This revision implements the new forms for the Lifeline program for consumer enrollment and certification, recertification, and one-per household verification. These forms are intended for use as standard forms for all consumers and ETCs participating in the Lifeline program. This revision also implements the transition to payment of the Lifeline reimbursement to ETCs based on data from USAC's NLAD database. In the Lifeline Third Reform Order, the Commission directed USAC to propose improved methods of providing payment to Lifeline providers that will reduce costs and burdens to the Fund and to Lifeline providers. In addition, the Commission seeks to update the number of respondents for certain requirements contained in this information collection, thus increasing the total burden hours for some requirements and decreasing the total burden hours for other requirements.

To facilitate effective public comment on the proposal, the Board previously extended the comment period from October 10, 2017, to November 30, 2017. The Board has determined that an additional extension of the comment period until February 15, 2018, is appropriate. This action will allow interested persons additional time to

For the hearing impaired only, Telecommunications Device for the Deaf (TDD) users may contact (202) 263-4869.

SUPPLEMENTARY INFORMATION: On August 9, 2017, the Board published in the **Federal Register** proposed guidance¹ on supervisory expectations for boards of directors of firms supervised by the Federal Reserve. The proposal addresses supervisory expectations for boards of directors of bank holding companies, savings and loan holding companies, state member banks, U.S. branches and agencies of foreign banking organizations, and systemically important nonbank financial companies designated by the Financial Stability Oversight Council for supervision by the Federal Reserve. For the largest domestic bank and savings and loan holding companies and systemically important nonbank financial companies, the proposal would establish attributes of effective boards centered on the board's core responsibilities, which support safety and soundness, and would provide the framework with which the Federal Reserve would evaluate the effectiveness of a firm's boards of directors. For all domestic bank and savings and loan holding companies, certain existing Federal Reserve Supervision and Regulation letters containing supervisory expectations for boards of directors would be revised or eliminated to more clearly distinguish a board's roles and responsibilities from those of senior management and allow boards to focus
