**SUPPLEMENTARY INFORMATION:** The National Fire Academy (NFA) is mandated under the Fire Prevention and Control Act of 1974 (Pub. L. 93–498) to provide training and education to the Nation’s fire service and emergency service personnel. The state-of-the-art programs offered by the NFA serve as models of excellence and State and local fire service agencies rely heavily on the curriculum to train their personnel. To maintain the quality of these training programs, it is critical that courses be evaluated after students have had the opportunity to apply the knowledge and skills gained from their training. Information collected from the evaluation forms enables the U.S. Fire Administration (USFA) and NFA staff to monitor and recommend changes in course materials, individual subject selection criteria, and to make curriculum-wide reviews and assessments. FEMA is seeking a revision of a currently approved information collection because we are modifying the two forms. One question was added to each form to better reflect and measure the NFA’s progress toward the USFA’s goals. Two questions were removed from the student/trainee form that are no longer relevant to NFA’s data collection.
