This proposed rule would make two changes to the regulation issued under P&S Act. The first clarifies the conduct or action by packers, swine contractors,

or live poultry dealers that GIPSA considers unfair, unjustly discriminatory, or deceptive and a violation of section 202(a) of the P&S Act. The second provides criteria, in response to requirements of the 2008 Farm Bill, to consider in determining whether a packer, swine contractor, or live poultry dealer has engaged in conduct resulting in an undue preference or advantage to one or more livestock producers or poultry growers in violation of § 202(b) of the P&S Act.

**Authority:** 7 U.S.C. 181-229c.

#### SUPPLEMENTARY INFORMATION:

##### I. Background

In a staff requirements memorandum dated June 6, 2016 (SRM-SECY-15-0149, ADAMS Accession No. ML16158A286), the Commission approved proceeding with the rulemaking process to further explore the issues raised in an NRC staff paper regarding the role of third party arbitrators in licensee access authorization and fitness-for-duty determinations. The NRC is in the early stages of developing a draft regulatory basis document that will describe the regulatory issue, options to address the issue, and the recommended option. The NRC will consider the information shared at the meeting in the development of the draft regulatory basis document.

The NRC held a similar public meeting on November 16, 2016, and a summary of that meeting is available in ADAMS under Accession No. ML16336A034. The NRC is holding this meeting in response to a request from stakeholders to allow another opportunity for public input prior to publication of a draft regulatory basis document. The NRC also held a closed meeting on December 12, 2016, with representatives from the International Brotherhood of Electrical Workers, and a summary of that meeting is available

in ADAMS under Accession No. ML16355A092.

The NRC changed the title of this rulemaking activity from “Role of Third Parties in Access Authorization and Fitness-for-Duty Determinations” to “Access Authorization and Fitness-for-Duty Determinations.”

## II. Public Meeting

The public meeting will be on February 13, 2017, from 1:00 p.m. to 4:00 p.m. (EST) in the Commission Hearing Room, 11555 Rockville Pike, Rockville, Maryland 20852. Interested stakeholders may attend in person or via teleconference and Webinar. The purpose of the meeting is to provide background information on this rulemaking activity and obtain stakeholder input in order to enhance the NRC’s understanding of the associated issues. The NRC staff will use this input to inform its determination of what action, if any, the agency should take to address the issue of third party participation in licensee access authorization and fitness-for-duty determinations. The NRC staff will discuss the various opportunities for the public to participate in the rulemaking process. The NRC will not provide formal written responses to the oral comments made at this meeting. In addition, the NRC is not providing an opportunity to submit written public comments in connection with this meeting.

Information for the teleconference and Webinar is available in the meeting notice, which can be accessed through the NRC’s public Web site at: <http://meetings.nrc.gov/pmns/mtg>. Participants must register at the Internet link in the meeting notice to participate in the Webinar.

Additional details regarding the meeting will be posted at least 10 days prior to the public meeting on the NRC’s public meeting Web site at: <http://meetings.nrc.gov/pmns/mtg>.

#### Airworthiness Directives; DG Flugzeugbau GmbH

**AGENCY:** Federal Aviation Administration (FAA), Department of Transportation (DOT).

**ACTION:** Notice of proposed rulemaking (NPRM).

**SUMMARY:** We propose to adopt a new airworthiness directive (AD) for DG Flugzeugbau GmbH Model DG-500MB gliders that are equipped with a Solo 2625 02 engine modified with a fuel injection system following the instructions of Solo Kleinmotoren GmbH Service Bulletin (SB)/Technische Mitteilung (TM) 4600-3 “Fuel Injection System”) and identified as Solo 2625 02i. This proposed AD results from mandatory continuing airworthiness information (MCAI) originated by an aviation authority of another country to identify and correct an unsafe condition on an aviation product. The MCAI describes the unsafe condition as the potential of an in-flight shut-down and engine fire due to failure of the connecting stud for the two fuel injector mounts of the engine redundancy system on gliders equipped with a Solo 2625 02i engine. We are issuing this proposed AD to require actions to address the unsafe condition on these products.

**DATES:** We must receive comments on this proposed AD by March 24, 2017.

#### Discussion

The European Aviation Safety Agency (EASA), which is the Technical Agent for the Member States of the European Community, has issued EASA AD No.: 2014-0269, dated December 11, 2014 (referred to after this as “the MCAI”), to correct an unsafe condition for the specified products. The MCAI states:
