the assistance of another person, or resulting in impaired cognitive function that occurred without warning symptoms, in the past 12 months and no recurrent (two or more) severe hypoglycemic episodes in the past five years. In each case, an endocrinologist verified that the driver has demonstrated a willingness to properly monitor and manage his/her diabetes mellitus, received education related to diabetes management, and is on a stable insulin regimen. These drivers report no other disqualifying conditions, including diabetes related complications. Each meets the vision requirement at 49 CFR 391.41(b)(10).

The qualifications, experience, and medical condition of each applicant were stated and discussed in detail in the June 6, 2017. Federal Register notice (82 FR 26226) and will not be repeated in this notice.

Consequently, FMCSA finds that in each case exemtting these applicants from the diabetes requirement in 49 CFR 391.41(b)(3) is likely to achieve a level of safety equal to that existing without the exemption.

V. Conditions and Requirements

The terms and conditions of the exemption are provided to the applicants in the exemption document and includes the following: (1) Each driver must submit a quarterly monitoring checklist completed by the treating endocrinologist as well as an annual checklist with a comprehensive medical evaluation; (2) each driver must report within two business days of occurrence, all episodes of severe hypoglycemia, significant complications, or inability to manage diabetes; also, any involvement in an accident or any other adverse event in a CMV or personal vehicle, whether or not it is related to an episode of hypoglycemia; (3) each driver must provide a copy of the ophthalmologist’s or optometrist’s report to the Medical Examiner at the time of the annual medical examination; and (4) each driver must provide a copy of the annual medical certification to the employer for retention in the driver’s qualification file, or keeping a copy in his/her driver’s qualification file if he/she is self-employed. The driver must also have a copy of the exemption when driving, for presentation to a duly authorized Federal, State, or local enforcement official.

VI. Preemption

During the period the exemption is in effect, no State shall enforce any law or regulation that conflicts with this exemption with respect to a person operating under the exemption.

I. Background

The MRB is composed of five medical experts who each serve two-year terms. Section 4116 of SAFETEA–LU requires the Secretary of Transportation, with the advice of the MRB and the chief medical examiner, to establish, review, and revise “medical standards for operators of commercial motor vehicles that will ensure that the physical condition of operators of commercial motor vehicles is adequate to enable them to operate the vehicles safely.” The MRB operates in accordance with FACA under the terms of its charter, filed November 25, 2015.

On January 15, 2013, FMCSA announced in a Notice of Final Disposition entitled, Qualification of Drivers; Exemption Applications; Epilepsy and Seizure Disorders, (78 FR 3069) its decision to grant requests from 22 individuals for exemptions from the regulatory requirement that interstate CMV drivers have “no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause loss of consciousness or any loss of ability to control a CMV.” Since the January 15, 2013, notice, the Agency has published additional notices granting requests from individuals for exemptions from the regulatory requirement regarding epilepsy found in 49 CFR 391.41(b)(8).

In reaching the decision to grant exemption requests, FMCSA considers the 2007 recommendations of the Agency’s Medical Expert Panel (MEP). The January 15, 2013, Federal Register notice (78 FR 3069) provides the current MEP recommendations, which is the criteria the Agency uses to grant seizure exemptions.

The Agency’s decision regarding exemption applications is based on an individualized assessment of each applicant’s medical information, including the following: The root cause of the respective seizure(s) and medical information about the applicant’s seizure history; the length of time that has elapsed since the individual’s last seizure; the stability of each individual’s treatment regimen; and the duration of time on or off anti-seizure medication. In addition, the Agency reviews the treating clinician’s medical opinion related to the ability of the driver to operate a CMV safely with a history of seizure and each applicant’s driving record found in the Commercial Driver’s License Information System (CDLIS) for commercial driver’s license (CDL) holders, and interstate and intrastate inspections recorded in the Motor Carrier Management Information System (MCMIS). For non-CDL holders, the Agency reviews the driving records from the State Driver’s Licensing Agencies (SDLAs).
