AGENCY: Economic Development Administration, U.S. Department of Commerce.

ACTION: Notice and opportunity for public comment.

SUMMARY: The Economic Development Administration (EDA) has received petitions for certification of eligibility to apply for Trade Adjustment Assistance from the firms listed below. Accordingly, EDA has initiated investigations to determine whether increased imports into the United States of articles like or directly competitive with those produced by each of the firms contributed importantly to the total or partial separation of the firms’ workers, or threat thereof, and to a decrease in sales or production of each petitioning firm.

Kubota North America Corporation (Kubota) submitted a notification of proposed production activity to the FTZ Board for its facilities in Jefferson and Gainesville, Georgia. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on November 15, 2017.

Kubota facilities are located within Subzone 26P. The facilities are used for the production of gasoline and diesel-powered agricultural and specialty vehicles such as backhoes, front loaders, skid steer loaders, lawn tractors and lawn mowers, sub-compact tractors and work utility vehicles. Pursuant to 15 CFR 400.14(b), FTZ activity would be limited to the specific foreign-status materials and components and specific finished products described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Kubota from customs duty payments on the foreign-status materials/components used in export production (estimated 20 percent of production). On its domestic sales, for the foreign-status materials/components noted below, Kubota would be able to choose the duty rates during customs entry procedures that apply to: Cabin tool box kits; heat, water, and sound insulation kits; weather strip kits;
