economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, “Environmental Impacts: Policies and Procedures,” paragraph 5–6.5a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exists that warrant preparation of an environmental assessment.

List of Subjects in 14 CFR Part 71
Airspace, Incorporation by reference, Navigation (air).

Adoption of Amendment

In consideration of the foregoing, the Federal Aviation Administration amends 14 CFR part 71 as follows:

PART 71—DESIGNATION OF CLASS A, B, C, D, AND E AIRSPACE AREAS; AIR TRAFFIC SERVICE ROUTES; AND REPORTING POINTS

1. The authority citation for part 71 continues to read as follows:

§ 71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of FAA Order 7400.11B, Airspace Designations and Reporting Points, dated August 3, 2017, and effective September 15, 2017, is amended as follows:

Paragraph 6005  Class E Airspace Areas Extending Upward From 700 Feet or More Above the Surface of the Earth.

AGL SD E5 Rosebud, SD [New]
Rosebud Sioux Tribal Airport, SD
(Lat. 43°15'31" N., long. 100°51’34" W.)
That airspace extending upward from 700 feet above the surface within a 6.4-mile radius of Rosebud Sioux Tribal Airport.
Issued in Fort Worth, TX, on October 12, 2017.

Wayne Eckenrode,
Acting Manager, Operations Support Group, ATO Central Service Center.

SUPPLEMENTARY INFORMATION:
Background

Authorization Validated End-User

Validated End-Users (VEUs) are designated entities located in eligible destinations to which eligible items may be exported, reexported, or transferred (in-country) under a general authorization instead of a license. The names of the VEUs, as well as the dates they were so designated, and the associated eligible destinations (facilities) and items are identified in Supplement No. 7 to part 748 of the EAR. Pursuant to section 748.15 (Authorization Validated End-User (VEU)), eligible destinations of VEUs may obtain eligible items without the need for the VEUs’ supplier to obtain an export or reexport license from BIS.
Eligible items vary among VEUs and may include commodities, software, and/or technology, except items controlled for missile technology or crime control reasons on the Commerce Control List (CCL) (Supp. No. 1 to part 774 of the EAR).
VEUs are reviewed and approved by the U.S. Government in accordance with the provisions of § 748.15 and Supplement Nos. 8 and 9 to part 748 of the EAR. The ERC, composed of representatives from the Departments of State, Defense, Energy and Commerce, and other agencies as appropriate, is responsible for administering the VEU program. BIS amended the EAR in a final rule published on June 19, 2007 (72 FR 33646), to create Authorization VEU.

Amendments to Existing VEU Authorization for Lam Research Service Co., Ltd. (Lam) in the People’s Republic of China (PRC)

Revision to the List of “Eligible Destinations” (Facilities) and “Eligible Items” for Lam

In this rule, BIS amends Supplement No. 7 to part 748 to revise the eligible facilities in the PRC and the items that may be exported, reexported or transferred (in-country) to those facilities under VEU authorization for Lam. Specifically, the amendments to Lam’s eligible facilities, including modifications to the name and/or address, addition of new facilities, and a facility removal, are being made in response to a request from Lam. The End-User Review Committee reviewed and authorized the amendments in accordance with established procedures.
BIS also makes a technical update to the list of Lam’s eligible items to increase clarity and transparency, as described further below.

Facilities

Revisions to Lam’s Eligible Facilities

Prior to this rule, Lam’s VEU authorization included 18 facilities in the PRC. Of those facilities, 13 remain substantially unchanged in Supplement No. 7 to part 748 apart from minor edits made by BIS to punctuation and display (e.g., adding a space after asterisks and removing unnecessary commas) of addresses for the 13 facilities, as set forth below. BIS also updated the address for one facility, updated the names of two facilities, updated both
the name and address of one facility, and removed one facility. In this rule, BIS also adds six facilities to Lam’s VEU authorization. With the publication of this rule, Lam’s total number of facilities in the PRC is 23. Specific revisions to the list of Lam facilities are as follows:

Punctuation and Display of Addresses for 13 Existing Facilities

**Revisions to Lam’s Eligible Items**

For all Lam’s facilities, this rule limits the authorization for ECCNs 2B230, 2B350.c, 2B350.d, 2B350.g, 2B350.h, 2B350.i and 3B001.e to items for the installation, warranty maintenance/repair, or maintenance/repair service of semiconductor manufacturing equipment manufactured by Lam. These end-use limits for eligible items are not new. Previously, these limitations were imposed as a condition to the authorization given to Lam, rather than specified in the description of eligible items set forth in Supplement No. 7 to Part 748.

This rule also limits the authorization for 3D001 software (excluding source code) for all facilities to allow only such software that is specially designed for the “development” or “production” of equipment controlled by paragraph .e of ECCN 3B001. A similar limitation is made for 3D002 software (excluding source code) for all facilities, so that only such software that is specially designed for the “use” of equipment controlled by paragraph .e of ECCN 3B001 qualifies as an eligible item. These changes are consistent with the fact that 3B001.c no longer appears under Lam’s list of Eligible Items. As a result of a foreign availability determination, BIS removed the items under paragraph .c from the CCL with the publication of the Wassenaar Arrangement Regime 2015 Implementation Rule on September 20, 2016 (81 FR 64656). Paragraph .c to 3B001 is now reserved in the CCL. The changes made by this rule recognize that paragraph .c of 3B001 no longer exists by now limiting the authorization for all Lam facilities to certain software related to paragraph .e of 3B001, rather than software that relates to all paragraphs of 3B001.

Lastly, for Lam’s “Warehouse Facilities,” identified by a single asterisk in Supplement No. 7 to part 748, this rule further limits the scope of the authorization for items under ECCN 3E001 to “development” “technology” according to the General Technology Note of a type of equipment classified under paragraph .e of ECCN 3B001. For Lam’s “Sales Offices,” identified by a set of double asterisks in Supplement No. 7 to part 748, this rule narrows the scope of eligible ECCN 3E001 items to “development” “technology” or “production” “technology” according to the General Technology Note of a type to support integration, assembly (mounting), inspection, testing, and quality assurance of equipment classified under paragraph .e of ECCN 3B001. Although the wording of the eligible 3E001 items changed slightly in an attempt to improve clarity, this change also reflects the removal of paragraph .c of ECCN 3B001 from the Lam list of eligible items, consistent with change with the CCL, as described above, by limiting the eligible technology to items only associated with paragraph .e of ECCN 3B001. In summary, Eligible Items both for Lam’s “Warehouse Facilities” and for “Sales Offices” will include items classified under ECCNs 2B230, 2B350.c, 2B350.d, 2B350.g, 2B350.h, 2B350.i and 3B001.e to items for the installation, warranty maintenance/repair, or maintenance/repair service of semiconductor manufacturing equipment manufactured by Lam. These end-use limits for eligible items are not new.

The difference between what is eligible for export to “Warehouse Facilities,” identified by a single asterisk in Supplement No. 7 to part 748, and what is eligible for export to “Sales Offices,” identified by two asterisks in Supplement No. 7 part 748, is in the limitations placed on eligible ECCN 3E001 technology. As explained above, and in the rule text, eligible 3E001 technology for “Warehouse Facilities” will only include certain “development” technology, while eligible 3E001 technology for “Sales Offices” will include certain “development” technology and certain “production” technology.

**Export Administration Act of 1979**

Although the Export Administration Act of 1979 expired on August 20, 2001, the President, through Executive Order 13222 of August 17, 2001, 3 CFR, 2001
Rulemaking Requirements

1. Executive Orders 13563 and 12866 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, reducing costs, harmonizing rules, and promoting flexibility. This rule has been determined to be not significant for purposes of Executive Order 12866. This rule is not an Executive Order 13771 regulatory action because this rule is not significant under Executive Order 12866.

