SUPPLEMENTARY INFORMATION: The National Occupational Research Agenda (NORA) is a partnership program created to stimulate innovative research and improved workplace practices. The national agenda is developed and implemented through the NORA sector

and cross-sector councils. Each council develops and maintains an agenda for its sector or cross-sector.

The National Occupational Research Agenda for Construction is intended to identify the research, information, and actions most urgently needed to prevent occupational injuries and illnesses in the construction sector. The National Occupational Research Agenda for Construction provides a vehicle for industry stakeholders to describe the most relevant issues, gaps, and safety and health needs for the sector. Each NORA research agenda is meant to guide or promote high priority research efforts on a national level, conducted by various entities, including: Government, higher education, and the private sector.

The first National Occupational Research Agenda for Construction was published in 2008 for the second decade of NORA (2006–2016). This draft is an updated agenda for the third decade of NORA (2016–2026). The revised agenda was developed considering new information about injuries and illnesses, the state of the science, and the probability that new information and approaches will make a difference. As the steward of the NORA process, NIOSH invites comments on the draft National Occupational Research Agenda for Construction. A copy of the draft Agenda is available at <https://www.regulations.gov> (see Docket Number CDC–2017–0084, NIOSH–298).

Title: Home Visiting Career Trajectories.

OMB No.: New Collection.

Description: The Administration for Children and Families (ACF) at the U.S. Department of Health and Human Services (HHS), in collaboration with the Health Resources and Services Administration (HRSA), seeks approval to collect information from home visiting program staff in programs receiving funding through the Maternal, Infant, and Early Childhood Home Visiting (MIECHV) Program as part of the Home Visiting Career Trajectories study. ACF is interested in collecting information about the state of the home visiting workforce, career trajectories of home visitors, and strategies for building a pipeline of qualified home visitors and supervisors.

Through the proposed information collection, the researchers will obtain information about the characteristics, qualifications, and career trajectories of home visiting staff. The study will include a national survey of the MIECHV workforce, interviews with training and technical assistance experts, and site visits to home visiting programs in eight states that vary in terms of geography, population demographics, labor markets, and home visiting program offerings.

Respondents: Home visiting program managers, supervisors, home visitors, and training and technical assistance experts.

ANNUAL BURDEN ESTIMATES

Instrument	Total/annual number of respondents	Number of responses per respondent	Average burden hours per response	Annual burden hours
Home visitor and supervisor survey	3,000	1	0.38	1,140
Program manager survey	700	1	0.33	231
Focus group moderator's guide	480	1	2	960

Submission for OMB Review; Comment Request; State Plan for Grants to States for Refugee Resettlement

Description: A State Plan is required by 8 U.S.C. 1522 of the Immigration and Nationality Act (the Act) [Title IV, Sec. 412 of the Act] for each State agency requesting Federal funding for refugee resettlement under 8 U.S.C. 524 [Title IV, Sec. 414 of the Act], including Refugee Cash and Medical Assistance, Unaccompanied Minor Refugee Program, Refugee Social Services, and Targeted Assistance program funding. The State Plan is a comprehensive narrative description of the nature and scope of a States programs and provides assurances that the programs will be

administered in conformity with the specific requirements stipulated in 45 CFR 400.4-400.9. The State Plan must include all applicable State procedures, designations, and certifications for each requirement as well as supporting documentation.

The plan assures ORR that the State is capable of administering refugee assistance and coordinating employment and other social services for eligible caseloads in conformity with specific requirements. ORR proposes organizational and formatting changes to make the checklist more accessible to the user. Additionally, ORR proposes streamlining language to make the checklist easier to read. These proposed changes include technical corrections to regulatory citations. ORR proposes removing a number of requirements, including an assurance regarding the inclusion of refugee resettlement programs in pandemic influenza emergency plans and a basic description of providers conducting medical screening. ORR proposes to remove a requirement that all states describe a plan for the care, supervision of, and legal responsibility for, refugee children who become unaccompanied in the state. ORR also proposes to remove requirements specific to the Cuban/Haitian entrants and replace them with an assurance that states will provide all ORR-eligible populations with the
