

National Laboratory Advisory Committee.

Pursuant to Sections 14(b)(1) and 9(c) of the Federal Advisory Committee Act, as amended (Pub. L. 92-463, 5 U.S.C. App.), and after consultation with the Committee Management Secretariat, General Services Administration, the NASA Acting Administrator has determined that renewal of the charter of the International Space Station National Laboratory Advisory Committee is in the public interest in connection with the performance of duties imposed on NASA by law. This committee is established under Section 602 of the NASA Authorization Act of 2008 (Pub. L. 110-422, 51 U.S.C. Section 70906). The renewed charter is for a two-year period ending October 6, 2019. For further information, contact Ms. Marla K. King, NASA Headquarters, 300 E Street SW., Washington, DC 20456, phone: (202) 358-1148; email: [marla.k.king@nasa.gov](mailto:marla.k.king@nasa.gov).

## NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

[NARA-2018-001]

### Records Schedules; Availability and Request for Comments

**AGENCY:** National Archives and Records Administration (NARA).

**ACTION:** Notice of availability of proposed records schedules; request for comments.

**SUMMARY:** The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when agencies no longer need them for current Government business. The records schedules authorize agencies to preserve records of continuing value in the National Archives of the United States and to destroy, after a specified period, records lacking administrative, legal, research, or other value. NARA publishes notice in the **Federal Register** for records schedules in which agencies propose to destroy records they no longer need to conduct agency business.

NARA invites public comments on such records schedules.

**DATES:** NARA must receive requests for copies in writing by November 17, 2017. Once NARA finishes appraising the records, we will send you a copy of the schedule you requested. We usually prepare appraisal memoranda that contain additional information concerning the records covered by a proposed schedule. You may also request these. If you do, we will also provide them once we have completed the appraisal. You have 30 days after we send to you these requested documents in which to submit comments.

**ADDRESSES:** You may request a copy of any records schedule identified in this notice by contacting Records Appraisal and Agency Assistance (ACRA) using one of the following means:

*Mail:* NARA (ACRA); 8601 Adelphi Road; College Park, MD 20740-6001.

*Email:* [request.schedule@nara.gov](mailto:request.schedule@nara.gov).

*Fax:* 301-837-3698.

You must cite the control number, which appears in parentheses after the name of the agency that submitted the schedule, and a mailing address. If you would like an appraisal report, please include that in your request.

**FOR FURTHER INFORMATION CONTACT:**

Margaret Hawkins, Director, by mail at Records Appraisal and Agency Assistance (ACRA); National Archives and Records Administration; 8601 Adelphi Road; College Park, MD 20740-6001, by phone at 301-837-1799, or by email at [request.schedule@nara.gov](mailto:request.schedule@nara.gov).

**SUPPLEMENTARY INFORMATION:** NARA publishes notice in the **Federal Register** for records schedules they no longer need to conduct agency business. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

Each year, Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing records retention periods and submit these schedules for NARA's approval. These schedules provide for timely transfer into the National Archives of historically valuable records and authorize the agency to dispose of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

The schedules listed in this notice are media neutral unless otherwise specified. An item in a schedule is media neutral when an agency may apply the disposition instructions to records regardless of the medium in which it creates or maintains the records. Items included in schedules submitted to NARA on or after December 17, 2007, are media neutral unless the item is expressly limited to a specific medium. (See 36 CFR 1225.12(e).)

Agencies may not destroy Federal records without Archivist of the United States' approval. The Archivist approves destruction only after thoroughly considering the records' administrative use by the agency of origin, the rights of the Government and of private people directly affected by the Government's activities, and whether or not the records have historical or other value.

In addition to identifying the Federal agencies and any subdivisions requesting disposition authority, this notice lists the organizational unit(s) accumulating the records (or notes that the schedule has agency-wide applicability when schedules cover records that may be accumulated throughout an agency); provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction); and includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it also includes information about the records. You may request additional information about the disposition process at the addresses above.

**Schedules Pending:**

1. Department of the Army, Agency-wide (DAA-AU-2017-0015, 1 item, 1 temporary item). Master files of an electronic information system used to maintain inventory of assets that may contain hazardous materials.

2. Department of the Army, Agency-wide (DAA-AU-2017-0018, 1 item, 1 temporary item). Master files of an electronic information system used to maintain geospatial images of Tobyhanna Army Depot installation infrastructure.

#### Agreement State Program Policy Statement

##### A. Purpose

The purpose of this policy statement for the Agreement State Program is to describe the respective roles and responsibilities of the U.S. Nuclear Regulatory Commission (NRC) and Agreement States in the administration of programs carried out under Section 274 of the Atomic Energy Act of 1954, as amended (AEA).<sup>1</sup> Section 274 provides broad authority for the NRC to establish a unique Federal and State relationship in the administration of regulatory programs for the protection of public health and safety in the industrial, medical, commercial, and research uses of agreement material. This policy statement supersedes the September 1997 "Policy Statement on Adequacy and Compatibility of Agreement State Programs" and "Statement of Principles and Policy for the Agreement State Program."

This policy statement addresses the Federal-State interaction under the AEA to (1) establish and maintain agreements with States under Subsection 274b, that provide for discontinuance by the NRC, and the assumption by the State, of responsibility for administration of a regulatory program for the safe use of agreement material; (2) ensure that post-agreement interactions between the NRC and Agreement State radiation control programs are coordinated; and (3) ensure Agreement States provide adequate protection of public health and safety and maintain programs that are compatible with the NRC's regulatory program.

Although not defined in the AEA, the National Materials Program (NMP) is a term used to describe the broad collective effort within which both the NRC and the Agreement States function in carrying out their respective regulatory programs for agreement material. The vision of the NMP is to provide a coherent national system for the regulation of agreement material with the goal of protecting public health and safety through compatible regulatory programs. Through the NMP, the NRC and Agreement States function as regulatory partners.

##### B. Background

This policy statement is intended solely as guidance for the NRC and the Agreement States in the implementation of the Agreement State Program. This policy statement does not itself impose legally binding requirements on the Agreement States. In addition, nothing in this policy

<sup>1</sup> Subsection 274b. of the AEA authorizes the NRC to enter into an agreement by which the NRC discontinues and the State assumes regulatory authority over some or all of these materials. The material over which the State receives regulatory authority under such agreement is termed "agreement material."
