**SUPPLEMENTARY INFORMATION:** Under the PRA (44 U.S.C. 3501-3520), federal agencies must obtain approval from OMB for each collection of information that they conduct or sponsor. "Collection of information" is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) to include agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. The OCC is requesting that OMB extend its approval of the following information collection.

*Title:* Reporting and Recordkeeping Requirements Associated with Liquidity Coverage Ratio: Liquidity Risk Measurement, Standards, and Monitoring.

*OMB Control No.:* 1557-0323.

*Affected Public:* Business or other for-profit.

*Type of Review:* Regular review.

*Abstract:* The quantitative liquidity requirement (12 CFR part 50) is designed to promote improvements in the measurement and management of liquidity risk.

The rule applies to large and internationally active banking organizations—generally, bank holding companies, certain savings and loan holding companies, and depository institutions with \$250 billion or more in total assets or \$10 billion or more in on-balance sheet foreign exposure—and to their consolidated subsidiaries that are depository institutions with \$10 billion or more in total consolidated assets.

Section 50.22 requires that, with respect to each asset eligible for inclusion in a national bank or federal savings association's (FSA's) high-quality liquid assets (HQLA) amount, the national bank or FSA must implement policies that require eligible HQLA to be under the control of the management function in the national bank or FSA responsible for managing liquidity risk. The management function must evidence its control over the HQLA by segregating the HQLA from other assets, with the sole intent to use the HQLA as a source of liquidity, or demonstrating the ability to monetize the assets and making the proceeds available to the liquidity management function without conflicting with a business or risk management strategy of the national bank or FSA. In addition, § 50.22 requires that a national bank or FSA have a documented methodology that results in a consistent treatment for determining that the national bank or

FSA's eligible HQLA meet the requirements of § 50.22.

Section 50.40 requires that a national bank or FSA notify its appropriate federal banking agency on any day when its liquidity coverage ratio is calculated to be less than the minimum requirement in § 50.10. If a national bank or FSA's liquidity coverage ratio is below the minimum requirement in § 50.10 for three consecutive days, or if the OCC has determined that the institution is otherwise materially noncompliant, the national bank or FSA must promptly provide a plan for achieving compliance with the minimum liquidity requirement in § 50.10 and all other requirements of § 50.40 to the OCC.

The liquidity plan must include, as applicable: (1) An assessment of the national bank or FSA's liquidity position; (2) the actions the national bank or FSA has taken and will take to achieve full compliance, including a plan for adjusting the national bank or FSA's risk profile, risk management, and funding sources in order to achieve full compliance and a plan for remediating any operational or management issues that contributed to noncompliance; (3) an estimated time frame for achieving full compliance; and (4) a commitment to provide a progress report to the OCC at least weekly until full compliance is achieved.

*Frequency of Response:* Annual and event generated.

*Affected Public:* Covered national banks and FSAs.

*Estimated Number of Respondents:* 19.

*Estimated Total Annual Burden:* 2,361 hours.

The OCC issued a notice for 60 days of comment regarding this collection on July 19, 2017, 82 FR 33202. No comments were received. Comments continue to be invited on:

(a) Whether the collection of information is necessary for the proper performance of the functions of the OCC, including whether the information has practical utility;

(b) The accuracy of the OCC's estimate of the information collection burden;

(c) Ways to enhance the quality, utility, and clarity of the information to be collected;

(d) Ways to minimize the burden of the collection on respondents, including through the use of automated collection techniques or other forms of information technology; and

(e) Estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Dated: October 17, 2017.
