DEPARTMENT OF TRANSPORTATION

Pipeline and Hazardous Materials Safety Administration

[Docket No. PHMSA–2016–0163; PDA–39(R)]

Hazardous Materials: Oregon Hazardous Waste Management Regulation

AGENCY: Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

ACTION: Public Notice and Invitation to comment.

SUMMARY: Interested parties are invited to comment on an application by NORA, An Association of Responsible Recyclers (NORA) for an administrative determination as to whether Federal hazardous material transportation law preempts a hazardous waste regulation of the State of Oregon that imposes a strict liability standard on transporters.

DATES: Comments received on or before March 10, 2017 and rebuttal comments received on or before April 24, 2017 will be considered before an administrative determination is issued by PHMSA’s Chief Counsel. Rebuttal comments may discuss only those issues raised by comments received during the initial comment period and may not discuss new issues.

ADDRESS: NORA’s application and all comments received may be reviewed in the Docket Operations Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590. The application and all comments are available on the U.S. Government Regulations.gov Website: http://www.regulations.gov. Comments must refer to Docket No. PHMSA–2016–0163 and may be submitted by any of the following methods:

• Federal eRulemaking Portal: Go to http://www.regulations.gov. Follow the online instructions for submitting comments.
  • Fax: 1–202–493–2251.
  • Mail: Docket Operations Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590.
  • Hand Delivery: Docket Operations Facility, U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9:00 a.m. and 5:00 p.m., Monday through Friday, except Federal holidays.

A copy of each comment must also be sent to (1) Scott D. Parker, Executive Director, NORA, An Association of Responsible Recyclers, 7250 Heritage Village Plaza, Suite 201, Gainesville, VA 20155, and (2) Ellen Rosenblum, Attorney General, Justice Building, 1162 Court Street NE., Salem OR 97301. A certification that a copy has been sent to these persons must also be included with the comment. (The following format is suggested: “I certify that copies of this comment have been sent to Mr. Parker and Ms. Rosenblum at the addresses specified in the Federal Register.”)

Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing a comment submitted on behalf of an association, business, labor union, etc.). You may review DOT’s complete Privacy Act Statement in the Federal Register published on April 11, 2000 (65 FR 19477–78), or you may visit http://www.regulations.gov.

A subject matter index of hazardous materials preemption cases, including a listing of all inconsistency rulings and preemption determinations, is available through PHMSA’s home page at http://phmsa.dot.gov. From the home page, click on “Hazardous Materials Safety,” then on “Standards & Rulemaking,” then on “Preemption Determinations” located on the right side of the page. A paper copy of the index will be provided at no cost upon request to Mr. Lopez, at the address and telephone number set forth in the FOR FURTHER INFORMATION CONTACT section below.

SUPPLEMENTARY INFORMATION:

I. Application for a Preemption Determination

NORA has applied to PHMSA for a determination whether Federal hazardous material transportation law, 49 U.S.C. 5101 et seq., preempts the State of Oregon’s Administrative Rule (OAR), OAR 340–100–0002(1) 1, as it is applied to transporters. Specifically, NORA states that the Oregon Environmental Quality Commission (OEQC) interprets the Oregon regulation, which adopts the United States Environmental Protection Agency’s regulation, 40 CFR 263.20(a)(1), as imposing a strict liability standard on transporters of hazardous waste.2 According to NORA, under Oregon law, “the transporter exercising reasonable care may not rely on the information provided by the generator and instead must be held to a strict liability standard.” (emphasis omitted).

NORA presents three main arguments for why it believes Oregon’s hazardous waste regulation should be preempted. First, NORA contends that it is not possible to comply with both the Oregon rule and the federal requirements because the “HMTA regulation requires the transporter to exercise reasonable care” while Oregon’s strict liability interpretation does not. Next, NORA argues that

1 The Oregon regulation adopts by reference the United States Environmental Protection Agency’s rules and regulations governing the management of hazardous waste, including its generation, transportation, treatment, storage, recycling and disposal, as prescribed in 40 CFR parts 260 to 268, 270, and 273, and subparts A and B of part 124. See OAR 340–100–0002(1).

