shifts among existing management and board members.\textsuperscript{14} Based on record evidence, we preliminarily determine that Chengdu Huifeng New Material Technology Co., Ltd. is the successor-in-interest to Chengdu Huifeng Diamond Tools Co., Ltd. for purposes of antidumping duty liability because the changes to the legal status and name of the company resulted in no significant changes to management, production facilities, supplier relationships, or customers. As a result, we preliminarily determine that Chengdu Huifeng New Material Technology Co., Ltd. operates as essentially the same business entity as Chengdu Huifeng Diamond Tools Co., Ltd. Thus, we preliminarily determine that Chengdu Huifeng New Material Technology Co., Ltd. should receive the same antidumping duty cash deposit rate with respect to the subject merchandise as Chengdu Huifeng Diamond Tools Co., Ltd., its predecessor company.

If these preliminary results are adopted in our final results of this changed circumstances review, effective on the publication date of our final results, we will instruct CBP to suspend liquidation of entries of subject merchandise exported by Chengdu Huifeng New Material Technology Co., Ltd. at Chengdu Huifeng Diamond Tools Co., Ltd.’s cash deposit rate.

Public Comment

Interested parties may submit case briefs no later than 14 days after the publication of this notice.\textsuperscript{15} Rebuttal briefs, which must be limited to issues raised in case briefs, may be filed not later than five days after the deadline for filing case briefs.\textsuperscript{16} Parties who submit case briefs or rebuttal briefs in this changed circumstances review are requested to submit with each argument: (1) A statement of the issue; (2) a brief summary of the argument; and (3) a list of the issues to be discussed. Oral presentations at the hearing will be limited to issues raised in the briefs. If a request for a hearing is made, parties will be notified of the time and date for the hearing to be held at the U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230 in a room to be determined. Parties will be notified of the time and date of any hearing, if requested.\textsuperscript{18} All submissions, with limited exceptions, must be filed electronically using Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at http://access.trade.gov. An electronically-filed document must be received successfully in its entirety by no later than 5:00 p.m. Eastern Time on the date the document is due.

Notifications to Interested Parties

Consistent with 19 CFR 351.216(e), we intend to issue the final results of this changed circumstances review no later than 270 days after the date on which this review was initiated, or within 45 days after the publication of the preliminary results if all parties in this review agree to our preliminary results. The final results will include the Department’s analysis of issues raised in any written comments.

We are issuing and publishing this initiation and preliminary results notice in accordance with sections 751(b)(1) and 777(i)(1) of the Act, 19 CFR 351.216(b) and (d), and 19 CFR 351.221(c)(3).

Dated: November 1, 2017.

Gary Taverman,
Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

BILLING CODE 3510–DS–P

DEPARTMENT OF COMMERCE
International Trade Administration

[A–570–904]

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: On May 5, 2017 the Department of Commerce (the Department) published the preliminary results of the 9th administrative review of the antidumping duty order on certain activated carbon from the People’s Republic of China (PRC). We gave interested parties an opportunity to comment on the preliminary results. Based on our analysis of the comments received, we made changes to the margin calculations for these final results of the antidumping duty administrative review. The final weighted-average dumping margins are listed below in the “Final Results of the Review” section of this notice. The period of review (POR) is April 1, 2015, through March 31, 2016. The two mandatory respondents in this administrative review are Jacobi Carbons AB (Jacobi) and Datong Juqiang Activated Carbon Co. Ltd. (Datong Juqiang).

FOR FURTHER INFORMATION CONTACT: Robert Palmer or John Anwesen, AD/CVD Operations, Office VIII, Enforcement and Compliance, International Trade Administration, Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–9068, or (202) 482–0131, respectively.

SUPPLEMENTARY INFORMATION:

Background

The Department published the Preliminary Results\textsuperscript{1} on May 5, 2017. For events subsequent to the Preliminary Results, see the Department’s Issues and Decision

\textsuperscript{1} See Certain Activated Carbon from the People’s Republic of China: Preliminary Results of Antidumping Duty Administrative Review; 2015–2016, 82 FR 21195 (May 9, 2017), and accompanying Preliminary Decision Memorandum (Preliminary Results).
Memorandum. On July 24, 2017, in accordance with section 751(a)(3)(A) of the Tariff Act of 1930, as amended (Act), the Department extended the deadline for issuing the final results by 60 days until November 1, 2017.

