SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket NRC-2017-0211 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- *Federal Rulemaking Web site*: Go to <http://www.regulations.gov> and search for Docket ID NRC-2017-0211.

- *NRC's Agencywide Documents Access and Management System (ADAMS)*: You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. NUREG-2215, "Standard Review Plan for Spent Fuel Dry Storage Systems and Facilities," is available in ADAMS under Accession No. ML17310A693.

- *NRC's PDR*: You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

B. Submitting Comments

Please include Docket ID NRC-2017-0211 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC posts all comment submissions at <http://www.regulations.gov> as well as entering the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or

entering the comment submissions into ADAMS.

II. Discussion

The NRC utilizes information that is currently contained in multiple documents (NUREG-1536, NUREG-1567, and numerous ISGs) to assist the NRC staff in its reviews of spent fuel storage applications. The NRC's intent in combining and updating these documents into one document is to assist the NRC staff in its reviews by promoting a consistent regulatory review of a SAR for an ISFSI or a MRS license, or for a CoC; by promoting quality and uniformity of these reviews across each technical discipline; presenting a basis for the review's scope; identifying acceptable approaches to meeting regulatory requirements; and suggesting possible evaluation findings that can be used in the safety evaluation report for applications submitted under part 72 of title 10 of the *Code of Federal Regulations*.

By this action, the NRC is requesting public comments on draft NUREG-2215. The NRC invites comments on all portions of this SRP that the commenter thinks the NRC should consider. The NRC will make a final determination regarding issuance of the NUREG after it considers any public comments received in response to this request.

Dated at Rockville, Maryland, this 8th day of November 2017.

For the Nuclear Regulatory Commission.

Michael Layton,

Director, Division of Spent Fuel Management, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-333 and 72-012; License No. DPR-59; NRC-2017-0177]

License Transfer From Exelon Generation Company, LLC to James A. FitzPatrick Nuclear Power Plant

AGENCY: Nuclear Regulatory Commission.

ACTION: Direct transfer of license; order.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing an order approving the transfer of the James A. FitzPatrick Nuclear Power Plant Renewed Facility Operating License No. DPR-59, and the transfer of the generally licensed FitzPatrick Independent Spent Fuel Storage Installation from Exelon Generation

Company, LLC to Exelon FitzPatrick, LLC.

DATES: The Order was issued on November 7, 2017, and is effective for 1 year.

ADDRESSES: Please refer to Docket ID NRC-2017-0177 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking Web site*: Go to <http://www.regulations.gov> and search for Docket ID NRC-2017-0177. Address questions about NRC dockets to Carol Gallagher; telephone: 301-415-3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS)*: You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "ADAMS Public Documents" and then select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced in this document (if that document is available in ADAMS) is provided the first time that a document is referenced.

- *NRC's PDR*: You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

FOR FURTHER INFORMATION CONTACT: Booma Venkataraman, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington DC 20555-0001; telephone: 301-415-2934; email: Booma.Venkataraman@nrc.gov.

SUPPLEMENTARY INFORMATION: The text of the Order is attached.

Dated at Rockville, Maryland, this 9th day of November 2017.

For the Nuclear Regulatory Commission.
Booma Venkataraman,
*Project Manager, Plant Licensing Branch I,
 Division of Operating Reactor Licensing,
 Office of Nuclear Reactor Regulation.*

Attachment—Order Approving Direct Transfer of License and Approving Conforming Amendment

UNITED STATES OF AMERICA

NUCLEAR REGULATORY COMMISSION

Docket Nos. 50–333 and 72–012; License No. DPR–59

In the Matter of Exelon Generation Company, LLC James A. FitzPatrick Nuclear Power Plant

ORDER APPROVING DIRECT TRANSFER OF LICENSE AND APPROVING CONFORMING AMENDMENT

I.

Exelon Generation Company, LLC (Exelon Generation) is the owner and operator of the James A. FitzPatrick Nuclear Power Plant (FitzPatrick) and the holder of Renewed Facility Operating License No. DPR–59 and the general license for the FitzPatrick Independent Spent Fuel Storage Installation (ISFSI). FitzPatrick is a General Electric boiling-water reactor located in Oswego County, New York.

II.

By application dated July 24, 2017 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML17206A395), Exelon Generation, and its wholly owned subsidiary, Exelon FitzPatrick, LLC (Exelon FitzPatrick), jointly requested, pursuant to Title 10 of the *Code of Federal Regulations* (10 CFR), Section 50.80, “Transfer of licenses,” that the U.S. Nuclear Regulatory Commission (NRC) consent to the direct transfer of the FitzPatrick renewed facility operating license and the FitzPatrick ISFSI general license from Exelon Generation to Exelon FitzPatrick. Future references to FitzPatrick include the general license for the FitzPatrick ISFSI. In response to the request by Exelon Generation and Exelon FitzPatrick for consent to the direct transfer of the FitzPatrick renewed facility operating license and the FitzPatrick ISFSI general license, the NRC published a notice entitled, “James A. FitzPatrick Nuclear Power Plant; Consideration of Approval of Transfer of License and Conforming Amendment,” in the **Federal Register** on August 17, 2017 (82 FR 39139). The NRC received no comments and no hearing requests.

