share data with NSTAC members on initiatives, assessments, and future security requirements across public and private sector networks. The information will include specific vulnerabilities within cyberspace that affect the United States' information and communication technology infrastructures and proposed mitigation strategies. Disclosure of this information to the public would provide criminals with an incentive to focus on these vulnerabilities to increase attacks on the Nation's critical infrastructure and communications networks. As disclosure of this portion of the meeting is likely to significantly frustrate implementation of proposed DHS actions, it is required to be closed pursuant to 5 U.S.C. 552b(c)(9)(B).

## Privacy Act of 1974; System of Records

**AGENCY:** Department of Homeland Security, Privacy Office.

**ACTION:** Notice of Modified Privacy Act System of Records.

**SUMMARY:** In accordance with the Privacy Act of 1974, the Department of Homeland Security (DHS) proposes to modify a current DHS system of records titled, "Department of Homeland Security/U.S. Citizenship and Immigration Services, U.S. Immigration and Customs Enforcement, U.S. Customs and Border Protection—001 Alien File, Index, and National File Tracking System of Records." This system of records contains information regarding transactions involving an individual as he or she passes through the U.S. immigration process, some of which may also be covered by separate Systems of Records Notices. DHS primarily maintains information relating to the adjudication of benefits, investigation of immigration violations, and enforcement actions in Alien Files (A-Files). Alien Files became the official file for all immigration records created or consolidated since April 1, 1944. Before A-Files, many individuals had more than one file with the agency. To streamline immigration recordkeeping, legacy Immigration and Naturalization Service issued each individual an Alien Number, allowing the agency to create a single file for each individual containing that individual's official

immigration record. DHS also uses other immigration files to support administrative, fiscal, and legal needs. **DATES:** Submit comments on or before October 18, 2017. This modified system will be effective upon publication. New or modified routine uses will become effective October 18, 2017.

**ADDRESSES:** You may submit comments, identified by docket number DHS—2017—0038 by one of the following methods:

- Federal e-Rulemaking Portal: http://www.regulations.gov. Follow the instructions for submitting comments.
  - Fax: 202-343-4010.
- *Mail*: Jonathan R. Cantor, Acting Chief Privacy Officer, Privacy Office, Department of Homeland Security, Washington, DC 20528–0655.

FOR FURTHER INFORMATION CONTACT: For general questions, please contact: Donald K. Hawkins, (202) 272–8000, Privacy Officer, U.S. Citizenship and Immigration Services, 20 Massachusetts Avenue NW., Washington, DC 20529. For privacy questions, please contact: Jonathan R. Cantor, (202) 343–1717, Acting Chief Privacy Officer, Privacy Office, Department of Homeland Security, Washington, DC 20528–0655.

SUPPLEMENTARY INFORMATION: As DHS moves to conducting more immigration actions in an electronic environment and U.S. Citizenship and Immigration Services (USCIS) adjudicates more immigration benefits and requests for action in its USCIS Electronic Immigration System, DHS no longer considers the paper A-File as the sole repository and official record of information related to an individual's official immigration record. An individual's immigration history may be in the following materials and formats: (1) A paper A-File; (2) an electronic record in the Enterprise Document Management System or USCIS Electronic Immigration System: or (3) a combination of paper and electronic records and supporting documentation.

The Department of Homeland Security, therefore, is updating the "Department of Homeland Security/U.S. Citizenship and Immigration Services, U.S. Immigration and Customs Enforcement, U.S. Customs and Border Protection-001 Alien File, Index, and National File Tracking System of Records notice to: (1) Redefine which records constitute the official record of an individual's immigration history to include the following materials and formats: (a) The paper A-File, (b) an electronic record in the Enterprise Document Management System or U.S. Citizenship and Immigration Services Electronic Immigration System, or (c) a
