U.S. Patent No. 7,711,509 B2 titled “Method of Calibrating a Fluid-Level Measurement System,” NASA Case No. LAR–17480–1; and U.S. Patent Application No. 14/520,863 titled “Antenna for Far Field Transceiving,” NASA Case No. LAR–18400–1, to Smart BioHealth, LLC, having its principal place of business in Minnesota City, MN. The fields of use may be limited to portable devices (excluding devices composed of threads, fabrics, textiles, and/or paper) for Human Performance (HP) measurement of body density (limited to body fat, muscle density, and bone density); body mechanics (limited to motion analysis, posture, and balance); physiological responses to physical activity, and energy usage (limited to lactic acid, blood glucose, blood oxygen, hydration, and electrolyte balance).

DATES: The prospective partially exclusive license may be granted unless, within fifteen (15) days from the date of this published notice, NASA receives written objections including evidence and argument that establish that the grant of the license would not be consistent with the requirements regarding the licensing of federally owned inventions as set forth in the Bayh-Dole Act and implementing regulations. Competing applications completed and received by NASA within fifteen (15) days of the date of this published notice will also be treated as objections to the grant of the contemplated partially exclusive license. Objections submitted in response to this notice will not be made available to the public for inspection and, to the extent permitted by law, will not be released under the Freedom of Information Act.

ADDRESSES: Objections relating to the prospective license may be submitted to Patent Counsel, Office of Chief Counsel, NASA Langley Research Center, MS 30, Hampton, Virginia 23681. Phone (757) 864–3221. Facsimile (757) 864–9190.

SUPPLEMENTARY INFORMATION: This notice is issued in accordance with 35 U.S.C. 209(e) and 37 CFR 404.7(a)(a)[i]. This notice of intent to grant a partially exclusive patent license is issued in accordance with 35 U.S.C. 209(c)(1) and 37 CFR 404.7(a)(1)[i]. The patent rights in these inventions have been assigned to the United States of America as represented by the Administrator of the National Aeronautics and Space Administration. The prospective exclusive license will comply with the requirements of 35 U.S.C. 209 and 37 CFR 404.7. Information about other NASA inventions available for licensing can be found online at http://technology.nasa.gov.

Mark P. Dvorscak, Agency Counsel for Intellectual Property.

This notice is issued in accordance with 35 U.S.C. 209(c)(1) and 37 CFR 404.7. Information about other NASA inventions available for licensing can be found online at http://technology.nasa.gov.

Mark P. Dvorscak, Agency Counsel for Intellectual Property.

You must cite the control number, which appears in parentheses after the name of the agency that submitted the schedule, and a mailing address. If you would like an appraisal report, please include that in your request.

FOR FURTHER INFORMATION CONTACT: Margaret Hawkins, Director, by mail at Records Appraisal and Agency Assistance (ACRA); National Archives and Records Administration; 8601 Adelphi Road; College Park, MD 20740–6001, by phone at 301–837–1799, or by email at request.schedule@nara.gov.

SUPPLEMENTARY INFORMATION: Each year, Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing records retention periods and submit these schedules for NARA’s approval. These schedules provide for timely transfer into the National Archives of historically valuable records and authorize the agency to dispose of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

The schedules listed in this notice are media neutral unless otherwise specified. An item in a schedule is media neutral when an agency may apply the disposition instructions to records regardless of the medium in which it creates or maintains the records. Items included in schedules submitted to NARA on or after December 17, 2007, are media neutral unless the item is expressly limited to a specific medium. (See 36 CFR 1225.12(e).)

Agencies may not destroy Federal records without Archivist of the United States’ approval. The Archivist approves destruction only after thoroughly considering the records’ administrative use by the agency of origin, the rights of the Government and of private people directly affected by the Government’s activities, and whether or not the records have historical or other value.

In addition to identifying the Federal agencies and any subdivisions requesting disposition authority, this notice lists the organizational unit(s) accumulating the records (or notes that the schedule has agency-wide applicability when schedules cover records that may be accumulated throughout an agency); provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction); and includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it also includes information about the records. You may request additional information about the disposition process at the addresses above.

Schedules Pending

1. Department of the Army, Agency-wide (DAA–AU–2016–0045, 1 item, 1 temporary item). Master files of an electronic information system used to track parts and asset shortages in support of depot-level maintenance operations.

5. Department of Health and Human Services, National Institutes of Health (DAA–0443–2016–0002, 4 items, 4 temporary items). Administrative technology transfer records including agreements, application files, letters, and progress and sales reports.

7. Department of Justice, Agency-wide (DAA–0060–2017–0004, 1 item, 1 temporary item). Records documenting office and program level annual work plans.

8. Department of the Navy, Agency-wide (DAA–NU–2015–0006, 36 items, 33 temporary items). Records relating to medicine and dentistry including routine correspondence, tissue exam results, diving and hyperbaric medical treatment, dental reports, training, obesity case files and associated records. Proposed for permanent retention are records relating to policy and planning, individual health care files, and reports of medical research.

9. Department of the Navy, Agency-wide (DAA–NU–2015–0008, 35 items, 28 temporary items). Records relating to ordnance management including routine correspondence, deeming and degauging, ordnance equipment, device calibration, occupational vision tests, and related matters. Proposed for permanent retention are records relating to policy and planning, ordnance technical instructions, logistics programs, ordnance design, technical reports and manuals, harbor defense, and special weapons records.

Laurence Brewer, Chief Records Officer for the U.S. Government.
