

proposing a revision of an existing information collection.

**DATES:** Interested persons are invited to submit comments on or before February 2, 2018.

**ADDRESSES:** To access and review all the documents related to the information collection listed in this notice, please use <http://www.regulations.gov> by searching the Docket ID number ED–2017–ICCD–0148. Comments submitted in response to this notice should be submitted electronically through the Federal eRulemaking Portal at <http://www.regulations.gov> by selecting the Docket ID number or via postal mail, commercial delivery, or hand delivery. *Please note that comments submitted by fax or email and those submitted after the comment period will not be accepted.* Written requests for information or comments submitted by postal mail or delivery should be addressed to the Director of the Information Collection Clearance Division, U.S. Department of Education, 400 Maryland Avenue SW., LBJ, Room 216–44, Washington, DC 20202–4537.

**FOR FURTHER INFORMATION CONTACT:** For specific questions related to collection activities, please contact Melinda Giancola, 202–245–7312.

**SUPPLEMENTARY INFORMATION:** The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

*Title of Collection:* Quarterly Cumulative Caseload Report.

*OMB Control Number:* 1820–0013.

*Type of Review:* A revision of an existing information collection.

*Respondents/Affected Public:* State, Local, and Tribal Governments.

*Total Estimated Number of Annual Responses:* 316.

*Total Estimated Number of Annual Burden Hours:* 316.

*Abstract:* State agencies that administer vocational rehabilitation programs provide key caseload data on this form, including numbers of persons who are applicants, determined eligible/ineligible, waiting for services, and their program outcomes. The Rehabilitation Services Administration collects this information quarterly from states and reports it in the Annual Report to Congress on the Rehabilitation Act.

**DEPARTMENT OF ENERGY**

**[OE Docket No. PP-441]**

**Application for Presidential Permit;  
Clean Power Northeast Development  
Inc.**

**AGENCY:** Office of Electricity Delivery and Energy Reliability, DOE.

**ACTION:** Notice of Application.

**SUMMARY:** Clean Power Northeast Development Inc. (CPNE) has applied for a Presidential permit to construct, operate, maintain, and connect an electric transmission line across the United States border with Canada.

**DATES:** Comments or motions to intervene must be submitted on or before January 3, 2018.

**ADDRESSES:** Comments or motions to intervene should be addressed as follows: Office of Electricity Delivery and Energy Reliability (OE-20), U.S. Department of Energy, 1000 Independence Avenue SW., Washington, DC 20585.

**FOR FURTHER INFORMATION CONTACT:** Christopher Lawrence (Program Office) at 202-586-5260 or via electronic mail at [Christopher.Lawrence@hq.doe.gov](mailto:Christopher.Lawrence@hq.doe.gov); Rishi Garg (Program Attorney) at 202-586-0258.

**SUPPLEMENTARY INFORMATION:** The construction, operation, maintenance, and connection of facilities at the international border of the United States for the transmission of electric energy between the United States and a foreign country is prohibited in the absence of a Presidential permit issued pursuant to Executive Order (EO) 10485, as amended by EO 12038.

On September 28, 2017, CPNE filed an application with the Office of Electricity Delivery and Energy Reliability of the Department of Energy (DOE) for a Presidential permit for the Atlantic Link Project (Atlantic Link). CPNE is an indirectly wholly owned subsidiary of Emera Inc. CPNE is a development company headquartered and operating in Boston, Massachusetts. Emera Inc., headquartered in Halifax, Nova Scotia, Canada, is an energy company operating in the United States, Canada, and four Caribbean countries.

CPNE proposes to construct, operate, maintain and connect a subsea, 1000

megawatt, high voltage direct current (HVDC) transmission cable system to deliver electricity from Atlantic Canada to Massachusetts. The final transmission cable system route is anticipated to be located within rights-of-way (ROW) selected from two current route alternatives, and would connect Coleson Cove, New Brunswick, Canada to Plymouth, Massachusetts for a total length of approximately 375 miles, depending on which route alternative is selected. Over 99 percent of the route would be subsea. A majority of the total transmission cable system route would be located in United States federal waters; however, short sections of the route would traverse Massachusetts state waters for a total of approximately 20 to 34 miles, depending on which route alternative is selected. The total length of the submarine transmission cable system route in U.S. federal waters (*i.e.*, areas exclusive of Massachusetts state waters) would be approximately 230 miles depending on which route is selected.

Since the restructuring of the electric industry began, resulting in the introduction of different types of competitive entities into the marketplace, DOE has consistently expressed its policy that cross-border trade in electric energy should be subject to the same principles of comparable open access and non-discrimination that apply to transmission in interstate commerce. DOE has stated that policy in export authorizations granted to entities requesting authority to export over international transmission facilities. Specifically, DOE expects transmitting utilities owning border facilities to provide access across the border in accordance with the principles of comparable open access and non-discrimination contained in the Federal Power Act and articulated in Federal Energy Regulatory Commission (FERC) Order No. 888, (Promoting Wholesale Competition Through Open Access Non-Discriminatory Transmission Services by Public Utilities), 61 FR 21,540 (May 10, 1996), as amended.

**Procedural Matters:** Any person may comment on this application by filing such comment at the address provided above. Any person seeking to become a party to this proceeding must file a motion to intervene at the address provided above in accordance with Rule 214 of FERC's Rules of Practice and Procedure (18 CFR 385.214). Two copies of each comment or motion to intervene should be filed with DOE on or before the date listed above.

Additional copies of such motions to intervene also should be filed directly

with: Dan Muldoon, P. Eng, President, Clean Power Northeast Development Inc., 101 Federal Street Suite 1101, Boston, MA 02110, [Dan.Muldoon@Emera.com](mailto:Dan.Muldoon@Emera.com) AND Gerald Weseen, Vice President, Clean Power Northeast Development Inc., 101 Federal Street Suite 1101, Boston, MA 02110, [Gerald.Weseen@Emera.com](mailto:Gerald.Weseen@Emera.com).

Before a Presidential permit may be issued or amended, DOE must determine that the proposed action is in the public interest. In making that determination, DOE may consider the environmental impacts of the proposed project pursuant to the National Environmental Policy Act of 1969, the project's impact on electric reliability by ascertaining whether the proposed project would adversely affect the operation of the U.S. electric power supply system under normal and contingency conditions, and any other factors that DOE may also deem relevant to the public interest. Also, DOE must obtain the concurrences of the Secretary of State and the Secretary of Defense before taking final action on a Presidential permit application.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above, by accessing the program Web site at <http://energy.gov/oe/services/electricity-policy-coordination-and-implementation/international-electricity-regulation-2>.

Issued in Washington, DC, on November 28, 2017.
