

agencies, interested Indian tribes, and the public on the project's potential effects on historic properties.⁶ We will define the project-specific Area of Potential Effects (APE) in consultation with the SHPOs as the project develops. On natural gas facility projects, the APE at a minimum encompasses all areas subject to ground disturbance (examples include construction right-of-way, contractor/pipe storage yards, compressor stations, and access roads). Our EA for this project will document our findings on the impacts on historic properties and summarize the status of consultations under section 106.

Environmental Mailing List

The environmental mailing list includes federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; and local libraries and newspapers. This list also includes all affected landowners (as defined in the Commission's regulations) who are potential right-of-way grantors, whose property may be used temporarily for project purposes, or who own homes within certain distances of aboveground facilities, and anyone who submits comments on the project. We will update the environmental mailing list as the analysis proceeds to ensure that we send the information related to this environmental review to all individuals, organizations, and government entities interested in and/or potentially affected by the proposed project.

If we publish and distribute the EA, copies will be sent to the environmental mailing list for public review and comment. If you would prefer to receive a paper copy of the document instead of the CD version or would like to remove your name from the mailing list, please return the attached Information Request (appendix 2).

Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an "intervenor" which is an official party to the Commission's proceeding. Intervenor play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in

Wells Rural Electric Company; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for a new license for the Trout Creek Hydroelectric Project, located on Trout Creek in Elko County, near the Town of Wells, Nevada, and has prepared an Environmental Assessment (EA).

The EA contains the staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

SUPPLEMENTARY INFORMATION: This notice is being provided, pursuant to 40 CFR 2.209(d), to inform affected businesses that the EPA, via the DOJ, has recently disclosed documents to the parties and the Court in the matter of

National Family Farm Coalition, et al. v. U.S. Environmental Protection Agency and Scott Pruitt, Case No. 17-70196 (9th Cir.) (the "Dicamba Litigation"), and in the consolidated matters of *National Family Farm Coalition, et al. v. U.S. Environmental Protection Agency and Scott Pruitt*, Case No. 17-70810 (9th Cir.) and *Natural Resources Defense Council v. Scott Pruitt and U.S. Environmental Protection Agency*, Case No. 17-70817 (9th Cir.) (the "Enlist Duo Litigation"), that have been submitted to EPA by pesticide registrants or other data-submitters and that have been claimed to be, or have been determined to potentially contain, confidential business information (collectively "CBI").

In the "Dicamba Litigation," Petitioners seek judicial review of EPA's order granting a conditional pesticide registration under the Federal Insecticide, Fungicide, and Rodenticide Act ("FIFRA") for the new uses of the herbicide dicamba on genetically engineered cotton and soybean. In the "Enlist Duo Litigation," Petitioners seek judicial review of EPA's order granting a conditional pesticide registration under FIFRA of the herbicide "Enlist Duo," containing the active ingredients 2,4-dichlorophenoxyacetic acid choline salt ("2,4-D") and glyphosate dimethylammonium salt ("glyphosate").

The documents are being produced as part of the Administrative Records of the decisions at issue and include documents that registrants or other data-submitters may have submitted to EPA regarding the pesticides dicamba, 2,4-D, and/or glyphosate, and that may be subject to various release restrictions under federal law. The information includes documents submitted with pesticide registration applications and may include CBI as well as scientific studies subject to the disclosure restrictions of section 10(g) of FIFRA, 7 U.S.C. 136h(d).

All documents that may be subject to release restrictions under federal law are designated as "Confidential or Restricted Information" under Protective Orders that the Court entered on November 8, 2017 in both cases (Dkt. 61-2 in the Dicamba Litigation; Dkt. 55-2 in the Enlist Duo Litigation). The Protective Orders preclude public disclosure of any such documents by the parties in this action who have received the information from EPA, unless a party successfully obtains a de-designation as Confidential or Restricted Information of any portion of the Administrative Record via the procedure described in paragraph 6 of the Protective Orders, and limits the use of such documents to litigation
