

shifts among existing management and board members.¹⁴

Based on record evidence, we preliminarily determine that Chengdu Huifeng New Material Technology Co., Ltd. is the successor-in-interest to Chengdu Huifeng Diamond Tools Co., Ltd. for purposes of antidumping duty liability because the changes to the legal status and name of the company resulted in no significant changes to management, production facilities, supplier relationships, or customers. As a result, we preliminarily determine that Chengdu Huifeng New Material Technology Co., Ltd. operates as essentially the same business entity as Chengdu Huifeng Diamond Tools Co., Ltd. Thus, we preliminarily determine that Chengdu Huifeng New Material Technology Co., Ltd. should receive the same antidumping duty cash deposit rate with respect to the subject merchandise as Chengdu Huifeng Diamond Tools Co., Ltd., its predecessor company.

If these preliminary results are adopted in our final results of this changed circumstances review, effective on the publication date of our final results, we will instruct CBP to suspend liquidation of entries of subject merchandise exported by Chengdu Huifeng New Material Technology Co., Ltd. at Chengdu Huifeng Diamond Tools Co., Ltd.'s cash deposit rate.

Scope of the Order

The merchandise subject to the Order⁴ is certain activated carbon. The products are currently classifiable under the Harmonized Tariff Schedule of the United States (HTSUS) subheading 3802.1000. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of the order remains dispositive.⁵

In the Issues and Decision Memorandum, we addressed all issues raised in parties' case and rebuttal briefs. In Appendix I to this notice, we provided a list of the issues raised by parties. The Issues and Decision Memorandum is a public document and is on file in the Central Records Unit (CRU), Room B8024 of the main Department of Commerce building, as well as electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). Verification

Pursuant to section 782(i) of the Act, and 19 CFR 351.307(b)(iv), from May 9–23, 2017, we conducted verification of the questionnaire responses of Datong Juqiang and Jacobi.⁶

Changes Since the Preliminary Results

Based on our review of the record and comments received from interested parties regarding our *Preliminary Results*, we made certain revisions to the margin calculations for Jacobi, Datong Juqiang, and the non-examined, separate rate respondents.⁷ Further, the Issues and Decision Memorandum contains descriptions of these revisions.⁸

Final Determination of No Shipments

In the *Preliminary Results*, the Department preliminarily determined that Calgon Carbon (Tianjin) Co., Ltd., Sinoacarbon International Trading Co., Ltd., and Shanxi Dapu International Trade Co., Ltd. had no shipments during the period of review (POR).⁹ We received no information to contradict this determination. Therefore, the Department continues to determine that Calgon Carbon (Tianjin) Co., Ltd., Sinoacarbon International Trading Co., Ltd., and Shanxi Dapu International Trade Co., Ltd. had no shipments of subject merchandise during the POR, and will issue appropriate liquidation instructions that are consistent with our "automatic assessment" clarification, for these final results.¹⁰

Separate Rate Respondents

In our *Preliminary Results*, we determined that Jacobi, Datong Juqiang, and 13 other companies demonstrated their eligibility for separate rates.¹¹ We have received no comments or argument since the issuance of the *Preliminary Results* that provides a basis for reconsideration of these determinations. Therefore, for these final results, we continue to find that the 13 companies listed in the table in the "Final Results" section of this notice are eligible for a separate rate.

Rate for Non-Examined Separate Rate Respondents

The statute and the Department's regulations do not address the establishment of a rate to be assigned to respondents not selected for individual examination when the Department limits its examination of companies subject to the administrative review pursuant to section 777A(c)(2)(B) of the Act. Generally, the Department looks to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in an investigation, for guidance when calculating the rate for respondents not individually examined in an administrative review. Section 735(c)(5)(A) of the Act articulates a preference for not calculating an all-others rate using rates which are zero, *de minimis*, or based entirely on facts available.¹² Accordingly, the Department's usual practice has been to determine the dumping margin for companies not individually examined by averaging the weighted-average dumping margins for the individually examined respondents, excluding rates that are zero, *de minimis*, or based entirely on facts available.¹³

In the *Preliminary Results*,¹⁴ the Department calculated rates for Datong Juqiang and Jacobi that were not zero, *de minimis*, or based entirely on facts

¹¹ See *Preliminary Results*, 82 FR 21196, and accompanying Preliminary Decision Memorandum at 7–9.

¹² See *Ball Bearings and Parts Thereof from France, Germany, Italy, Japan, and the United Kingdom: Final Results of Antidumping Duty Administrative Reviews and Rescission of Reviews in Part*, 73 FR 52823, 52824 (September 11, 2008), and accompanying Issues and Decision Memorandum (IDM) at Comment 16.

¹³ See, e.g., *Preliminary Determination of Sales at Less Than Fair Value and Partial Affirmative Determination of Critical Circumstances: Certain Polyester Staple Fiber from the People's Republic of China*, 71 FR 77373, 77377 (December 26, 2006), unchanged in *Final Determination of Sales at Less Than Fair Value and Partial Affirmative Determination of Critical Circumstances: Certain Polyester Staple Fiber from the People's Republic of China*, 72 FR 19690 (April 19, 2007).

¹⁴ See Preliminary Decision Memorandum at 10–11.

available. However, for these final results, the calculated rate for Datong Juqiang is zero, and the calculated rate for Jacobi continues to be above *de minimis*. Therefore, the Department has assigned to the companies that have not been individually examined, but have demonstrated their eligibility for a separate rate, Jacobi's calculated rate for these final results.

Final Results of the Review

For companies subject to this review, which established their eligibility for a separate rate, the Department determines that the following weighted-average dumping margins exist for the POR from April 1, 2015, through March 31, 2016:

Exporter	Weighted-average dumping margin (USD/kg) ¹⁵
Jacobi Carbons AB ¹⁶	0.22
Datong Juqiang Activated Carbon Co., Ltd.	0.00
Beijing Pacific Activated Carbon Products Co., Ltd.	0.22
Carbon Activated Tianjin Co., Ltd.	0.22
Datong Municipal Yunguang Activated Carbon Co., Ltd.	0.22
Jilin Bright Future Chemicals Company, Ltd.	0.22
Ningxia Guanhua Cherishmet Activated Carbon Co., Ltd.	0.22
Ningxia Huahui Activated Carbon Co., Ltd.	0.22
Ningxia Mineral and Chemical Limited	0.22
Shanxi Industry Technology Trading Co., Ltd.	0.22
Shanxi Sincere Industrial Co., Ltd.	0.22
Shanxi Tianxi Purification Filter Co., Ltd.	0.22
Tancarb Activated Carbon Co., Ltd.	0.22
Tianjin Channel Filters Co., Ltd.	0.22
Tianjin Maijin Industries Co., Ltd.	0.22

In the *Preliminary Results*, the Department found that 186 companies

¹⁵ In the second administrative review of the *Order*, the Department determined that it would calculate per-unit weighted-average dumping margins and assessment rates for all future reviews. See *Certain Activated Carbon from the People's Republic of China: Final Results and Partial Rescission of Second Antidumping Duty Administrative Review*, 75 FR 70208, 70211 (November 17, 2010) (AR2 Carbon), and accompanying IDM at Comment 3.

¹⁶ In the third administrative review of the *Order*, the Department found that Jacobi Carbons AB, Tianjin Jacobi International Trading Co. Ltd., and Jacobi Carbons Industry (Tianjin) are a single entity and, because there were no facts presented on the record of this review which would call into

question our prior finding, we continue to treat these companies as part of a single entity for this administrative review, pursuant to sections 771(33)(E), (F), and (G) of the Act and 19 CFR 351.401(f). See *Certain Activated Carbon from the People's Republic of China: Final Results and Partial Rescission of Third Antidumping Duty Administrative Review*, 76 FR 67142, 67145 n.25 (October 31, 2011); See also *Preliminary Decision Memorandum* at n.8.

for which a review was requested did not establish eligibility for a separate rate because they did not file a separate rate application or a separate rate certification, as appropriate. No interested party commented on the Department's preliminary determination with respect to these 186 companies. Therefore, for these final results we determine these companies, listed in Appendix II of this notice, to be part of the PRC-wide entity. Because no party requested a review of the PRC-wide entity, and the Department no longer considers the PRC-wide entity as an exporter conditionally subject to administrative reviews,¹⁷ we did not conduct a review of the PRC-wide entity. Thus, the weighted-average dumping margin for the PRC-wide entity (*i.e.*, 2.42 USD/kg)¹⁸ is not subject to change as a result of this review.

