

2026. PR submits the request for modification to the IRS on April 13, 2026. Therefore, the date determined under paragraph (b) of this section is February 22, 2027, which is 270 days after the date everything required to be submitted was so submitted pursuant to paragraph (b)(2) of this section plus the additional 45-day extension of the modification period agreed to by PR and the IRS. Because February 22, 2027 is later than the date under paragraph (a)(1) of this section (December 31, 2025, as extended under paragraph (d) of this section) and the date under paragraph (a)(3) of this section (June 12, 2026, which is 330 days from the date the NOPPA was mailed plus the 45-day extension under section 6225(c)(7)), February 22, 2027 is the date on which the period for making partnership adjustments expires under section 6235.

Example 5. The facts are the same as in *Example 4* of this paragraph (e), except that PR does not request an extension of the modification period. On February 1, 2026, PR submits a request for modification and PR, and the IRS agree in writing to waive the prohibition on mailing an FPA pursuant to § 301.6231-1(b)(2). Pursuant to § 301.6225-2(c)(3)(iii), the modification period expires as of February 1, 2026, rather than February 27, 2026. Accordingly, under paragraph (b)(2) of this section, the date on which everything required to be submitted pursuant to section 6225(c) is so submitted is February 1, 2026, and the 270-day period described in paragraph (b)(1) of this section begins to run on that date. Therefore, the date for purposes of paragraph (a)(2) of this section is October 29, 2026, which is 270 days after February 1, 2026, the date on which everything required to be submitted under section 6225(c) is so submitted. Because October 29, 2026 is later than the date under paragraph (a)(1) of this section (December 31, 2025, as extended under paragraph (d) of this section) and the date under paragraph (a)(3) of this section (April 28, 2026), October 29, 2026 is the date on which the period for making partnership adjustments expires under section 6235.

Example 6. The facts are the same as in *Example 5* of this paragraph (e), except PR completes its submission of information to support a request for modification on July 1, 2025, but does not execute a waiver pursuant to § 301.6231-1(b)(2). Therefore, pursuant to paragraph (b)(2) of this section, February 26, 2026, the date the modification period expires, is the date on which everything required to be submitted pursuant to section 6225(c) is so submitted. As a result, the 270-day period described in paragraph (b)(1) of this section expires on November 23, 2026. Because November 23, 2026 is later than the date under paragraph (a)(1) of this section (December 31, 2025, as extended under paragraph (d) of this section) and the date under paragraph (a)(3) of this section (April 28, 2026), November 23, 2026 is the date on which the period for making partnership adjustments expires under section 6235.

(f) **Applicability date—(1) In general.** Except as provided in paragraph (f)(2) of this section, this section applies to partnership taxable years beginning after December 31, 2017.

(2) **Election under § 301.9100-22T in effect.** This section applies to any partnership taxable year beginning after November 2, 2015 and before January 1, 2018 for which a valid election under § 301.9100-22T is in effect.

disproportionately high and adverse human health impacts or environmental effects from exposure to the pesticides discussed in this document, compared to the general population.

II. What action is the Agency taking?

EPA is announcing receipt of a pesticide petition filed under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, requesting the modification of regulations in 40 CFR part 180 for residues of pesticide chemicals in or on various food commodities. EPA has determined that the pesticide petition described in this document contains data or information prescribed in FFDCA section 408(d)(2), 21 U.S.C. 346a(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data supports granting of the pesticide petition. After considering the public comments, EPA intends to evaluate whether and what action may be warranted. Additional data may be needed before EPA can make a final determination on this pesticide petition.