Under 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the NRC gives its consent in writing. Upon review of the information in the application, and other information before the NRC, and relying upon the representations and agreements contained in the application, the NRC staff has determined that Exelon FitzPatrick is qualified to hold the FitzPatrick renewed facility operating license and the FitzPatrick ISFSI general

license. Following completion of the license transfer, Exelon FitzPatrick would acquire ownership of FitzPatrick. Exelon Generation would continue to be responsible for the operation and maintenance of FitzPatrick. The NRC staff has also determined that the transfer of these licenses is otherwise consistent with the applicable provisions of law, regulations, and orders issued by the NRC, pursuant thereto, subject to the condition set forth below.

Upon review of the application for a conforming license amendment to reflect this transfer, the NRC staff has determined that the application for the conforming license amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission’s rules and regulations set forth in 10 CFR chapter I; the facility will operate in conformity with the application, the provisions of the Act, and the rules and regulations of the Commission; there is reasonable assurance that the activities authorized by this amendment can be conducted without endangering the health and safety of the public and that such activities will be conducted in compliance with the Commission’s regulations; the issuance of this amendment will not be inimical to the common defense and security or to the health and safety of the public; and the issuance of this amendment will be in accordance with 10 CFR part 51 of the Commission’s regulations and all applicable requirements will have been satisfied.

The findings set forth above are supported by an NRC safety evaluation dated November 7, 2017 (ADAMS Accession No. ML17240A069).

III.

Accordingly, pursuant to Sections 161b, 161i, 161o, and 184 of the Atomic Energy Act of 1954, as amended (the Act), 42 U.S.C. 2201(b), 2201(i), 2201(o), and 2234; and 10 CFR 50.80, *it is hereby ordered* that the application regarding the proposed direct license transfer is approved, subject to the following condition:

Prior to the completion of the license transfer, Exelon FitzPatrick, LLC shall provide satisfactory documentary evidence to the Director of the Office of Nuclear Reactor Regulation that it has obtained the appropriate amount of insurance required of a licensee under 10 CFR part 140 and 10 CFR 50.54(w).

It is further ordered that, consistent with 10 CFR 2.1315(b), the license be changed, as indicated in Enclosure 2 to the cover letter forwarding this Order, to conform the license to reflect that the subject direct license transfer is approved. The amendment shall be issued and made effective at the time the proposed direct license transfer is completed.

It is further ordered that, after receipt of all required regulatory approvals of the proposed direct license transfer, Exelon FitzPatrick shall inform the Director of the Office of Nuclear Reactor Regulation in writing of such receipt, and of the date of closing of the transfer, no later than 2 business days prior to the date of the closing of the direct license transfer. Should the

proposed direct license transfer not be completed within 1 year of this Order’s date of issuance, this Order shall become null and void, provided, however, upon written application and for good cause shown, such date may be extended by order.

This Order is effective upon issuance.

For further details with respect to this Order, see the application dated July 24, 2017, and the NRC’s nonproprietary Safety Evaluation dated November 7, 2017 (ADAMS Accession No. ML17240A069), which are available for public inspection at the Commission’s Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available documents created or received at the NRC are accessible electronically through ADAMS in the NRC Library at <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR reference staff by telephone at 1–800–397–4209 or 301–415–4737, or by email to pdresource@nrc.gov.

Dated at Rockville, Maryland, this 7th day of November 2017.

For the Nuclear Regulatory Commission.

Michele G. Evans,

Deputy Director for Reactor Safety Programs and Mission Support, Office of Nuclear Reactor Regulation.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50–482; NRC–2017–0217]

Wolf Creek Generating Station: Consideration of Approval of Transfer of License

AGENCY: Nuclear Regulatory Commission.

ACTION: Application for indirect transfer of license; opportunity to comment, request a hearing, and petition for leave to intervene.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) received and is considering approval of an indirect license transfer application filed by Wolf Creek Nuclear Operating Corporation (WCNOC) on September 5, 2017. The WCNOC is the licensed operator of Wolf Creek Generating Station (WCGS). Kansas City Power & Light Company (KCP&L) and Kansas Gas and Electric Company (KG&E) are two of the three non-operating owner licensees, each holding a 47 percent undivided interest in WCGS and 47 percent of the stock of WCNOC. The KCP&L is a subsidiary of Great Plains Energy, Inc. (Great Plains) and KG&E is a subsidiary of Westar Energy, Inc.
