This collection request includes surveys we currently use and plan to use during the next three years to measure agency performance in providing services to meet customer needs. These surveys consist of Likert-type, mark-one, and mark-all-that-apply items, and may include a small number of open-ended comment items. Administration of OPM's Customer Satisfaction Surveys (OMB No. 3206–0236) typically consists of approximately 15–20 standard items drawn from an item bank of approximately 50 items; client agencies usually add a small number of custom items to assess satisfaction with specific products and services. The survey is almost always administered electronically.
