SUPPLEMENTARY INFORMATION:

The Petitions

On September 26, 2017, the Department of Commerce (the Department) received antidumping duty (AD) petitions concerning imports of polyethylene terephthalate (PET) resin from Brazil, Indonesia, Korea, Pakistan, and Taiwan, filed in proper form on behalf of DAK Americas LLC, Indorama Ventures USA, Inc. (Indorama), M&G Polymers USA, LLC, and Nan Ya Plastics Corporation, America (collectively, the petitioners).1 The petitioners are domestic producers of PET resin.2

On September 29, 2017, the Department requested supplemental information pertaining to certain areas of the Petitions.3 The petitioners filed responses to these requests on October 3, 2017.4

In accordance with section 732(b) of the Tariff Act of 1930, as amended (the Act), the petitioners allege that imports of PET resin from Brazil, Indonesia, Korea, Pakistan, and Taiwan are being, or are likely to be, sold in the United States at less than fair value, within the meaning of section 731 of the Act, and that such imports are materially injuring, or threatening material injury to, the domestic industry producing PET resin in the United States. Consistent with section 732(b)(1) of the Act, the Petitions are accompanied by information reasonably available to the petitioners to support their allegations.

The Department finds that the petitioners filed these Petitions on behalf of the domestic industry because the petitioners are interested parties as defined in section 771(9)(C) of the Act. The Department also finds that the petitioners demonstrated sufficient industry support with respect to initiation of the AD investigations that the petitioners are requesting.5
