Pacific Connector Gas Pipeline, LP; Notice of Correction to eLibrary System

On September 21, 2017, Pacific Connector Gas Pipeline, LP (Pacific Connector) filed in Docket No. CP17–494–000 an application to construct and operate a new interstate pipeline. On September 29, 2017, Commission staff filed a memo to the public record in this proceeding, explaining that the public files for the application were not viewable or accessible when users of the Commission’s eLibrary system queried through the General or Advanced Search options. However, the public files for the application would appear in the results if users queried through the Daily Search or Docket Search options. The memo provided a link to the public files in the proceeding.

The Commission has resolved the issues with the eLibrary system as it relates to the public files for the application. The public files now appear using the General Search and Advanced Search options of eLibrary with the same Filed Date as the application. For technical reasons, certain files from the September 21 application were placed separately, and as new entries (with new accession numbers), into eLibrary to allow the General and Advanced Search options to properly return the files in search results; however, this is the exact same filing made by Pacific Connector on September 21, 2017. We are working to resolve similar eLibrary system issues related to the privileged files of the application.

ENVIRONMENTAL PROTECTION AGENCY

Notice of Availability of Proposed National Pollutant Discharge Elimination System (NPDES) General Permit for Low Threat Discharges in Navajo Nation and NPDES General Permit for Bulk Fuel Storage Facilities in Guam.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Availability of Proposed NPDES General Permits.

SUMMARY: EPA Region 9 is proposing to issue a general NPDES permit for discharges from facilities with discharges classified as low threat located in the Navajo Nation (Permit No. NN9990001) and a general NPDES permit for discharges from bulk fuel storage facilities located in Guam (Permit No. GUG0000001). These new proposed permits will be issued upon completion of the notice and comment period and after due consideration has been given to all comments received.

Use of a general permit in the two categories and locations described above allows EPA and dischargers to allocate resources in a more efficient manner, obtain timely permit coverage, and avoid issuing resource intensive individual permits to each facility, while simultaneously providing greater certainty and efficiency to the regulated community while ensuring consistent permit conditions for comparable facilities.

This notice announces the availability of the proposed general permits and the corresponding fact sheets for public comment which can be found on Region 9’s Web site at: http://www.epa.gov/region9/water/npdes/pubnotices.html.

DATES: Comments on the proposed permits must be received or postmarked no later than February 5, 2018.

ADDRESSES: Public comments on the proposed permits may be submitted by U.S. Mail to: Environmental Protection Agency, Region 9, Attn: Gary Sheth, NPDES Permits Section, Water Division (WTR–2–3), 75 Hawthorne Street, San Francisco, California 94105–3901, or by email to: sheth.gary@epa.gov. Please include the following Docket No. in the email subject line:

FOR FURTHER INFORMATION CONTACT: Gary Sheth, EPA Region 9, NPDES Permits Section, Water Division (WTR–2–3), 75 Hawthorne Street, San Francisco, California 94105–3901, or telephone (415) 972–3516. A copy of the proposed permits and fact sheets will be provided upon request and are also available on Region 9’s Web site at: http://www.epa.gov/region9/water/npdes/pubnotices.html.

Administrative record: The proposed permits and other related documents in the administrative record are on file and may be inspected any time between 8:30 a.m. and 4:00 p.m., Monday through Friday, excluding legal holidays, at the following address: U.S. EPA Region 9, NPDES Permits Section, Water Division (WTR–2–3), 75 Hawthorne Street, San Francisco, CA 94105–3901.

SUPPLEMENTARY INFORMATION:

A. Does this action apply to me?

The proposed NPDES General Permit for Low Threat Discharge in Navajo Nation is intended to provide coverage to entities that discharge wastewater that is relatively pollutant free, below a specified volume, and/or for a limited time, within the Navajo Nation. The proposed NPDES General Permit for Bulk Fuel Storage Facilities in Guam replaces individual NPDES permits for five bulk fuel storage facilities and provides coverage for new eligible bulk fuel facilities in Guam.

B. How can I submit comments?

* Identify which General Permit included in this notice you are commenting on.
* Include documentation to support your comments.
* Submit comments by the deadline identified in this Federal Register notice.

FEDERAL TRADE COMMISSION

Agency Information Collection Activities; Proposed Collection; Comment Request; Extension

AGENCY: Federal Trade Commission (“FTC” or “Commission”).