2. Notwithstanding any other provision of law, no person is required to respond to nor be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.) (PRA), unless that collection of information displays a currently valid OMB Control Number. This rule involves collections previously approved by the Office of Management and Budget (OMB) under Control Number 0694-0088, “Multi-Purpose Application,” which carries a burden hour estimate of 43.8 minutes to prepare and submit form BIS-748; and for recordkeeping, reporting and review requirements in connection with Authorization VEU, which carries an estimated burden of 30 minutes per submission. This rule is expected to result in a decrease in license applications submitted to BIS. Total burden hours associated with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.) (PRA) and OMB Control Number 0694-0088 are not expected to increase significantly as a result of this rule.

3. This rule does not contain policies with Federalism implications as that term is defined under Executive Order 13132.

4. Pursuant to the Administrative Procedure Act (APA), 5 U.S.C. 553(b)(B), BIS finds good cause to waive the otherwise applicable requirements that this rule be subject to notice and the opportunity for public comment because it is unnecessary. In determining whether to grant VEU designations, a committee of U.S. Government agencies evaluates information about and commitments made by candidate companies, the nature and terms of which are set forth in 15 CFR part 748, Supplement No. 8. The criteria for evaluation by the committee are set forth in 15 CFR 748.15(a)(2). The information, commitments, and criteria for this extensive review were all established through the notice of proposed rulemaking (71 FR 38313, July 6, 2006), the public comment process, and issuance of the final rule establishing Authorization VEU (72 FR 35646, June 19, 2007). The publication of this rule does not establish new policy. In publishing this final rule, BIS amends the authorization for an existing eligible VEU in order to update eligible destinations (facilities) and eligible items. This change has been made within the established regulatory framework of the VEU program. Because the criteria and process for authorizing and administering VEUs were developed with public comments, allowing additional public comment on this amendment to an existing individual VEU authorization, which was determined according to those criteria, is unnecessary. Publication of this rule in other than final form is unnecessary because the amendments made by this rule are consistent with the authorizations granted to exporters for individual export licenses (and amendments or revisions thereof), which do not undergo public review. As with license applications and Authorization VEU, applications contain confidential business information, which is necessary for the extensive review conducted by the U.S. Government in assessing such applications. This information is extensively reviewed according to the criteria for VEU authorizations, as set out in 15 CFR 748.15(a)(2). Just as license applications are reviewed through an interagency review process, the authorizations granted under the VEU program involve interagency deliberation and result from review of public and non-public sources, including licensing data, and the measurement of such information against the VEU authorization criteria. Given the nature of the review, and in light of the parallels between the VEU application review process and the review of license applications, public comment on the underlying authorization and any subsequent amendments that update the authorization prior to publication is unnecessary. Moreover, because, as noted above, the criteria and process for authorizing and administering VEUs were developed with public comments, allowing additional public comment on this amendment to an individual VEU authorization, which was determined according to those criteria, is unnecessary.

Section 553(d) of the APA provides that rules generally may not take effect earlier than thirty (30) days after they are published in the Federal Register. However, BIS finds good cause to waive the 30-day delay in effectiveness for this rule pursuant to 5 U.S.C. 553(d)(3) because the delay would be contrary to the public interest. With this rule, BIS is simply amending the authorization of an existing VEU to update the eligible destinations (facilities) and eligible items. The amendments to the EAR in this rule are consistent with established objectives and parameters administered and enforced by the responsible designated departmental representatives to the End-User Review Committee. Delaying this action’s effectiveness would likely cause confusion for the public regarding which items are authorized by the U.S. Government to be shipped to which eligible destination (facility), thereby undermining the efficacy of the VEU Program. Accordingly, it is contrary to the public interest to delay this rule’s effectiveness.

No other law requires that a notice of proposed rulemaking and an opportunity for public comment be given for this final rule. Because a notice of proposed rulemaking and an opportunity for public comment are not required under the APA or by any other law, the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 et seq.) are not applicable. As a result, no final regulatory flexibility analysis is required and none has been prepared.

