14 CFR Part 71

Amendment of Class E Airspace; Evansville, IN

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends Class E airspace extending upward from 700 feet above the surface at Evansville Regional Airport, Evansville, Indiana. This action is necessary due to the decommissioning of the Evansville non-directional radio beacon (NDB) and cancellation of the NDB approach, and it enhances the safety and management of instrument flight rules (IFR) operations at the airport. This action also updates the geographic coordinates of the airport. The amendment adjusting the coordinates of Evansville Regional Airport in Class C airspace is removed from this rule, and will be forthcoming in a separate rulemaking.

DATES: Effective 0901 UTC, December 7, 2017. The Director of the Federal Register approves this incorporation by reference action under Title 1, Code of Federal Regulations, part 51, subject to reference action under Title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

ADDRESSES: FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2016, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

The FAA published in the Federal Register (82 FR 15303, March 28, 2017) Docket No. FAA–2016–9540 a notice of proposed rulemaking (NPRM) to modify Class C and Class E airspace extending upward from 700 feet above the surface at Evansville Regional Airport, Evansville, IN, to support standard instrument approach procedures for IFR operations at the airport.

History

The FAA published in the Federal Register (82 FR 15303, March 28, 2017) Docket No. FAA–2016–9540 a notice of proposed rulemaking (NPRM) to modify Class C and Class E airspace extending upward from 700 feet above the surface at Evansville Regional Airport, Evansville, IN, to support standard instrument approach procedures for IFR operations at the airport.

The FAA realized that the proposed amendment to Class E airspace at Evansville Regional Airport was included in this rulemaking in error and is removed.

Class E airspace designations are published in paragraph 6005 of FAA Order 7400.11B, dated August 3, 2016, and effective September 15, 2017, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2016, and effective September 15, 2016. FAA Order 7400.11B is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11B lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.
The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 amends Class E airspace extending upward from 700 feet above the surface within a 7.1-mile radius (increased from a 6.8-mile radius) of Evansville Regional Airport, Evansville, IN. The segment 4.4-miles wide (2.2 miles from each side of the 001° bearing from the airport) extending from the 6.8-mile radius is modified to a 4-mile wide segment extending from the 7.1-mile radius of the airport to 11.6 miles (increased from 11.2 miles) north of the airport.

The 4.4-mile wide segment (2.2 miles from each side of the 181° bearing from the airport) extending from the 6.8-mile radius of the airport to 11.3 miles south of the airport is removed.

The Pocket City VORTAC navigation aid segment is amended to within a 7.1-mile radius (from a 6.8-mile radius) of the airport to the VORTAC. Airspace reconfiguration is necessary due to the decommissioning of the Evansville NDB and cancellation of the NDB approaches, and enhances the safety and management of the standard instrument approach procedures for IFR operations at the airport.

The amendment of Class C airspace at Evansville Regional Airport, included in this rule in error, is removed and will be addressed in a separate rulemaking.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of an environmental impact statement as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F. “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.

Lists of Subjects in 14 CFR Part 71

Airspace, Incorporation by reference, Navigation (air).

Adoption of the Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017, is amended as follows:

* * * * *

Paragraph 6005 Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

* * * * *

AGL IN E5 Evansville, IN [Amended]

Evansville Regional Airport, IN
(Lat. 37°42′22″ N., long. 87°31′43″ W.)
Pocket City VORTAC
(Lat. 37°55′42″ N., long. 87°45′45″ W.)

That airspace extending upward from 700 feet above the surface within a 7.1-mile radius of Evansville Regional Airport, and within 2 miles each side of the 001° bearing from the airport extending from the 7.1-mile radius to 11.6 miles north of the airport, and within 4 miles each side of the Pocket City VORTAC 060° radial extending from the 7.1-mile radius to the VORTAC.

Issued in Fort Worth, Texas, on September 29, 2017.

Christopher L. Southerland,
Acting Manager, Operations Support Group,
ATO Central Service Center.

14 CFR Part 73

[Docket No. FAA–2016–8927; Airspace Docket No. 15–ANN–24]

Establishment of Restricted Area R–2603; Fort Carson, CO

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes restricted area R–2603 within the existing Fort Carson, CO, Pinon Canyon Maneuver Site (PCMS), near Trinidad, CO. The U.S. Army requires additional restricted airspace because the restricted area ranges at Fort Carson are not large enough to meet all training requirements. R–2603 will provide increased ground-to-air, air-to-ground, and air-to-air battle space to increase training capacity and relieve training congestion at Fort Carson.

DATES:

Effective date: 0901 UTC, December 7, 2017.

SUPPLEMENTARY INFORMATION:

Authority for this Rulemaking

The FAA’s authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency’s authority.

This rulemaking is promulgated under the authority described in Subtitle VII, part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it establishes the restricted area airspace at Fort Carson, CO, to accommodate essential Army training requirements and ensure the safety of aircraft otherwise permitted to overfly the location established for Army training.

History

The FAA published in the Federal Register a notice of proposed rulemaking (NPRM) (81 FR 62847,
