Title: Appellant Climate Survey, Revision.

Abstract: The Office of Medicare Hearings and Appeals (OMHA) requests revision to a previously approved information collection request from the Office of Management and Budget (OMB). The annual OMHA Appellant Climate Survey is a survey of Medicare beneficiaries, providers, suppliers, or their representatives who participated in a hearing before an Administrative Law Judge (ALJ) from OMHA. Appellants dissatisfied with the outcome of their Level 2 Medicare appeal may request a hearing before an OMHA ALJ. The Appellant Climate Survey will be used to measure appellant satisfaction with their OMHA appeals experience, as opposed to their satisfaction with a specific ruling. OMHA was established by the Medicare Prescription Drug, Improvement, and Modernization Act (MMA) of 2003 (Pub. L. 108-173) and became operational on July 1, 2005. The MMA legislation and implementing regulations issued on March 8, 2007 instituted a number of changes in the appeals process. The MMA legislation also directed HHS to consider the feasibility of conducting hearings using telephone or video-teleconference (VTC) technologies. In carrying out this mandate, OMHA makes use of both teleconferencing and VTC to provide appellants with a vast nationwide network of access points for hearings close to their homes. The first 3-year administration cycle of the OMHA survey began in fiscal year (FY) 2008, a second 3-year cycle began in FY2011, and third 3-year cycle began in FY2014. The survey will continue to be conducted annually over a 3-year period with the next data collection cycle beginning in FY2018. Data collection instruments and recruitment materials will be offered in English and Spanish. Total burden for survey respondents is 100.00 hours each year.

Affected Public: Survey respondents will consist of Medicare beneficiaries and non-beneficiaries (*i.e.*, providers, suppliers), who participated in a hearing before an OMHA ALJ. OMHA will draw a representative, non-redundant sample of appellants whose

cases have been closed in the last 6 months.

Table 1. Estimates of Respondent Burden

Respondent Type	Form Name	Number of Respondents	Number of Responses Per Respondent	Burden Per Response (Hours)	Total Burden (Hours)
Beneficiaries	Appellant Climate Survey	200	1	15/60	50.00
Non-Beneficiaries		200	1	15/60	50.00
Total		400	1	15/60	100.00
