

occur in association with activities necessary for the construction of the residential development. The site includes approximately 180 acres of suitable upland habitat for the California tiger salamander. The HCP includes avoidance and minimization measures for the covered species and mitigation for unavoidable loss of occupied upland habitat through the purchase of mitigation credits at a Service-approved conservation bank.

Our Preliminary Determination

The Service has made a preliminary determination that issuance of the incidental take permit is neither a major Federal action that will significantly affect the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*; NEPA), nor will it individually or cumulatively have more than a negligible effect on the species covered in the HCP. The Service considers the impacts of the project on the California tiger salamander to be minor as the affected habitat is moderate to low quality and does not provide connectivity between breeding ponds. Therefore, the permit qualifies for a categorical exclusion under NEPA.

Public Comments

If you wish to comment on the permit application, draft HCP, and associated documents, you may submit comments by one of the methods in **ADDRESSES**.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We published a notice, with a 60-day public comment period soliciting comments on this collection of information, in the **Federal Register** on May 5, 2017 (82 FR 21261). We received the following comments in response to the notice: “The burden hour estimate of 2,400 hours annually for the current 14 lessees of producing NPSLs is a reasonable estimate. The instructions on the handling of NPSLs are clear. The recordkeeping requirements are easy to understand. The reporting format follows the standard ONRR–2014 format so it’s easy to understand.”

Once again, we are soliciting comments on this ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of ONRR; (2) will this information be processed and used in a timely manner; (3) is the estimate of the burden accurate; (4) how might ONRR enhance the quality, usefulness, and clarity of the information collected; and (5) how might ONRR minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. Before including your Personally Identifiable Information (PII), such as your address, phone number, email address, or other personal identifying information, in your comment(s), you should be aware that your entire comment—including PII—may be made available to the public at any time. While you may ask us, in your comment, to withhold your PII from public view, we cannot guarantee that we will be able to do so.

Abstract: The Secretary of the United States Department of the Interior is responsible for collecting royalties from lessees who produce minerals from leased Federal and Indian lands and the Outer Continental Shelf (OCS). Under various laws, the Secretary’s responsibility is to manage mineral resource production on Federal and Indian lands and the OCS, collect the royalties and other mineral revenues due, and distribute the funds collected. ONRR performs the royalty management functions and assists the Secretary in carrying out the Department’s responsibility. We have posted those laws pertaining to mineral leases on Federal and Indian lands and the OCS at http://www.onrr.gov/Laws_R_D/PubLaws/default.htm.

I. General Information

ONRR collects and uses this information to determine all allowable direct and allocable joint costs and credits under § 1220.011 incurred during the lease term, appropriate overhead allowance permitted on these costs under § 1220.012, and allowances for capital recovery calculated under § 1220.020. ONRR also collects this information to ensure that royalties or net profit share payments are accurately valued and appropriately paid. This ICR affects only oil and gas leases on submerged Federal lands on the OCS.

II. Information Collections

Title 30 CFR part 1220 covers the net profit share lease (NPSL) program and establishes reporting requirements for determining the net profit share base under § 1220.021 and calculating the net profit share payments due to the Federal government for the production of oil and gas from leases under § 1220.022.

A. NPSL Bidding System

To encourage exploration and development of oil and gas leases on submerged Federal lands on the OCS, the Bureau of Ocean Energy Management (BOEM) promulgated regulations at 30 CFR part 560—Outer Continental Shelf Oil and Gas Leasing.

BOEM also promulgated specific implementing regulations for the NPSL bidding system at § 560.202(d). BOEM established the NPSL bidding system to balance a fair market return to the Federal government for the lease of its public lands with a fair profit to companies risking their investment capital. The system provides an incentive for early and expeditious exploration and development and provides for sharing the risks by the lessee and the Federal government. The NPSL bidding system incorporates a fixed capital recovery system as a means through which the lessee recovers costs of exploration and development from production revenues, along with a reasonable return on investment.

