Abstract of Proposed Collection

The collection is the continuation of information collected and needed by the Bureau of Educational and Cultural Affairs in administering the Exchange Visitor Program (J-Nonimmigrant) under the provisions of the Mutual Educational and Cultural Exchange Act, as amended (22 U.S.C. 2451 *et seq.*). The Form DS-2019 is the document that provides the information needed to identify an individual (and spouse and dependents, where applicable) seeking to enter the U.S. as an Exchange Visitor in J-Nonimmigrant status. Changes have been made to Section 6 of the DS-2019 to include a responsible officer/alternate responsible officer attestation that the sponsor has complied with requirements in 22 CFR 62.12(b). In the instructions to Form DS-2019, Section 2 of the instructions has been reworded to ensure that exchange visitors and their accompanying spouses and dependents remain in compliance with insurance requirements under 22 CFR 62.14 during the course of the exchange.

Methodology

Access to Form DS-2019 is made available to Department-designated sponsors electronically via the Student and Exchange Visitor Information System (SEVIS).

[Docket No. FD 36144]

Scrap Metal Services Terminal Railroad Company (Illinois), LLC—Lease and Operation Exemption—Rail Line of Scrap Metal Services, LLC

Scrap Metal Services Terminal Railroad Company (Illinois), LLC (SMSRRIL), a noncarrier, has filed a verified notice of exemption under 49 CFR 1150.31 to acquire by lease from Scrap Metal Services, LLC (SMS), and to

operate,¹ approximately 1,613 linear feet (0.305 mile) of railroad right-of-way and trackage located at the Burnham Transload Facility at the intersection of Brainard Avenue and the Indiana Harbor Belt Railroad right-of-way in Burnham, Ill. (the Burnham Transload Facility trackage), pursuant to an agreement. SMS Realty (Burnham), LLC, owns the Burnham Transload Facility trackage, which is leased to SMS.

According to SMSRRIL, there are no mileposts associated with the Burnham Transload Facility trackage. SMSRRIL states that the trackage is used in conjunction with interchanging to and from Indiana Harbor Belt Railroad carloads of scrap metals for transloading into trucks for delivery to steel producing mills.

SMSRRIL asserts that, because the trackage in question will constitute the entire line of railroad of SMSRRIL, this trackage is a line of railroad under 49 U.S.C. 10901, rather than spur, switching, or side tracks excepted from Board acquisition and operation authority by virtue of 49 U.S.C. 10906.²

Although SMSRRIL states in its verified notice that the operations were proposed to be consummated on or about September 1, 2017, this transaction may not be consummated until October 12, 2017 (30 days after the verified notice was filed).

SMSRRIL certifies that its projected annual revenues as a result of this transaction do not exceed those that would qualify it as a Class III rail carrier and will not exceed \$5 million. SMSRRIL also certifies that there are no provisions or agreements that may limit future interchange commitments.

If the verified notice contains false or misleading information, the exemption is void ab initio. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Petitions to stay must be filed no later than October 5, 2017 (at least seven days before the exemption becomes effective).

An original and 10 copies of all pleadings, referring to Docket No. FD 36144, must be filed with the Surface Transportation Board, 395 E Street SW., Washington, DC 20423-0001. In addition, a copy of each pleading must be served on SMSRRIL's representative, David C. Dillon, Dillon & Nash, Ltd.,

¹ A draft copy of the operating agreement was submitted with the notice of exemption.

According to SMSRRIL, this action is categorically excluded from environmental review under 49 CFR 1105.6(c).

Federal Aviation Administration

Notice of Cancellation of Preparation of Environmental Impact Statement for Replacement General Aviation Airport, Mesquite, Clark County, Nevada

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of cancellation of preparation of Environmental Impact Statement.

SUMMARY: The Federal Aviation Administration (FAA) announces that it has discontinued preparation of an Environmental Impact Statement (EIS) for a construction of a Replacement General Aviation Airport for Mesquite, Nevada. On November 14, 2011, FAA published a notice of suspension of the EIS in the **Federal Register** (76 FR 70530). The FAA received a letter dated September 27, 2011, from the City of

Mesquite, Nevada asking the FAA to suspend any further work on the EIS. The reasons for this action include the local economic conditions in Mesquite and other local fiscal and budgetary constraints. The Mesquite Lands Act of 1988 (the Act), as amended, provided land to the City of Mesquite for the replacement airport, expired on November 14, 2011 and was not extended or renewed by Congress. The original purpose and need for the proposed relocated airport no longer exists. The City of Mesquite, the owner and operator of the existing Mesquite Municipal Airport, has not included a replacement airport in its 5-year Airport Capital Improvement Program. As a result, FAA has determined the proposed replacement General Aviation Airport for Mesquite, Nevada is not ripe for decision at this time.

David B. Kessler, AICP, Regional Environmental Protection Specialist, AWP-610.1, Airports Division, Federal Aviation Administration, Western-Pacific Region, 15000 Aviation Boulevard, Lawndale, California 90261, Telephone: 310-725-3615.

SUPPLEMENTARY INFORMATION:

On December 8, 2004, the Federal Aviation Administration (FAA) issued a Notice of Intent in the **Federal Register** (69 FR 71097) to prepare an EIS for the proposed construction and operation of a Replacement General Aviation (GA) Airport, for the City of Mesquite, in eastern Clark County, Nevada. The City of Mesquite proposed to build the replacement airport south of Interstate Highway 15 between Exit 108 and 109 on the Mormon Mesa, about 15 miles west of the existing Mesquite Municipal Airport and change the airport land use to residential land use, including construction of a new arterial roadway through the existing airport property. To maintain access to the National Air Transportation System, the city also proposed to design, fund, and build a replacement GA airport at Mormon Mesa that would provide GA facilities and services to the flying public, support regional economic development at no cost to the FAA. The City proposed to build the replacement GA airport to meet FAA Airport Reference Code (ARC) B-II standards with a new runway 7,500 feet long by 100 feet wide. On May 16, 2008, the Notice of Availability of FAA’s Draft EIS was published in the **Federal Register** (73 FR 28461). The FAA received 34 comment letters on the Draft EIS from federal, state and local agencies, as well as the general public. In March 2009, as FAA was preparing responses to
