Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; 2017 Commercial Accountability Measure and Closure for South Atlantic Gray Triggerfish; July Through December Season

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS implements accountability measures for commercial gray triggerfish in the exclusive economic zone (EEZ) of the South Atlantic. NMFS projects commercial landings for gray triggerfish will reach the commercial annual catch limit (ACL) (commercial quota) for the period of July through December by October 29, 2017. Therefore, NMFS is closing the commercial sector for gray triggerfish in the South Atlantic EEZ on November 8, 2017. This closure is necessary to protect the gray triggerfish resource.

DATES: This rule is effective 12:01 a.m., local time, November 8, 2017, until January 1, 2018.

FOR FURTHER INFORMATION CONTACT: Mary Vara, NMFS Southeast Regional Office, telephone: 727-824-5305, email: *mary.vara@noaa.gov*.

SUPPLEMENTARY INFORMATION: The snapper-grouper fishery of the South Atlantic includes gray triggerfish and is managed under the Fishery Management Plan for the Snapper-Grouper Fishery of the South Atlantic Region (FMP). The FMP was prepared by the South Atlantic Fishery Management Council and is implemented by NMFS under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act) by regulations at 50 CFR part 622.

The final rule implementing Amendment 29 to the FMP (80 FR 30947, June 1, 2015) divided the commercial ACL (commercial quota) for gray triggerfish in the South Atlantic into two 6-month commercial fishing seasons and allocated 50 percent of the total commercial quota of 312,324 lb (141,668 kg), round weight, to each of the January 1 through June 30 and July 1 through December 31 fishing seasons, as specified in 50 CFR 622.190(a)(8). As a result, the commercial quota is divided into two equal seasonal quotas of 156,162 lb (70,834 kg), round weight.

The 2017 July through December quota includes 20,278 lb (9,198 kg), round weight, that was not harvested during the 2017 January through June fishing season. In accordance with 50 CFR 622.190(a)(8)(iii), the unused portion of the 2017 January through June quota was added to the 2017 July through December quota, for an adjusted commercial quota of 176,440 lb (80,032 kg), round weight.

Under 50 CFR 622.193(q)(1)(i), NMFS is required to close the commercial sector for gray triggerfish when the commercial quota specified in § 622.190(a)(8)(i) or (ii) is reached, or is projected to be reached, by filing a notification to that effect with the Office of the Federal Register. NMFS has determined that the adjusted commercial quota for South Atlantic gray triggerfish will be reached by October 29, 2017. Accordingly, the commercial sector for South Atlantic gray triggerfish is closed effective 12:01 a.m., local time, November 8, 2017, until the start of the next commercial fishing season on January 1, 2018.

The operator of a vessel with a valid commercial vessel permit for South Atlantic snapper-grouper having gray triggerfish onboard must have landed

and bartered, traded, or sold such gray triggerfish prior to 12:01 a.m., local time, November 8, 2017. During the closure, the bag limit specified in 50 CFR 622.187(b)(8), and the possession limits specified in 50 CFR 622.187(c), apply to all harvest or possession of gray triggerfish in or from the South Atlantic EEZ. Also, during the closure, the sale or purchase of gray triggerfish taken from the South Atlantic EEZ is prohibited. The prohibition on the sale or purchase does not apply to gray triggerfish that were harvested, landed ashore, and sold prior to 12:01 a.m., local time, November 8, 2017, and were held in cold storage by a dealer or processor.

For a person onboard a vessel for which a Federal commercial or charter vessel/headboat permit for the South Atlantic snapper-grouper fishery has been issued, the bag and possession limits and sale and purchase prohibitions applicable after the commercial quota closure for gray triggerfish apply regardless of whether the fish are harvested in state or Federal waters, as specified in 50 CFR 622.193(q)(1)(i).

Classification

The Regional Administrator, Southeast Region, NMFS, has determined this temporary rule is necessary for the conservation and management of gray triggerfish and the South Atlantic snapper-grouper fishery and is consistent with the Magnuson-Stevens Act and other applicable laws.

This action is taken under 50 CFR 622.193(q)(1)(i) and is exempt from review under Executive Order 12866.

These measures are exempt from the procedures of the Regulatory Flexibility Act because the temporary rule is issued without opportunity for prior notice and comment.

This action responds to the best scientific information available. The NOAA Assistant Administrator for Fisheries (AA), finds that the need to immediately implement this action to close the commercial sector for gray triggerfish constitutes good cause to waive the requirements to provide prior notice and opportunity for public comment pursuant to the authority set forth in 5 U.S.C. 553(b)(B), as such procedures are unnecessary and contrary to the public interest. Such procedures are unnecessary because the rule implementing Amendment 29, which established the split commercial seasons and quotas for gray triggerfish, and the accountability measures have already been subject to notice and comment, and all that remains is to notify the public of the closure. Such

procedures are contrary to the public interest because of the need to immediately implement this action to protect gray triggerfish since the capacity of the fishing fleet allows for rapid harvest of the commercial quota. Prior notice and opportunity for public comment would require time and could potentially result in a harvest well in excess of the established commercial quota.

For the aforementioned reasons, the AA also finds good cause to waive the 30-day delay in the effectiveness of this action under 5 U.S.C. 553(d)(3).

Authority: 16 U.S.C. 1801 *et seq.*

Dated: November 3, 2017.

Emily Menashes,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN 0648-XF806

Fisheries of the Northeastern United States; Summer Flounder Fishery; Quota Transfer

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; quota transfer.

SUMMARY: NMFS announces that the State of Maine is transferring a portion of its 2017 commercial summer flounder quota to the State of Connecticut. This quota adjustment is necessary to comply with the Summer Flounder, Scup, and Black Sea Bass Fishery Management Plan quota transfer provisions. This announcement informs the public of the revised commercial quotas for Maine and Connecticut.

DATES: Effective November 7, 2017, through December 31, 2017.

FOR FURTHER INFORMATION CONTACT: Cynthia Hanson, Fishery Management Specialist, (978) 281-9180.

SUPPLEMENTARY INFORMATION: Regulations governing the summer flounder fishery are found in 50 CFR 648.100 through 648.110. These regulations require annual specification of a commercial quota that is apportioned among the coastal states from Maine through North Carolina. The

process to set the annual commercial quota and the percent allocated to each state is described in § 648.102, and the initial 2017 allocations were published on December 22, 2016 (81 FR 93842).

The final rule implementing Amendment 5 to the Summer Flounder Fishery Management Plan, as published in the **Federal Register** on December 17, 1993 (58 FR 65936), provided a mechanism for transferring summer flounder commercial quota from one state to another. Two or more states, under mutual agreement and with the concurrence of the NMFS Greater Atlantic Regional Administrator, can transfer or combine summer flounder commercial quota under § 648.102(c)(2). The Regional Administrator is required to consider the criteria in § 648.102(c)(2)(i)(A) through (C) in the evaluation of requests for quota transfers or combinations.

Maine is transferring 2,500 lb (1,134 kg) of summer flounder commercial quota to Connecticut. This transfer was requested by state officials in Connecticut to ensure their commercial summer flounder quota is not exceeded. The revised summer flounder quotas for calendar year 2017 are now: Maine, 192 lb (87 kg); and Connecticut, 130,234 lb (59,073 kg); based on the initial quotas published in the 2017 Summer Flounder, Scup, and Black Sea Bass Specifications and subsequent transfers.

Classification

This action is taken under 50 CFR part 648 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*
