SUPPLEMENTARY INFORMATION:

Comments Invited

This AD is a final rule that involves requirements affecting flight safety, and we did not provide you with notice and an opportunity to provide your comments prior to it becoming effective. However, we invite you to participate in this rulemaking by submitting written comments, data, or views. We also invite comments relating to the economic, environmental, energy, or federalism impacts that resulted from adopting this AD. The most helpful comments reference a specific portion of the AD, explain the reason for any recommended change, and include supporting data. To ensure the docket does not contain duplicate comments, commenters should send only one copy of written comments, or if comments are filed electronically, commenters should

submit them only one time. We will file in the docket all comments that we receive, as well as a report summarizing each substantive public contact with FAA personnel concerning this rulemaking during the comment period. We will consider all the comments we receive and may conduct additional rulemaking based on those comments.

Discussion

On November 16, 2016, we issued Emergency AD 2016-24-51 to correct an unsafe condition on Sikorsky Model S-92A helicopters with a TR pitch change shaft (TRPCS) assembly, part number (P/N) 92358-06303-041 or P/N 92358-06303-042, with bearings that were manufactured prior to November 3, 2016. AD 2016-24-51 subsequently published in the **Federal Register** as a final rule (81 FR 95425, December 28, 2016). AD 2016-24-51 requires removing from service TRPCS assemblies with less than 5 hours time-in-service (TIS) since new or overhaul. For TRPCS assemblies with between 5 and 80 hours TIS since new or overhaul, AD 2016-24-51 also requires performing one-time inspections of the TRPCS bearings and replacing the TRPCS assembly if the bearings do not pass these inspections. AD 2016-24-51 was prompted by two reports of an operator losing TR control caused by a failed TRPCS assembly.

Actions Since AD 2016-24-51 Was Issued

After AD 2016-24-51 was issued, we received a report of an S-92A helicopter losing TR control because of a failed bearing with more than 80 hours TIS. We have now determined that the unsafe condition can exist on TRPCS bearings regardless of hours TIS. Therefore, on January 13, 2017, we issued Emergency AD 2017-02-51, which applies to all TRPCS assemblies, regardless of hours TIS. Emergency AD 2017-02-51 requires a one-time visual inspection and a repetitive borescope inspection of the TRPCS assembly bearing. The repetitive inspection is intended to detect bearing deterioration. The actions in Emergency AD 2017-02-51 are intended to detect a binding bearing, prevent loss of TR control, and possible loss of control of the helicopter.

FAA's Determination

We are issuing this AD because we evaluated all the relevant information

and determined the unsafe condition described previously is likely to exist or develop in other helicopters of the same type design.

Related Service Information

We reviewed Sikorsky Alert Service Bulletin 92-64-011, Basic Issue, dated January 10, 2017 (ASB). The ASB describes procedures for inspecting the TRPCS and bearing assemblies for ratcheting, binding, and rough turning. The ASB also specifies periodic review of the health and usage monitoring system (HUMS) tail gearbox bearing energy tool.

AD Requirements

This AD requires, before further flight, removing the TRPCS assembly and inspecting the bearing. If the bearing does not rotate freely; the bearing sounds rough or chatters; there is any purged grease with metal particles; a nick or dent; or if there is a cut, tear, or distortion in the bearing seal, before further flight, replacing the TRPCS assembly is required. This AD also requires, within 10 hours TIS, and thereafter at intervals not to exceed 10 hours TIS, inspecting the TRPCS assembly with a borescope. If the white Teflon seal or snap ring is missing, or if there is a rip, tear, or heat damage on the seal or if there is no gap in the snap ring, replacing the TRPCS assembly is required before further flight.

Differences Between This AD and the Service Information

This AD requires repetitive borescope inspections of the TRPCS; the ASB does not. The ASB specifies that operators review HUMS data in addition to the one-time inspection and specifies contacting Sikorsky if any discrepancies are found; this AD does not.

Costs of Compliance

We estimate that this AD will affect 80 helicopters of U.S. Registry.

We estimate that operators may incur the following costs in order to comply with this AD. At an average labor rate of \$85 per hour, borescope and visually inspecting the TRPCS assembly will require 16 work-hours, for a cost per helicopter of \$1,360 and a cost of \$108,800 for the U.S. fleet per inspection. If required, replacing a TRPCS assembly will require 16 work-hours and required parts will cost \$4,000, for a cost per helicopter of \$5,360.

FAA's Justification and Determination of the Effective Date

Providing an opportunity for public comments prior to adopting these AD

requirements would delay implementing the safety actions needed to correct this known unsafe condition. Therefore, we found and continue to find that the risk to the flying public justifies waiving notice and comment prior to the adoption of this rule because the previously described unsafe condition can result in loss of TR control and certain actions must be accomplished before further flight and within 10 hours TIS, a very short interval for these helicopters.

Since it was found that immediate corrective action was required, notice and opportunity for prior public comments before issuing this AD were impracticable and contrary to public interest and good cause existed to make the AD effective immediately by Emergency AD 2017-02-51, issued on January 13, 2017, to all known U.S. owners and operators of these helicopters. These conditions still exist and the AD is hereby published in the **Federal Register** as an amendment to section 39.13 of the Federal Aviation Regulations (14 CFR 39.13) to make it effective to all persons.

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. "Subtitle VII: Aviation Programs," describes in more detail the scope of the Agency's authority.

We are issuing this rulemaking under the authority described in "Subtitle VII, Part A, Subpart III, Section 44701: General requirements." Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

We determined that this AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed, I certify that this AD:

1. Is not a "significant regulatory action" under Executive Order 12866;

2. Is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979);

3. Will not affect intrastate aviation in Alaska to the extent that it justifies making a regulatory distinction; and

4. Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

We prepared an economic evaluation of the estimated costs to comply with this AD and placed it in the AD docket.

This AD applies to Sikorsky Aircraft Corporation (Sikorsky) Model S-92A helicopters, certificated in any category, with a tail rotor pitch change shaft (TRPCS) assembly part number (P/N) 92358-06303-041 or P/N 92358-06303-042 installed.

(b) Unsafe Condition

This AD defines the unsafe condition as a binding TRPCS bearing. This condition could result in loss of tail rotor (TR) control and possible loss of control of the helicopter.

(c) Effective Date

This AD becomes effective March 20, 2017 to all persons except those persons to whom it was made immediately effective by Emergency AD 2017-02-51, issued on January 13, 2017, which contains the requirements of this AD.

(d) Compliance

You are responsible for performing each action required by this AD within the specified compliance time unless it has already been accomplished prior to that time.

(e) Required Actions

(1) Before further flight, unless already done, remove the TRPCS assembly and

inspect the SB2310 angular contact bearing for free rotation, purged grease with metal particles, a nick or a dent, and any cut, tear, or distortion on the bearing seal. If the bearing does not rotate freely; the bearing sounds rough or chatters; there is any purged grease with metal particles; a nick or dent; or if there is a cut, tear, or distortion in the bearing seal, before further flight, replace the TRPCS assembly.

(2) Within 10 hours time-in-service (TIS), unless already done within the last 10 hours TIS, and thereafter at intervals not to exceed 10 hours TIS, on the TR side of the TRPCS bearing, remove the plug from the end of the TRPCS, insert the borescope into the TRPCS, and determine whether the white Teflon seal and snap ring are installed. If the white Teflon seal or snap ring is missing, or if there is a rip, tear, or heat damage on the seal or if there is no gap in the snap ring, before further flight replace the TRPCS assembly.

(f) Alternative Methods of Compliance (AMOCs)

(1) The Manager, Boston Aircraft Certification Office, FAA, may approve AMOCs for this Emergency AD. Send your proposal to: Blaine Williams, Aerospace Engineer, Boston Aircraft Certification Office, Engine & Propeller Directorate, 1200 District Avenue, Burlington, Massachusetts 01803; telephone (781) 238-7161; email blaine.williams@faa.gov.

(2) For operations conducted under a 14 CFR part 119 operating certificate or under 14 CFR part 91, subpart K, we suggest that you notify your principal inspector, or lacking a principal inspector, the manager of the local flight standards district office or certificate holding district office before operating any aircraft complying with this AD through an AMOC.

Airworthiness Directives; United Instruments, Inc. Series Altimeters

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: We are adopting a new airworthiness directive (AD) for certain United Instruments, Inc. 5934 series altimeters that were manufactured between January 2015 and February 2016 and installed in airplanes and helicopters. This AD was prompted by reports of certain altimeters displaying higher than actual altitude due to a slow diaphragm leak, which would affect the accuracy of the altimeters. This AD requires replacing the affected altimeters. We are issuing this AD to correct the unsafe condition on these products.

DATES: This AD is effective April 7, 2017.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of April 7, 2017.

SUPPLEMENTARY INFORMATION:

Discussion

We issued a notice of proposed rulemaking (NPRM) to amend 14 CFR part 39 by adding an AD that would apply to certain United Instruments, Inc. 5934 series altimeters that were manufactured between January 2015 and February 2016 and installed in airplanes and helicopters. The NPRM published in the **Federal Register** on November 7, 2016 (81 FR 78083). The NPRM was prompted by a report that certain 5934 series altimeters that were manufactured between January 2015 and February 2016 may display higher than actual altitude. These altimeters are susceptible to developing a slow diaphragm leak, which would affect the accuracy of the altimeters. It has been determined that insufficient removal of chemical substance on the diaphragm assembly during the production process of the altimeter caused the misleading display of altitude data. The NPRM proposed to require replacing the affected altimeters. We are issuing this AD to prevent display of misleading altitude data, which could result in inadvertent flight into terrain.

Comments

We gave the public the opportunity to participate in developing this AD. We received no comments on the NPRM or on the determination of the cost to the public.

Conclusion

We reviewed the relevant data and determined that air safety and the public interest require adopting this AD as proposed except for minor editorial changes. We have determined that these minor changes:

- Are consistent with the intent that was proposed in the NPRM for correcting the unsafe condition; and
- Do not add any additional burden upon the public than was already proposed in the NPRM.

Related Service Information Under 1 CFR Part 51

We reviewed United Instruments, Inc. Service Bulletin No. 13, dated March 25, 2016. The service bulletin describes procedures for replacing the

nonconforming altimeters. This service information is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in the **ADDRESSES** section.

Costs of Compliance

We estimate that this AD affects 1,351 altimeters as installed in airplanes and helicopters of U.S. registry. We estimate the following costs to comply with this AD:

ESTIMATED COSTS

Action	Labor cost	Parts cost	Cost per product	Cost on U.S. operators
Replace altimeter	1 work-hour × \$85 per hour = \$85	\$1,600	\$1,685	\$2,276,435

According to the manufacturer, some of the costs of this AD may be covered under warranty, thereby reducing the cost impact on affected individuals. We do not control warranty coverage for affected individuals. As a result, we have included all costs in our cost estimate.

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA’s authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs, describes in more detail the scope of the Agency’s authority.

We are issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, section 44701: “General requirements.” Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

This AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

- (1) Is not a “significant regulatory action” under Executive Order 12866,
- (2) Is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979),
- (3) Will not affect intrastate aviation in Alaska, and

(4) Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

ACTION: Final rule.

SUMMARY: We are adopting a new airworthiness directive (AD) for The Boeing Company Model 777-200 and -300 series airplanes equipped with Rolls-Royce Model Trent 800 engines. This AD was prompted by reports of damage to the upper bifurcation forward fire seal and seal deflector, and localized damage to the insulation

blanket installed just aft of the fire seal. This AD requires installing serviceable thrust reverser (T/R) halves on the left and right engines. We are issuing this AD to address the unsafe condition on these products.

SUPPLEMENTARY INFORMATION:**Discussion**

We issued a notice of proposed rulemaking (NPRM) to amend 14 CFR part 39 by adding an AD that would apply to The Boeing Company Model 777-200 and -300 series airplanes equipped with Rolls-Royce Model Trent 800 engines. The NPRM published in

the **Federal Register** on March 17, 2016 (81 FR 14402). The NPRM was prompted by reports of damage to the upper bifurcation forward fire seal and seal deflector, and localized damage to the insulation blanket installed just aft of the fire seal. The NPRM proposed to require installing serviceable left and right T/R halves on the left and right engines. We are issuing this AD to prevent a breach in the engine firewall due to a failed upper bifurcation forward fire seal. A breach could delay or prevent the fire detection and suppression system from functioning properly, and could result in an increased risk of a fire, prolonged burning, and breach of the fire zone; and could allow fire to reach unprotected areas of the engine, the strut, and wing after engine shutdown. Also, fan air bypassing the fire seal could cause localized damage to the T/R insulation blanket installed just aft of the fire seal, which could allow limited thermal degradation of the T/R inner wall. This could aggravate existing damage and cause the T/R's inner wall to fail.

Actions Since the NPRM Was Issued

In the Other Relevant Rulemaking section of the NPRM we mentioned additional proposed rulemaking related to the T/Rs for Model 777-200 and -300 series airplanes equipped with Rolls-Royce Model RB211-Trent 800 engines. That action was subsequently issued as a supplemental NPRM (SNPRM), Docket Number FAA-2011-0027, Directorate Identifier 2010-NM-127-AD, which was published in the **Federal Register** on September 25, 2015 (80 FR 57744). The final rule for that SNPRM has been issued and was published in the **Federal Register** on June 17, 2016 (81 FR 39547), as AD 2016-11-16, Amendment 39-18543.

Since the NPRM was issued, the European Aviation Safety Agency (EASA) issued EASA AD 2016-0084, dated April 28, 2016, for Rolls-Royce RB211-Trent 800 engines; and the Engine Certification Office (ECO), Engine and Propeller Directorate, FAA, issued a corresponding NPRM, Docket No. FAA-2016-6692, Directorate Identifier 2016-NE-13-AD, which was published in the **Federal Register** on July 15, 2016 (81 FR 46000). In the EASA AD and FAA ECO NPRM, damage (cracking, missing materials, and hole/openings) to the engine upper bifurcation fairing panel creates a breach of the engine fire wall, which may decrease the effectiveness of the engine fire detection and suppression systems due to excess fan air entering the engine compartment fire zone. The unsafe condition and resulting effects

from EASA AD 2016–0084 and FAA ECO Directorate Identifier 2016–NE–13–AD are the same issues presented in this FAA final rule issued by the Transport Airplane Directorate (TAD). However EASA AD 2016–0084 and FAA ECO Directorate Identifier 2016–NE–13–AD are specific to the engine upper bifurcation fairing panel where the T/R upper bifurcation forward fire seal (the subject of this TAD final rule) mates and press against. Both sets of hardware create a complete firewall feature on the airplane type design. EASA AD 2016–0084 and FAA ECO Directorate Identifier 2016–NE–13–AD address the cracking and or missing material from the engine upper bifurcation fairing panel and this TAD final rule addresses the airplane side—the damage to the T/R upper bifurcation forward fire seal.

Comments

We gave the public the opportunity to participate in developing this AD. The following presents the comments received on the NPRM and the FAA's response to each comment.

Supportive Comments

Connor Blevins, Michael Rambo, The Air Line Pilots Association, International (ALPA), and a commenter identified as “gg” supported the intent of the NPRM.

Request To Refer to Revised Service Information

Boeing requested that the service information specified in paragraph (g) of the proposed AD be revised to refer to Boeing Special Attention Service Bulletin 777–78–0101, Revision 2, dated July 22, 2016 (“SASB 777–78–0101, R2”). Paragraph (g) of the proposed AD referred to Boeing Special Attention Service Bulletin 777–78–0101, Revision 1, dated October 30, 2015 (“SASB 777–78–0101, R1”). Boeing stated that SASB 777–78–0101, R1, contained errors in figures 2 and 5 regarding installation of the fire seal support and retainer. Boeing notified operators of these errors through Boeing Service Bulletin Information Notice 777–78–0101 IN 01, dated November 30, 2015 (“IN 777–78–0101 IN 01”), and released SASB 777–78–0101, R2, to incorporate the information from IN 777–78–0101 IN 01.

We agree with the commenter's request to refer to SASB 777–78–0101, R2, as the appropriate source of service information for accomplishing the actions required by this AD. SASB 777–78–0101, R2, clarifies the installation instructions for the new seal support; and the adjustment of the shim below the lower curved retainer by extending

it to the lower edge of the new seal support so that the gap under the seal retainer is filled. This clarification instruction is similar to the information in IN 777–78–0101 IN 01. We have revised paragraph (g) of this AD accordingly.

Request To Provide Credit for Actions Done Using Earlier Revision of Service Information

Boeing requested that a new paragraph be included in the proposed AD to provide credit for actions accomplished prior to the effective date of the proposed AD using the Accomplishment Instructions specified in SASB 777–78–0101, R1. Boeing stated that despite the errors in SASB 777–78–0101, R1, as discussed previously, completion of the actions specified in SASB 777–78–0101, R1, still corrects the unsafe condition addressed in paragraph (e) of the proposed AD.

We agree with the commenter's request to provide credit for actions done using the Accomplishment Instructions of SASB 777–78–0101, R1. Although SASB 777–78–0101, R2, provides better clarification for the work instructions, SASB 777–78–0101, R1, still provides sufficient instructions to correct the unsafe condition. We have added new paragraph (h) to this AD to provide credit for actions done using the Accomplishment Instructions of SASB 777–78–0101, R1, and redesignated the subsequent paragraphs accordingly.

Request for Global Alternative Method of Compliance (AMOC)

American Airlines (AAL) requested that the final rule require accomplishment of the actions specified in the Accomplishment Instructions of SASB 777–78–0101, R1, and include a global AMOC for operators that have incorporated the actions in both SASB 777–78–0101, R1, and IN 777–78–0101 IN 01.

We acknowledge the commenter's request; however this AD does not require accomplishment of the actions specified in the Accomplishment Instructions of SASB 777–78–0101, R1. This AD requires operators to use SASB 777–78–0101, R2, which includes clarification actions specified in IN 777–78–0101 IN 01. As stated previously, we have also given credit for actions done using the Accomplishment Instructions of SASB 777–78–0101, R1; therefore an AMOC approval is not necessary. We have not changed this AD regarding this issue.

Request To Reduce the Compliance Time

ALPA recommended that the compliance time in the proposed rule be reduced from 60 months to 36 months. The commenter did not specifically provide justification for this request, but we infer that they are implying that a reduced compliance time is warranted due to the significance of the unsafe condition.

We do not agree with the commenter's request to reduce the compliance time. In developing an appropriate compliance time for this action, we considered not only the degree of urgency associated with addressing the subject unsafe condition, but the manufacturer's recommendation for an appropriate compliance time, the time required for the rulemaking process, the availability of required parts, and the practical aspects of installing the required modification within an interval of time that corresponds to the typical scheduled maintenance for the majority of affected operators. Most ADs, including this one, permit operators to accomplish the requirements at a time earlier than the specified compliance time; therefore, an operator may choose to do the installation of serviceable T/R halves on each engine prior to 60 months after the effective date of this AD. If additional data are presented that would justify a shorter compliance time, we may consider further rulemaking on this issue. We have not changed this AD in this regard.

Request To Impose Penalty for Non-Compliance

One commenter, Connor Blevins, suggested that a penalty be included in the NPRM in case an airline does not comply with the proposed regulations. The commenter also stated that the airlines should be given a reasonable amount of time to install the serviceable T/R halves prior to enforcing the penalty. We infer that the commenter is requesting the NPRM be revised to include a penalty for non-compliance.

We agree that there should be a penalty if an operator does not comply with the requirements of an AD. The FAA expects all affected operators to comply with ADs, which are issued to address unsafe conditions. Failure to comply with any FAA regulation, including an AD, might result in a civil penalty action against an operator. An AD is not the appropriate vehicle for addressing civil penalties for non-compliance with the requirements of an AD. Therefore, we have not changed this AD in this regard.

Request To Allow Use of All Subsequent Revisions of Service Information

AAL requested that the final language of the proposed AD allow all subsequent revisions to SASB 777-78-0101, R1, as acceptable methods of compliance. AAL stated that it was making this request due to the high regulatory load already in place for T/Rs on the Boeing 777 Rolls-Royce Trent 892-powered fleet. We infer that the “high regulatory load” refers to the high number of ADs that have been published in response to unsafe conditions identified on the T/R inner walls of Rolls-Royce Trent 892 engines installed on Boeing Model 777 airplanes.

We do not agree with the commenter’s request to allow the use of all subsequent revisions to SASB 777-78-0101, R1, as acceptable methods of compliance. We cannot allow use of “later FAA-approved revisions” in an AD when referring to a service document. Doing so violates Office of the Federal Register (OFR) regulations for approval of materials “incorporated by reference,” as specified in 1 CFR 51.1(f). In general terms, we are required by these OFR regulations to either publish the service document contents as part of the actual AD language; or submit the service document to OFR for approval as “referenced” material, in which case we may only refer to such material in the text of an AD. The AD may refer to the service document only if OFR approved it for “incorporation by reference.” To allow operators to use later revisions of the referenced document (issued after publication of the AD), either we must revise the AD to reference specific later revisions, or operators must request approval to use later revisions as an AMOC under the provisions of paragraph (i) of this AD. We have not changed this AD regarding this issue.

