SUPPLEMENTARY INFORMATION: The Privacy Act of 1974, as amended (5 U.S.C. 552a), provides for certain protections for individuals applying for and receiving federal benefits. The law governs the use of computer matching by federal agencies when records in a system of records (meaning, records about individual retrieved by personal identifier) are matched with other federal or state agency records. The Privacy Act requires agencies involved in a matching program to:

1. Enter into a written agreement, which must be prepared in accordance with the Privacy Act, approved by the Data Integrity Board of each participating federal agency, provided to Congress and the Office of Management and Budget (OMB), and made available to the public, as required by 5 U.S.C. 552a(o), (u)(3)(A), and (u)(4).

2. Notify the individuals whose information will be used in the matching program that the information they provide is subject to verification through matching, as required by 5 U.S.C. 552a(o)(1)(D).

3. Verify match findings before suspending or terminating, reducing, or making a final denial of an individual’s benefits or payments or taking other adverse action against the individual, as required by 5 U.S.C. 552a(p).

4. Report the matching program to Congress and the OMB, in advance and annually, as required by 5 U.S.C. 552a(o) {2[A](l), (r), and (u)(3)(D)}.

5. Publish advance notice of the matching program in the Federal Register as required by 5 U.S.C. 552a(e)(12).

This matching program meets these requirements.

Purpose(s)

The matching program provides each SWA with new hire and quarterly wage information from OCSE’s National Directory of New Hires (NDNH) system of records, pertaining to adult UC applicants and recipients, resulting from comparing client names and Social Security number combinations in the SWA’s files to data in NDNH. The match results assist the SWAs in establishing or verifying eligibility for assistance, reducing payment errors, and maintaining program integrity, including determining whether duplicate participation exists or if the client resides in another state. The SWAs may also use the NDNH information for secondary purposes, such as updating UC recipients’ reported participation in work activities, updating recipients’ and their employers’ contact information, and administering the SWAs’ tax compliance function.

Categories of Individuals

The categories of individuals whose information is involved in the matching program are adult members of households who receive or have applied for UC benefits.

Categories of Records

The categories of records involved in the matching program are new hire and quarterly wage information. The specific data elements that will be provided to OCSE in a SWA input file are:
