

years. The current term of the license expires January 31, 2023. The licensee wants to extend the term so it expires on January 31, 2026. The licensee has been working on a potential transfer of the Narrows Project to the Yuba County Water Agency (Yuba County). The Narrows Project is located within a half mile of Yuba County's Yuba River Hydroelectric Project No. 2246, which is currently in relicensing. The licensee wants the extension so it has more time to complete its negotiations with Yuba County and potentially transfer the project before the Narrows Project enters relicensing. Should the transfer occur, Yuba County could then potentially relicense the Narrows Project as part of the Yuba River Project.

m. *Comments, Protests, or Motions to Intervene*: Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, and .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

n. *Filing and Service of Responsive Documents*: Any filing must (1) bear in all capital letters the title COMMENTS, PROTEST, or MOTION TO INTERVENE as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply

with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis and otherwise comply with the requirements of 18 CFR 4.34(b). All comments, motions to intervene, or protests should relate to the request to extend the license term. Agencies may obtain copies of the application directly from the applicant. A copy of any protest or motion to intervene must be served upon each representative of the applicant specified in the particular application. If an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency. A copy of all other filings in reference to this application must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 4.34(b) and 385.2010.

[Docket No. CP18-31-000]

Dominion Energy Questar Pipeline, LLC; Notice of Request Under Blanket Authorization

Take notice that on December 15, 2017, Dominion Energy Questar Pipeline, LLC (Dominion Energy), 333 South State Street, Salt Lake City, Utah 84111, filed a prior notice application pursuant to sections 157.205, 157.208(c) and 157.213(b) of the Federal Energy Regulatory Commission's (Commission) regulations under the Natural Gas Act (NGA), and Dominion Energy's blanket certificate issued in Docket No. CP82-491-000,¹ to modify existing facilities and install surface and subsurface facilities located at its existing Clay Basin storage facility, in Daggett County, Utah (the Clay Basin Delivery Project), all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the eLibrary link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Specifically, Dominion Energy proposes to modify two previously certificated storage injection/withdrawal wells (an existing operational storage-injection well and an existing inactive storage-injection/withdrawal well), and to install limited surface and subsurface facilities within the previously disturbed (non-vegetated) well-pad sites to restore functional service of the wells. Dominion Energy states that the project will enable it to convert 1.1 billion cubic feet (Bcf) of the existing 2.7 Bcf of interruptible storage capacity into firm storage capacity, with an associated
