

- Evidence of ongoing client need and how you intend to make the project part of your core legal services.

- The level of engagement of pro bono volunteers/private bar and the best practices in pro bono delivery that can be replicated by others.

- How ongoing program evaluation and data collection will be incorporated into the project.

b. *Project Staff and Management Support.* Please briefly identify and describe the project team and project partners. In your response, please include the following:

- The project staff that will be responsible for the sustainability phase of the project. Please include any additional staff, descriptions of new responsibilities for existing project staff and/or organizational changes that will be made.

- The role of your organization's executive management in the decision to seek this Sustainability Grant and recent examples of your organization's track record turning "new" or special projects into core legal services.

c. *Budget and Match Requirement.* Please describe what you would like the *Sustainability Grant* to fund. In your response, please be sure to provide the following information:

- Estimated total project cost. This includes the estimate for the Pro Bono Innovation Fund requested amount and other in-kind or cash contributions to support the project. Your narrative should provide a breakdown of the major project expenses including, but not limited to, personnel, project expenses, etc., and how each expense supports the project design.

- A narrative proposing an ambitious match requirement that reduces the Pro Bono Innovation Fund contribution to the project for the grant term. LSC is not setting a specific percentage of required match for Sustainability grant applicants but will assess the two-year budget from the applicant's previously funded project with the grant amount proposed in the Sustainability LOI. LSC's expectation is that applicants will propose a meaningful shift from Pro Bono Innovation Fund support to other sources of support during the grant term.

- A narrative discussing the potential sources of funding that have been or will be cultivated. If the project has already received new financial support, please provide the source and amount committed and further describe the plans for ensuring continued financial support.

Dated: January 17, 2017.

Mark F. Freedman,

Senior Associate General Counsel.