Scope of the Order
The merchandise subject to the Order is certain activated carbon. The products are currently classifiable under the Harmonized Tariff Schedule of the United States (HTSUS) subheading 3802.10.00. Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the scope of the order remains dispositive.

Analysis of Comments Received
In the Issues and Decision Memorandum, we addressed all issues raised in parties’ case and rebuttal briefs. In Appendix I to this notice, we provided a list of the issues raised by parties. The Issues and Decision Memorandum is a public document and is on file in the Central Records Unit (CRU), Room B8024 of the main Department of Commerce building, as well as electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at https://access.trade.gov and is available to all parties in the CRU. In addition, parties can directly access a complete version of the Issues and Decision Memorandum on the internet at http://enforcement.trade.gov/frn/index.html. The signed Issues and Decision Memorandum and the electronic version of the Issues and Decision Memorandum are identical in content.

Verification
Pursuant to section 731(i) of the Act, and 19 CFR 351.307(b)(iv), from May 9–23, 2017, we conducted verification of the questionnaire responses of Datong Juqiang and Jacobi.8

Changes Since the Preliminary Results
Based on our review of the record and comments received from interested parties regarding our Preliminary Results, we made certain revisions to the margin calculations for Jacobi, Datong Juqiang, and the non-examined, separate rate respondents. Further, the Issues and Decision Memorandum contains descriptions of these revisions.8

Final Determination of No Shipments
In the Preliminary Results, the Department preliminarily determined that Calgon Carbon (Tianjin) Co., Ltd., Sinocarbon International Trading Co., Ltd., and Shanxi Dapu International Trade Co., Ltd. had no shipments during the period of review (POR).9 We received no information to contradict this determination. Therefore, the Department continues to determine that Calgon Carbon (Tianjin) Co., Ltd., Sinocarbon International Trading Co., Ltd., and Shanxi Dapu International Trade Co., Ltd. had no shipments of subject merchandise during the POR, and will issue appropriate liquidation instructions that are consistent with our “automatic assessment” clarification, for these final results.10

Pursuant to section 775(c)(5)(A) of the Act, 10 which articulates a preference for not calculating an all-others rate using rates which are zero, de minimis, or based entirely on facts available,12 Accordingly, the Department’s usual practice has been to determine the dumping margin for companies not individually examined by averaging the weighted-average dumping margins for the individually examined respondents, excluding rates that are zero, de minimis, or based entirely on facts available.13

In the Preliminary Results, the Department calculated rates for Datong Juqiang and Jacobi that were not zero, de minimis, or based entirely on facts

Separate Rate Respondents
In our Preliminary Results, we determined that Jacobi, Datong Juqiang, and 13 other companies demonstrated their eligibility for separate rates.11 We have received no comments or argument since the issuance of the Preliminary Results that provides a basis for reconsideration of these determinations. Therefore, for these final results, we continue to find that the 13 companies listed in the table in the “Final Results” section of this notice are eligible for a separate rate.

Rate for Non-Examined Separate Rate Respondents
The statute and the Department’s regulations do not address the establishment of a rate to be assigned to respondents not selected for individual examination when the Department limits its examination of companies subject to the administrative review pursuant to section 777A(c)(2)(B) of the Act. Generally, the Department looks to section 735(c)(5) of the Act, which provides instructions for calculating the all-others rate in an investigation, for guidance when calculating the rate for respondents not individually examined in an administrative review. Section 735(c)(5)(A) of the Act articulates a preference for not calculating an all-others rate using rates which are zero, de minimis, or based entirely on facts available.

In the Preliminary Results, the Department calculated rates for Datong Juqiang and Jacobi that were not zero, de minimis, or based entirely on facts

5 See Issues and Decision Memorandum for a complete description of the scope of the Order.

6 See Memorandum, “Verification of the Questionnaire Responses of Datong Juqiang Activated Carbon Co., Ltd. in the Antidumping

11 See Preliminary Results, 82 FR 21196, and accompanying Preliminary Decision Memorandum at 7–9.

12 See Ball Bearings and Parts Thereof from France, Germany, Italy, Japan, and the United Kingdom: Final Results of Antidumping Duty Administrative Reviews and Rescission of Reviews in Part, 73 FR 52823, 52824 (September 11, 2008), and accompanying Issues and Decision Memorandum at Comment 16.

14 See Preliminary Decision Memorandum at 10–11.
available. However, for these final results, the calculated rate for Datong Juqiang is zero, and the calculated rate for Jacobi continues to be above de minimis. Therefore, the Department has assigned to the companies that have not been individually examined, but have demonstrated their eligibility for a separate rate, Jacobi’s calculated rate for these final results.

