SUPPLEMENTARY INFORMATION: We have received an application from Protek Investments, LLC (applicant) for an incidental take permit under the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*; ESA). The applicant has agreed to follow all of the conditions in the draft habitat conservation plan for the project. The permit would authorize take of the Santa Barbara distinct population segment of the federally endangered California tiger salamander (*Ambystoma californiense*) incidental to otherwise lawful activities associated with the draft La Purisima Golf Course Solar Array Project Habitat Conservation Plan (HCP). "Incidental take" is defined by the ESA as take that is incidental to, and not the purpose of, carrying out of an otherwise lawful activity. Regulations governing incidental take permits for threatened and endangered species are in the Code of Federal Regulations (CFR) at 50 CFR 17.32 and 17.22, respectively. Under the