2 NORA states that this issue is being litigated and is presently under consideration by the Oregon Supreme Court.
Oregon’s strict liability standard creates an obstacle for interstate transporters. Furthermore, NORA opines that the State’s inconsistent strict liability standard will encourage the misclassification of hazardous material. Last, NORA states “a strict liability standard is not ‘substantially the same’ as a reasonable care liability standard.” NORA notes that “under Oregon’s interpretation, a transporter who satisfies the reasonable care standard in section 171.2(f) would nonetheless be strictly liable for the generator’s waste mischaracterization.”

In summary, NORA contends the State of Oregon’s Administrative Rule, OAR 340–100–0002(1), should be preempted because:

- It is not possible to comply with both the Oregon rule and the federal requirements;
- It creates an obstacle to carrying out the federal requirements; and
- A strict liability standard is not substantively the same as the federal requirements.

II. Federal Preemption

Section 5125 of 49 U.S.C. contains express preemption provisions relevant to this proceeding. As amended by Section 1711(b) of the Homeland Security Act of 2002 (Pub. L. 107–296, 116 Stat. 2319), 49 U.S.C. 5125(a) provides that a requirement of a State, political subdivision of a State, or Indian tribe is preempted—unless the non-Federal requirement is authorized by another Federal law or DOT grants a waiver of preemption under section 5125(e)—if (1) complying with the non-Federal requirement and the Federal requirement is not possible; or (2) the non-Federal requirement, as applied and enforced, is an obstacle to accomplishing and carrying out the Federal requirement.

Subsection (b)(1) of 49 U.S.C. 5125 provides that non-Federal requirements concerning any of the following subjects is preempted—unless authorized by another Federal law or DOT grants a waiver of preemption—when the non-Federal requirement is not “substantially the same as” a provision of Federal hazardous material transportation law, a regulation prescribed under that law, or a hazardous materials security regulation or directive issued by the Department of Homeland Security.

To be “substantially the same,” the non-Federal requirement must conform “in every significant respect to the Federal requirement. Editorial and other similar de minimis changes are permitted.” 49 CFR 107.102(d).

The 2002 amendments and 2005 reenactment of the preemption provisions in 49 U.S.C. 5125 reaffirmed Congress’s long-standing view that a single body of uniform Federal regulations promotes safety (including security) in the transportation of hazardous materials. More than thirty years ago, when it was considering the HMTA, the Senate Commerce Committee “endorse[d] the principle of preemption in order to preclude a multiplicity of State and local regulations and the potential for varying as well as conflicting regulations in the area of hazardous materials transportation.” S. Rep. No. 1102, 93rd Cong. 2nd Sess. 37 (1974). When Congress expanded the preemption provisions in 1990, it specifically found that many States and localities have enacted laws and regulations which vary from Federal laws and regulations pertaining to the transportation of hazardous materials, thereby creating the potential for unreasonable hazards in other jurisdictions and confusing shippers and carriers which attempt to comply with multiple and conflicting registration, permitting, routing, notification, and other regulatory requirements. And because of the potential risks to life, property, and the environment posed by unintentional releases of hazardous materials, consistency in laws and regulations governing the transportation of hazardous materials is necessary and desirable. Therefore, in order to achieve greater uniformity and to promote the public health, welfare, and safety at all levels, Federal standards for regulating the transportation of hazardous materials in intrastate, interstate, and foreign commerce are necessary and desirable.

A United States Court of Appeals has found uniformity was the “linchpin” in the design of the Federal laws governing the transportation of hazardous materials. Colorado Pub. Util. Comm’n v. Harmon, 951 F.2d 1571, 1575 (10th Cir. 1991).

