

Section 75.1732(d)(4) requires the records to be maintained in a secure book or electronically in a secure computer system not susceptible to alteration.

Section 75.1732(d)(5) requires records to be retained for a period of at least one year and that they be made available for inspection by authorized representatives of the Secretary and representatives of miners.

II. Desired Focus of Comments

MSHA is soliciting comments concerning the proposed information collection related to Proximity Detection Systems for Continuous Mining Machines in Underground Coal Mines. MSHA is particularly interested in comments that:

- Evaluate whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility;
- Evaluate the accuracy of MSHA's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- Suggest methods to enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

The information collection request will be available on <http://www.regulations.gov>. MSHA cautions the commenter against providing any information in the submission that should not be publicly disclosed. Full comments, including personal information provided, will be made available on www.regulations.gov and www.reginfo.gov.

The public may also examine publicly available documents at USDOL-Mine Safety and Health Administration, 201 12th South, Suite 4E401, Arlington, VA 22202-5452. Sign in at the receptionist's desk on the 4th floor via the East elevator.

Questions about the information collection requirements may be directed to the person listed in the **FOR FURTHER INFORMATION CONTACT** section of this notice.

III. Current Actions

This request for collection of information contains provisions for Proximity Detection Systems for Continuous Mining Machines in

Underground Coal Mines. MSHA has updated the data with respect to the number of respondents, responses, burden hours, and burden costs supporting this information collection request.

Type of Review: Extension, without change, of a currently approved collection.

Agency: Mine Safety and Health Administration.

OMB Number: 1219-0148.

Affected Public: Business or other for-profit.

Number of Respondents: 209.

Frequency: On occasion.

Number of Responses: 291,137.

Annual Burden Hours: 828 hours.

Annual Respondent or Recordkeeper Cost: \$0.

Comments submitted in response to this notice will be summarized and included in the request for Office of Management and Budget approval of the information collection request; they will also become a matter of public record.

Sheila McConnell,

Certifying Officer.

OFFICE OF MANAGEMENT AND BUDGET

Designation of Databases for Treasury's Working System Under the Do Not Pay Initiative

AGENCY: Office of Management and Budget.

ACTION: Notice of designation.

SUMMARY: Section 5(b)(1)(B) of the Improper Payments Elimination and Recovery Improvement Act of 2012 (IPERIA) provides that the Director of the Office of Management and Budget (OMB), in consultation with agencies, may designate additional databases for inclusion under the Do Not Pay (DNP) Initiative. IPERIA further requires OMB to provide public notice and an opportunity for comment prior to designating additional databases. In fulfillment of this requirement, on September 13, 2017, OMB published a Notice of Proposed Designation (82 FR 43041) for six additional databases. OMB did not receive any comments during the 30-day comment period for this notice. Effective immediately OMB designates the following six databases: (1) The Department of the Treasury's (Treasury) Office of Foreign Assets Control's Specially Designated Nationals List (OFAC List), (2) data from the General Services Administration's

(GSA) System for Award Management (SAM) sensitive financial data from entity registration records (including those records formerly housed in the legacy Excluded Parties List System), (3) the Internal Revenue Service's (IRS) Automatic Revocation of Exemption List (ARL), (4) the IRS's Exempt Organizations Select Check (EO Select Check), (5) the IRS's e-Postcard database, and (6) the commercial database American InfoSource (AIS) Deceased Data for inclusion in the Do Not Pay Initiative.

FOR FURTHER INFORMATION CONTACT: Brian Nichols at the OMB Office of Federal Financial Management at 202-395-3993.

Mark Reger,

Deputy Controller.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 52-025 and 52-026; NRC-2008-0252]

Southern Nuclear Operating Company, Inc., Vogtle Electric Generating Plant, Units 3 and 4; Fire Protection System Piping That Must Remain Functional Following a Safe Shutdown Earthquake

AGENCY: Nuclear Regulatory Commission.

ACTION: Exemption and combined license amendment; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is granting an exemption to allow a departure from the certification information of Tier 1 of the generic design control document (DCD) and is issuing License Amendment Nos. 92 and 91 to Combined Licenses (COL), NPF-91 and NPF-92, respectively. The COLs were issued to Southern Nuclear Operating Company, Inc., and Georgia Power Company, Oglethorpe Power Corporation, MEAG Power SPVM, LLC, MEAG Power SPVJ, LLC, MEAG Power SPVP, LLC, Authority of Georgia, and the City of Dalton, Georgia (the licensee); for construction and operation of the Vogtle Electric Generating Plant (VEGP) Units 3 and 4, located in Burke County, Georgia.

The granting of the exemption allows the changes to Tier 1 information asked for in the amendment. Because the acceptability of the exemption was determined in part by the acceptability of the amendment, the exemption and amendment are being issued concurrently.

DATES: The exemption and amendment were issued on October 20, 2017.

ADDRESSES: Please refer to Docket ID NRC-2008-0252 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC is granting an exemption from paragraph B of section III, "Scope and Contents," of appendix D, "Design Certification Rule for the AP1000," to part 52 of title 10 of the *Code of Federal Regulations* (10 CFR), and issuing License Amendment Nos. 92 and 91 to COLs, NPF-91 and NPF-92, respectively, to the licensee. The exemption is required by paragraph A.4 of section VIII, "Processes for Changes and Departures," appendix D, to 10 CFR part 52 to allow the licensee to depart

from Tier 1 information. With the requested amendment, the licensee sought proposed changes to the Updated Final Safety Analysis Report in the form of departures from the incorporated plant-specific DCD Tier 2 information and involves changes to COL Appendix C. The proposed changes more clearly define the boundaries and seismic requirements for the portion of the fire protection system that is required to remain functional following a safe shutdown earthquake.

Part of the justification for granting the exemption was provided by the review of the amendment. Because the exemption is necessary in order to issue the requested license amendment, the NRC granted the exemption and issued the amendment concurrently, rather than in sequence. This included issuing a combined safety evaluation containing the NRC staff's review of both the exemption request and the license amendment. The exemption met all applicable regulatory criteria set forth in §§ 50.12, 52.7, and section VIII.A.4 of appendix D to 10 CFR part 52. The license amendment was found to be acceptable as well. The combined safety evaluation is available in ADAMS under Accession No. ML17270A262.

Identical exemption documents (except for referenced unit numbers and license numbers) were issued to the licensee for VEGP Units 3 and 4 (COLs NPF-91 and NPF-92). The exemption documents for VEGP Units 3 and 4 can be found in ADAMS under Accession Nos. ML17270A183 and ML17270A184, respectively. The exemption is reproduced (with the exception of abbreviated titles and additional citations) in Section II of this document. The amendment documents for COLs NPF-91 and NPF-92 are available in ADAMS under Accession Nos. ML17270A185 and ML17270A187, respectively. A summary of the amendment documents is provided in Section III of this document.

II. Exemption

Reproduced below is the exemption document issued to VEGP Units 3 and Unit 4. It makes reference to the combined safety evaluation that provides the reasoning for the findings made by the NRC (and listed under Item 1) in order to grant the exemption:

1. In a letter dated May 5, 2017, the licensee requested from the Commission an exemption to allow departures from Tier 1 information in the certified DCD incorporated by reference in 10 CFR part 52, appendix D, as part of license amendment request 17-013, "Fire Protection System (FPS) Piping That

Must Remain Functional Following a Safe Shutdown Earthquake."

For the reasons set forth in Section 3.1 of the NRC staff's Safety Evaluation, which can be found in ADAMS under Accession No. ML17270A262, the Commission finds that:

A. The exemption is authorized by law;

B. the exemption presents no undue risk to public health and safety;

C. the exemption is consistent with the common defense and security;

D. special circumstances are present in that the application of the rule in this circumstance is not necessary to serve the underlying purpose of the rule;

E. the special circumstances outweigh any decrease in safety that may result from the reduction in standardization caused by the exemption; and

F. the exemption will not result in a significant decrease in the level of safety otherwise provided by the design.

2. Accordingly, the licensee is granted an exemption from the certified DCD Tier 1 information, with corresponding changes to Appendix C of the Facility Combined License as described in the licensee's request dated May 5, 2017. This exemption is related to, and necessary for the granting of License Amendment No. 92 (Unit 3) and 91 (Unit 4), which is being issued concurrently with this exemption.

3. As explained in Section 5.0 of the NRC staff's Safety Evaluation (ADAMS Accession No. ML17270A262), this exemption meets the eligibility criteria for categorical exclusion set forth in 10 CFR 51.22(c)(9). Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment needs to be prepared in connection with the issuance of the exemption.

4. This exemption is effective as of the date of its issuance.

III. License Amendment Request

By letter dated May 5, 2017 (ADAMS Accession No. ML17128A120), the licensee requested that the NRC amend the COLs for VEGP, Units 3 and 4, COLs NPF-91 and NPF-92. The proposed amendment is described in Section I of this **Federal Register** notice.

The Commission has determined for these amendments that the application complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

A notice of consideration of issuance of amendment to facility operating license or COL, as applicable, proposed no significant hazards consideration determination, and opportunity for a hearing in connection with these actions, was published in the **Federal Register** on July 18, 2017 (82 FR 32884). No comments were received during the 30-day comment period.

The Commission has determined that these amendments satisfy the criteria for categorical exclusion in accordance with 10 CFR 51.22. Therefore, pursuant to 10 CFR 51.22(b), no environmental impact statement or environmental assessment need be prepared for these amendments.

IV. Conclusion

Using the reasons set forth in the combined safety evaluation, the staff granted the exemption and issued the amendment that the licensee requested on May 5, 2017.

The exemption and amendment were issued on October 20, 2017, as part of a combined package to the licensee (ADAMS Accession No. ML17270A181).

Dated at Rockville, Maryland, this 20th day of November, 2017.

For the Nuclear Regulatory Commission.

Jennifer L. Dixon-Herrity,

Chief, Licensing Branch 4, Division of New Reactor Licensing, Office of New Reactors.

B. Submitting Comments

Please include Docket ID NRC-2017-0222 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS.

The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Discussion

In accordance with 10 CFR 110.70(b), the NRC is noticing the receipt of import and export license amendment applications submitted by AREVA Inc. on August 9, 2017, and August 24, 2017, for the import and export of radioactive waste from Germany to the State of Washington, and the return of certain wastes to Germany. This request comes as the result of a company reorganization and name change, detailed in a 2014 letter submitted by AREVA Inc. (ML14129A013). AREVA Inc. has submitted these amendment requests to: (1) Address the company name change, (2) update the licensee
