

Changes in the Estimates: There is an increase of 496,893 hours per year in the total estimated respondent burden compared with the ICR currently approved by OMB (EPA ICR No. 1445.12). This increase is due to the vacatur of the December 18, 2008 Final Rule which exempted farms from reporting air releases of hazardous substances from animal wastes at farms. All farms are now subject to CERCLA reporting for air releases of hazardous substances from animal wastes that are equal to or greater than their reportable quantities (RQs) within any 24-hour period.