Assessment Rates

Pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b), the Department has determined, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries covered by this review. The Department intends to issue assessment instructions to CBP 15 days after the publication date of these final results of review.

For each individually-examined respondent in this review which has a final weighted-average dumping margin that is not zero or *de minimis* (*i.e.*, less than 0.5 percent), we will calculate importer- (or customer-) specific per-unit duty assessment rates based on the ratio of the total amount of dumping calculated for the importer's (or customer's) examined sales to the total sales quantity associated with those sales, in accordance with 19 CFR 351.212(b)(1).¹⁹ The Department will also calculate (estimated) *ad valorem* importer-specific assessment rates with which to assess whether the per-unit

question our prior finding, we continue to treat these companies as part of a single entity for this administrative review, pursuant to sections 771(33)(E), (F), and (G) of the Act and 19 CFR 351.401(f). See *Certain Activated Carbon from the People's Republic of China: Final Results and Partial Rescission of Third Antidumping Duty Administrative Review*, 76 FR 67142, 67145 n.25 (October 31, 2011); See also *Preliminary Decision Memorandum* at n.8.

¹⁷ See *Antidumping Proceedings: Announcement of Change in Department Practice for Respondent Selection in Antidumping Duty Proceedings and Conditional Review of the Nonmarket Economy Entity in NME Antidumping Duty Proceedings*, 78 FR 65963, 65969–70 (November 4, 2013).

¹⁸ See, *e.g.*, *Certain Activated Carbon from the People's Republic of China: Final Results of Antidumping Duty Administrative Review; 2012–2013*, 79 FR 70163, 70165 (November 25, 2014).

¹⁹ See AR2 Carbon, and accompanying IDM at Comment 3.

assessment rates are *de minimis*. Where either the respondent's weighted-average dumping margin is zero or *de minimis*, or an importer- (or customer-) specific assessment rate is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.²⁰

For the respondents which were not selected for individual examination in this administrative review and which qualified for a separate rate, the assessment rate will be equal to the rate assigned to them for the final results (*i.e.* the 0.22 USD/kg rate for Jacobi).

For the companies identified in Appendix II as part of the PRC-wide entity, we will instruct CBP to apply a per-unit assessment rate of 2.42 USD/kg to all entries of subject merchandise during the POR which were produced or exported by those companies.

Pursuant to a refinement in the Department's non-market economy practice, for sales that were not reported in the U.S. sales data submitted by companies individually examined during this review, the Department will instruct CBP to liquidate entries associated with those sales at the rate for the PRC-wide entity. Furthermore, where the Department found that an exporter under review had no shipments of the subject merchandise, any suspended entries that entered under that exporter's case number (*i.e.*, at that exporter's cash deposit rate) will be liquidated at the rate for the PRC-wide entity.²¹

Cash Deposit Requirements

The following per-unit cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(2)(C) of the Act: (1) For Jacobi, Datong Juqiang, and the non-examined, separate rate respondents, the cash deposit rate will be equal to their weighted-average dumping margins established in the final results of this review; (2) for previously investigated or reviewed PRC and non-PRC exporters not listed above that have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recently completed segment of this proceeding in which they were reviewed; (3) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate,

²⁰ See 19 CFR 351.106(c)(2).

²¹ For a full discussion of this practice, see *Assessment Practice Refinement*, 76 FR at 65694.

the cash deposit rate will be equal to the weighted-average dumping margin for the PRC-wide entity (*i.e.*, 2.42 USD/kg); and (4) for all non-PRC exporters of subject merchandise which have not received their own separate rate, the cash deposit rate will be the rate applicable to the PRC exporter(s) that supplied that non-PRC exporter. These per-unit cash deposit requirements, when imposed, shall remain in effect until further notice.

Disclosure

We intend to disclose the calculations performed within five days of the date of publication of this notice to parties in this proceeding in accordance with 19 CFR 351.224(b).

Notification to Importers Regarding the Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties has occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Order

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing these final results of administrative review and notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: November 1, 2017.

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.
