

existing text regarding air quality forecast areas in order to address all pollutants instead of only ozone; and expand the scope of the types of air curtain burners for which air quality permits must be issued.

In the direct final rulemaking, EPA explained that the Agency was publishing the rule without prior proposal because the Agency viewed the submittal as a non-controversial SIP amendment and anticipated no adverse comments. Further, EPA explained that the Agency was publishing a separate document in the proposed rules section of the **Federal Register** to serve as the proposal to approve the SIP revision should an adverse comment be filed (*see* 82 FR 39097). EPA also noted that the rule would be effective generally 30 days after the close of the public comment period, without further notice unless the Agency received adverse comment by the close of the public comment period. EPA explained that if the Agency received such comments, then EPA would publish a document withdrawing the final rule and informing the public that the rule would not take effect. It was also explained that all public comments received would then be addressed in a subsequent final rule based on the proposed rule, and that EPA would not institute a second comment period on this action.

EPA received one adverse comment from a single Commenter on the aforementioned rule. As a result of the comment received, EPA is withdrawing the direct final rule approving the aforementioned changes to the North Carolina SIP. If EPA determines that it is appropriate to finalize the proposed approval of the aforementioned changes to the North Carolina SIP, EPA will publish a final rule which will include a response to the comments received. In the event that EPA determines that it is not appropriate to finalize the proposed approval related to these changes, EPA may issue a subsequent proposal with a different course of action.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R04-OAR-2017-0436; FRL-9969-35-Region 4]

Air Plan Approval; AL; VOC Definitions and Particulate Emissions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Withdrawal of direct final rule.

SUMMARY: Due to the receipt of an adverse comment, the Environmental Protection Agency (EPA) is withdrawing the August 16, 2017, direct final rule that approves an Alabama state implementation plan (SIP) revision related to "volatile organic compounds" (VOCs) and particulate emissions. EPA will address the comment in a subsequent final action based upon the proposed rulemaking action, also published on August 16, 2017. EPA will not institute a second comment period on this action.

DATES: The direct final rule published at 82 FR 38841, on August 16, 2017, is withdrawn, effective October 13, 2017.

FOR FURTHER INFORMATION CONTACT:

Richard Wong, Air Regulatory Management Section, Air Planning and Implementation Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303-8960. The telephone number is (404) 562-8726. Mr. Wong can also be reached via electronic mail at wong.richard@epa.gov.

SUPPLEMENTARY INFORMATION: On August 16, 2017 (82 FR 38841), EPA published a direct final rule approving a SIP revision submitted by the State of Alabama, through the Alabama Department of Environmental Management (ADEM). EPA took a direct final action to approve the May 19, 2017, submission that revises ADEM

Rule 335-3-1-.02—*Definitions* and Rule 335-3-4-.08—*Wood Waste Boilers*. The rulemaking also revises the definition of VOCs, corrects a typographical error and removes particulate emission and opacity limits for Talladega County.

In the direct final rule, EPA explained that the Agency was publishing the rule without prior proposal because the Agency viewed the submittal as a non-controversial SIP amendment and anticipated no adverse comments. Further, EPA explained that the Agency was publishing a separate document in the proposed rules section of the **Federal Register** to serve as the proposal to approve the SIP revision should an adverse comment be filed. EPA also noted that the rule would be effective generally 30 days after the close of the public comment period, without further notice unless the Agency received adverse comment by the close of the public comment period. EPA explained that if the Agency received such comments, then EPA would publish a document withdrawing the final rule and informing the public that the rule would not take effect. It was also explained that all public comments received would then be addressed in a subsequent final rule based on the proposed rule, and that EPA would not institute a second comment period on this action.

EPA received one adverse comment from a single Commenter on the aforementioned rule. As a result of the comment received, EPA is withdrawing the direct final rule approving the aforementioned changes to the Alabama SIPs. EPA will address the comment in a separate final action based on the proposed action also published on August 16, 2017 (82 FR 38865). EPA will not open a second comment period for this action.