List of Subjects in 15 CFR Part 748

Administrative practice and procedure, Exports, Reporting and recordkeeping requirements.

Accordingly, part 748 of the Export Administration Regulations (15 CFR parts 730–774) is amended as follows:
## PART 748—[AMENDED]

1. The authority citation for part 748 continues to read as follows:

2. Amend Supplement No. 7 to part 748 by revising the entry for “Lam Research Service Co. Ltd.” in “China (People’s Republic of)” to read as follows:

### SUPPLEMENT NO. 7 TO PART 748—AUTHORIZATION VALIDATED END-USER (VEU): LIST OF VALIDATED END-USERS, RESPECTIVE ITEMS ELIGIBLE FOR EXPORT, REEXPORT AND TRANSFER, AND ELIGIBLE DESTINATIONS

The Coast Guard is issuing this rule in order to establish a safety zone on the Maumee River, Toledo, Ohio for the Light the Night Leukemia and Lymphoma Society Fireworks Display. This temporary safety zone is necessary to protect spectators and vessels from the hazards associated with fireworks displays. The rulemaking is effective from 8 p.m. through 9 p.m. on October 22, 2017.

Coast Guard

33 CFR Part 165

[Docket No. USCG–2017–0923]

RIN 1625–AA00

Safety Zone; Light the Night Leukemia and Lymphoma Society Fireworks, Maumee River, Toledo, OH

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary safety zone in the Captain of the Port Detroit Zone on the Maumee River, Toledo, Ohio. This zone is intended to restrict vessels from portions of the Maumee River for the Light the Night Leukemia and Lymphoma Society Fireworks Display. Persons and vessels are prohibited from entering into, transiting through, or anchoring within this safety zone unless authorized by the Captain of the Port or his designated representative. This temporary safety zone is necessary to protect spectators and vessels from the hazards associated with fireworks displays.

DATES: This regulation is effective from 8 p.m. through 9 p.m. on October 22, 2017.

ADDRESSES: Documents mentioned in this preamble are part of docket [USCG–2017–0923]. To view documents mentioned in this preamble as being available in the docket, go to http://www.regulations.gov, type the docket number in the “SEARCH” box and click “SEARCH.” Click on Open Docket Folder on the line associated with this rulemaking.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary rule, call or email MST1 Ryan Erpelding, Waterways Department, Marine Safety Unit Toledo, Coast Guard; telephone (419) 418–6037, email Ryan.G.Erpelding@uscg.mil.

SUPPLEMENTARY INFORMATION:

Table of Acronyms

|--------------------------------|-----------------------------------|---------------------|----------------------------------|-----------|--------------------------|

I. Background Information and Regulatory History

The Coast Guard is issuing this temporary final rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule. The event sponsor notified the Coast Guard with insufficient time to accommodate the comment period. Thus, delaying the effective date of this rule to wait for the comment period to run would be impracticable and contrary to the public interest because it would prevent the Captain of the Port Detroit from keeping the public safe from the hazards associated with a maritime fireworks display.

Under 5 U.S.C. 553(d)(3), the Coast Guard finds that good cause exists for making this rule effective less than 30 days after publication in the Federal Register. Waiting for a 30-day effective period to run is impracticable and contrary to the public interest for the reasons discussed in the preceding paragraph.

II. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 33 U.S.C. 1231. The Captain of the Port Detroit (COTP) has determined that potential hazards associated with fireworks displays starting after 8 p.m. on October 22, 2017 will be a safety concern for anyone within a 725-foot radius of the launch site. The likely combination of recreational vessels, darkness punctuated by bright flashes of light, and fireworks debris falling into the water presents risks of collisions which could result in serious injuries or fatalities. This rule is needed to protect personnel, vessels, and the marine environment in the navigable waters within the safety zone during the fireworks display.

III. Discussion of the Rule

This rule establishes a safety zone from 8 p.m. through 9 p.m. on October 22, 2017. The safety zone will encompass all U.S. navigable waters of...**
