DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice of Availability of the Final Supplemental Environmental Assessment (SEA) and Amended Finding of Non-Significant Impact/Record of Decision (FONSI/ROD) for the Runway 13/31 Shift/Extension and Associated Improvements Project for the Detroit Lakes-Becker County Airport (DTL) in Detroit Lakes, MN

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice.

SUMMARY: The FAA is issuing this notice to advise the public that the FAA has prepared and approved (September 6, 2017) an Amended FONSI/ROD based on the Final SEA for the DTL Runway 13/31 Shift/Extension and Associated Improvements Project. The Final SEA was prepared in accordance with the National Environmental Policy Act (NEPA) of 1969, as amended. FAA Orders 1050.1F, “Environmental Impacts: Policies and Procedures” and 5050.4B, “NEPA Implementing Instructions for Airport Actions”.

DATES: This notice is applicable November 21, 2017.

FOR FURTHER INFORMATION CONTACT: Mr. Josh Fitzpatrick, Environmental Protection Specialist, FAA Dakota-Minnesota Airports District Office (ADO), 6020 28th Avenue South, Suite 102, Minneapolis, Minnesota, 55450. Telephone number is (612) 253–4639.

Copies of the Amended FONSI/ROD and/or Final SEA are available upon written request by contacting Mr. Josh Fitzpatrick through the contact information above.

SUPPLEMENTARY INFORMATION: The Final SEA evaluated the DTL Runway 13/31 Shift/Extension and Associated Improvements Project. Due to airfield deficiencies identified by the FAA and Minnesota Department of Transportation (MnDOT) at DTL, the purpose of the proposed action is to provide a usable, reliable, and safe primary runway at an airport in or near the City of Detroit Lakes that is compliant with FAA and MnDOT design standards, guidance, and minimum system objectives for key airports.

During the design phase, it was discovered that several additional project components were not evaluated by the 2016 FEA and FONSI/ROD, therefore, the FAA determined that the proposed action needs to be updated with a SEA to include project components not explicitly considered.

The additional project components as part of the proposed action include: 1. Existing utilities impacted by the project. 2. Visual NAVAIDS (wind cone and segmented circle) impacted by the project. 3. Buildings to be removed in part of the proposed action include: 1. Visual NAVAIDS (wind cone and segmented circle) impacted by the project. 4. Relocation of Highway 59 access. 5. Effluent discharge from upgraded wastewater treatment facility.
