#### SUPPLEMENTARY INFORMATION:

##### A. Purpose

GSA has various mission responsibilities related to the acquisition and provision of supplies, transportation, information technology, telecommunications, real property management, and disposal of real and personal property. These mission responsibilities generate requirements that are realized through the solicitation and award of public contracts. In Fiscal Year 2016, these contracts had values ranging from under \$100 to over \$777,000,000, including the base and all options.

Most GSA procurement-related information collections are required by the Federal Acquisition Regulation (FAR) or General Services Administration Acquisition Regulation (GSAR); each clause requiring such a collection must be individually approved by OMB. However, some solicitations require contractors to submit information specific to that contracting action, such as information needed to evaluate offers (e.g. specific instructions for technical and price proposals, references for past performance) or data used to administer resulting contracts (e.g. project management plans).

This information collection is currently associated with GSA's information collection requirements contained in solicitations issued in accordance with the Uniform Contract Format under FAR Part 14, Sealed Bidding (see GSAR 514.201-1); FAR Part 15, Contracting by Negotiation (see GSAR 515.204-1); and solicitations under FAR Part 12, Acquisition of Commercial Items, when issued in accordance with the policy and procedures of FAR Part 14 and FAR Part 15 (see GSAR 512.301). This includes information collection requirements found in GSA Federal Supply Schedule (FSS) solicitations.