Request To Delay Issuance of Final Rule

Cathay Pacific and Delta Air Lines (DAL) requested that issuance of the final rule be delayed. Cathay Pacific requested that the issuance of the final rule be delayed until the next revision to SASB 777-78-0101, R1, is published. DAL requested that either IN 777-78-0101 IN 01 be included in the final rule, or issuance of the final rule be delayed until the next revision to SASB 777-78-0101, R1, is considered.

Cathay Pacific pointed out that there is a technical issue when an operator attempts to complete the actions in steps 2 and 3 of Figure 5 in SASB 777-78-0101, R1. Cathay Pacific explained that the length of the new seal support is shorter than the retainer, which resulted in insufficient space to drill and ream the 12 fastener holes specified in SASB 777-78-0101, R1. Boeing was contacted and accepted alternative actions to those specified in the service bulletin. Also, we infer from the commenter that Boeing provided instructions to shim under the lower curved retainer and extend it up and under the flat retainer. We infer from the commenter that the above Boeing instructions are equivalent to the procedures in IN 777-78-0101 IN 01. Cathay Pacific is concerned that every time an operator tries to follow the actions specified in SASB 777-78-0101, R1, it will have to contact Boeing for deviation approval, and an AMOC.

DAL noted that Boeing issued IN 777-78-0101 IN 01, to provide additional information needed to incorporate SASB 777-78-0101, R1. DAL also mentioned that the information notice indicated that a revision to SASB 777-78-0101, R1, was in work.

We agree with the commenters requests to delay issuing this final rule until Boeing published a revision to SASB 777-78-0101, R1. As discussed in

the above comment, “Request to Refer to Revised Service Information,” we are now requiring SASB 777-78-0101, R2, as the appropriate source of service information for accomplishing the actions required by this AD since it contains the clarifications described by the commenters.

Conclusion

We reviewed the relevant data, considered the comments received, and determined that air safety and the public interest require adopting this AD with the changes described previously and minor editorial changes. We have determined that these minor changes:

- Are consistent with the intent that was proposed in the NPRM for correcting the unsafe condition; and
- Do not add any additional burden upon the public than was already proposed in the NPRM.

We also determined that these changes will not increase the economic burden on any operator or increase the scope of this AD.

Related Service Information Under 1 CFR Part 51

We reviewed SASB 777-78-0101, R2. The service information describes procedures for installing serviceable left and right T/R halves on the left and right engines. This service information is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in the ADDRESSES section.

Costs of Compliance

We estimate that this AD affects 55 airplanes of U.S. registry.

We estimate the following costs to comply with this AD:

ESTIMATED COSTS

Action	Labor cost	Parts cost	Cost per product	Cost on U.S. operators
Install serviceable T/R halves	Up to 91 work-hours × \$85 per hour = \$7,735.	Up to \$7,338	Up to \$15,073 per airplane.	Up to \$829,015.

According to the manufacturer, some of the costs of this AD may be covered under warranty, thereby reducing the cost impact on affected individuals. We do not control warranty coverage for affected individuals. As a result, we have included all costs in our cost estimate.

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA’s authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs, describes in more detail the scope of the Agency’s authority.

We are issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701: “General requirements.” Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation

is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

This AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

- (1) Is not a "significant regulatory action" under Executive Order 12866,
- (2) Is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979),
- (3) Will not affect intrastate aviation in Alaska, and
- (4) Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Adoption of the Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA amends 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

- 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

- 2. The FAA amends § 39.13 by adding the following new airworthiness directive (AD):

2017-05-07 The Boeing Company

Amendment 39-18817; Docket No. FAA-2016-4225; Directorate Identifier 2015-NM-139-AD.

(a) Effective Date

This AD is effective April 7, 2017.

(b) Affected ADs

None.

(c) Applicability

This AD applies to The Boeing Company Model 777-200 and -300 series airplanes, certificated in any category, equipped with Rolls-Royce Model Trent 800 engines.

(d) Subject

Air Transport Association (ATA) of America Code 78, Engine Exhaust.

(e) Unsafe Condition

This AD was prompted by reports of damage to the upper bifurcation forward fire seal and seal deflector, and localized damage to the insulation blanket installed just aft of the fire seal. We are issuing this AD to prevent a breach in the engine firewall due to a failed upper bifurcation forward fire seal. A breach could delay or prevent the fire detection and suppression system from functioning properly, and could result in an increased risk of a fire, prolonged burning, and breach of the fire zone; and could allow fire to reach unprotected areas of the engine, the strut, and wing after engine shutdown. Also, fan air bypassing the fire seal could cause localized damage to the thrust reverser (T/R) insulation blanket installed just aft of the fire seal, which could allow limited thermal degradation of the T/R inner wall. This could aggravate existing damage and cause the T/R's inner wall to fail.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Installation of Serviceable T/R Halves on Each Engine

Within 60 months after the effective date of this AD: Install serviceable left and right T/R halves on the left and right engines, in accordance with the Accomplishment Instructions of Boeing Special Attention Service Bulletin 777-78-0101, Revision 2, dated July 22, 2016 ("SASB 777-78-0101, R2"). A serviceable T/R half is defined in the Accomplishment Instructions of SASB 777-78-0101, R2.

(h) Credit for Previous Action

This paragraph provides credit for the action required by paragraph (g) of this AD if it was accomplished before the effective date of this AD using Boeing Special Attention Service Bulletin 777-78-0101, Revision 1, dated October 30, 2015.

(i) Alternative Methods of Compliance (AMOCs)

(1) The Manager, Seattle Aircraft Certification Office (ACO), FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the manager of the ACO, send it to the attention of the person identified in paragraph (j)(1) of this AD. Information may be emailed to: 9-ANM-Seattle-ACO-AMOC-Requests@faa.gov.

(2) Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office.

(3) An AMOC that provides an acceptable level of safety may be used for any repair, modification, or alteration required by this

AD if it is approved by the Boeing Commercial Airplanes Organization Designation Authorization (ODA) that has been authorized by the Manager, Seattle ACO, to make those findings. To be approved, the repair method, modification deviation, or alteration deviation must meet the certification basis of the airplane and the approval must specifically refer to this AD.

(4) For service information that contains steps that are labeled as Required for Compliance (RC), the provisions of paragraphs (i)(4)(i) and (i)(4)(ii) apply.

(i) The steps labeled as RC, including substeps under an RC step and any figures identified in an RC step, must be done to comply with the AD. If a step or sub-step is labeled "RC Exempt," then the RC requirement is removed from that step or sub-step. An AMOC is required for any deviations to RC steps, including substeps and identified figures.

(ii) Steps not labeled as RC may be deviated from using accepted methods in accordance with the operator's maintenance or inspection program without obtaining approval of an AMOC, provided the RC steps, including substeps and identified figures, can still be done as specified, and the airplane can be put back in an airworthy condition.

Airworthiness Directives; Airbus Airplanes

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: We are adopting a new airworthiness directive (AD) for all Airbus Model A300 series airplanes. This AD was prompted by an evaluation by the design approval holder (DAH) that indicates that a section of the wing and aft fuselage is subject to widespread fatigue damage (WFD). This AD requires an inspection to determine if certain modifications have been done. We are issuing this AD to address the unsafe condition on these products.

DATES: This AD is effective April 7, 2017.

The Director of the Federal Register approved the incorporation by reference of certain publications listed in this AD as of April 7, 2017.

SUPPLEMENTARY INFORMATION:

Discussion

We issued a notice of proposed rulemaking (NPRM) to amend 14 CFR part 39 by adding an AD that would apply to all Airbus Model A300 series airplanes. The NPRM published in the **Federal Register** on October 26, 2016 (81 FR 74354) (“the NPRM”). The NPRM was prompted by an evaluation by the DAH that indicates that a section of the wing and aft fuselage is subject to WFD. The NPRM proposed to require an inspection to determine if certain modifications have been done. For airplanes on which the specified modifications have not been done, this AD requires accomplishing those modifications, including doing related investigative and corrective actions if necessary. We are issuing this AD to prevent reduced structural integrity of these airplanes due to the failure of certain structural components.

The European Aviation Safety Agency (EASA), which is the Technical Agent for the Member States of the European Union, has issued EASA AD 2015-0173R1, dated August 31, 2016, (referred to after this as the Mandatory Continuing Airworthiness Information, or “the MCAI”), to correct an unsafe condition for all Airbus Model A300 series airplanes. The MCAI states:

A widespread fatigue damage (WFD) analysis conducted on A300 aeroplanes identified areas which are susceptible to crack development.

This condition, if not corrected, could affect the structural integrity of the aeroplane.

To address this issue, Airbus developed a modification (mod) to reinforce the structure of the aeroplane. Airbus issued Service Bulletin (SB) A300-53-0271 to provide

instructions for a cold expansion of the foot attachment holes of certain fuselage frames, and DGAC [Direction Générale de l'Aviation Civile] France issued AD F-2004-001 to require this mod [which corresponds with certain requirements in FAA AD 2004-23-20, Amendment 39-13875 (69 FR 68779, November 26, 2004)].

Since that [DGAC] AD was issued, Airbus released twelve other mods with corresponding SBs, to complete the set of inspections and repairs in the frame of the A300 WFD campaign. EASA issued AD 2015-0115 to require ten of these mods through section 3 of ALS [Airworthiness Limitations Section] Part 2, and decision is made to delete section 3 from ALS Part 2.

For the reasons described above, EASA issued AD 2015-0173, retaining the requirements of DGAC France AD F-2004-001, which was superseded, to require implementation of the additional inspection, modification and/or repair actions, as applicable to aeroplane model.

This [EASA] AD is revised to give credit for previous use of any earlier revision of an affected Airbus SB, based on the fact that no additional work is included in the later SB revisions.

Required actions include an inspection to determine if certain modifications have been done. For airplanes on which the specified modifications have not been done, this AD requires accomplishing those modifications, including doing related investigative and corrective actions if necessary. Depending on airplane configuration, the compliance times for modifying the airplane structure range between 13,300 flight cycles and 48,000 flight cycles since first flight of the airplane. You may examine the MCAI in the AD docket on the Internet at <http://www.regulations.gov> by searching for and locating Docket No. FAA-2016-9298.

Comments

We gave the public the opportunity to participate in developing this AD. We received no comments on the NPRM or on the determination of the cost to the public.

Conclusion

We reviewed the relevant data and determined that air safety and the public interest require adopting this AD as proposed except for minor editorial changes. We have determined that these minor changes:

- Are consistent with the intent that was proposed in the NPRM for correcting the unsafe condition; and
- Do not add any additional burden upon the public than was already proposed in the NPRM.

Costs of Compliance

We estimate that this AD affects 8 airplanes of U.S. registry.

We estimate the following costs to comply with this AD:

ESTIMATED COSTS

Action	Labor cost	Parts cost	Cost per product	Cost on U.S. operators
Modification	3,291 work-hours × \$85 per hour = \$279,735	\$142,845	\$422,580	\$3,380,640

In addition, we estimate that any necessary follow-on actions will take about 15 work-hours and require parts costing \$10,000, for a cost of \$11,275 per product. We have no way of determining the number of aircraft that might need this action.

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA’s authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. “Subtitle VII: Aviation Programs,” describes in more

detail the scope of the Agency’s authority.

We are issuing this rulemaking under the authority described in “Subtitle VII, Part A, Subpart III, Section 44701: General requirements.” Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in

air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

We determined that this AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

1. Is not a “significant regulatory action” under Executive Order 12866;
2. Is not a “significant rule” under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979);
3. Will not affect intrastate aviation in Alaska; and
4. Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Airworthiness Directives; Pilatus Aircraft Ltd. Airplanes

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: We are adopting a new airworthiness directive (AD) for Pilatus Aircraft Ltd. Models PC-6, PC-6-H1, PC-6-H2, PC-6/350, PC-6/350-H1, PC-6/350-H2, PC-6/A, PC-6/A-H1, PC-6/A-H2, PC-6/B-H2, PC-6/B1-H2, PC-6/B2-H2, PC-6/B2-H4, PC-6/C-H2, and PC-6/C1-H2 airplanes. This AD results from mandatory continuing airworthiness information (MCAI) issued by an aviation authority of another country to identify and correct

an unsafe condition on an aviation product. The MCAI describes the unsafe condition as certain combinations of the aileron counterweight and the attaching parts possibly resulting in reduced thread engagement and leading to disconnection of the aileron counterweight from the aileron. We are issuing this AD to require actions to address the unsafe condition on these products.

DATES: This AD is effective April 7, 2017.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in the AD as of April 7, 2017.

ADDRESSES: You may examine the AD docket on the Internet at <http://www.regulations.gov> by searching for and locating Docket No. FAA-2016-9357; or in person at Document Management Facility, U.S. Department of Transportation, Docket Operations, M-30, West Building Ground Floor, Room W12-140, 1200 New Jersey Avenue SE., Washington, DC 20590.

SUPPLEMENTARY INFORMATION:

Discussion

We issued a notice of proposed rulemaking (NPRM) to amend 14 CFR part 39 by adding an AD that would apply to Pilatus Aircraft Ltd. Models PC-6, PC-6-H1, PC-6-H2, PC-6/350, PC-6/350-H1, PC-6/350-H2, PC-6/A, PC-6/A-H1, PC-6/A-H2, PC-6/B-H2, PC-6/B1-H2, PC-6/B2-H2, PC-6/B2-H4, PC-6/C-H2, and PC-6/C1-H2 airplanes. The NPRM was published in the **Federal Register** on November 4, 2016 (81 FR 76883). The NPRM proposed to correct an unsafe condition

for the specified products and was based on mandatory continuing airworthiness information (MCAI) originated by an aviation authority of another country. The MCAI states:

The proper installation of the aileron counterweight requires a combination, peculiar to each aileron, of anchor nut types, bolt types, number of washers, and the definition of the bolt torque. Some combinations of counterweight and attaching parts, which could result in reduced thread engagement, have been reported on a PC-6 aeroplane.

This condition, if not detected and corrected, may lead to a disconnection of the aileron counterweight from the aileron, possibly resulting in reduced control of the aeroplane.

To address this potential unsafe condition, Pilatus issued Service Bulletin (SB) No. 57-006 (hereafter referred to as 'the SB' in this AD) to provide inspection instructions.

For the reason described above, this AD requires identification and inspection of the affected aileron mass-balance counterweight attachment parts and, depending on findings, accomplishment of applicable corrective action(s).

The MCAI can be found in the AD docket on the Internet at: <https://www.regulations.gov/document?D=FAA-2016-9357-0002>.

Comments

We gave the public the opportunity to participate in developing this AD. The following presents the comment received on the proposal and the FAA's response to the comment.

Request for Clarification on the Unsafe Condition

Lukas Owens stated that in the event of loss of the ailerons, some degree of roll control is available by using the secondary effect of rudder. The requester stated that while not an efficient way to turn the aircraft, a pilot has at least some directional control and that short or rapid bursts of power may increase the effectiveness of the rudder to some degree, acting as a form of torque and slipstream effect. The requester asked why the AD change is needed or how it is justified.

We infer that the commenter, in addition to asking why the AD action is necessary and how it is justified, believes the AD action is not needed and is not justified. However, the commenter does not present solutions that address the unsafe condition of the mass-balance weight potentially separating from the airplane. For this reason, we have not changed this AD based on this comment.

Conclusion

We reviewed the relevant data, considered the comment received, and

determined that air safety and the public interest require adopting the AD as proposed except for minor editorial changes. We have determined that these minor changes:

- Are consistent with the intent that was proposed in the NPRM for correcting the unsafe condition; and
- Do not add any additional burden upon the public than was already proposed in the NPRM.

Related Service Information Under 14 CFR Part 51

Pilatus Aircraft Ltd. has issued Pilatus PC-6 Service Bulletin No. 57-006, dated May 13, 2016. The service information describes procedures for removal, installation, and inspection of the ailerons, aileron balance tabs, and the aileron counterweights and their attaching parts. This service information is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in the ADDRESSES section of this document.

Costs of Compliance

We estimate that this AD will affect 30 products of U.S. registry. We also estimate that it would take about 2 work-hours per product to comply with the basic requirements of this AD. The average labor rate is \$85 per work-hour. Required parts would cost about \$100 per product.

Based on these figures, we estimate the cost of this AD on U.S. operators to be \$8,100, or \$270 per product.

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. "Subtitle VII: Aviation Programs," describes in more detail the scope of the Agency's authority.

We are issuing this rulemaking under the authority described in "Subtitle VII, Part A, Subpart III, Section 44701: General requirements." Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

We determined that this AD will not have federalism implications under

Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify this AD:

- (1) Is not a "significant regulatory action" under Executive Order 12866,
- (2) Is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979),
- (3) Will not affect intrastate aviation in Alaska, and
- (4) Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Examining the AD Docket

You may examine the AD docket on the Internet at <http://www.regulations.gov> by searching for and locating Docket No. FAA-2016-9357; or in person at the Docket Management Facility between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. Airworthiness Directives; Airbus Airplanes

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Final rule.

SUMMARY: We are adopting a new airworthiness directive (AD) for certain Airbus Model A318-112 airplanes; Model A319-111, -112, -115, -132, and -133 airplanes; Model A320-214, -232, and -233 airplanes; and Model A321-211, -212, -213, -231, and -232 airplanes. This AD was prompted by a quality control review on the final assembly line, which determined that the wrong aluminum alloy was used to manufacture several structural parts. This AD requires a one-time eddy current conductivity measurement of certain cabin and cargo compartment structural parts to determine if an incorrect aluminum alloy was used, and replacement if necessary. We are issuing this AD to address the unsafe condition on these products.

SUPPLEMENTARY INFORMATION:

Discussion

We issued a notice of proposed rulemaking (NPRM) to amend 14 CFR part 39 by adding an AD that would apply to certain Airbus Model A318-112 airplanes; Model A319-111, -112, -115, -132, and -133 airplanes; Model A320-214, -232, and -233 airplanes; and Model A321-211, -212, -213, -231, and -232 airplanes. The NPRM published in the **Federal Register** on May 26, 2016 (81 FR 33438). The NPRM was prompted by a quality control review on the final assembly line, which determined that the wrong aluminum alloy was used to manufacture several structural parts. The NPRM proposed to require a one-time eddy current conductivity measurement of certain cabin and cargo compartment structural parts to determine if an incorrect aluminum alloy was used, and replacement if necessary. We are issuing this AD to detect and replace structural parts made of incorrect aluminum alloy. This condition could result in reduced structural integrity of the airplane.

The European Aviation Safety Agency (EASA), which is the Technical Agent for the Member States of the European Union, has issued EASA Airworthiness Directive 2015-0218, dated November 3, 2015 (referred to after this as the Mandatory Continuing Airworthiness Information, or “the MCAI”), to correct an unsafe condition for certain Airbus Model A318-112 airplanes; Model A319-111, -112, -115, -132, and -133 airplanes; Model A320-214, -232, and -233 airplanes; and Model A321-211, -212, -213, -231, and -232 airplanes. The MCAI states:

Following an Airbus quality control review on the final assembly line, it was discovered that wrong aluminum alloy were delivered

by a supplier for several structural parts. The results of the investigations highlighted that 0.04% of the stock could be impacted by this wrong material.

Structural investigations demonstrated the capability to sustain the static limits loads, and sufficient fatigue life up to a certain inspection threshold.

This condition, if not detected and corrected, could reduce the structural integrity of the aeroplane.

To address this potential unsafe condition, Airbus issued Service Bulletin (SB) A320-53-1298 and SB A320-53-1299 to provide inspection instructions.

For the reasons described above, this [EASA] AD requires a one-time Special Detailed Inspection (SDI) [eddy current conductivity measurements] of certain cabin and cargo compartment parts for material identification and, depending on findings, replacement with serviceable parts.

You may examine the MCAI in the AD docket on the Internet at <http://www.regulations.gov> by searching for and locating Docket No. FAA-2016-6893.

Comments

We gave the public the opportunity to participate in developing this AD. The following presents the comments received on the NPRM and the FAA's response to each comment.

Support for the NPRM

One commenter, Jerry Curtis, expressed support for the NPRM.

Request To Refer to the Latest Service Information

Airbus requested that we refer to the latest service information: Airbus Service Bulletins A320-53-1298 and A320-53-1299, both Revision 01, both dated June 9, 2016. We referred to Airbus Service Bulletins A320-53-1298 and A320-53-1299, both dated February 16, 2015, as the appropriate sources of service information for accomplishing the actions specified in the NPRM.

We agree with the request to refer to the latest service information. Airbus Service Bulletins A320-53-1298 and A320-53-1299, both Revision 01, both dated June 9, 2016, include updated information and specify that no additional work is necessary for airplanes modified by the original issue. We have revised this AD to refer to Airbus Service Bulletins A320-53-1298 and A320-53-1299, both Revision 01, both dated June 9, 2016. We have also added credit for actions done before the effective date of this AD using Airbus Service Bulletins A320-53-1298 and A320-53-1299, both dated February 16, 2015.

Request To Correct a Certain Part Number (P/N)

Allegiant Air asked if the part number, P/N D5358526421400, in the ninth row of table 1 to paragraphs (g) and (h) of the proposed AD under "Affected P/N" is correct. Allegiant Air stated that the affected part number is the same as the acceptable replacement part number.

We acknowledge the commenter's concern; however, we have confirmed that both part numbers in the ninth row of table 1 to paragraphs (g) and (h) of this AD are the same and are correct as written. Therefore, we have not changed this AD in this regard.

Additional Change to NPRM

We have added paragraph (i) to this AD to clarify that no reporting is required.

Conclusion

We reviewed the relevant data, considered the comments received, and determined that air safety and the public interest require adopting this AD with the change described previously and minor editorial changes. We have determined that these minor changes:

- Are consistent with the intent that was proposed in the NPRM for correcting the unsafe condition; and
- Do not add any additional burden upon the public than was already proposed in the NPRM.

We also determined that these changes will not increase the economic burden on any operator or increase the scope of this AD.

Related Service Information Under 1 CFR Part 51

We reviewed Airbus Service Bulletins A320-53-1298 and A320-53-1299, both Revision 01, both including Appendixes 01 through 03, both dated June 9, 2016. The service information describes procedures for a one-time eddy current conductivity measurement of certain cabin and cargo compartment structural parts to determine if an incorrect aluminum alloy was used, and replacement of any affected part with a serviceable part. These documents are distinct since they apply to different parts of the airplane (cabin and cargo compartment). This service information is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in the ADDRESSES section.

Costs of Compliance

We estimate that this AD affects 167 airplanes of U.S. registry.

We also estimate that it takes about 1 work-hour per product to comply with the basic requirements of this AD. The average labor rate is \$85 per work-hour. Based on these figures, we estimate the cost of this AD on U.S. operators to be \$14,195, or \$85 per product.

We have received no definitive data that would enable us to provide cost estimates for the on-condition actions specified in this AD.

According to the manufacturer, some of the costs of this AD may be covered under warranty, thereby reducing the cost impact on affected individuals. We do not control warranty coverage for affected individuals. As a result, we have included all available costs in our cost estimate.

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. "Subtitle VII: Aviation Programs," describes in more detail the scope of the Agency's authority.

We are issuing this rulemaking under the authority described in "Subtitle VII, Part A, Subpart III, Section 44701: General requirements." Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

We determined that this AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

1. Is not a "significant regulatory action" under Executive Order 12866;
2. Is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979);
3. Will not affect intrastate aviation in Alaska; and
4. Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

(k) Other FAA AD Provisions

The following provisions also apply to this AD:

(1) *Alternative Methods of Compliance (AMOCs)*: The Manager, International Branch, ANM-116, Transport Airplane Directorate, FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the International Branch, send it to ATTN: Sanjay Ralhan, Aerospace Engineer, International Branch, ANM-116, Transport Airplane Directorate, FAA, 1601 Lind Avenue SW., Renton, WA 98057-3356; telephone: 425-227-1405; fax: 425-227-1149. Information may be emailed to: 9-ANM-116-AMOC-REQUESTS@faa.gov. Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office. The AMOC approval letter must specifically reference this AD.

(2) *Contacting the Manufacturer*: For any requirement in this AD to obtain corrective actions from a manufacturer, the action must be accomplished using a method approved by the Manager, International Branch, ANM-116, Transport Airplane Directorate, FAA; or the European Aviation Safety Agency (EASA); or Airbus's EASA Design Organization Approval (DOA). If approved by the DOA, the approval must include the DOA-authorized signature.

(3) *Required for Compliance (RC)*: Except as provided by paragraph (i) of this AD: If any service information contains procedures or tests that are identified as RC, those procedures and tests must be done to comply with this AD; any procedures or tests that are not identified as RC are recommended. Those procedures and tests that are not identified as RC may be deviated from using accepted methods in accordance with the operator's maintenance or inspection program without obtaining approval of an AMOC, provided the procedures and tests identified as RC can be done and the airplane can be put back in an airworthy condition. Any substitutions or changes to procedures or tests identified as RC require approval of an AMOC.

Airworthiness Directives; The Boeing Company Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: We are adopting a new airworthiness directive (AD) for all The Boeing Company Model 767–200 and –300 series airplanes. This AD was prompted by an evaluation by the

design approval holder (DAH) indicating that the frame-to-floor-beam joints and frames common to shear ties at certain locations of fuselage structure are subject to widespread fatigue damage (WFD). This AD requires inspections for cracking of certain frame inner chords and webs common to the floor beam joint and at frames common to the shear ties at certain sections, and corrective action if necessary. We are issuing this AD to address the unsafe condition on these products.

DATES: This AD is effective April 7, 2017.

The Director of the Federal Register approved the incorporation by reference of a certain publication listed in this AD as of April 7, 2017.

ADDRESSES: For service information identified in this final rule, contact Boeing Commercial Airplanes, Attention: Contractual & Data Services (C&DS), 2600 Westminister Blvd., MC 110–SK57, Seal Beach, CA 90740–5600; telephone 562–797–1717; Internet <https://www.myboeingfleet.com>. SUPPLEMENTARY INFORMATION:

Discussion

We issued a notice of proposed rulemaking (NPRM) to amend 14 CFR part 39 by adding an AD that would apply to all The Boeing Company Model 767–200 and –300 series airplanes. The NPRM published in the **Federal Register** on July 7, 2016 (81 FR 44246). The NPRM was prompted by an evaluation by the DAH indicating that the frame-to-floor-beam joints and frames common to shear ties at certain locations of fuselage structure are subject to WFD. The NPRM proposed to require repetitive inspections for cracking of the frame inner chords and webs common to the floor beam joint and at frames common to the shear ties at certain sections on the left and right fuselage sides, and corrective action if necessary. We are issuing this AD to detect and correct cracking of the frame inner chords and webs common to the floor beam joint and at frames common to the shear ties at certain sections on the left and right fuselage sides, which could result in reduced structural integrity of the airplane.

Comments

We gave the public the opportunity to participate in developing this AD. The following presents the comments received on the NPRM and the FAA’s response to each comment.

Support for the NPRM

Boeing and United Airlines expressed support for the NPRM.

Effect of Winglets on Accomplishment of the Proposed Actions

Aviation Partners Boeing stated that accomplishing the Supplemental Type Certificate (STC) ST01920SE does not affect the ability to accomplish the actions specified in the NPRM.

We concur with the commenter. We have redesignated paragraph (c) of the proposed AD as (c)(1) and added paragraph (c)(2) to this AD to state that installation of STC ST01920SE does not affect the ability to accomplish the actions required by this final rule. Therefore, for airplanes on which STC ST01920SE is installed, a “change in product” alternative method of compliance (AMOC) approval request is not necessary to comply with the requirements of 14 CFR 39.17.

Conclusion

We reviewed the relevant data, considered the comments received, and determined that air safety and the public interest require adopting this AD with the changes described previously and minor editorial changes. We have determined that these minor changes:

- Are consistent with the intent that was proposed in the NPRM for correcting the unsafe condition; and

- Do not add any additional burden upon the public than was already proposed in the NPRM.

We also determined that these changes will not increase the economic burden on any operator or increase the scope of this AD.

Related Service Information Under 1 CFR Part 51

We reviewed Boeing Alert Service Bulletin 767–53A0265, Revision 1, dated March 18, 2016. The service information describes procedures for doing a detailed inspection and a surface high frequency eddy current (HFEC) inspection for cracking of the frame inner chord and web common to the floor beam joint in sections 41 and 43 on the left and right sides, a detailed inspection and a surface HFEC

inspection for cracking of the section 43 and 46 frames common to the shear ties on the left and right sides, and repair. This service information is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in the **ADDRESSES** section.

Costs of Compliance

We estimate that this AD affects 306 airplanes of U.S. registry.

We estimate the following costs to comply with this AD:

ESTIMATED COSTS

Action	Labor cost	Parts cost	Cost per product	Cost on U.S. operators
Inspections	Up to 350 work-hours × \$85 per hour = \$29,750 per inspection cycle.	\$0	Up to \$29,750 per inspection cycle	Up to \$9,103,500 per inspection cycle.

We have received no definitive data that would enable us to provide cost estimates for the on-condition actions specified in this AD.

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. Subtitle VII: Aviation Programs, describes in more detail the scope of the Agency's authority.

We are issuing this rulemaking under the authority described in Subtitle VII, Part A, Subpart III, Section 44701: "General requirements." Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

This AD will not have federalism implications under Executive Order 13132. This AD will not have a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that this AD:

(1) Is not a "significant regulatory action" under Executive Order 12866,

(2) Is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979),

(3) Will not affect intrastate aviation in Alaska, and

(4) Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Adoption of the Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA amends 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. The FAA amends § 39.13 by adding the following new airworthiness directive (AD):

2017–05–06 The Boeing Company:
Amendment 39–18816; Docket No. FAA–2016–7423; Directorate Identifier 2016–NM–034–AD.

(a) Effective Date

This AD is effective April 7, 2017.

(b) Affected ADs

None.

(c) Applicability

(1) This AD applies to all The Boeing Company Model 767–200 and –300 series airplanes, certificated in any category.

(2) Installation of Supplemental Type Certificate (STC) ST01920SE ([http://rgl.faa.gov/Regulatory_and_Guidance_Library/rstc.nsf/0/59027f43b9a7486e86257b1d006591ee/\\$FILE/ST01920SE.pdf](http://rgl.faa.gov/Regulatory_and_Guidance_Library/rstc.nsf/0/59027f43b9a7486e86257b1d006591ee/$FILE/ST01920SE.pdf)) does not affect the ability to accomplish the actions required by this AD. Therefore, for airplanes on which STC ST01920SE is installed, a "change in product" alternative method of compliance (AMOC) approval request is not necessary to comply with the requirements of 14 CFR 39.17.

(d) Subject

Air Transport Association (ATA) of America Code 53; Fuselage.

(e) Unsafe Condition

This AD was prompted by an evaluation by the design approval holder (DAH) indicating that the frame-to-floor-beam joints and frames common to shear ties at certain locations of fuselage structure are subject to widespread fatigue damage (WFD). We are issuing this AD to detect and correct cracking of the frame inner chords and webs common to the floor beam joint and at frames common to the shear ties at certain sections on the left and right fuselage sides, which could result in reduced structural integrity of the airplane.

(f) Compliance

Comply with this AD within the compliance times specified, unless already done.

(g) Inspections and Corrective Actions

Except as provided by paragraph (h) of this AD, at the applicable time specified in paragraph 1.E., "Compliance," of Boeing Alert Service Bulletin 767–53A0265, Revision 1, dated March 18, 2016 ("ASB 767–53A0265, R1"): Do the actions required in paragraphs (g)(1) and (g)(2) of this AD, and

do all applicable corrective actions, in accordance with the Accomplishment Instructions of ASB 767-53A0265, R1. Do all applicable corrective actions before further flight. Repeat the inspections specified in paragraphs (g)(1) and (g)(2) of this AD thereafter at the applicable intervals specified in paragraph 1.E., "Compliance," of ASB 767-53A0265, R1.

(1) Do a detailed inspection and a surface high frequency eddy current (HFEC) inspection for cracking of the frame inner chord and web common to the floor beam joint in sections 41 and 43 on the left and right sides.

(2) Do a detailed inspection and a surface HFEC inspection for cracking of the section 43 and 46 frames common to the shear ties on the left and right sides.

(h) Service Information Exception

Where ASB 767-53A0265, R1 specifies a compliance time "after the original issue date of this service bulletin," this AD requires compliance within the specified compliance time after the effective date of this AD.

(i) Credit for Previous Actions

This paragraph provides credit for the actions specified in paragraph (g) of this AD, if those actions were performed before the effective date of this AD using Boeing Alert Service Bulletin 767-53A0265, dated March 18, 2015.

(j) Alternative Methods of Compliance (AMOCs)

(1) The Manager, Seattle Aircraft Certification Office (ACO), FAA, has the authority to approve AMOCs for this AD, if requested using the procedures found in 14 CFR 39.19. In accordance with 14 CFR 39.19, send your request to your principal inspector or local Flight Standards District Office, as appropriate. If sending information directly to the manager of the ACO, send it to the attention of the person identified in paragraph (k)(1) of this AD. Information may be emailed to: 9-ANM-Seattle-ACO-AMOC-Requests@faa.gov.

(2) Before using any approved AMOC, notify your appropriate principal inspector, or lacking a principal inspector, the manager of the local flight standards district office/certificate holding district office.

(3) An AMOC that provides an acceptable level of safety may be used for any repair, modification, or alteration required by this AD if it is approved by the Boeing Commercial Airplanes Organization Designation Authorization (ODA) that has been authorized by the Manager, Seattle ACO, to make those findings. To be approved, the repair method, modification deviation, or alteration deviation must meet the certification basis of the airplane, and the approval must specifically refer to this AD.

(4) For service information that contains steps that are labeled as Required for Compliance (RC), the provisions of paragraphs (j)(4)(i) and (j)(4)(ii) of this AD apply.

(i) The steps labeled as RC, including substeps under an RC step and any figures identified in an RC step, must be done to comply with the AD. If a step or substep is labeled "RC Exempt," then the RC

requirement is removed from that step or substep. An AMOC is required for any deviations to RC steps, including substeps and identified figures.

(ii) Steps not labeled as RC may be deviated from using accepted methods in accordance with the operator's maintenance or inspection program without obtaining approval of an AMOC, provided the RC steps, including substeps and identified figures, can still be done as specified, and the airplane can be put back in an airworthy condition.

RIN 1625-AA08

Special Local Regulation; Black Warrior River; Tuscaloosa, AL

AGENCY: Coast Guard, DHS.

ACTION: Temporary final rule.

SUMMARY: The Coast Guard is establishing a temporary special local regulation on the Black Warrior River extending the entire width of the river from mile marker 338.5 to mile marker 339.5 in Tuscaloosa, AL. The special local regulation is needed to protect the persons participating in the USA Triathlon Collegiate National Championships marine event. This rulemaking restricts transit into, through and within the regulated area unless specifically authorized by the Captain of the Port Mobile.

DATES: This rule is effective from 5 a.m. on April 21, 2017 until 6 p.m. on April 22, 2017.

ADDRESSES: To view documents mentioned in this preamble as being available in the docket, go to <http://www.regulations.gov>, type USCG-2017-0034 in the "SEARCH" box and click "SEARCH." Click on Open Docket Folder on the line associated with this rule.

FOR FURTHER INFORMATION CONTACT: If you have questions on this rule, call or email LT Fannie L. Wilks, Sector Mobile, Waterways Management Division, U.S. Coast Guard; telephone 251-441-5940, email Fannie.L.Wilks@uscg.mil.

SUPPLEMENTARY INFORMATION:

I. Table of Abbreviations

CFR Code of Federal Regulations
DHS Department of Homeland Security
FR Federal Register
NPRM Notice of proposed rulemaking
PATCOM Patrol Commander
§ Section
U.S.C. United States Code

II. Background Information and Regulatory History

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to

comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because doing so would be impracticable. At this time, it would be impracticable to complete the full notice and comment process because this special local regulation must be established on April 21, 2017 and April 22, 2017.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 33 U.S.C. 1233. The Captain of the Port Mobile (COTP) has determined that potential hazards associated with the triathlon event on April 21, 2017 and April 22, 2017 will be a safety concern for anyone within the area of the Black Warrior River between mile marker 338.5 and mile marker 339.5. This rule is needed to protect participants, spectators, and other persons and vessels during the Triathlon event on navigable waters.

IV. Discussion of the Rule

This rule establishes a special local regulation on April 21, 2017 and April 22, 2017, which will be enforced between the hours of 5 a.m. and 6 p.m. The special local regulation takes place on the Black Warrior River between mile marker 338.5 and mile marker 339.5, extending the entire width of the navigable channel. The duration of the regulation is intended to protect participants, spectators, and other persons and vessels before, during, and after the triathlon event. No vessel or person will be permitted to enter, transit within or through, or exit the regulated area without obtaining permission from the COTP or a designated representative. Spectator vessels desiring to enter, transit through or within, or exit the regulated area may request permission to do so from the Patrol Commander. When permitted to transit the area vessels must follow restrictions within the regulated area as directed by the Coast Guard, and must operate at a minimum safe navigation speed in a manner which will not endanger participants in the regulated area or any other vessels.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 (“Regulatory Planning and Review”) and 13563 (“Improving Regulation and Regulatory Review”) direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. Executive Order 13771 (“Reducing Regulation and Controlling Regulatory Costs”), directs agencies to reduce regulation and control regulatory costs and provides that “for every one new regulation issued, at least two prior regulations be identified for elimination, and that the cost of planned regulations be prudently managed and controlled through a budgeting process.”

The Office of Management and Budget (OMB) has not designated this rule a significant regulatory action under section 3(f) of Executive Order 12866. Accordingly, the Office of Management and Budget (OMB) has not reviewed it. As this rule is not a significant regulatory action, this rule is exempt from the requirements of Executive Order 13771. See OMB’s Memorandum titled “Interim Guidance Implementing Section 2 of the Executive Order of January 30, 2017 titled ‘Reducing Regulation and Controlling Regulatory Costs’” (February 2, 2017).

This regulatory action determination is based on the size, location, duration, and time-of-year of the regulation. The special local regulation will take place on a one mile stretch of navigable waterway, during a short duration of eleven hours on two days on the Black Warrior River from mile marker 338.5 to 339.5 on April 21, 2017 and April 22, 2017. Moreover, the Coast Guard will issue Broadcast Notices to Mariners via VHF-FM marine channel 16 about the regulation so that waterway users may plan accordingly for transits during this restriction. The rule also allows vessels to seek permission from the COTP Mobile or a designated representative to enter the regulated area.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small

businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

While some owners or operators of vessels intending to transit the regulated area may be small entities, for the reasons stated in section V.A above, this rule will not have a significant economic impact on any vessel owner or operator.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency’s responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

C. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this rule has implications for federalism or Indian tribes, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section above.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.ID, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves a special local regulation lasting for 11 hours on two days on the Black Warrior River between mile marker 338.5 and mile marker 339.5. It is categorically excluded from further review under paragraph 34(h) of Figure 2–1 of the Commandant Instruction. An environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your

message can be received without jeopardizing the safety or security of people, places or vessels.

SUPPLEMENTARY INFORMATION: The Burlington Northern Santa Fe Railway Company requested a temporary deviation from the operating schedule of the Galveston Causeway Railroad Vertical Lift Bridge across the GIWW, mile 357.2 WHL, at Galveston, Galveston County, Texas. This deviation was requested to allow the bridge owner to complete cable lubing and scheduled semi-annual maintenance. This bridge is governed by 33 CFR 117.5.

This deviation allows the vertical lift bridge to remain in the closed-to-navigation position from 7 a.m. to 11 a.m. and from 1 p.m. to 5 p.m., daily, beginning March 6 through March 10, 2017, with a scheduled two-hour opening each day to facilitate passage of vessel traffic from 11 a.m. to 1 p.m., and the bridge will revert to open on demand status at 5 p.m. each day.

The bridge has a vertical clearance of 8.0 feet above mean high water, elevation 3 feet of the North American Vertical Datum of 1988 (NAVD88), in the closed-to-navigation position and 73 feet above mean high water in the open-to-navigation position. Navigation at the site of the bridge consists mainly of tows with barges and some recreational pleasure craft. The bridge can open in case of emergency. No alternate routes are available. The Coast Guard will

inform the users of the waterways through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Drawbridge Operation Regulation; Annisquam River and Blynman Canal, Gloucester, MA

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from drawbridge regulations; modification.

SUMMARY: The Coast Guard has modified a temporary deviation from the operating schedule that governs the Blynman (SR127) Bridge across the Annisquam River and Blynman Canal at mile 0.0 at Gloucester, MA. This modified deviation allows the bridge to remain in the closed-to-navigation position and is necessary to perform bridge repairs.

DATES: This modified deviation is effective from 7 a.m. on March 13, 2017 through 4 p.m. on March 19, 2017.

ADDRESSES: The docket for this deviation, USCG-2016-1023 is available at <http://www.regulations.gov>. Type the docket number in the "SEARCH" box and click "SEARCH". Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this modified temporary deviation, call or email Mr. Jeffrey Stieb, First Coast Guard District Bridge Branch, Coast Guard, telephone 617-223-8364, email Jeffrey.D.Stieb@uscg.mil.

SUPPLEMENTARY INFORMATION: On December 9, 2016, the Coast Guard published a temporary deviation entitled "Drawbridge Operation Regulation; Annisquam River and

Blynman Canal, Gloucester, MA” in the **Federal Register** (81 FR 89007). The temporary deviation allows the bridge to be opened with a two hour advance notice during the hours of 8 p.m. through 4 a.m. from December 6, 2016 through April 30, 2017.

The owner of the bridge, the Massachusetts Department of Transportation, has requested a modification of the currently published deviation in order to close the bridge to navigation from 7 a.m. on Monday, March 13, 2017 through 4 p.m. on Sunday, March 19, 2017, for necessary repairs. Two bascule leaf motors will be removed off site to be rehabilitated and reinstalled. During the period of this modification the draw span will be inoperable.

The waterways are transited primarily by seasonal recreational vessels of various sizes. On average, twelve requests were made annually during the seven day period in March for which the modification is requested. The bridge will not be able to open for emergencies. The Coast Guard contacted local waterway users regarding the Commonwealth’s request for this modification and received no objections. The height of the bridge in the closed position is eight feet. Vessels able to pass through the bridge in the closed position may continue to do so. The northern entrance to the Annisquam River can be used as an alternate route for vessels to Ipswich Bay and the Atlantic Ocean.

