

decisions. In order to comply with the court's order, to address issues raised by various interested parties, and to consider recommendations in the August 4, 2017, report prepared by the Department of the Interior's Greater Sage-Grouse Review Team in Response to Secretary's Order 3353 (SO 3353), the BLM seeks comment on the SFA designation, mitigation standards, lek buffers in all habitat management area types, disturbance and density caps, habitat boundaries to reflect new information, and reversing adaptive management responses when the BLM determines that resource conditions no longer warrant those responses. The BLM also seeks comment on State-specific issues, such as the need for General Habitat Management Areas in Utah, and other issues identified by State, tribal, and local governments. The BLM also seeks input on planning criteria, which include compliance with laws and regulations and adequacy of Greater Sage-Grouse conservation measures in the land use plans. Any RMP amendment(s) with associated NEPA document(s)—EISs or Environmental Assessments (EAs)—developed will be completed in compliance with NEPA and the Federal Land Policy and Management Act of 1976, as amended.

The BLM coordinated with the Sage Grouse Task Force to develop the SO 3353 report and continues to identify issues that warrant clarification or reconsideration. This coordination effort is continuing and will help to inform the BLM's implementation of SO 3353 in each State, as will input from other stakeholders. This Notice and potential planning effort does not preclude the BLM from addressing issues and inconsistencies through other means, including policy, training, or plan maintenance, nor does it commit the BLM to amending some, all, or none of the Greater Sage-Grouse plans. In addition to comments on the issues and planning criteria, the BLM would like to receive input on whether the planning effort should occur through state-by-state amendment processes and decisions. In particular, the BLM looks forward to receiving the comments of the Governors of each state, and will strive to accommodate those comments to the extent practicable given prior collaborative efforts.

You may submit comments in writing to the BLM at any public scoping meeting, or you may submit them to the BLM using the method listed in the **ADDRESSES** section. You should submit comments by the close of the 45-day scoping period or within 15 days after

the last public meeting, whichever is later.

The BLM will utilize and coordinate the NEPA scoping process to help fulfill the public involvement process under the National Historic Preservation Act (54 U.S.C. 306108) as provided in 36 CFR 800.2(d)(3). The information about historic and cultural resources within the area potentially affected by the proposed action will assist the BLM in identifying and evaluating impacts to such resources.

2. Issues to be resolved through policy or administrative action; or
3. Issues beyond the scope of the plan amendment(s).

The public is encouraged to help identify any issues, management questions, or concerns that should be addressed in the plan amendment(s). The BLM will work collaboratively with interested parties to identify the management decisions that are best suited to local, regional, and national needs and concerns.

The BLM will use an interdisciplinary approach to develop the plan amendment(s) in order to consider the variety of resource issues and concerns identified.