B. NPSL Capital Account

The Federal government does not receive a profit share payment from an NPSL until the lessee shows a credit balance in its capital account; that is, cumulative revenues and other credits exceed cumulative costs. Lessees multiply the credit balance by the net profit share rate (30 to 50 percent), resulting in the amount of net profit share payment due to the Federal government.

ONRR requires lessees to maintain an NPSL capital account for each lease under § 1220.010, which transfers to a new owner when sold. Following the cessation of production, lessees are also required to provide either an annual or a monthly report to the Federal government, using data from the capital account until the lease is terminated, expired, or relinquished.

C. NPSL Inventories

The NPSL lessees must notify BOEM of their intent to perform an inventory and file a report after each inventory of controllable materiel under §§ 1220.032 and 1220.031, respectively.

D. NPSL Audits

When non-operators of an NPSL call for an audit, they must notify ONRR. When ONRR calls for an audit, the lessee must notify all non-operators on the lease. These requirements are located at § 1220.033.

III. OMB Approval

The information we collect under this ICR is essential in order to determine when net profit share payments are due and to ensure that lessees properly value and pay royalties or net profit share payments.

We are requesting OMB approval to continue to collect this information. Not collecting this information would limit the Secretary’s ability to discharge

fiduciary duties and may also result in the inability to confirm the accurate royalty value. ONRR protects the proprietary information received and does not collect items of a sensitive nature.

IV. Data

Title: OCS Net Profit Share Payment Reporting, 30 CFR part 1220.
OMB Control Number: 1012-0009.
Bureau Form Number: None.
Type of Review: Extension of a currently approved collection.
Respondents/Affected Public: Businesses.

Total Estimated Number of Annual Respondents: 14 lessees.
Total Estimated Number of Annual Responses: 267.
Estimated Completion Time per Response: 9 hours.
Total Estimated Number of Annual Burden Hours: 2,451 hours.
Respondent's Obligation: Mandatory.
Frequency of Collection: Annually, monthly, and on occasion.
Total Estimated Annual Nonhour Burden Cost: None.
 All fourteen lessees report monthly because all current NPSLs are in producing status. Because the

requirements for establishment of capital accounts at § 1220.010(a) and capital account annual reporting at § 1220.031(a) are necessary only during the non-producing status of a lease, ONRR included only one response annually for these requirements, in case a new NPSL is established. We have not included in our estimates certain requirements performed in the normal course of business that are considered usual and customary. The following table shows the estimated annual burden hours by CFR section and paragraph.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on April 14, 2017 (82 FR 18008). No comments were received.

We are again soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of BOEM; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might BOEM enhance the quality, utility, and clarity of the information to be collected; and (5) how might BOEM minimize the burden of this collection on the respondents,

including through the use of information technology?

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The Outer Continental Shelf Lands Act (Act), as amended (43 U.S.C. 1334 and 43 U.S.C. 1337(k)), authorizes the Secretary of the Interior to administer the provisions relating to the leasing of the Outer Continental Shelf (OCS), and to prescribe such rules and regulations as may be necessary to carry out such provisions. Additionally, the Act authorizes the Secretary to implement regulations to grant to qualified persons, offering the highest cash bonuses on the basis of competitive bidding, leases of any mineral other than oil, gas, and sulphur. This applies to any area of the OCS not then under lease for such mineral upon such royalty, rental, and other terms and conditions as the Secretary may prescribe at the time of offering the area for lease.

Regulations at 30 CFR part 581 implement these statutory requirements. There has been no leasing activity on the OCS for minerals other than oil, gas, or sulphur under these regulations for several years, and BOEM has not received information under this Part of its regulation. However, there is potential for a person, entity, or company to request that minerals other than oil, gas, or sulfur be offered for lease. Therefore, we are renewing OMB approval for this information collection.

BOEM will use the information required by 30 CFR part 581 to determine if statutory and regulatory