The Coast Guard will inform users of the bridge closure through our Local and Broadcast Notices to Mariners so vessel operators can arrange their transit to minimize impacts. The drawbridge schedule will return to regular operation on April 30, 2017. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: February 27, 2017.

II. Background Information and Regulatory History

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because the Double-Crested Cormorant removal operations are scheduled to begin on April 3, 2017 and there is not sufficient time to publish an NPRM and take comments prior to the safety zone being needed to help ensure the safety of waterways users. The Coast Guard received the specific dates that the removal operations will take place on February 27, 2017.

The Coast Guard is soliciting public comments on this temporary interim rule. Although we need to make this interim rule effective starting April 3, 2017, we will consider public comments and may issue a temporary final rule that will supersede this interim rule based on your comment.

III. Public Participation and Request for Comments

We view public participation as essential to effective rulemaking, and will consider all comments and material received during the comment period. Your comment can help shape the outcome of this rulemaking. If you submit a comment, please include the docket number for this rulemaking, indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation.

We encourage you to submit comments through the Federal eRulemaking Portal at <http://www.regulations.gov>. If your material cannot be submitted using <http://www.regulations.gov>, contact the person in the **FOR FURTHER INFORMATION CONTACT** section of this document for alternate instructions.

We accept anonymous comments. All comments received will be posted without change to <http://www.regulations.gov> and will include

any personal information you have provided. For more about privacy and the docket, visit <http://www.regulations.gov/privacyNotice>.

Documents mentioned in this temporary interim rule as being available in the docket, and all public comments, will be in our online docket at <http://www.regulations.gov> and can be viewed by following that Web site's instructions. Additionally, if you go to the online docket and sign up for email alerts, you will be notified when comments are posted or a final rule is published.

IV. Legal Authority and Need for Rule

The U.S. Army Corps of Engineers and U.S. Department of Agriculture Wildlife Services notified the Coast Guard that they intend to conduct removal operations of Double-Crested Cormorant in the area of Sand Island on the Columbia River, near Chinook, WA, on the following dates from 7 a.m. to 3 p.m. each day: April 3–6, April 10–13, April 17–20, April 24–27, May 1–4, May 8–11, May 15–18, and May 22–25, 2017. These operations will involve the use of firearms and live ammunition from the small boat “Nessy.” The COTP has determined that the operations pose a potential safety hazard for anyone within a 500-yard radius of “Nessy” due to the live gunfire, unpredictable animal behavior, and the highly dynamic marine environment in that area, which is characterized by strong tides, river currents, and wind. As such, the safety zone is needed to help ensure the safety of all waterways users in the area. The safety zone is proposed under the authority in 33 U.S.C. 1231; 50 U.S.C. 191; 33 CFR 1.05–1, 6.04–1, 6.04–6, and 160.5; Department of Homeland Security Delegation No. 0170.1.

V. Discussion of the Rule

The COTP establishes a 500-yard safety zone around the small boat “Nessy” on April 3–6, April 10–13, April 17–20, April 24–27, May 1–4, May 8–11, May 15–18, and May 22–25, 2017 from 7 a.m. to 3 p.m. while it is operating in the area encompassed by these points: 46°5'5" N., 123°59'39" W.; 46°15'24" N., 123°59'42" W.; 46°13'32" N., 123°57'18" W.; 46°15'9" N., 123°55'24" W.; and 46°15'54" N., 123°58'6" W. Additional and/or changes to the dates (within the effective period of this rule) and times that the safety zone will be enforced may be necessary due to weather conditions and/or other variables and will be communicated to the public via Broadcast Notice to Mariners and on-scene notification. The safety zone is intended to protect persons and vessels from the potential

safety hazards associated with Double-Breasted Cormorant removal operations being conducted by the U.S. Army Corps of Engineers and U.S. Department of Agriculture Wildlife Services from “Nessy” and will do so by prohibiting all persons and vessels from entering the safety zone without permission from the COTP or a designated representative. “Nessy” is described as a 20-foot black and gray aluminum work skiff with an overhead light arch.

VI. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and Executive orders, and we discuss First Amendment rights of protestors.

A. Regulatory Planning and Review

Executive Orders 12866 and 13563 direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits. Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This rule has not been designated a “significant regulatory action,” under Executive Order 12866. Accordingly, it has not been reviewed by the Office of Management and Budget.

This regulatory action determination is based on the limited size, location, duration, and time-of-day that the safety zone will be in effect and the fact that vessel traffic would be able to safely transit around the safety zone. In addition, mariners may request permission from the COTP to enter the zone if necessary.

B. Impact on Small Entities

The Regulatory Flexibility Act of 1980, 5 U.S.C. 601–612, as amended, requires Federal agencies to consider the potential impact of regulations on small entities during rulemaking. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule will not have a significant economic impact on a substantial number of small entities.

While some owners or operators of vessels intending to transit the safety zone may be small entities, for the reasons stated in section VI.A above this

rule would not have a significant economic impact on any vessel owner or operator.

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule. If the rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section.

Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency's responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247). The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

C. Collection of Information

This rule will not call for a new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

D. Federalism and Indian Tribal Governments

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government. We have analyzed this rule under that Order and have determined that it is consistent with the fundamental federalism principles and preemption requirements described in Executive Order 13132.

Also, this rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. If you believe this rule has implications for federalism or Indian tribes, please contact the person listed in the **FOR**

FURTHER INFORMATION CONTACT section above.

E. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

F. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. This rule involves the establishment of a temporary safety zone. It is categorically excluded from further review under paragraph 34(g) of Figure 2–1 of the Commandant Instruction. An environmental analysis checklist supporting this determination and a Categorical Exclusion Determination are available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.

G. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

[Docket No. SLSDC–2016–0006]

RIN 2135–AA42

Seaway Regulations and Rules: Periodic Update, Various Categories

AGENCY: Saint Lawrence Seaway Development Corporation, DOT.

ACTION: Final rule.

SUMMARY: The Saint Lawrence Seaway Development Corporation (SLSDC) and the St. Lawrence Seaway Management Corporation (SLSMC) of Canada, under international agreement, jointly publish and presently administer the St. Lawrence Seaway Regulations and Rules (Practices and Procedures in Canada) in their respective jurisdictions. Under agreement with the SLSMC, the SLSDC is amending the joint regulations by updating the Seaway Regulations and Rules in various categories. The changes update the following sections of the Regulations and Rules: Condition of Vessels; Seaway Navigation; Radio Communications; General; and, Vessels Transiting U.S. Waters. These amendments are necessary to take account of updated procedures and will enhance the safety of transits through the Seaway. Several of the amendments are merely editorial or for clarification of existing requirements. The joint regulations will become effective in Canada on March 20, 2017.

DATES: This rule is effective on March 20, 2017.

ADDRESSES: *Docket:* For access to the docket to read background documents or comments received, go to <http://www.Regulations.gov>; or in person at the Docket Management Facility; U.S. Department of Transportation, 1200 New Jersey Avenue SE., West Building Ground Floor, Room W12–140, Washington, DC 20590–001, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Carrie Mann Lavigne, Chief Counsel, Saint Lawrence Seaway Development

Corporation, 180 Andrews Street, Massena, New York 13662; 315/764-3200.

SUPPLEMENTARY INFORMATION: The Saint Lawrence Seaway Development Corporation (SLSDC) and the St. Lawrence Seaway Management Corporation (SLSMC) of Canada, under international agreement, jointly publish and presently administer the St. Lawrence Seaway Regulations and Rules (Practices and Procedures in Canada) in their respective jurisdictions. Under agreement with the SLSMC, the SLSDC is amending the joint regulations by updating the Regulations and Rules in various categories. The changes update the following sections of the Regulations and Rules: Condition of Vessels; Seaway Navigation; Radio Communications; General; and, Vessels Transiting U.S. Waters. These updates are necessary to take account of updated procedures which will enhance the safety of transits through the Seaway. Many of these changes are to clarify existing requirements in the regulations. Where new requirements or regulations are made, an explanation for such a change is provided below.

Regulatory Notices: Privacy Act: Anyone is able to search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (Volume 65, Number 70; Pages 19477-78) or you may visit <http://www.Regulations.gov>.

The SLSDC is amending two sections of the Condition of Vessels portion of the joint Seaway regulations. In § 401.08, "Landing booms", the two Corporations are requiring vessels with freeboard greater than 2 m and not equipped with landing booms to use the Seaway tie-up service at approach walls. Under the current rules, crew members on vessels with freeboard greater than 2 m and no landing booms jump approximately 4-6 feet from the vessel to the approach wall. This rule would eliminate the safety risks associated with this practice.

In § 401.9, "Radio telephone and navigation equipment", the SLSDC and SLSMC are requiring that vessels maintain radio transmitters on board that are fitted to communicate on additional VHF channels to reduce possible interference from channels transmitting lock operation instructions to vessels via specially designated VHF channels.

In the Seaway Navigation portion of the regulations, a change to § 401.44, "Mooring in locks", is being made that would require one crew member to be present on deck during lockage to assist the Bridge team. A change to § 401.89, "Transit refused" of the General section of the regulations clarifies that vessels need to be in compliance with Transport Canada's Marine Safety and Security regulations in order to transit the Seaway.

The other changes to the joint regulations are merely editorial or to clarify existing requirements.

A Notice of Proposed Rulemaking was published in the **Federal Register** (82 FR 1287) on January 5, 2017. No comments were received during the 30-day notice and comment period. The joint regulations will become effective in Canada on March 20, 2017.

Regulatory Evaluation

This regulation involves a foreign affairs function of the United States and therefore, Executive Order 12866 does not apply and evaluation under the Department of Transportation's Regulatory Policies and Procedures is not required.

Regulatory Flexibility Act Determination

I certify that this regulation will not have a significant economic impact on a substantial number of small entities. The St. Lawrence Seaway Regulations and Rules primarily relate to commercial users of the Seaway, the vast majority of who are foreign vessel operators. Therefore, any resulting costs will be borne mostly by foreign vessels.

Environmental Impact

This regulation does not require an environmental impact statement under the National Environmental Policy Act (49 U.S.C. 4321, *et seq.*) because it is not a major federal action significantly affecting the quality of the human environment.

Federalism

The Corporation has analyzed this rule under the principles and criteria in Executive Order 13132, dated August 4, 1999, and have determined that this proposal does not have sufficient federalism implications to warrant a Federalism Assessment.

Unfunded Mandates

The Corporation has analyzed this rule under Title II of the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4, 109 Stat. 48) and determined that it does not impose unfunded mandates on State, local, and tribal governments

and the private sector requiring a written statement of economic and regulatory alternatives.

Paperwork Reduction Act

This regulation has been analyzed under the Paperwork Reduction Act of 1995 and does not contain new or modified information collection requirements subject to the Office of Management and Budget review.

Tariff of Tolls

AGENCY: Saint Lawrence Seaway Development Corporation, DOT.

ACTION: Final rule.

SUMMARY: The Saint Lawrence Seaway Development Corporation (SLSDC) and the St. Lawrence Seaway Management Corporation (SLSMC) of Canada, under international agreement, jointly publish and presently administer the St. Lawrence Seaway Tariff of Tolls in their respective jurisdictions. The Tariff sets forth the level of tolls assessed on all commodities and vessels transiting the facilities operated by the SLSDC and the SLSMC. The SLSDC is revising its regulations to reflect the fees and charges levied by the SLSMC in Canada starting in the 2017 navigation season, which are effective only in Canada. An amendment to increase the minimum charge per lock for those vessels that are not pleasure craft or subject in Canada to tolls under items 1 and 2 of the Tariff for full or partial transit of the Seaway will apply in the U.S. (See **SUPPLEMENTARY INFORMATION.**) The Tariff of Tolls will become effective in Canada on March 20, 2017.

DATES: This rule is effective on March 20, 2017.

ADDRESSES: *Docket:* For access to the docket to read background documents or comments received, go to <http://www.Regulations.gov>; or in person at the Docket Management Facility; U.S. Department of Transportation, 1200 New Jersey Avenue SE., West Building Ground Floor, Room W12-140, Washington, DC 20590-001, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

SUPPLEMENTARY INFORMATION: The Saint Lawrence Seaway Development Corporation (SLSDC) and the St. Lawrence Seaway Management Corporation (SLSMC) of Canada, under international agreement, jointly publish and presently administer the St. Lawrence Seaway Tariff of Tolls (Schedule of Fees and Charges in Canada) in their respective jurisdictions.

The Tariff sets forth the level of tolls assessed on all commodities and vessels transiting the facilities operated by the SLSDC and the SLSMC. The SLSDC is proposing to revise 33 CFR 402.12, “Schedule of tolls”, to reflect the fees and charges levied by the SLSMC in Canada beginning in the 2017 navigation season. With one exception, the changes affect the tolls for commercial vessels and are applicable only in Canada. The collection of tolls by the SLSDC on commercial vessels transiting the U.S. locks is waived by law (33 U.S.C. 988a(a)). Accordingly, no notice or comment was necessary on these amendments.

The SLSDC is amending 33 CFR 402.12, “Schedule of tolls”, to increase the minimum charge per vessel per lock for full or partial transit of the Seaway from \$27.46 to \$28.01. This charge is for vessels that are not pleasure craft or subject in Canada to the tolls under items 1 and 2 of the Tariff. This increase is due to higher operating costs at the locks.

A Notice of Proposed Rulemaking was published in the **Federal Register** (82 FR 1285) on January 5, 2017. No comments were received during the 30-day notice and comment period.

[EPA-HQ-SFUND-1989-0008; FRL-9959-86-Region 3]

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List: Partial Deletion of the North Penn Area 6 Superfund Site

AGENCY: Environmental Protection Agency.

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) Region III announces the deletion of a portion of the North Penn Area 6 Superfund Site (Site) located in Lansdale Borough, Montgomery County, Pennsylvania, from the National Priorities List (NPL). The deletion affects approximately 6.5 acres located at 135 East Hancock Street (the "Administrative Parcel"). The NPL, promulgated pursuant to section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). This partial deletion pertains to the soils and groundwater of the Administrative Parcel portion of the Site. The other portions of the Site will remain on the NPL and are not being considered for deletion as part of this action. The EPA and the Commonwealth of Pennsylvania, through the Pennsylvania Department of Environmental Protection (PADEP), have determined that all appropriate response actions under CERCLA, other than monitoring and five-year reviews, have been completed. However, the deletion of the Administrative Parcel does not preclude future actions under Superfund.

DATES: This action is effective March 3, 2017.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA-HQ-SFUND-1989-0008. All documents in the docket are listed on the <http://www.regulations.gov> Web site. Although listed in the index, some information is not publicly available, *i.e.*, Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through <http://www.regulations.gov> or in hard copy at the site information repositories. Locations, contacts, phone numbers and viewing hours are:

- U.S. EPA Region III, Superfund Records Center, 6th Floor, 1650 Arch Street, Philadelphia, PA 19103-2029; phone (215) 814-3157, Monday through Friday 8:00 a.m. to 5:00 p.m.
- The Lansdale Public Library, 301 Vine St., Lansdale, PA 19446; phone (215) 855-3228, Monday through Friday 10:00 a.m. to 9:00 p.m.

FOR FURTHER INFORMATION CONTACT: Huu Ngo, Remedial Project Manager (3HS21), U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, PA 19103-2029; (215) 814-3187; email: ngo.huu@epa.gov.

SUPPLEMENTARY INFORMATION: The portion of the Site to be deleted from the NPL is approximately 6.5 acres located at 135 East Hancock Street, within the former Tate Andale Property of the North Penn Area 6 Superfund Site, Lansdale Borough, Montgomery County, Pennsylvania. A Notice of Intent for Partial Deletion for this Site was published in the **Federal Register** (81 FR 94295) on December 23, 2016.

The closing date for comments on the Notice of Intent for Partial Deletion was January 23, 2017. Two public comments were received, which expressed concern regarding environmental risk and groundwater contamination. EPA responded to these comments by citing the soil and groundwater cleanups that have occurred, and the determination that, for the Administrative Parcel, the

remedial action objectives for the soil and groundwater cleanups have been met and no further Superfund response actions are needed to protect human health and the environment. A responsiveness summary was prepared and placed in both the docket, EPA-HQ-SFUND-1989-0008, on www.regulations.gov, and in the local repositories listed above.

EPA maintains the NPL as the list of sites that appear to present a significant risk to public health, welfare, or the environment. Deletion of a site from the NPL does not preclude further remedial action. Whenever there is a significant release from a site deleted from the NPL, the deleted site may be restored to the NPL without application of the hazard ranking system. Deletion of portions of a site from the NPL does not affect responsible party liability, in the unlikely event that future conditions warrant further actions.

[Docket No. 160920866-7167-02]

RIN 0648-XF253

Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 620 in the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; closure.

SUMMARY: NMFS is prohibiting directed fishing for pollock in Statistical Area 620 in the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the A season allowance of the 2017 total allowable catch of pollock for Statistical Area 620 in the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), February 28, 2017, through 1200 hrs, A.l.t., March 10, 2017.

FOR FURTHER INFORMATION CONTACT: Josh Keaton, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management

Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The A season allowance of the 2017 total allowable catch (TAC) of pollock in Statistical Area 620 of the GOA is 34,549 metric tons (mt) as established by the final 2017 and 2018 harvest specifications for groundfish in the GOA (82 FR 12032, February 27, 2017).

In accordance with § 679.20(d)(1)(i), the Regional Administrator has determined that the A season allowance of the 2017 TAC of pollock in Statistical Area 620 of the GOA will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 34,049 mt and is setting aside the remaining 500 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance has been reached. Consequently, NMFS is prohibiting directed fishing for pollock in Statistical Area 620 of the GOA.

After the effective date of this closure the maximum retainable amounts at § 679.20(e) and (f) apply at any time during a trip.

Classification

This action responds to the best available information recently obtained

from the fishery. The Acting Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the closure of directed fishing for pollock in Statistical Area 620 of the GOA. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of February 24, 2017.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: February 28, 2017.

Karen H. Abrams,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Discussion

EASA, which is the Technical Agent for the Member States of the European Union, has issued EASA AD No. 2015-0156, dated July 29, 2015, and corrected July 30, 2015, to correct an unsafe condition for Airbus Helicopters Model AS332C, AS332C1, AS332L, AS332L1, and AS332L2 helicopters manufactured before July 14, 2014, and equipped with cabin sliding plug doors (sliding doors) modified in accordance with Airbus Helicopters modification (MOD) AL25612 or 0725870. EASA AD No. 2015-0156 also applies to Airbus Helicopters Model EC225LP helicopters manufactured before July 14, 2014, and equipped with sliding doors.

EASA advises that the sliding door's emergency jettisoning mechanism failed during a scheduled inspection and that a subsequent investigation found significant corrosion damage caused by water that accumulated after a plastic-rubber compound obstructed the water drain of the door's jettison mechanism system. This condition, if not detected and corrected, could lead to jamming of the jettisoning mechanism, possibly

preventing the jettisoning of the door during an emergency and jeopardizing the safe evacuation of occupants, EASA advises.

To address this unsafe condition, EASA AD No. 2015-0156 requires a one-time inspection of the left hand and right hand sliding doors for corrosion.

FAA's Determination

These helicopters have been approved by the aviation authority of France and are approved for operation in the United States. Pursuant to our bilateral agreement with France, EASA, its technical representative, has notified us of the unsafe condition described in its AD. We are proposing this AD because we evaluated all known relevant information and determined that an unsafe condition is likely to exist or develop on other products of the same type design.

Related Service Information Under 1 CFR Part 51

We reviewed Airbus Helicopters Alert Service Bulletin No. AS332-53.01.86, Revision 1, dated June 29, 2015 (ASB AS332-53.01.86), for Model AS332C, AS332C1, AS332L, AS332L1, and AS332L2 helicopters and military model AS332B, B1, F1, M, and M1 helicopters; and Alert Service Bulletin No. EC225-53A048, Revision 0, dated August 18, 2014 (ASB EC225-53A048), for Model EC225LP helicopters. ASB AS332-53.01.86 and ASB EC225-53A048 specify checking areas of the emergency jettisoning system of the sliding doors for the absence of sealing compound, for corrosion on the visible surfaces of the bracket, for the absence of interference between the stainless steel pipe and the aluminum bracket, and for non-obstruction of the drain.

This service information is reasonably available because the interested parties have access to it through their normal course of business or by the means identified in the **ADDRESSES** section.

Proposed AD Requirements

This proposed AD would require, within 30 days, visually inspecting the left-hand and right-hand sliding doors for sealing compound and removing any sealing compound.

This proposed AD also would require inspecting all visible bracket surfaces for corrosion. If there is any corrosion, this proposed AD would require removing the corrosion, measuring the corrosion depth, and performing a jettisoning test. If the measured corrosion depth is less than 0.5 mm and the door passes the test, this proposed AD would require applying corrosion protectant. If the measured corrosion

depth is 0.5 mm or more and the door passes the test, this proposed AD would require applying corrosion protectant, retesting at intervals not to exceed two months, and then replacing the jettisoning system within 6 months. If the door does not pass the test, this proposed AD would require replacing the jettisoning system before further flight.

