

The Exchange's regulatory responsibilities are the same regardless of whether a Permit Holder executes a transaction or clears a transaction executed on its behalf. The Exchange regularly reviews all such activity, including performing surveillance for position limit violations, manipulation, insider trading, front-running and contrary exercise advice violations. The Exchange believes the proposal is equitable and not unfairly discriminatory because it would apply in the same manner to Permit Holders subject to the ORF. The ORF is only assessed to a Permit Holder with respect to a particular transaction in which it is either the Executing Clearing Firm or the Clearing Give-up.

The Exchange believes it is reasonable, equitable and nondiscriminatory to reimburse its routing broker for any options regulatory fees the broker incurs in connection with Routing Services because this helps ensure the Exchange does not charge the ORF more than once to a single customer order.

The Exchange believes the proposal to require Permit Holders to provide the Exchange with a complete list of its OCC clearing numbers is reasonable because it would enable the Exchange to conform its ORF billing practice to its Fees Schedule by capturing transactions executed or cleared by Permit Holders. The Exchange believes the proposal is equitable and not unfairly discriminatory because it would apply in the same manner to Permit Holders subject to the ORF.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed rule change is not intended to address any competitive issues but rather to provide more clarity and transparency regarding how the Exchange assesses and collects the ORF. The Exchange believes any burden on competition imposed by the proposed rule change is outweighed by the need to help the Exchange adequately fund its regulatory activities to ensure compliance with the Exchange Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹² and paragraph (f) of Rule 19b-4¹³ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File No. SR-C2-2017-031 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549-1090.

All submissions should refer to File No. SR-C2-2017-031. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public

Reference Room, 100 F Street NE., Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change. Persons submitting comments are cautioned that we do not redact or edit personal identifying information from comment submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File No. SR-C2-2017-031, and should be submitted on or before December 26, 2017.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁴

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-82159; File No. SR-GEMX-2017-53]

Self-Regulatory Organizations; Nasdaq GEMX, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Extend the Implementation Delay of Qualified Contingent Cross Order Functionalities

November 28, 2017.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on November 16, 2017, Nasdaq GEMX, LLC (“GEMX” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit

comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to extend the implementation delay of Qualified Contingent Cross Order³ functionalities on GEMX.

The text of the proposed rule change is available on the Exchange’s Web site at <http://nasdaqgemx.cchwallstreet.com/>, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to extend the implementation delay of Qualified Contingent Cross Order⁴ functionalities on GEMX. During the replatform to INET, the Exchange initially delayed the implementation of Qualified Contingent Cross Order functionality.⁵ At that time, the Exchange noted the Exchange would introduce the Qualified Contingent Cross on GEMX within one year from the date of filing SR-ISEGemini-2016-17, otherwise the Exchange would file a rule proposal with the Commission to remove this rule. The Exchange filed the initial rule change on December 16, 2016.⁶ The proposed extended delay will permit the Exchange additional

³ A Qualified Contingent Cross Order is comprised of an originating order to buy or sell at least 1000 contracts that is identified as being part of a qualified contingent trade, as that term is defined in Supplementary Material .01 below [sic], coupled with a contra-side order or orders totaling an equal number of contracts. See GEMX Rules 715(j).

⁵ See Securities Exchange Act Release No. 80011 (February 10, 2017), 82 FR 10927 (February 16, 2017) (SR-ISEGemini-2016-17).

⁶ *Id.*

time to test and implement this functionality on INET. The Exchange proposes to amend the rule text in GEMX Rule 721 (Crossing Orders) to note that this QCC functionality will be available on or before March 31, 2018, to be announced to Members in an Options Trader Alert.⁷

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,⁸ in general, and furthers the objectives of Section 6(b)(5) of the Act,⁹ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest because the Exchange desires additional time to test and implement this functionality on INET.

The Exchange believes that further delaying the implementation of the Qualified Contingent Cross Order functionality on GEMX is consistent with the Act and protects investors and public interest because the Exchange is allowing additional time to test this technology before implementing it on INET. The Exchange believes that additional testing will ensure a successful roll-out. Members are already aware that this functionality is delayed. The Exchange will provide Members notice of the date when the functionality will be available. This functionality will be available on or before March 31, 2018. This proposed delay was announced to Members recently in an Options Traders Alert.¹⁰

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed rule change will impose any burden on intra-market competition because all Members uniformly will not be able to submit Qualified Contingent Cross Orders during the extended implementation delay.