**Final Results of the Review**

For companies subject to this review, which established their eligibility for a separate rate, the Department determines that the following weighted-average dumping margins exist for the POR from April 1, 2015, through March 31, 2016:

<table>
<thead>
<tr>
<th>Exporter</th>
<th>Weighted-average dumping margin (USD/kg)</th>

</tbody>
</table>

In the Preliminary Results, the Department found that 186 companies for which a review was requested did not establish eligibility for a separate rate because they did not file a separate rate application or a separate rate certification, as appropriate. No interested party commented on the Department’s preliminary determination with respect to these 186 companies. Therefore, for these final results we determine these companies, listed in Appendix II of this notice, to be part of the PRC-wide entity. Because no party requested a review of the PRC-wide entity, and the Department no longer considers the PRC-wide entity as an exporter conditionally subject to administrative reviews, we did not conduct a review of the PRC-wide entity. Thus, the weighted-average dumping margin for the PRC-wide entity (i.e., 2.42 USD/kg) is not subject to change as a result of this review.

**Assessment Rates**

Pursuant to section 751(a)(2)(C) of the Act and 19 CFR 351.212(b), the Department has determined, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries covered by this review. The Department intends to issue assessment instructions to CBP 15 days after the publication date of these final results of review.

For each individually-examined respondent in this review which has a final weighted-average dumping margin that is not zero or de minimis (i.e., less than 0.5 percent), we will calculate importer- (or customer-) specific per-unit duty assessment rates based on the ratio of the total amount of dumping calculated for the importer’s (or customer’s) examined sales to the total sales quantity associated with those sales, in accordance with 19 CFR 351.212(b)(1). The Department will also calculate (estimated) ad valorem importer-specific assessment rates with which to assess whether the per-unit assessment rates are de minimis. Where either the respondent’s weighted-average dumping margin is zero or de minimis, or an importer- (or customer-) specific assessment rate is zero or de minimis, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.

For the respondents which were not selected for individual examination in this administrative review and which qualified for a separate rate, the assessment rate will be equal to the rate assigned to them for the final results (i.e. the 0.22 USD/kg rate for Jacobi). For the companies identified in Appendix II as part of the PRC-wide entity, we will instruct CBP to apply a per-unit assessment rate of 2.42 USD/kg to all entries of subject merchandise during the POR which were produced or exported by those companies. Pursuant to a refinement in the Department’s non-market economy practice, for sales that were not reported in the U.S. sales data submitted by companies individually examined during this review, the Department will instruct CBP to liquidate entries associated with those sales at the rate for the PRC-wide entity. Furthermore, where the Department found that an exporter under review had no shipments of the subject merchandise, any suspended entries that entered under that exporter’s case number (i.e., at that exporter’s cash deposit rate) will be liquidated at the rate for the PRC-wide entity.

**Cash Deposit Requirements**

The following per-unit cash deposit requirements will be effective upon publication of the final results of this administrative review for all shipments of the subject merchandise from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by section 751(a)(2)(C) of the Act: (1) For Jacobi, Datong Juqiang, and the non-examined, separate rate respondents, the cash deposit rate will be equal to their weighted-average dumping margins established in the final results of this review; (2) for previously investigated or reviewed PRC and non-PRC exporters not listed above that have separate rates, the cash deposit rate will continue to be the exporter-specific rate published for the most recently completed segment of this proceeding in which they were reviewed; (3) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate,
the cash deposit rate will be equal to the weighted-average dumping margin for the PRC-wide entity (i.e., 2.42 USD/kg); and (4) for all non-PRC exporters of subject merchandise which have not received their own separate rate, the cash deposit rate will be the rate applicable to the PRC exporter(s) that supplied that non-PRC exporter. These per-unit cash deposit requirements, when imposed, shall remain in effect until further notice.

Disclosure

We intend to disclose the calculations performed within five days of the date of publication of this notice to parties in this proceeding in accordance with 19 CFR 351.224(b).

Notification to Importers Regarding the Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties has occurred and the subsequent assessment of double antidumping duties.

Notification Regarding Administrative Protective Order

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and terms of an APO is a violation which is subject to sanction.

We are issuing and publishing these final results of administrative review and notice in accordance with sections 751(a)(1) and 777(i) of the Act.

Dated: November 1, 2017.

Gary Taverman,
Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.