This proposed AD would also require measuring the clearance between the bracket and stainless steel pipe. If the clearance is less than 3 mm, this proposed AD would require removing the lockwire from the union, loosening the unions of the air vent pipe, positioning the support and the air vent pipe to ensure a minimum clearance of 3 mm. This proposed AD would then require tightening the support and unions of the pipe and safety the union using lockwire.

For Model EC225LP helicopters and Model AS332-series helicopters with modification AL25612, this proposed AD would require inspecting for drain obstruction and, if the drain is obstructed, removing the sealing compound and adhesive from the gutter in the bracket area and unclogging the drain and gutter. This proposed AD would then require cleaning the gutter, applying adhesive to the gutter, and applying sealing compound.

Differences Between This Proposed AD and the EASA AD

The EASA AD requires compliance within various times, depending on the helicopter model and modifications. This proposed AD would require compliance within 30 days.

Costs of Compliance

We estimate that this proposed AD would affect 24 helicopters of U.S. Registry and that labor costs average \$85 per work-hour. Based on these estimates, we expect that visually inspecting for corrosion would require 1 work-hour and no parts for a total cost of \$85 per helicopter, and \$2,040 for the U.S. fleet. Replacing corroded parts would require 8 work-hours and parts would cost \$500 for a total cost of \$1,180 per helicopter. Replacing the door jettisoning system would require 16 work-hours and parts would cost \$4,500 for a total cost of \$5,860 per helicopter.

Authority for This Rulemaking

Title 49 of the United States Code specifies the FAA's authority to issue rules on aviation safety. Subtitle I, section 106, describes the authority of the FAA Administrator. "Subtitle VII: Aviation Programs," describes in more

detail the scope of the Agency's authority.

We are issuing this rulemaking under the authority described in "Subtitle VII, Part A, Subpart III, Section 44701: General requirements." Under that section, Congress charges the FAA with promoting safe flight of civil aircraft in air commerce by prescribing regulations for practices, methods, and procedures the Administrator finds necessary for safety in air commerce. This regulation is within the scope of that authority because it addresses an unsafe condition that is likely to exist or develop on products identified in this rulemaking action.

Regulatory Findings

We determined that this proposed AD would not have federalism implications under Executive Order 13132. This proposed AD would not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed, I certify this proposed regulation:

1. Is not a "significant regulatory action" under Executive Order 12866;
2. Is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979);
3. Will not affect intrastate aviation in Alaska to the extent that it justifies making a regulatory distinction; and
4. Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

We prepared an economic evaluation of the estimated costs to comply with this proposed AD and placed it in the AD docket.

Air transportation, Aircraft, Aviation safety, Incorporation by reference, Safety.

The Proposed Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA proposes to amend 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

- 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

- 2. The FAA amends § 39.13 by adding the following new airworthiness directive (AD):

Airbus Helicopters: Docket No. FAA-2016-5019; Directorate Identifier 2015-SW-079-AD.

(a) Applicability

This AD applies to the following Airbus Helicopters, certificated in any category:

(1) Model AS332C, AS332C1, AS332L, AS332L1, and AS332L2 helicopters with a date of manufacture on or before July 14, 2014, and with a sliding cabin plug door (sliding door) with Airbus Helicopters modification AL25612 or 0725870 installed; and

(2) Model EC225LP helicopters with a date of manufacture on or before July 14, 2014.

(b) Unsafe Condition

This AD defines the unsafe condition as corrosion of a jettisoning mechanism which, if not detected and corrected, could result in failure of a sliding door to jettison, preventing occupants from exiting the helicopter during an emergency.

(c) Comments Due Date

We must receive comments by May 2, 2017.

(d) Compliance

You are responsible for performing each action required by this AD within the specified compliance time unless it has already been accomplished prior to that time.

(e) Required Actions

Within 30 days:

(1) Visually inspect the left-hand and right-hand sliding doors for sealing compound as shown in Figure 1 of Airbus Helicopters Alert Service Bulletin No. AS332-53.01.86, Revision 1, dated June 29, 2015 (ASB AS332-53.01.86), or Airbus Helicopters Alert Service Bulletin No. EC225-53A048, Revision 0, dated August 18, 2014 (ASB EC225-53A048), as applicable for your model helicopter. Remove any sealing compound.

(2) Inspect all visible bracket surfaces for corrosion. If there is any corrosion, remove the corrosion and measure the corrosion depth.

(i) If the measured corrosion depth is less than 0.5 mm, perform a jettisoning test. If the door passes the test, apply corrosion protectant. If the door does not pass the test, replace the jettisoning system before further flight.

(ii) If the measured corrosion depth is 0.5 mm or more, perform a jettisoning test. If the door passes the test, apply corrosion protectant, perform a jettisoning test at intervals not to exceed two months for not more than six months, and replace the jettisoning system within six months. If the

door does not pass the test, replace the jettisoning system before further flight.

(3) Measure the clearance between the bracket and stainless steel pipe. If the clearance is less than 3 mm, remove the lockwire from the union and loosen the unions of the air vent pipe. Position the support and the air vent pipe to ensure a minimum clearance of 3 mm. Tighten the support and unions of the pipe and safety the union using lockwire.

(4) For Model EC225LP helicopters and Model AS332-series helicopters with modification AL25612, inspect for drain obstruction by compressing the middle rail roller well piston and injecting distilled water through the roller well to determine if the water drains. If the drain is obstructed, remove the sealing compound and adhesive from the gutter in the bracket area. Remove the drain from the gutter and unplug the drain and gutter using a spatula or brush. Clean the gutter on the bracket side and the drain. Apply adhesive to the gutter and then slide in the drain. Allow the adhesive to dry and then apply sealing compound.

Agricultural Marketing Service

[Doc. No. AMS-SC-16-0119; SC17-996-1]

Peanut Standards Board

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Notice; request for nominations.

SUMMARY: The Farm Security and Rural Investment Act of 2002 (2002 Farm Bill) requires the Secretary of Agriculture (Secretary) to establish a Peanut Standards Board (Board) for the purpose of advising the Secretary on quality and handling standards for domestically produced and imported peanuts. The initial Board was appointed by the Secretary and announced on December 5, 2002. USDA seeks nominations for individuals to be considered for selection as Board members for a term of office ending June 30, 2020. Selected nominees would replace three producer and three industry representatives who currently serve on the Board and have terms of office that end on June 30, 2017. The Board consists of 18 members representing producers and the industry. In an effort to obtain diversity among candidates, USDA encourages the nomination of men and women of all racial and ethnic groups and persons with a disability.

DATES: Written nominations must be received on or before April 17, 2017.

ADDRESSES: Nominations should be sent to Steven W. Kauffman of the Southeast Marketing Field Office, Marketing Order and Agreement Division, Specialty Crops Program, AMS, USDA, 1124 1st Street South, Winter Haven, FL 33880; Telephone: (863) 324-3375; Fax: (863) 291-8614; Email: Steven.Kauffman@ams.usda.gov.

SUPPLEMENTARY INFORMATION: Section 1308 of the 2002 Farm Bill requires the Secretary of Agriculture to establish and consult with the Board for the purpose

of advising the Secretary regarding the establishment of quality and handling standards for all domestic and imported peanuts marketed in the United States.

The 2002 Farm Bill provides that the Board's makeup will include three producers and three peanut industry representatives from States specified in each of the following producing regions: Southeast (Alabama, Georgia, and Florida); Southwest (Texas, Oklahoma, and New Mexico); and Virginia/North Carolina.

The term "peanut industry representatives" includes, but is not limited to, representatives of shellers, manufacturers, buying points, marketing associations and marketing cooperatives. The 2002 Farm Bill exempted the appointment of the Board from the requirements of the Federal Advisory Committee Act.

USDA invites individuals, organizations, and groups affiliated with the categories listed above to nominate individuals for membership on the Board. Nominees sought by this action would fill two positions in the Southeast region, two positions in the Southwest region, and two positions in the Virginia/North Carolina region.

Nominees should complete an Advisory Committee or Research and Promotion Background Information form (AD-755) and submit it to Steven Kauffman at the address provided in the **ADDRESSES** section above. Copies of this form may be obtained at the Internet site <http://www.ams.usda.gov/about-ams/facas-advisory-councils/peanut-board>, or from the Southeast Marketing Field Office. USDA seeks a diverse group of members representing the peanut industry.

Equal opportunity practices will be followed in all appointments to the Board in accordance with USDA policies. To ensure that the recommendations of the Board have taken into account the needs of the diverse groups within the peanut industry, membership shall include, to the extent practicable, individuals with demonstrated abilities to represent minorities, women, persons with disabilities, and limited resource agriculture producers.

February 28, 2017.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding (1) whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by April 3, 2017 will be considered. Written comments should be addressed to: Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), New Executive Office Building, 725 17th Street NW., Washington, DC 20503. Commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@omb.eop.gov or fax (202) 395-5806 and to Departmental Clearance Office, USDA, OCIO, Mail Stop 7602, Washington, DC 20250-7602. Copies of the submission(s) may be obtained by calling (202) 720-8681.

the collection of information unless it displays a currently valid OMB control number.

National Agricultural Statistics Service

Title: Aquaculture Survey.

OMB Control Number: 0535–0150.

Summary of Collection: The primary function of the National Agricultural Statistics Service is to estimate production and stocks of agricultural food, fiber, and specialty commodities. Congress has mandated the collection of basic data for aquaculture and provides funding for these surveys. Public Law 96–362 was passed to increase the overall effectiveness and productivity of federal aquaculture programs by improving coordination and communication among Federal agencies involved in those programs.

Aquaculture is an alternative method to produce a high protein, low fat product demanded by the consumer.

Aquaculture surveys provide information on trout and catfish inventory, acreage and sales as well as catfish processed.

Need and Use of the Information: The survey results are useful in analyzing changing trends in the number of commercial operations and production levels by State. The information collected is used to demonstrate the growing importance of aquaculture to officials of Federal and State government agencies who manage and direct policy over programs in agriculture and natural resources. The type of information collected and reported provides extension educators and research scientists with data that indicates important areas that require special educational and/or research efforts, such as causes for loss of fish and pond inventories of fish of various sizes. The data gathered from the various reports provide information to establish contract levels for fishing programs and to evaluate prospective loans to growers and processors.

This is a request for the three-year renewal of this information collection. In addition to the national Catfish and Trout Production Surveys, NASS is requesting approval to conduct three state-specific aquaculture surveys to be conducted under reimbursable agreements in Florida, Hawaii, and Pennsylvania. Also, NASS will discontinue the Catfish Feed Deliveries Report and the Catfish Processing Report.

Description of Respondents: Farms; Business or other for-profit.

Number of Respondents: 3,655.

Frequency of Responses: Reporting: Monthly; Semi-annually; Annually.

Total Burden Hours: 1,030.

National Agricultural Statistics Service

Title: Confidentiality Pledge Revision.
OMB Control Number: 0535–0260.

Summary of Collection: The revision to the confidentiality pledge made by NASS to all respondents on all data collection efforts under CIPSEA and Title 7, Chapter 55, Sec. 2276, was changed to incorporate provisions that became law as a part of the Consolidated Appropriations Act for Fiscal Year 2016. Congress included the Federal Cybersecurity Enhancement Act of 2015 (H.R. 2029, Division N, Title II, Subtitle B, Sec.223). This Act permits and requires the Secretary of Homeland Security to provide federal civilian agencies' information technology systems with cybersecurity protection for their Internet traffic. The technology currently used is "Einstein 3A" and it searches Internet traffic in and out of federal civilian agencies in real time for malware signatures.

Need and Use of the Information: CIPSEA; Title 7, Chapter 55, Section 2276; and similar confidentiality pledges promise that respondents' data will be seen only by statistical agency personnel or their sworn agents. With the passage of the Federal Cybersecurity Enhancement Act of 2015, it is possible that Department of Homeland Security personnel could see some portion of those confidential data in the course of examining the suspicious Internet packets identified by the Einstein 3A technology. NASS needs to revise their confidentiality pledge to reflect this process change. Without this change the availability of NASS data could be significantly impacted.

Description of Respondents: Business or other for-profit; Individuals or households.

Number of Respondents: 1.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 1.

Information Collection: Southwestern Crown of the Continent Collaborative Forest Landscape Restoration Project

AGENCY: Forest Service, USDA.

ACTION: Notice; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the

Forest Service is seeking comments from all interested individuals and organizations on the proposed new information collection, *Southwestern Crown of the Continent Collaborative Forest Landscape Restoration Project*.

DATES: Comments must be received in writing on or before May 2, 2017 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Comments concerning this notice should be addressed to Lindsay Buchanan, Collaborative Forest Landscape Restoration Program Coordinator, 1220 SW 3rd Ave., Portland, Oregon, 97204. Comments may also be submitted by email to: lindsaysbuchanan@fs.fed.us. The public may inspect comments received at 1220 SW 3rd Ave., Portland, Oregon 97204, during normal business hours. Visitors are encouraged to call ahead to 503–808–2810 to facilitate entry to the building.

FOR FURTHER INFORMATION CONTACT:

Lindsay Buchanan, 503–808–2810. Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8339, twenty-four hours a day, every day of the year, including holidays.

SUPPLEMENTARY INFORMATION:

Title: Southwestern Crown of the Continent Collaborative Forest Landscape Restoration Project.

OMB Number: 0596–NEW.

Expiration Date of Approval: Not Applicable—new request.

Type of Request: New.

Abstract: The Collaborative Forest Landscape Restoration Program (CFLRP) is a U.S. Forest Service (USFS) program started in 2010 to encourage collaborative groups of neighboring landowners, to work with the Forest Service to find common ground pertaining to forest restoration. Such collaborative neighboring landowners include State, local and Tribal government representatives, businesses, interest groups, and non-profit organizations. The Southwestern Crown Collaborative (SWCC) is one of 23 Collaborative Forest Landscape Restoration (CFLR) projects across the nation currently. In the SWCC, partners work with the USFS to implement restoration work and multi-party monitoring of landscape restoration treatments across four counties and three National Forests in western Montana.

The Forest Landscape Restoration Act (FLRA) of 2009 (16 U.S.C. 7303), which enabled the CFLRP, requires monitoring "to assess the positive or negative

ecological, social, and economic effects of projects implementing a selected proposal for not less than 15 years after project implementation commences.” This Information Collection Request (ICR) will help meet the SWCC’s obligation for monitoring the social impacts on residents and stakeholders of activities conducted under the CFLRP. The scope of the ICR includes residents of communities within and adjacent to the SWCC landscape and collaborative participants.

Gaining information from individuals who work or live in the geographic area of the SWCC provides valuable information to partners and land management decision makers. To ensure the USFS is informed about the opinions of participants of collaborative processes and public members living in or around the SWCC, the USFS seeks to obtain approval by the Office of Management and Budget (OMB) of an ICR to collect both qualitative and quantitative feedback from stakeholders on management decisions, forest restoration work, monitoring activities, and land management planning. The information will be collected through a census survey of participants of the Southwestern Crown Collaborative and a mail-in, on-line, and hard copy survey of residents of the Southwestern Crown of the Continent Landscape. Through the collection of this information, managers and planners will obtain valuable information to inform future decisions. USFS public affairs staff, social scientists, and economists may also use this information, and USFS, academic, and other researchers may use or cite the results or data collected in publications.

Without the collection of this information, the USFS will be unable to determine whether it is meeting the requirements of the Forest Landscape Restoration Act, nor if they are fully incorporating partner and public input into forest project, implementation, monitoring and/or planning processes as required by law.

Type of Respondents: Residents within the Southwestern Crown CFLRP landscape (4,429 occupied dwellings) and Southwestern Crown Collaborative participants (150 participants on email list).

Estimated Annual Number of Respondents: 750.

Estimated Annual Number of Responses per Respondent: 1.

Estimated Total Annual Burden Hours on Respondents: 386 hours.

Abstract: Pursuant to statutory requirements at 16 U.S.C. 472a, unless extraordinary conditions exist as defined by regulation, the Secretary of Agriculture must (1) advertise sales of all National Forest System timber or forest products exceeding \$10,000 in appraised value; (2) select bidding methods that ensure open and fair competition; (3) select bidding methods that ensure that the Federal Government receives not less than appraised value of the timber or forest product; and (4) monitor bidding patterns for evidence of unlawful bidding practices.

Pursuant to the Forest Service Small Business Timber Sale Set-Aside Program, developed in cooperation with the Small Business Administration, Forest Service regulations at Title 36 of the Code of Federal Regulations, § 223.84 require that the Forest Service bid form used by potential timber sale bidders include provisions for small business concerns. The data collected will be used by the agency to ensure that National Forest System timber will be sold at not less than appraised value, that bidders will meet specific criteria when submitting a bid, and that anti-trust violations will not occur during the bidding process.

The tax identification number of each bidder is entered into an automated bid monitoring system, which is used to determine if speculative bidding or unlawful bidding practices are occurring and is required to process electronic payments to the purchaser.

Respondents will be bidders on National Forest System timber sales. Forest Service sale officers will mail bid forms to potential bidders, and bidders will return the completed forms, dated and signed, to the Forest Service sale officer.

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce

SUMMARY: The Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on certain cut-to-length carbon-quality steel plate products (CTL plate) from the Republic of Korea (Korea). The period of review (POR) is February 1, 2015, through January 31, 2016. The Department preliminarily determines that the producers/exporters subject to this review made sales of subject merchandise at less than normal value. We invite interested parties to comment on these preliminary results.

While

the HTSUS subheadings are provided for convenience and customs purposes, the written description is dispositive. A full description of the scope of the order is contained in the Preliminary Decision Memorandum.¹

Preliminary Determination of No Reviewable Entries

We received timely filed submissions from Daewoo International Corp., GS Global Corp., Hyosung Corporation, Hyundai Glovis Co., Ltd., Hyundai Mipo Dockyard Co., Ltd., Samsung C&T Corporation, Samsung Heavy Industries, and SK Networks Co., Ltd., reporting to the Department that each had no exports, sales, or entries of subject merchandise to the United States during the POR.² Based on record evidence, we preliminarily determine that these companies had no reviewable entries during the POR. For additional information on our preliminary determination of no reviewable entries, see the Preliminary Decision Memorandum.

Methodology

The Department is conducting this review in accordance with section 751 of the Tariff Act of 1930, as amended (the Act). Constructed export price is calculated in accordance with section 772 of the Act. Normal value is calculated in accordance with section 773 of the Act.

For a full description of the methodology underlying our conclusions, see the Preliminary Decision Memorandum. The Preliminary Decision Memorandum is a public document and is made available to the public *via* Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <http://access.trade.gov> and to all parties in the Department's Central

Records Unit, located at room B8024 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum can be found at <http://enforcement.trade.gov/frn/index.html>.

Preliminary Results of the Administrative Review

We preliminarily determine that the following weighted-average dumping margins exist for the respondents for the period February 1, 2015, through January 31, 2016.

Producer/exporter	Weighted-average dumping margin (percent)
BDP International	2.01
Bookuk Steel Co., Ltd	2.01
Dongkuk Steel Mill Co., Ltd	1.71
Hyundai Steel Company	2.05
Samsung C&T Engineering & Construction Group	2.01
Samsung C&T Trading and Investment Group	2.01
Sung Jin Steel Co., Ltd	2.01

Disclosure and Public Comment

We intend to disclose the calculations performed for these preliminary results to the parties within five days after public announcement of the preliminary results in accordance with 19 CFR 351.224(b). Pursuant to 19 CFR 351.309(c), interested parties may submit case briefs not later than 30 days after the date of publication of this notice. Rebuttal briefs, limited to issues raised in the case briefs, may be filed not later than five days after the date for filing case briefs.³ Parties who submit case briefs or rebuttal briefs in this proceeding are encouraged to submit with each argument: (1) A statement of the issue, (2) a brief summary of the argument, and (3) a table of authorities.⁴

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing, must submit a written request to the Assistant Secretary for Enforcement and Compliance, filed electronically *via* ACCESS. An electronically filed document must be received successfully in its entirety by the Department's electronic records system, ACCESS, by 5:00 p.m. Eastern Time within 30 days after the date of publication of this notice.⁵ Requests should contain: (1) The party's name, address and telephone number; (2) the number of participants; and (3) a list of issues to be discussed. Issues raised in the hearing will be limited to those

raised in the respective case briefs. The Department will issue the final results of this administrative review, including the results of its analysis of the issues raised in any written briefs, not later than 120 days after the date of publication of this notice, pursuant to section 751(a)(3)(A) of the Act.

Assessment Rates

If a respondent's weighted-average dumping margin is above *de minimis* in the final results of this review, we will calculate an importer-specific assessment rate on the basis of the ratio of the total amount of antidumping duties calculated for the importer's examined sales and the total entered value of the sales in accordance with 19 CFR 351.212(b)(1).⁶ If the respondent's weighted-average dumping margin is zero or *de minimis* in the final results of reviews, we will instruct U.S. Customs and Border Protection (CBP) not to assess duties on any of its entries in accordance with the *Final Modification for Reviews*.⁷

For entries of subject merchandise during the POR produced by Dongkuk Steel Mill Co., Ltd. or Hyundai Steel Company for which they did not know their merchandise was destined for the United States, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.

