SUPPLEMENTARY INFORMATION:

Agenda
The Scientific and Statistical Committee will review the 2017 Plan B Operational Assessment for Atlantic Halibut, and the work provided by the SSC sub-panel review and the Groundfish Plan Development Team. Taking into account the Council’s Risk Policy Statement, the SSC will recommend an OFL and an ABC for each fishing year 2018–2020 that will prevent overfishing, and achieve rebuilding if needed, consistent with the Council’s ABC control rule for groundfish stocks. Other business will be discussed as needed.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council’s intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations
This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies, Executive Director, at 978–465–0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 et seq.

A public listening station will also be available at the Pacific Council office.
Council address: Pacific Fishery Management Council, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220.
SUPPLEMENTARY INFORMATION: The purpose of this webinar is for the EWG to discuss work associated with the Climate Change and Communities Initiative, which the Council has decided to embark upon. Two tasks have been assigned to the EWG as initial steps in this initiative. First, the EWG is organizing a series of briefings for the Council family on the potential effects of climate change on the California Current Ecosystem including fishing communities. Second, the EWG will draft a report on major Council decision types that may benefit from information on climate change impacts. This webinar is an opportunity for the EWG to discuss progress on these tasks and plan their completion. Public comments during the webinar will be received from attendees at the discretion of the EWG chair.

Although non-emergency issues not contained in the meeting agenda may be discussed, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this document and any issues arising after publication of this document that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.