III. Preemption Determinations

Under 49 U.S.C. 5125(d)(1), any person (including a State, political subdivision of a State, or Indian tribe) directly affected by a requirement of a State, political subdivision or tribe may apply to the Secretary of Transportation for a determination whether the requirement is preempted. The Secretary of Transportation has delegated authority to PHMSA to make determinations of preemption, except for those concerning highway routing (which have been delegated to the Federal Motor Carrier Safety Administration). 49 CFR 1.97(b).

---

3 Additional standards apply to preemption of non-Federal requirements on highway routes over which hazardous materials may or may not be transported and fees related to transporting hazardous materials. See 49 U.S.C. 5125(c) and (f).

DEPARTMENT OF THE TREASURY

Office of the Comptroller of the Currency

Agency Information Collection Activities: Information Collection Renewal; Submission for OMB Review; Appraisals for Higher-Priced Mortgage Loans

AGENCY: Office of the Comptroller of the Currency (OCC), Treasury.

ACTION: Notice and request for comment.

SUMMARY: The OCC, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on a continuing information collection as required by the Paperwork Reduction Act of 1995 (PRA).

In accordance with the requirements of the PRA, the OCC may not conduct or sponsor, and the respondent is not required to respond to, an information collection unless it displays a currently valid Office of Management and Budget (OMB) control number.

The OCC is soliciting comment concerning the renewal of its information collection titled “Appraisals for Higher-Priced Mortgage Loans.” The OCC is also giving notice that it has sent the collection to OMB for review.

DATES: Comments must be submitted on or before February 23, 2017.

ADDRESSES: Because paper mail in the Washington, DC area and at the OCC is subject to delay, commenters are encouraged to submit comments by email, if possible. Comments may be sent to: Legislative and Regulatory Activities Division, Office of the Comptroller of the Currency, Attention: 1557–0313, 400 7th Street SW, Suite 3E–218, Mail Stop 9W–11, Washington, DC 20219. In addition, comments may be sent by fax to (202) 649–4326 or by electronic mail to prainfo@occ.treas.gov.

You may personally inspect and photocopy comments at the OCC, 400 7th Street SW, Washington, DC 20219. For security reasons, the OCC requires that visitors make an appointment to inspect comments. You may do so by calling (202) 649–6700 or, for persons who are deaf or hard of hearing, TTY, (202) 649–5597. Upon arrival, visitors will be required to present valid government-issued photo identification and submit to security screening in order to inspect and photocopy comments.

All comments received, including attachments and other supporting materials, are part of the public record and subject to public disclosure. Do not include any information in your comment or supporting materials that you consider confidential or inappropriate for public disclosure.

Additionally, please send a copy of your comments by mail to: OCC Desk Officer, 1557–0313, U.S. Office of Management and Budget, 725 17th Street NW., #10235, Washington, DC 20503 or by email to: oira_submission@omb.eop.gov.

SUPPLEMENTARY INFORMATION: Under the PRA (44 U.S.C. 3501–3520), Federal agencies must obtain approval from the OMB for each collection of information that they conduct or sponsor.

“Collection of information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3(c) to include agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. The OCC requests that OMB extend its approval of the following collection:

Title: Appraisals for Higher-Priced Mortgage Loans.

OMB Control No.: 1557–0313.

Type of Review: Regular.

Frequency of Response: On occasion.

Affected Public: Businesses or other for-profit.

Estimated Number of Respondents: 1,399.

Estimated Total Annual Burden: 19,946 hours.

Description: This information collection relates to section 1471 of the Dodd-Frank Act, which added a new section 129H to the Truth in Lending Act (TILA) establishing special appraisal requirements for “higher-risk mortgages.” For certain mortgages with an annual percentage rate that exceeds the average prime offer rate by a specified percentage, creditors must obtain an appraisal or appraisals meeting certain specified standards, provide applicants with a notification regarding the use of the appraisals, and give applicants a copy of the written appraisals used. The statute permits the OCC to issue a rule to include exemptions from these requirements. The OCC implemented these
