

principles and preemption requirements described in Executive Order 13132.

Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guides the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have made a determination that this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment. This rule simply promulgates the operating regulations or procedures for drawbridges. This action is categorically excluded from further review, under figure 2–1, paragraph (32)(e), of the Instruction.

We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

DATES: This deviation is effective from 7 a.m. on October 2, 2017 through 11 p.m. on November 22, 2017.

ADDRESSES: The docket for this deviation, [USCG–2017–0573] is available at <http://www.regulations.gov>. Type the docket number in the “SEARCH” box and click “SEARCH”. Click on Open Docket Folder on the line associated with this deviation.

The bridge has a vertical clearance of 65 feet above mean high water (MHW) in the closed position.

The current operating schedule is set out in 33 CFR 117.997(e). Under this

temporary deviation, the bridge will be maintained in the closed-to-navigation position for four (4) separate five (5) day periods from 7 a.m., October 2, 2017, through 11 p.m., October 6, 2017; from 7 a.m., October 16, 2017, through 11 p.m., October 20, 2017; from 7 a.m., October 30, 2017, through 11 p.m., November 3, 2017; from 7 a.m., November 13, 2017, through 11 p.m., November 17, 2017. The Atlantic Intracoastal Waterway, Southern Branch of the Elizabeth River is used by a variety of vessels including small commercial vessels, recreational vessels and tug and barge traffic. The Coast Guard has carefully coordinated the restrictions with waterway users in publishing this temporary deviation.

Vessels able to pass through the bridge in the closed position may do so if at least 15 minutes notice is given. The bridge will not be able to open for emergencies and there is no immediate alternate route for vessels unable to pass through the bridge in the closed position. The Coast Guard will also inform the users of the waterways through our Local and Broadcast Notice to Mariners of the change in operating schedule for the bridge so that vessel operators can arrange their transits to minimize any impact caused by this temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of this effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

SUPPLEMENTARY INFORMATION:

Throughout this document whenever "we," "us," or "our" is used, we mean EPA. This supplementary information section is arranged as follows:

- I. Background
- II. Comments Received and Response to Comments
- III. What action is EPA taking?

- IV. Incorporation by Reference
- V. Statutory and Executive Order Reviews

I. Background

Section 110(a)(2)(C) of the Clean Air Act (CAA) requires that each SIP include a program to provide for the regulation of construction and modification of stationary sources, including a permit program as required by part C of subsection I of the CAA—Prevention of Significant Deterioration of Air Quality. On October 4, 2016, the Minnesota Pollution Control Agency (MPCA) submitted a request to revise the Minnesota SIP to include Minn. R. 7007.3000, which incorporates the Federal PSD rules at 40 CFR 52.21 by reference as the State's SIP approved PSD program. Further, by letter dated June 1, 2017, MPCA clarified that it will not implement the provisions at 40 CFR 52.21(g), (s), (t), and (u) because those provisions reference authorities that are retained by the EPA Administrator.

EPA proposed to approve Minnesota's PSD SIP on July 10, 2017. (82 FR 31741, July 10, 2017). EPA received comments on the proposed action from Guardian Energy, LLC, and Granite Falls Energy, LLC. Section II of this document provides a discussion of the comments received and EPA's response.

II. Comments Received and Response to Comments

EPA received comments from Guardian Energy, LLC, and Granite Falls Energy, LLC. The letters from the two commenters are identical. The first comment from both commenters expressed support for the proposed action. The second comment from the two commenters is a request for EPA to clarify how changes in the Federal PSD regulations will be addressed in the Minnesota SIP approved regulations. Minn. R. 7007.3000 incorporates 40 CFR 52.21 by reference, as amended. Both MPCA and EPA interpret this to mean that any changes to 40 CFR 52.21 will be automatically incorporated into Minn. R. 7007.3000, and will have the same effective date as the Federal rulemaking.

III. What action is EPA taking?

EPA is approving the request made by MPCA on October 4, 2016, to revise the Minnesota SIP to include Minn. R. 7007.3000 as the State's SIP approved PSD program.

IV. Incorporation by Reference

In this rule, EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is finalizing the incorporation