ACTION: Notice.

SUMMARY: The FTC intends to ask the Office of Management and Budget (“OMB”) to extend for an additional three years the current Paperwork Reduction Act (“PRA”) clearance for the FTC’s enforcement of the information collection requirements in its Fair Packaging and Labeling Act regulations (“FPLA Rules”). That clearance expires on April 30, 2018.

DATES: Comments must be filed by February 5, 2018.

ADDRESSES: Interested parties may file a comment online or on paper, by following the instructions in the Request for Comment part of the SUPPLEMENTARY INFORMATION section below. Write “FPLA Rules, PRA Comment, P074200” on your comment and file your comment online at https://ftcpublic.commentworks.com/ftc/fplarulespra by following the instructions on the web-based form. If you prefer to file your comment on paper, mail your comment to the following address: Federal Trade Commission, Office of the Secretary, 600 Pennsylvania Avenue NW., Suite CC–5610 (Annex J), Washington, DC 20580, or deliver your comment to the following address: Federal Trade Commission, Office of the Secretary, Constitution Center, 400 7th Street SW., 5th Floor, Suite 5610 (Annex J), Washington, DC 20024.

SUPPLEMENTARY INFORMATION: The FPLA, 15 U.S.C. 1451–1461, was enacted to eliminate consumer deception concerning product size and package content. Section 4 of the FPLA specifically requires packages or labels to be marked with: (1) A statement of identity; (2) a net quantity of contents disclosure; and (3) the name and place of business of the company responsible for the product. The FPLA regulations, 16 CFR parts 500–503, specify how manufacturers, packagers, and distributors of “consumer commodities” must do this.1

Under the PRA, 44 U.S.C. 3501–3521, federal agencies must get OMB approval for each collection of information they conduct or sponsor. “Collection of information” includes agency requests or requirements to submit reports, keep records, or provide information to a third party. 44 U.S.C. 3502(3); 5 CFR 1320.3(c). The FTC seeks clearance for the disclosure requirements under the FPLA Rules and the FTC’s associated PRA burden estimates that follow.

Pursuant to Section 3506(c)(2)(A) of the PRA, the FTC invites comments on: (1) Whether the disclosure requirements are necessary, including whether the information will be practically useful; (2) the accuracy of our burden estimates, including whether the methodology and assumptions used are valid; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of providing the required information to consumers.

A. Estimated Number of Respondents: 808,425.

B. Burden Hours: 8,084,250 hours, cumulative (yearly recurring burden of 10 hours per respondent to modify and distribute notices x 808,425 respondents).

C. Labor Costs: $199,680,975. Labor costs are derived by applying appropriate estimated hourly cost figures to the burden hours described above. The FTC assumes that respondents will use employees to create compliant labels. Of the 10 hours spent by each respondent, Commission staff assumes the hour breakdown will be as follows: 1 hour of managerial and/or professional time per covered entity, at an hourly wage of $60.2 2 hours of

1 Commission staff identified categories of entities under its jurisdiction that supply consumer commodities as defined in the FPLA Rules whose categories include retailers, wholesalers, and manufacturers. Commission staff estimated the number of retailers (735,038) based on Census data (under NAICS subsectors 445, 452, and 453, respectively, for food and beverage stores, general merchandise stores, and miscellaneous store retailers) compiled by PricewaterhouseCoopers, LLC for the National Retail Federation report, “Retail’s Impact Across America”: https://nrfa.com/advocacy/retails-impact. Commission staff estimated the number of wholesalers (44,719) (https://factfinder.census.gov/bkmk/table/1.0/en/ECN/2012_US/42SLS1) and manufacturers (28,668) (https://factfinder.census.gov/faces/tableservices/jsf/pages/productview.xhtml?pid=ECN_2012_US_31SG1#prodType=table) based on 2012 Economic Census data. Although the stated number of respondents suggests precision, it is an estimate in that it aggregates the number of establishments under industry codes that FTC staff believes reflect entities subject to the FPLA. But, even allowing for industries that may apply, the Census data do not separately break out non-household products from household use. Accordingly, the source information is over-inclusive and thus overstates what is actually subject to the FPLA.

2 Based on “General and Operations Managers” ($58.70), rounded up to $60, available from Bureau of Labor Statistics.