For the companies which were not selected for individual examination, BDP International, Bookuk Steel Co., Ltd., Samsung C&T Engineering & Construction Group, Samsung C&T Trading and Investment Group, and Sung Jin Steel Co., Ltd., we will instruct CBP to apply the rates listed above to all entries of subject merchandise produced and/or exported by these firms.

We intend to issue liquidation instructions to CBP 15 days after publication of the final results of this review.

Cash Deposit Requirements

The following deposit requirements will be effective upon publication of the notice of final results of this review for all shipments of CTL plate from Korea entered, or withdrawn from warehouse, for consumption on or after the date of publication as provided by section

⁶In these preliminary results, the Department applied the assessment rate calculation method adopted in *Antidumping Proceedings: Calculation of the Weighted-Average Dumping Margin and Assessment Rate in Certain Antidumping Duty Proceedings; Final Modification*, 77 FR 8101 (February 14, 2012) (*Final Modification for Reviews*).

These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

The Department is issuing and publishing these results in accordance with sections 751(a)(1) and 777(i) of the Act and 19 CFR 351.221(b)(4).

Dated: February 27, 2017.

Phosphor Copper From the Republic of Korea: Final Affirmative Determination of Sales at Less Than Fair Value and Negative Final Determination of Critical Circumstances

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) determines that phosphor copper from the Republic of Korea (Korea) is being, or is likely to be, sold in the United States at less than fair value (LTFV). Bongsan Co., Ltd. (Bongsan) is the sole mandatory respondent in this investigation. The period of investigation (POI) is January 1, 2015, through December 31, 2015. The final estimated dumping margins of sales at LTFV are shown below in the “Final Determination” section of this notice.

DATES: Effective March 3, 2017.

FOR FURTHER INFORMATION CONTACT: Cindy Robinson or Samuel Brummitt, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482–3797 or (202) 482–7851, respectively.

SUPPLEMENTARY INFORMATION:

Background

On October 14, 2016, the Department published its preliminary affirmative determination of sales at LTFV in the investigation of phosphor copper from

Korea.¹ The following events occurred since the *Preliminary Determination* was issued.

On October 27, 2016, we postponed the final determination to February 27, 2017.² Between November 9, 2016, and November 18, 2016, the Department verified the sales and cost data reported by Bongsan, the sole mandatory respondent in this investigation. We issued our verification reports of Bongsan's sales and cost responses on December 9, 2016, and December 19, 2016, respectively.³

Metallurgical Products Company (Petitioner) submitted its case brief on December 28, 2016.⁴ Bongsan submitted its rebuttal brief on January 3, 2017.⁵ Petitioner requested that the Department conduct a hearing in this investigation, which the Department conducted on January 25, 2017.⁶

A full discussion of the issues raised by parties for this final determination may be found in the Issues and Decision Memorandum, which is hereby adopted by this notice.⁷

Scope of the Investigation

The product covered by this investigation is phosphor copper from

² See *Phosphor Copper from the Republic of Korea: Postponement of Final Determination of Sales at Less Than Fair Value*, 81 FR 74763 (October 27, 2016). Postponing the final determination to 135 days after the publication of the *Preliminary Determination* would place the deadline on Sunday, February 26, 2017. The Department's practice dictates that where a deadline falls on a weekend or federal holiday, the appropriate deadline is the next business day. Analysis of Comments Received

All issues raised in the case and rebuttal briefs in this investigation are addressed in the Issues and Decision Memorandum. A list of the issues raised is attached to this notice at Appendix II. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance’s Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov> and is available to all parties in the Central Records Unit, Room B–8024 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/index.html>. The signed and electronic versions of the Issues and Decision Memorandum are identical in content.

Final Negative Determination of Critical Circumstances

On October 14, 2016, the Department found that critical circumstances do not exist for merchandise exported by Bongsan.⁸ Based on the final dumping margin for Bongsan and further analysis following the *Preliminary Determination*, we are not modifying our findings for the final determination. For a complete discussion of this issue, *see* the “Final Negative Determination of Critical Circumstances” section of the Issues and Decision Memorandum.

Verification

As provided in section 782(i) of the Tariff Act of 1930, as amended (the Act), from November 9, 2016, to November 13, 2016, we conducted verification of the sales responses by Bongsan. From November 14, 2016, to November 18, 2016, we conducted verification of the cost responses by Bongsan. We issued our verification reports of Bongsan’s sales and cost responses on December 9, 2016, and December 19, 2016, respectively.⁹ The Department used standard verification procedures, including an examination of relevant accounting and production records and original source documents provided by Bongsan.¹⁰

⁸ *See Preliminary Determination.*
⁹ *See Sales Verification Report; see also Cost Verification Report.*
¹⁰ *Id.*

Changes Since the Preliminary Determination

Based on our analysis of the comments received and our findings at verification, we made the following changes to Bongsan’s final margin calculation: (1) We recalculated the company’s general and administrative expense (G&A) ratio; (2) we recalculated the company’s interest expense (INTEX) ratio; (3) we corrected a customer code for a U.S. customer in the calculation of billing adjustments; (4) we removed the duty drawback adjustment from Bongsan’s margin calculation; and (5) we recalculated indirect selling expense ratios for home market and U.S. market sales. As a result of these changes, the weighted-average dumping margin for Bongsan and all others has changed. For a discussion of these changes, *see* the Issues and Decision Memorandum.

All Others Rate

Section 735(c)(5)(A) of the Act provides that the estimated “all others” rate shall be an amount equal to the weighted average of the estimated weighted-average dumping margins established for exporters and producers individually investigated, excluding any zero or *de minimis* margins, and any margins determined entirely under section 776 of the Act. Bongsan is the only respondent for which the Department has calculated a company-specific rate. Therefore, for purposes of determining the “all others” rate and pursuant to section 735(c)(5)(A) of the Act, we are using the dumping margin calculated for Bongsan, as referenced in the “Final Determination” section below.

Final Determination

The Department determines that the final estimated weighted-average dumping margins are as follows:

Exporter/producer	Weighted-average dumping margin (percent)
Bongsan Co., Ltd	8.43
All Others	8.43

Disclosure

We will disclose the calculations performed within five days of the public announcement of this final determination, in accordance with 19 CFR 351.224(b).

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, we will instruct

U.S. Customs and Border Protection (CBP) to continue the suspension of liquidation of all appropriate entries of phosphor copper from Korea, as described in Appendix I of this notice, which were entered, or withdrawn from warehouse, for consumption on or after October 14, 2016, the date of publication of the *Preliminary Determination* of this investigation in the **Federal Register**. Further, the Department will instruct CBP to require a cash deposit equal to the estimated amount by which the normal value exceeds the U.S. price as shown above.

International Trade Commission Notification

In accordance with section 735(d) of the Act, we will notify the International Trade Commission (ITC) of our final affirmative determination of sales at LTFV. Because the final determination in this proceeding is affirmative, in accordance with section 735(b)(2) of the Act, the ITC will make its final determination as to whether the domestic industry in the United States is materially injured, or threatened with material injury, by reason of imports of phosphor copper from Korea no later than 45 days after our final determination. If the ITC determines that material injury or threat of material injury does not exist, the proceeding will be terminated and all securities posted will be refunded or canceled. If the ITC determines that such injury does exist, the Department will issue an antidumping duty order directing CBP to assess, upon further instruction by the Department, antidumping duties on appropriate imports of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the effective date of the suspension of liquidation.

Notification Regarding Administrative Protective Orders (APO)

This notice serves as a reminder to the parties subject to APO of their responsibility concerning the disposition of proprietary information disclosed under APOs in accordance with 19 CFR 351.305(a)(3). Timely notification of the return or destruction of APO materials, or conversion to judicial protective order, is hereby requested. Failure to comply with the regulations and the terms of APOs is a sanctionable violation.

This determination and this notice are issued and published pursuant to sections 735(d) and 777(i)(1) of the Act.

Dated: February 27, 2017.

Ronald K. Lorentzen,

Acting Assistant Secretary for Enforcement and Compliance.

Certain Polyester Staple Fiber From the People's Republic of China: Preliminary Results and Partial Rescission of the Antidumping Duty Administrative Review; 2015-2016

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) preliminary determines that the sole remaining mandatory respondent under review does not qualify for a separate rate and is, therefore, considered a part of the People's Republic of China (PRC)-Wide Entity for its exports of subject merchandise exported to the United States during the period of review (POR), June 1, 2015, through May 31, 2016. If these preliminary results are adopted in the final results, the Department will instruct U.S. Customs and Border Protection (CBP) to assess antidumping duties on all appropriate entries of subject merchandise during the POR. Interested parties are invited to comment on these preliminary results.

DATES: Effective March 3, 2017.

FOR FURTHER INFORMATION CONTACT: Julia Hancock or Courtney Canales, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-1394 or (202) 482-4997, respectively.

SUPPLEMENTARY INFORMATION:

Background

On August 11, 2016, the Department published in the **Federal Register** the notice of initiation of an administrative review of the antidumping duty (AD) order on certain polyester staple fiber (PSF) from the PRC for the period of review June 1, 2015, through May 31, 2016.¹ On September 20, 2016, DAK Americas, LLC (Petitioner) withdrew its request for an administrative review of Cixi Sansheng.² The other mandatory respondent, Hangzhou Huachuang, did not respond to the Department's AD questionnaire.

¹ See *Initiation of Antidumping and Countervailing Duty Administrative Reviews*, 81 FR 53121 (August 11, 2016) (*Initiation Notice*).

² See Petitioner's September 20, 2016, submission.

Scope of the Order

The product covered by the order is certain polyester staple fiber. The product is currently classified under the Harmonized Tariff Schedule of the United States (HTSUS) numbers 5503.20.0045 and 5503.20.0065. Although the HTSUS numbers are provided for convenience and customs purposes, the written description of the scope of the order remains dispositive.³

Partial Rescission of Administrative Review

Pursuant to 19 CFR 351.213(d)(1), the Department will rescind an administrative review, in whole or in part, if the party or parties that requested a review withdraws the request within 90 days of the publication date of the notice of initiation of the requested review. As noted above, Petitioner withdrew its request for an administrative review of Cixi Sansheng within 90 days of the publication date of the notice of initiation. No other parties requested an administrative review of the order. Therefore, in accordance with 19 CFR 351.213(d)(1), the Department is rescinding this review of the AD order on PSF from the PRC with respect to Cixi Sansheng.

Methodology

The Department is conducting this review in accordance with sections 751(a)(1)(B) and 751(a)(2)(A) of the Tariff Act of 1930, as amended (the Act). In making our findings, because Hangzhou Huachuang did not respond to our AD questionnaire and is not receiving a separate rate, we are preliminarily treating Hangzhou Huachuang as part of the PRC-wide entity. For a full description of the methodology underlying our preliminary conclusions, see the Preliminary Decision Memorandum.

For a complete description of the events that followed the initiation of this investigation, see the Preliminary Decision Memorandum. A list of topics included in the Preliminary Decision Memorandum is included as Appendix I to this notice.

The Preliminary Decision Memorandum is a public document and is on file electronically *via* Enforcement

The signed and the electronic versions of the Preliminary Decision Memorandum are identical in content.

Preliminary Results of Review

The Department preliminarily determines that the following weighted-average dumping margins exist for the period June 1, 2015, through May 31, 2016:

Exporter	Estimated weighted-average margin (percent)
PRC-Wide Entity	44.30

Disclosure ⁴

Normally, the Department discloses to interested parties the calculations performed in connection with a preliminary determination within five days of its public announcement or, if there is no public announcement, within five days of the date of publication of this notice in accordance with 19 CFR 351.224(b). However, because the Department preliminarily determined that the sole remaining respondent under review, Hangzhou Huachuang, is part of the PRC-wide entity, there are no calculations to disclose.

Public Comment

Case briefs or other written comments may be submitted to the Assistant Secretary for Enforcement and Compliance no later than 50 days after the date of publication of the preliminary determination, unless the Secretary alters the time limit. Rebuttal briefs, limited to issues raised in case briefs, may be submitted no later than five days after the deadline date for case briefs.⁵ Pursuant to 19 CFR 351.309(c)(2) and (d)(2), parties who submit case briefs or rebuttal briefs in this investigation are encouraged to submit with each argument: (1) A statement of the issue; (2) a brief

summary of the argument; and (3) a table of authorities.

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing, limited to issues raised in the case and rebuttal briefs, must submit a written request to the Assistant Secretary for Enforcement and Compliance, U.S. Department of Commerce, within 30 days after the date of publication of this notice. Requests should contain the party's name, address, and telephone number, the number of participants, whether any participant is a foreign national, and a list of the issues to be discussed. If a request for a hearing is made, the Department intends to hold the hearing at the U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230, at a time and date to be determined. Parties should confirm by telephone the date, time, and location of the hearing two days before the scheduled date.

The Department intends to issue the final results of this administrative review, which will include the results of our analysis of all issues raised in the case briefs, within 120 days of publication of these preliminary results in the **Federal Register**, pursuant to section 751(a)(3)(A) of the Act.

Assessment Rates

Upon issuance of the final results, the Department will determine, and CBP shall assess, antidumping duties on all appropriate entries covered by this review.⁶ The Department intends to issue assessment instructions to CBP 15 days after the publication date of the final results of this review.

For any individually examined respondent whose weighted average dumping margin is above *de minimis* (i.e., 0.50 percent) in the final results of this review, the Department will calculate importer-specific assessment rates on the basis of the ratio of the total amount of dumping calculated for the importer's examined sales to the total entered value of sales, in accordance with 19 CFR 351.212(b)(1). Where an importer- (or customer-) specific *ad valorem* rate is greater than *de minimis*, the Department will instruct CBP to collect the appropriate duties at the time of liquidation.⁷ Where either a respondent's weighted average dumping margin is zero or *de minimis*, or an importer- (or customer-) specific *ad valorem* is zero or *de minimis*, the Department will instruct CBP to

liquidate appropriate entries without regard to antidumping duties.⁸

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the final results of this review for shipments of the subject merchandise from the PRC entered, or withdrawn from warehouse, for consumption on or after the publication date, as provided by sections 751(a)(2)(C) of the Act: (1) For the companies listed above that have a separate rate, the cash deposit rate will be that established in the final results of this review (except, if the rate is zero or *de minimis*, then zero cash deposit will be required); (2) for previously investigated or reviewed PRC and non-PRC exporters not listed above that received a separate rate in a prior segment of this proceeding, the cash deposit rate will continue to be the existing exporter-specific rate; (3) for all PRC exporters of subject merchandise that have not been found to be entitled to a separate rate, the cash deposit rate will be that for the PRC-wide entity; and (4) for all non-PRC exporters of subject merchandise which have not received their own rate, the cash deposit rate will be the rate applicable to the PRC exporter that supplied that non-PRC exporter. These deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice also serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during the POR. Failure to comply with this requirement could result in the Department's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This preliminary determination is issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

Dated: February 27, 2017.

Certain Biaxial Integral Geogrid Products From the People’s Republic of China: Countervailing Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: Based on affirmative final determinations by the Department of Commerce (the Department) and the International Trade Commission (ITC), the Department is issuing the countervailing duty order on certain biaxial integral geogrid products (geogrids) from the People’s Republic of China (PRC).

DATES: Effective March 3, 2017.

FOR FURTHER INFORMATION CONTACT: Ryan Mullen at (202) 482-5260, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

In accordance with section 705(d) of the Tariff Act of 1930, as amended (the

Act), on January 11, 2017, the Department published its affirmative final determination that countervailable subsidies are being provided to producers and exporters of geogrids from the PRC.¹ On February 24, 2017, the ITC notified the Department of its affirmative determination that an industry in the United States is materially injured within the meaning of section 735(b)(1)(A)(ii) of the Act, by reason of subsidized imports of subject merchandise from the PRC, and its determination that critical circumstances do not exist with respect to imports of subject merchandise from the PRC that are subject to the Department’s affirmative critical circumstances finding.²

Scope of the Order

The scope of this order covers geogrids from the PRC. For a complete description of the scope, see Appendix.

Countervailing Duty Order

On February 24, 2017, in accordance with sections 705(b)(1)(A)(i) and 705(d) of the Act, the ITC notified the Department of its final determination in this investigation, in which it found that an industry in the United States is materially injured by reason of imports of geogrids from the PRC, and that critical circumstances do not exist with respect to imports of subject merchandise that are subject to the Department’s affirmative critical circumstances finding.³ Therefore, in accordance with section 705(c)(2) of the Act, the Department is issuing this countervailing duty order. Because the

ITC determined that imports of geogrids from the PRC are materially injuring a U.S. industry, unliquidated entries of such merchandise from the PRC, entered or withdrawn from warehouse for consumption, are subject to the assessment of countervailing duties.

Therefore, in accordance with section 706(a) of the Act, the Department will direct U.S. Customs and Border Protection (CBP) to assess, upon further instruction by the Department, countervailing duties for all relevant entries of geogrids from the PRC. Countervailing duties will be assessed on unliquidated entries of geogrids from the PRC entered, or withdrawn from warehouse, for consumption on or after June 24, 2016, the date of publication of the *Preliminary Determination*,⁴ but will not include entries occurring after the expiration of the provisional measures period and before publication of the ITC’s final injury determination as further described below.

Suspension of Liquidation

In accordance with section 706 of the Act, the Department will instruct CBP to reinstitute the suspension of liquidation of geogrids from the PRC. We will also instruct CBP to require, pursuant to section 706(a)(1) of the Act, countervailing duties for each entry of the subject merchandise in an amount based on the net countervailable subsidy rates for the subject merchandise. These instructions suspending liquidation will remain in effect until further notice. The all-others rate applies to all producers and exporters of subject merchandise.

Provisional Measures

Section 733(d) of the Act states that instructions issued pursuant to an affirmative preliminary determination may not remain in effect for more than four months. In the underlying investigation, the Department published the *Preliminary Determination* on June 24, 2016. Therefore, the four-month period beginning on the date of the publication of the *Preliminary Determination* ended on October 22, 2016. Furthermore, section 737(b) of the Act states that definitive duties are to begin on the date of publication of the ITC's final injury determination.

Therefore, in accordance with section 733(d) of the Act and our practice, we instructed CBP to terminate the suspension of liquidation and to liquidate, without regard to antidumping duties, unliquidated entries of geogrids from the PRC entered, or withdrawn from warehouse, for consumption after October 22, 2016, the date the provisional measures expired, until and through the day preceding the date of publication of the ITC's final injury determination in the **Federal Register**. Suspension of liquidation will resume on the date of publication of the ITC's final determination in the **Federal Register**.

Critical Circumstances

With regard to the ITC's negative critical circumstances determination on imports of geogrids from the PRC, we will instruct CBP to lift suspension and to refund any cash deposits made to secure the payment of estimated countervailing duties with respect to geogrids from the PRC entered, or withdrawn from warehouse, for consumption on or after March 26, 2016 (*i.e.*, 90 days prior to the date of the publication of the CVD *Preliminary Determination*), but before June 24, 2016 (*i.e.*, the date of publication of the CVD *Preliminary Determination*).

Notifications to Interested Parties

This notice constitutes the countervailing duty order with respect to geogrids from the PRC pursuant to

section 706(a) of the Act. Interested parties can find a list of antidumping duty orders currently in effect at <http://enforcement.trade.gov/stats/iastats1.html>.

This order is issued and published in accordance with section 706(a) of the Act and 19 CFR 351.211(b).

Dated: February 24, 2017.

Acting Assistant Secretary for Enforcement and Compliance.

Appendix

The products covered by the scope are certain biaxial integral geogrid products. Biaxial integral geogrid products are a polymer grid or mesh material (whether or not finished, slit, cut-to-length, attached to woven or non-woven fabric or sheet material, or packaged) in which four-sided openings in the form of squares, rectangles, rhomboids, diamonds, or other four-sided figures predominate. The products covered have integral strands that have been stretched to induce molecular orientation into the material (as evidenced by the strands being thinner in width toward the middle between the junctions than at the junctions themselves) constituting the sides of the openings and integral junctions where the strands intersect. The scope includes products in which four-sided figures predominate whether or not they also contain additional strands intersecting the four-sided figures and whether or not the inside corners of the four-sided figures are rounded off or not sharp angles. As used herein, the term "integral" refers to strands and junctions that are homogenous with each other. The products covered have a tensile strength of greater than 5 kilonewtons per meter (kN/m) according to American Society for Testing and Materials (ASTM) Standard Test Method D6637/D6637M in any direction and average overall flexural stiffness of more than 100,000 milligram-centimeter according to the ASTM D7748/D7748M Standard Test Method for Flexural Rigidity of Geogrids, Geotextiles and Related Products, or other equivalent test method standards.

Subject merchandise includes material matching the above description that has been finished, packaged, or otherwise further processed in a third country, including by trimming, slitting, coating, cutting, punching holes, stretching, attaching to woven or non-woven fabric or sheet material, or any other finishing, packaging, or other further

processing that would not otherwise remove the merchandise from the scope of the investigations if performed in the country of manufacture of the biaxial integral geogrid.

The products subject to the scope are currently classified in the Harmonized Tariff Schedule of the United States (HTSUS) under the following subheading: 3926.90.9995. Subject merchandise may also enter under subheadings 3920.20.0050 and 3925.90.0000. The HTSUS subheadings set forth above are provided for convenience and U.S. Customs purposes only. The written description of the scope is dispositive.

Filing Information

As a courtesy, we are making information related to sunset proceedings, including copies of the pertinent statute and Department's regulations, the Department's schedule for Sunset Reviews, a listing of past revocations and continuations, and current service lists, available to the public on the Department's Web site at the following address: "<http://enforcement.trade.gov/sunset/>." All submissions in these Sunset Reviews must be filed in accordance with the Department's regulations regarding format, translation, and service of documents. These rules, including electronic filing requirements via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System ("ACCESS"), can be found at 19 CFR 351.303.¹

This notice serves as a reminder that any party submitting factual information in an AD/CVD proceeding must certify to the accuracy and completeness of that information.² Parties are hereby reminded that revised certification requirements are in effect for company/government officials as well as their representatives in these segments.³ The formats for the revised certifications are provided at the end of the *Final Rule*. The Department intends to reject factual submissions if the submitting party does not comply with the revised certification requirements.

On April 10, 2013, the Department modified two regulations related to AD/CVD proceedings: The definition of

factual information (19 CFR 351.102(b)(21)), and the time limits for the submission of factual information (19 CFR 351.301).⁴ Parties are advised to review the final rule, available at <http://enforcement.trade.gov/frn/2013/1304frn/2013-08227.txt>, prior to submitting factual information in these segments. To the extent that other regulations govern the submission of factual information in a segment (such as 19 CFR 351.218), these time limits will continue to be applied. Parties are also advised to review the final rule concerning the extension of time limits for submissions in AD/CVD proceedings, available at <http://enforcement.trade.gov/frn/2013/1309frn/2013-22853.txt>, prior to submitting factual information in these segments.⁵

Letters of Appearance and Administrative Protective Orders

Pursuant to 19 CFR 351.103(d), the Department will maintain and make available a public service list for these proceedings. Parties wishing to participate in any of these five-year reviews must file letters of appearance as discussed at 19 CFR 351.103(d). To facilitate the timely preparation of the public service list, it is requested that those seeking recognition as interested parties to a proceeding submit an entry of appearance within 10 days of the publication of the Notice of Initiation.

Because deadlines in Sunset Reviews can be very short, we urge interested parties who want access to proprietary information under administrative protective order ("APO") to file an APO application immediately following publication in the **Federal Register** of this notice of initiation. The Department's regulations on submission

of proprietary information and eligibility to receive access to business proprietary information under APO can be found at 19 CFR 351.304-306.

Information Required From Interested Parties

Domestic interested parties, as defined in section 771(9)(C), (D), (E), (F), and (G) of the Act and 19 CFR 351.102(b), wishing to participate in a Sunset Review must respond not later than 15 days after the date of publication in the **Federal Register** of this notice of initiation by filing a notice of intent to participate. The required contents of the notice of intent to participate are set forth at 19 CFR 351.218(d)(1)(ii). In accordance with the Department's regulations, if we do not receive a notice of intent to participate from at least one domestic interested party by the 15-day deadline, the Department will automatically revoke the order without further review.⁶

If we receive an order-specific notice of intent to participate from a domestic interested party, the Department's regulations provide that *all parties* wishing to participate in a Sunset Review must file complete substantive responses not later than 30 days after the date of publication in the **Federal Register** of this notice of initiation. The required contents of a substantive response, on an order-specific basis, are set forth at 19 CFR 351.218(d)(3). Note that certain information requirements differ for respondent and domestic parties. Also, note that the Department's information requirements are distinct from the Commission's information requirements. Consult the Department's regulations for information regarding the Department's conduct of Sunset Reviews. Consult the Department's regulations at 19 CFR part 351 for definitions of terms and for other general information concerning

International Trade Administration

[A-570-036]

Certain Biaxial Integral Geogrid Products From the People's Republic of China: Antidumping Duty Order

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: Based on affirmative final determinations by the Department of Commerce (the Department) and the International Trade Commission (ITC), the Department is issuing the antidumping duty order on certain biaxial integral geogrid products (geogrids) from the People's Republic of China (PRC).

DATES: Effective March 3, 2017.

FOR FURTHER INFORMATION CONTACT: Julia Hancock at (202) 482-1394, AD/CVD Operations, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

In accordance with sections 735(d) and 777(i)(1) of the Tariff Act of 1930, as amended (the Act), and 19 CFR 351.210(c), on January 11, 2017, the Department published its affirmative final determination in the less-than-fair-value (LTFV) investigation of geogrids from the PRC.¹ On February 24, 2017, the ITC notified the Department of its affirmative determination that an industry in the United States is materially injured within the meaning of section 735(b)(1)(A)(i) of the Act, by reason of the LTFV imports of geogrids from the PRC, and of its determination that critical circumstances do not exist with respect to imports of subject merchandise from the PRC that are

¹ See *Certain Biaxial Integral Geogrid Products from the People's Republic of China: Final Determination of Sales at Less Than Fair Value*, 82 FR 3284 (January 11, 2017) and accompanying Issues and Decision Memorandum.

subject to the Department's affirmative critical circumstances finding.²

Scope of the Order

The scope of this order covers geogrids from the PRC. For a complete description of the scope, see Appendix.

Antidumping Duty Order

On February 24, 2017, in accordance with section 735(d) of the Act, the ITC notified the Department of its final determination in this investigation, in which it found that an industry in the United States is materially injured by reason of imports of geogrids from the PRC, and that critical circumstances do not exist with respect to imports of subject merchandise that are subject to the Department's affirmative critical circumstances finding.³ Therefore, in accordance with section 735(c)(2) of the Act, the Department is issuing this antidumping duty order. Because the ITC determined that imports of geogrids from the PRC are materially injuring a U.S. industry, unliquidated entries of such merchandise from the PRC, entered or withdrawn from warehouse for consumption, are subject to the assessment of antidumping duties.

Therefore, in accordance with section 736(a)(1) of the Act, the Department will direct U.S. Customs and Border Protection (CBP) to assess, upon further instruction by the Department, antidumping duties equal to the amount by which the normal value of the merchandise exceeds the export price (or constructed export price) of the merchandise, for all relevant entries of geogrids from the PRC. Antidumping duties will be assessed on unliquidated entries of geogrids entered, or withdrawn from warehouse, for consumption on or after August 22, 2016, the date of publication of the *Preliminary Determination*,⁴ but will not include entries occurring after the expiration of the provisional measures period and before publication of the ITC's final injury determination as further described below.

² See Letter to Ronald Lorentzen, Acting Assistant Secretary of Commerce for Enforcement and Compliance, from Rhonda K. Schmittlein, Chairman of the U.S. International Trade Commission, regarding geogrids from the PRC (February 24, 2016) (ITC Letter).

³ See ITC Letter.

⁴ See *Certain Biaxial Integral Geogrid Products from the People's Republic of China: Affirmative Preliminary Determination of Sales at Less Than Fair Value, Affirmative Determination of Critical Circumstances, in Part, and Postponement of Final Determination*, 81 FR 56584 (August 22, 2016) (*Preliminary Determination*) and accompanying Preliminary Decision Memorandum.

Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, we will instruct CBP to reinstate the suspension of liquidation of geogrids from the PRC. We will also instruct CBP to require cash deposits equal to the estimated amount by which the normal value exceeds the U.S. price as indicated in the chart below, adjusted where appropriate for export subsidies and estimated domestic subsidy pass-through.⁵ These instructions suspending liquidation will remain in effect until further notice.

Accordingly, effective on the date of publication of the ITC's final affirmative determinations, CBP will require, at the same time as importers would normally deposit estimated duties on this subject merchandise, a cash deposit equal to the estimated weighted-average dumping margins, adjusted where appropriate for export subsidies and estimated domestic subsidy pass-through.⁶ The "PRC-wide" rate applies to all exporters of subject merchandise.

Exporter or producer	Weighted-average dumping margin (percent)	Cash deposit rate (percent)
PRC-Wide Entity ⁷	372.81	372.81

Provisional Measures

Section 733(d) of the Act states that instructions issued pursuant to an affirmative preliminary determination may not remain in effect for more than four months, except where exporters representing a significant proportion of exports of the subject merchandise request the Department to extend that four-month period to no more than six months. At the request of an exporter that accounted for a significant proportion of exports of geogrids from the PRC, we extended the four-month period to no more than six-months.⁸ In the underlying investigation, the Department published the *Preliminary Determination* on August 22, 2016. Therefore, the six-month period beginning on the date of the publication of the *Preliminary Determination* ended

⁵ See *Final Determination*, 82 FR at 3286 (describing the adjustments to the AD duty rate for the PRC-wide entity in more detail); see also sections 772(c)(1)(C) and 777A(f) of the Act, respectively.

⁶ *Id.* at 3286 (we did not make any adjustment to the cash deposit rates for export subsidy rates or domestic subsidy pass-through).

⁷ As discussed in the *Final Determination*, the PRC-wide entity includes BOSTD Geosynthetics Qingdao Ltd. (BOSTD) and Taian Modern Plastic Co., Ltd. (Taian Modern).

⁸ See *Preliminary Determination*, 81 FR at 56586.

on February 22, 2017. Furthermore, section 737(b) of the Act states that definitive duties are to begin on the date of publication of the ITC's final injury determination.

Therefore, in accordance with section 733(d) of the Act and our practice, we will instruct CBP to terminate the suspension of liquidation and to liquidate, without regard to antidumping duties, unliquidated entries of geogrids from the PRC entered, or withdrawn from warehouse, for consumption after February 22, 2017, the date the provisional measures expired, until and through the day preceding the date of publication of the ITC's final injury determination in the **Federal Register**. Suspension of liquidation will resume on the date of publication of the ITC's final determination in the **Federal Register**.

Critical Circumstances

With regard to the ITC's negative critical circumstances determination on imports of geogrids from the PRC, we will instruct CBP to lift suspension and to refund any cash deposits made to secure the payment of estimated antidumping duties with respect to geogrids from the PRC entered, or withdrawn from warehouse, for consumption on or after May 24, 2016 (*i.e.*, 90 days prior to the date of publication of the *Preliminary Determination*), but before August 22, 2016 (*i.e.*, the date of publication of the *Preliminary Determination*).

However, for the one respondent, BOSTD, where we found critical circumstances at the *Final Determination*, we will instruct CBP to lift suspension and to refund any cash deposits made to secure payment of estimated antidumping duties with respect to geogrids entered, or withdrawn from warehouse, for consumption by BOSTD on or after October 13, 2016 (*i.e.*, 90 days prior to the date of publication of the *Final Determination*), but before January 11, 2017 (*i.e.*, the date of publication of the *Final Determination*).

Notification to Interested Parties

This notice constitutes the antidumping duty order with respect to geogrids from the PRC pursuant to section 736(a) of the Act. Interested parties can find a list of antidumping duty orders currently in effect at <http://enforcement.trade.gov/stats/iastats1.html>.

This order is issued and published in accordance with section 736(a) of the Act and 19 CFR 351.211(b).

Dated: February 24, 2017.

Acting Assistant Secretary for Enforcement and Compliance.

The products covered have integral strands that have been stretched to induce molecular orientation into the material (as evidenced by the strands being thinner in width toward the middle between the junctions than at the junctions themselves) constituting the sides of the openings and integral junctions where the strands intersect. The scope includes products in which four-sided figures predominate whether or not they also contain additional strands intersecting the four-sided figures and whether or not the inside corners of the four-sided figures are rounded off or not sharp angles. As used herein, the term "integral" refers to strands and junctions that are homogenous with each other. The products covered have a tensile strength of greater than 5 kilonewtons per meter ("kN/m") according to American Society for Testing and Materials ("ASTM") Standard Test Method D6637/D6637M in any direction and average overall flexural stiffness of more than 100,000 milligram-centimeter according to the ASTM D7748/D7748M Standard Test Method for Flexural Rigidity of Geogrids, Geotextiles and Related Products, or other equivalent test method standards.

Subject merchandise includes material matching the above description that has been finished, packaged, or otherwise further processed in a third country, including by trimming, slitting, coating, cutting, punching holes, stretching, attaching to woven or non-woven fabric or sheet material, or any other finishing, packaging, or other further processing that would not otherwise remove the merchandise from the scope of the investigations if performed in the country of manufacture of the biaxial integral geogrid.

The products subject to the scope are currently classified in the Harmonized Tariff Schedule of the United States ("HTSUS") under the following subheading: 3926.90.9995. Subject merchandise may also enter under subheadings 3920.20.0050 and 3925.90.0000. The HTSUS subheadings set forth above are provided for convenience and U.S. Customs purposes only. The written description of the scope is dispositive.

Stainless Steel Bar From Spain: Preliminary Results of Antidumping Duty Administrative Review; 2015-2016

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the Department) is conducting an administrative review of the antidumping duty order on stainless steel bar (SSB) from Spain. The period of review (POR) is March 1, 2015, through February 29, 2016. The review covers one producer/exporter of the subject merchandise, Gerdau Aceros Especiales Europa, S.L. (Gerdau). The Department preliminarily finds that subject merchandise has been sold in the United States at prices below normal value (NV) during the POR.

DATES: Effective March 3, 2017.

FOR FURTHER INFORMATION CONTACT: Ryan Mullen, AD/CVD Operations, Office V, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone: (202) 482-5260.

SUPPLEMENTARY INFORMATION:

Scope of the Order

The product covered by this investigation is SSB from Spain. For a full description of the scope of the order, *see* Appendix I of this notice.

Methodology

The Department is conducting this review in accordance with section 751(a)(1)(B) of the Tariff Act of 1930, as amended (the Act). For a full description of the methodology underlying our conclusions, *see* the Preliminary Decision Memorandum.¹ A list of the topics included in the Preliminary Decision Memorandum is included as an appendix to this notice. The Preliminary Decision Memorandum is a public document and is made available to the public via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized

¹ *See* Memorandum from James Maeder, Senior Director, Office I, for Antidumping and Countervailing Duty Operations, to Ronald K. Lorentzen, Acting Assistant Secretary for Enforcement and Compliance, "Decision Memorandum for the Preliminary Results of Antidumping Duty Administrative Review: Stainless Steel Bar from Spain; 2015-2016" (Preliminary Decision Memorandum) dated concurrently with this notice.

Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>, and it is available to all parties in the Central Records Unit, Room B8024 of the main Department of Commerce building. In addition, a complete version of the Preliminary Decision Memorandum is available at <http://enforcement.trade.gov/frn/>. The signed Preliminary Decision Memorandum and the electronic versions of the Preliminary Decision Memorandum are identical in content.

Adverse Facts Available

Because mandatory respondent Gerdau has failed to provide requested information, we preliminarily determine to apply adverse facts available (AFA) to this respondent, in accordance with sections 776(a) and (b) of the Act and 19 CFR 351.308. For further discussion, see the Preliminary Decision Memorandum.

Preliminary Determination

We preliminarily determine that, for the period of March 1, 2015, through February 29, 2016, the following weighted-average dumping margin exists:

Exporter/producer	Weighted-average dumping margin (percent)
Gerdau Aceros Especiales Europa, S.L	62.85

Disclosure and Public Comment

Normally, the Department discloses to interested parties the calculations performed in connection with a preliminary determination within five days of the date of publication of the notice of preliminary determination in the **Federal Register**, in accordance with 19 CFR 351.224(b). However, because the Department preliminarily applied a dumping margin based on AFA, as described in the Preliminary Decision Memorandum, there is nothing further to disclose. This meets our regulatory obligation. Interested parties may submit case briefs no later than 30 days after the date of publication of this notice.² Rebuttal briefs, limited to issues raised in the case briefs, may be filed not later than five days after the date for filing case briefs.³ Parties who submit case briefs or rebuttal briefs in this proceeding are encouraged to submit with each argument: (1) A statement of

the issue; (2) a brief summary of the argument; and (3) a table of authorities.⁴

Pursuant to 19 CFR 351.310(c), interested parties who wish to request a hearing must submit a written request to the Assistant Secretary for Enforcement and Compliance, U.S. Department of Commerce, within 30 days after the date of publication of this notice. Requests should contain the party's name, address, and telephone number, the number of participants, and a list of the issues to be discussed. If a request for a hearing is made, the Department intends to hold the hearing at the U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230, at a time and date to be determined.

All documents must be filed electronically using ACCESS. An electronically-filed request must be received successfully in its entirety by ACCESS by 5:00 p.m. Eastern Standard Time.

Assessment Rates

Upon issuance of the final results, the Department shall determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries covered by this review. If Gerdau's weight-average dumping margin is not zero or *de minimis* (i.e., less than 0.5 percent), we will calculate an importer-specific *ad valorem* antidumping duty assessment rate based on the ratio of the total amount of dumping calculated for the importer's examined sales to the total entered value of those same sales in accordance with 19 CFR 351.212(b)(1). We will instruct CBP to assess antidumping duties on all appropriate entries covered by this review when the importer-specific assessment rate calculated in the final results of this review is not zero or *de minimis*. If Gerdau's weighted-average dumping margin is zero or *de minimis*, we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties. The final results of this review shall be the basis for the assessment of antidumping duties on entries of merchandise covered by this review where applicable.

In accordance with the Department's "automatic assessment" practice, for entries of subject merchandise during the POR produced by Gerdau for which it did not know that the merchandise was destined for the United States, we will instruct CBP to liquidate those entries at the all-others rate if there is no rate for the intermediate company(ies) involved in the transaction.

We intend to issue instructions to CBP 15 days after the publication date of the final results of this review.

Cash Deposit Requirements

The following cash deposit requirements will be effective upon publication of the notice of final results of administrative review for all shipments of the subject merchandise entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a)(2)(C) of the Act: (1) The cash deposit rate for Gerdau will be the rate established in the final results of this administrative review; (2) for merchandise exported by producers or exporters not covered in this administrative review but covered in a prior segment of the proceeding, the cash deposit rate will continue to be the company-specific rate published for the most recently completed segment of this proceeding; (3) if the exporter is not a firm covered in this review, a prior review, or the original investigation, but the producer is, the cash deposit rate will be the rate established for the most recently completed segment of this proceeding for the producer of the subject merchandise; and (4) the cash deposit rate for all other manufacturers or exporters will continue to be 25.77 percent, the all-others rate established in the investigation.⁵ These cash deposit requirements, when imposed, shall remain in effect until further notice.

Notification to Importers

This notice serves as a preliminary reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and increase the subsequent assessment of the antidumping duties by the amount of the antidumping duties reimburses.

The preliminary results of review are issued and published in accordance with sections 751(a)(1) and 777(i) of the Act.

Acting Assistant Secretary for Enforcement and Compliance.

Appendix I

The merchandise subject to the order is SSB. The term SSB with respect to the order means articles of stainless steel in straight lengths that have been either hot-rolled, forged, turned, cold-drawn, cold-rolled or otherwise cold-finished, or ground, having a uniform solid cross section along their whole length in the shape of circles, segments of circles, ovals, rectangles (including squares), triangles, hexagons, octagons or other convex polygons. SSB includes cold-finished SSBs that are turned or ground in straight lengths, whether produced from hot-rolled bar or from straightened and cut rod or wire, and reinforcing bars that have indentations, ribs, grooves, or other deformations produced during the rolling process. Except as specified above, the term does not include stainless steel semi-finished products, cut-length flat-rolled products (*i.e.*, cut-length rolled products which if less than 4.75 mm in thickness have a width measuring at least 10 times the thickness, or if 4.75 mm or more in thickness having a width which exceeds 150 mm and measures at least twice the thickness), wire (*i.e.*, cold-formed products in coils, of any uniform solid cross section along their whole length, which do not conform to the definition of flat-rolled products), and angles, shapes and sections.

The SSB subject to the order is currently classifiable under subheadings 7222.10.00, 7222.11.00, 7222.19.00, 7222.20.00, 7222.30.00 of the Harmonized Tariff Schedule of the United States (HTSUS).

Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the scope of the order is dispositive.⁶

The purpose of the pre-assessment workshop is to review proposed data inputs, modeling approaches, and any other pertinent information for new benchmark stock assessments for *lingcod*, *yelloweye rockfish*, *yellowtail rockfish*, and *blue/deacon rockfishes*. There may be limited discussion of assessments for Pacific *ocean perch* and California *scorpionfish*, which are scheduled benchmark assessments this year; however, these stock assessments will not be the focus of the workshop. The goal of the pre-assessment workshop is to promote dialogue about and a common understanding between assessment teams and data providers of the best data and analytical and modeling approaches for use in conducting the benchmark *groundfish* assessments scheduled for 2017. No management actions will be decided by the workshop participants.

SUPPLEMENTARY INFORMATION:

Agenda

The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a three-step process including: (1) Data Workshop; (2) Assessment Process utilizing Webinars; and (3) Review Workshop. The product of the Data Workshop is a data report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The product of the Assessment Process is a stock assessment report which describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The assessment is independently peer reviewed at the Review Workshop. The product of the Review Workshop is a Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, Highly Migratory Species Management Division, and Southeast Fisheries Science Center. Participants include: Data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The SEDAR Data Best Practices Standing Panel is charged with developing, reviewing, and evaluating best practice recommendations for SEDAR Data Workshops. The items of discussion for this Webinar are as follows:

1. Update on Data Best Practice feedback received to date
2. Prioritize Data Best Practice issues to address next and discuss process that will be used to address these issues
3. Other business

ACTION: Notice of public workshops.

SUMMARY: Free Atlantic Shark Identification Workshops and Protected Species Safe Handling, Release, and Identification Workshops will be held in April, May, and June of 2017. Certain fishermen and shark dealers are required to attend a workshop to meet regulatory requirements and to maintain valid permits. Specifically, the Atlantic Shark Identification Workshop is mandatory for all federally permitted Atlantic shark dealers. The Protected Species Safe Handling, Release, and Identification Workshop is mandatory for vessel owners and operators who use bottom longline, pelagic longline, or gillnet gear, and who have also been issued shark or swordfish limited access permits. Additional free workshops will

be conducted during 2017 and will be announced in a future notice.

DATES: The Atlantic Shark Identification Workshops will be held on April 6, May 11, and June 15, 2017.

The Protected Species Safe Handling, Release, and Identification Workshops will be held on April 7, April 18, May 16, May 19, June 15, and June 21, 2017.

See **SUPPLEMENTARY INFORMATION** for further details.

ADDRESSES: The Atlantic Shark Identification Workshops will be held in Wilmington, NC; Mobile, AL; and Manahawkin, NJ.

The Protected Species Safe Handling, Release, and Identification Workshops will be held in Manahawkin, NJ; Kitty Hawk, NC; Palm Coast, FL; Gulfport, MS; Revere, MA; and Ocean City, MD.

See **SUPPLEMENTARY INFORMATION** for further details on workshop locations.

FOR FURTHER INFORMATION CONTACT: Rick Pearson by phone: (727) 824-5399, or by fax: (727) 824-5398.

SUPPLEMENTARY INFORMATION: The workshop schedules, registration information, and a list of frequently asked questions regarding these workshops are posted on the Internet at: <http://www.nmfs.noaa.gov/sfa/hms/compliance/workshops/index.html>.

Atlantic Shark Identification Workshops

Since January 1, 2008, Atlantic shark dealers have been prohibited from receiving, purchasing, trading, or bartering for Atlantic sharks unless a valid Atlantic Shark Identification Workshop certificate is on the premises of each business listed under the shark dealer permit that first receives Atlantic sharks (71 FR 58057; October 2, 2006). Dealers who attend and successfully complete a workshop are issued a certificate for each place of business that is permitted to receive sharks. These certificate(s) are valid for 3 years. Approximately 130 free Atlantic Shark Identification Workshops have been conducted since January 2007.

Currently, permitted dealers may send a proxy to an Atlantic Shark Identification Workshop. However, if a dealer opts to send a proxy, the dealer must designate a proxy for each place of business covered by the dealer's permit which first receives Atlantic sharks. Only one certificate will be issued to each proxy. A proxy must be a person who is currently employed by a place of business covered by the dealer's permit; is a primary participant in the identification, weighing, and/or first receipt of fish as they are offloaded from a vessel; and who fills out dealer reports. Atlantic shark dealers are

prohibited from renewing a Federal shark dealer permit unless a valid Atlantic Shark Identification Workshop certificate for each business location that first receives Atlantic sharks has been submitted with the permit renewal application. Additionally, trucks or other conveyances that are extensions of a dealer's place of business must possess a copy of a valid dealer or proxy Atlantic Shark Identification Workshop certificate.

Workshop Dates, Times, and Locations

1. April 6, 2017, 12 p.m.–4 p.m., Hampton Inn, 1989 Eastwood Road, Wilmington, NC 28403.

2. May 11, 2017, 12 p.m.–4 p.m., Hampton Inn, 62 South Royal Street, Mobile, AL 36602.

3. June 15, 2017, 12 p.m.–4 p.m., Holiday Inn, 151 Route 72 West, Manahawkin, NJ 08050.

Registration

To register for a scheduled Atlantic Shark Identification Workshop, please contact Eric Sander at ericssharkguide@yahoo.com or at (386) 852-8588.

Registration Materials

To ensure that workshop certificates are linked to the correct permits, participants will need to bring the following specific items to the workshop:

- Atlantic shark dealer permit holders must bring proof that the attendee is an owner or agent of the business (such as articles of incorporation), a copy of the applicable permit, and proof of identification.
- Atlantic shark dealer proxies must bring documentation from the permitted dealer acknowledging that the proxy is attending the workshop on behalf of the permitted Atlantic shark dealer for a specific business location, a copy of the appropriate valid permit, and proof of identification.

Workshop Objectives

The Atlantic Shark Identification Workshops are designed to reduce the number of unknown and improperly identified sharks reported in the dealer reporting form and increase the accuracy of species-specific dealer-reported information. Reducing the number of unknown and improperly identified sharks will improve quota monitoring and the data used in stock assessments. These workshops will train shark dealer permit holders or their proxies to properly identify Atlantic shark carcasses.

Protected Species Safe Handling, Release, and Identification Workshops

Since January 1, 2007, shark limited-access and swordfish limited-access permit holders who fish with longline or gillnet gear have been required to submit a copy of their Protected Species Safe Handling, Release, and Identification Workshop certificate in order to renew either permit (71 FR 58057; October 2, 2006). These certificate(s) are valid for 3 years. As such, vessel owners who have not already attended a workshop and received a NMFS certificate, or vessel owners whose certificate(s) will expire prior to the next permit renewal, must attend a workshop to fish with, or renew, their swordfish and shark limited-access permits. Additionally, new shark and swordfish limited-access permit applicants who intend to fish with longline or gillnet gear must attend a Protected Species Safe Handling, Release, and Identification Workshop and submit a copy of their workshop certificate before either of the permits will be issued. Approximately 250 free Protected Species Safe Handling, Release, and Identification Workshops have been conducted since 2006.

In addition to certifying vessel owners, at least one operator on board vessels issued a limited-access swordfish or shark permit that uses longline or gillnet gear is required to attend a Protected Species Safe Handling, Release, and Identification Workshop and receive a certificate. Vessels that have been issued a limited-access swordfish or shark permit and that use longline or gillnet gear may not fish unless both the vessel owner and operator have valid workshop certificates onboard at all times. Vessel operators who have not already attended a workshop and received a NMFS certificate, or vessel operators whose certificate(s) will expire prior to their next fishing trip, must attend a workshop to operate a vessel with swordfish and shark limited-access permits that uses longline or gillnet gear.

Workshop Dates, Times, and Locations

1. April 7, 2017, 9 a.m.–5 p.m., Holiday Inn, 151 Route 72 West, Manahawkin, NJ 08050.

2. April 18, 2017, 9 a.m.–5 p.m., Hilton Garden Inn, 5353 North Virginia Dare Trail, Kitty Hawk, NC 27949.

3. May 16, 2017, 9 a.m.–5 p.m., Hilton Garden Inn, 55 Town Center Boulevard, Palm Coast, FL 32164.

4. May 19, 2017, 9 a.m.–5 p.m., Holiday Inn, 9515 Highway 49, Gulfport, MS 39503.

5. June 15, 2017, 9 a.m.–5 p.m., 230 Lee Burbank Highway, Revere, MA 02151.

6. June 21, 2017, 9 a.m.–5 p.m., Holiday Inn, 6600 Coastal Highway, Ocean City, MD 21842.

Registration

To register for a scheduled Protected Species Safe Handling, Release, and Identification Workshop, please contact Angler Conservation Education at (386) 682-0158.

Registration Materials

To ensure that workshop certificates are linked to the correct permits, participants will need to bring the following specific items with them to the workshop:

- Individual vessel owners must bring a copy of the appropriate swordfish and/or shark permit(s), a copy of the vessel registration or documentation, and proof of identification.
- Representatives of a business-owned or co-owned vessel must bring proof that the individual is an agent of the business (such as articles of incorporation), a copy of the applicable swordfish and/or shark permit(s), and proof of identification.
- Vessel operators must bring proof of identification.

Workshop Objectives

The Protected Species Safe Handling, Release, and Identification Workshops are designed to teach longline and gillnet fishermen the required techniques for the safe handling and release of entangled and/or hooked protected species, such as sea turtles, marine mammals, and smalltooth sawfish. In an effort to improve reporting, the proper identification of protected species will also be taught at these workshops. Additionally, individuals attending these workshops will gain a better understanding of the requirements for participating in these fisheries. The overall goal of these workshops is to provide participants with the skills needed to reduce the mortality of protected species, which may prevent additional regulations on these fisheries in the future.

FOR FURTHER INFORMATION CONTACT:

Roxanne Grillo, U.S. Army Corps of Engineers, San Francisco District, 1455 Market Street, San Francisco, CA 94103-1398. Telephone: (415) 503-6859. Email: CESPN-ET-PA@usace.army.mil.

SUPPLEMENTARY INFORMATION:

1. **Project Site and Background Information.** The project area consists of a turning and maneuvering basin within the waters of the San Francisco Bay called the Central Basin Approach Area (Central Basin) at the Port of San Francisco's Pier 70 Shipyard located along the eastern shore of the City of San Francisco, approximately 1.5 miles south of the San Francisco-Oakland Bay Bridge. The Pier 70 Shipyard features two dry docks, full pier-side facilities, and an available labor force in excess of 1,300, as well as a number of machine shops and engineering firms. The Port of San Francisco owns the real property and primary equipment for ship repair, such as the dry docks and cranes, offering full-service ship repair for commercial and government vessels. The facility can accommodate post-Panamax class ships, including cruise ships, tankers, container ships, and more.

The USACE proposes to dredge the Central Basin to an increased depth and place the dredged material at a permitted site. The purpose of the Proposed Action is to reduce the negative impacts of shoaling in the Central Basin to allow vessels to safely and efficiently access the Pier 70 Shipyard without the use of high tide. The Proposed Action is necessary to reduce transportation costs and user delays for use of the repair and service facilities at the Pier 70 Shipyard, increase access to the specialized repair and service facilities at the Pier 70 Shipyard, and improve safety for vessels

and operators in approaching the Central Basin and Pier 70 Shipyard.

Pursuant to NEPA, USACE has prepared a Draft DPR/EA analyzing the potential environmental impacts of planning, designing, constructing, and maintaining a commercial navigation project at the Central Basin. The primary action areas for this analysis include the proposed Central Basin approach area dredge footprint, the dredged material placement site (the San Francisco Deep Ocean Disposal Site as well as the alternative placement sites evaluated), and waterways used for vessel transit between the dredge and placement sites. The Port of San Francisco is the Non-Federal Sponsor (NFS).

2. *Alternatives.* The study considers both non-structural and structural measures. Non-structural measures include: Lightering, light loading, the use of favorable tides, and daylight transit only. Structural measures proposed include dredging to various depths in combination with dredged material placement at a range of sites. Three sets of alternative deepening plans were evaluated based on three different depths (30 feet mean lower low water [MLLW], 32 feet MLLW, and 35 feet MLLW) and three alternative sediment placement locations (beneficial use, deep ocean disposal at the San Francisco Deep Ocean Disposal Site, and an in-bay site), which resulted in a total of 16 alternatives considered including the no-action plan. The final array of four alternatives (including the No Action Alternative) from the alternative formulation process were carried forward for analysis in the EA.

The recommended plan (Proposed Action, Agency-Preferred Alternative) is the National Economic Development Plan (Alternative 6) to dredge the Central Basin to 32 feet MLLW plus two feet of overdepth and place all of the material at the San Francisco Deep Ocean Disposal Site. Approximately 237,700 cubic yards of material (including the two feet of overdepth) would be dredged.

Army Federal Register Liaison.

DENALI COMMISSION

Notice of Intent To Prepare an Environmental Impact Statement To Study Mertarvik Community Infrastructure Development Project, Alaska

AGENCY: Denali Commission.

ACTION: Notice of intent.

SUMMARY: The Denali Commission, in cooperation with the U.S. Army Corps of Engineers (USACE), announces its intention to prepare an Environmental Impact Statement (EIS) to study the feasibility of relocating the threatened Newtok Village from its current location to Mertarvik, a site roughly nine miles away on Nelson Island, which is across the Ninglik River from mainland Alaska. The EIS will address the potential for positive and negative environmental impacts associated with constructing all required infrastructure at the new village townsite of Mertarvik. The Denali Commission, along with the USACE, will hold a scoping meeting in Newtok Village, Alaska, in an effort to better define the issues associated with permanently relocating village residents. While the official scoping period concludes 30 days following the publication of this NOI, public input will continue to be solicited throughout the study process.

DATES: A scoping meeting will be held in Newtok Village, AK at 6:00 p.m. on Wednesday March 22 in the school gymnasium. (Schedule updates will be posted to the "Events" section of the Denali Commission Web page found at <https://www.denali.gov/>.) A summary of the comments received will be forwarded to meeting participants and other public as requested. The scoping meeting will be advertised as necessary.

ADDRESSES: Please direct comments or suggestions on the scope of the EIS to: Mr. Christopher Floyd, NEPA Coordinator, U.S. Army Corps of Engineers, Alaska District, CEPOA-PM-C-ER, P.O. Box 6898, Joint Base Elmendorf-Richardson, AK 99506-0898; Phone: 907-753-2700; email christopher.b.floyd@usace.army.mil.

FOR FURTHER INFORMATION CONTACT: For information or questions concerning the proposed project, please contact: CAPT Donald Antrobus, Environmentally Threatened Communities Program Manager, Denali Commission, 510 L Street, Suite 410, Anchorage, AK 99501; 907-271-3500; dantrobus@denali.gov.

SUPPLEMENTARY INFORMATION:

Background

The village of Newtok (population 354, 2010 census) is on the west coast

of Alaska in the broad, low-lying delta between the Yukon and Kuskokwim Rivers. The village is located on low marshy terrain on the banks of a tidally influenced slough of the Ninglik River. The Ninglik River is eroding toward the village of Newtok at an average rate of 72 feet per year. The maximum yearly observed rate of erosion is 300 feet per year. Based upon an average annual riverbank loss resulting from fall storms, the village has approximately four years before critical village infrastructure will be threatened and/or destroyed.

Changes in river channels surrounding the village of Newtok have also increased the frequency and severity of flooding in the village. Lower lying areas of the village flood almost every year. Flooding events in 2005 and 2006 flooded the village water supply, causing raw sewage to be spread throughout the village, displacing residents from homes, destroying subsistence food storage and other facilities, and shutting down essential utilities.

The closest high ground to the village of Newtok that avoids damages from both flooding and erosion is the Mertarvik site on Nelson Island, a 10,943-acre site transferred to the Newtok Native Corporation, from the U.S. Fish & Wildlife Service, in November 2003 by Public Law 108-129, and designated as "Proposed Village Site" on a map titled "Proposed Newtok Exchange," dated September 2002.

Additional information related to past efforts to address erosion and relocate the village can be found at: <https://www.commerce.alaska.gov/web/dcra/PlanningLandManagement/NewtokPlanningGroup.aspx>.

Purpose and Need for Agency Action

The purpose and need for this study is to identify a practicable and environmentally responsible solution to protect the village of Newtok from both flooding and erosion damages and loss of life.

This EIS will assess the potential environmental impacts of reconstructing all required village infrastructure at the new village site of Mertarvik on Nelson Island. This action is needed without delay to avoid the potential loss of life and/or the indefinite dislocation of Newtok Village residents associated with the relentless migration of the Ninglik River.

Preliminary Alternatives

Consistent with National Environmental Policy Act (NEPA) implementation requirements, this EIS will assess the full range of reasonable and practicable alternatives regarding

protecting the village of Newtok from erosion and flooding.

Structural Alternatives: This set of alternatives will investigate and describe possible improvement alternatives that would allow village residents to stay in their current location. Types of structural solutions could include, but are not limited to, constructing an earth-filled levee surrounding the entire village, including the airport, and/or raising the buildings above the highest flood level.

Proposed Action: In collaboration with the Newtok Village Council (NVC), the Denali Commission has proposed to complete comprehensive townsites planning for the new Mertarvik village site encompassing all infrastructure projects necessary to support the entire village of Newtok population, which needs relocation from the endangered village of Newtok site. The townsites plan will include at a minimum the following infrastructure projects: Airport; solid waste landfill; wastewater collection system and wastewater treatment lagoon; bulk fuel farm and fuel dispensing facility; power house and power distribution system; water treatment plan, water storage tank, and water distribution lines; barge landing; the town center consisting of housing, school, public buildings, and subdivision roads; and all associated connecting roads. The final siting of these proposed facilities will be determined in the townsites planning effort through a village engagement process. The proposed Federal actions to be covered by the EIS will consist of all infrastructure identified and sited in the final townsites plan.

No Action Alternative: Under the “no action” alternative, the village of Newtok would remain in its current location as long as physically possible, continue to experience severe damages from flooding and erosion, and eventually be forced to evacuate the site when it succumbs to catastrophic flooding and/or erosion.

Identification of Environmental and Other Issues

The Denali Commission intends to address the following environmental issues when assessing the potential environmental impacts of the alternatives in this EIS. Additional issues may be identified as a result of the scoping process. The Denali Commission invites comment from Federal agencies; state, local, and tribal governments; and the general public on these and any other issues that should be considered in the EIS:

- Potential impacts on health from the village of Newtok remaining in its current location.
- Potential impacts on health, both positive and negative, as a result of relocation.
- Potential impacts to workers during the construction of the facilities.
- Potential impacts to surface water, tidelands, flora and fauna including turbidity from construction activities.
- Potential impacts on air quality from emissions and from noise during construction and operations.
- Potential cumulative impacts of the past, present, and reasonably foreseeable future actions.
- Potential impacts to historically significant properties, if present, and on access to traditional use areas.
- Potential impacts on local, regional, or national resources from materials and utilities required for construction.
- Potential impacts on ecological resources, including threatened and endangered species and water quality.
- Potential impacts on local employment, income, population, housing, and public services from harbor construction and operations.

NEPA Process

The EIS for the proposed project will be prepared pursuant to the National Environmental Policy Act (NEPA) of 1969 (42 U.S.C. 4321 *et seq.*), Council on Environmental Quality (CEQ) NEPA Regulations (40 CFR parts 1500–1508), and Denali Commission NEPA Implementing Procedures (45 CFR part 900). Following publication of this Notice of Intent, the Denali Commission will continue the scoping process, prepare and distribute the Draft EIS for public review, hold public meeting(s) to solicit public comment on the Draft EIS, and publish a Final EIS. Not less than 30 days after the publication of the U.S. Environmental Protection Agency’s Notice of Availability of the Final EIS, the Denali Commission may issue a Record of Decision (ROD) documenting its decision concerning the proposed action.

EIS Schedule

The Draft EIS is scheduled to be published no sooner than 1 July 2017. A 45-day comment period on the Draft EIS is planned, which will include public meeting(s) to receive comments. Availability of the Draft EIS, the dates of the public comment period, and information about public meeting(s) will be announced in the **Federal Register** and in the local news media.

The Final EIS for the Mertarvik Infrastructure Development Project is scheduled to be available no sooner

than 30 September 2017. A Record of Decision would be issued no sooner than 30 days after the U.S. Environmental Protection Agency’s notice of availability of the Final EIS is published in the **Federal Register**.

Federal Co-Chair, Denali Commission.

Title of Collection: International Early Learning Study (IELS) 2018 Field Test Recruitment.

OMB Control Number: 1850-NEW.

Type of Review: A new information collection.

Abstract: The International Early Learning Study (IELS), scheduled to be conducted in 2018, is a new study sponsored by the Organization for Economic Cooperation and Development (OECD), an intergovernmental organization of industrialized countries. In the United States, the IELS is conducted by the National Center for Education Statistics (NCES). The IELS focuses on young children and their cognitive and non-cognitive skills and competencies as they transition to primary school. The IELS is designed to examine: children's early learning and development in a broad range of domains, including social emotional skills as well as cognitive skills; the relationship between children's early learning and children's participation in early childhood education and care (ECEC); the role of contextual factors, including children's individual characteristics and their home backgrounds and experiences, in promoting young

children's growth and development; and how early learning varies across and within countries prior to beginning primary school. In 2018, in the participating countries, including the United States, the IELS will assess nationally-representative samples of children ages 5.0–5.5 years (in kindergarten in the United States) through direct and indirect measures, and will collect contextual data about their home learning environments, ECEC histories, and demographic characteristics. The IELS will measure young children's knowledge, skills, and competencies in both cognitive and non-cognitive domains, including language and literacy, mathematics and numeracy, executive function/self-regulation, and social emotional skills. This assessment will take place as children are transitioning to primary school and will provide data on how U.S. children entering kindergarten compare with their international peers on skills deemed important for later success. To prepare for the main study that will take place in September–November 2018, the IELS countries will conduct a field test in the fall of 2017 to evaluate newly developed assessment instruments and questionnaires and to test the study operations. The U.S. IELS field test data collection will occur from September to October, 2017. In order to meet the international data collection schedule for the fall 2017 field test, field test respondent recruiting activities must begin by May 2017. This request is to conduct recruitment activities for the 2017 IELS field test.

Abstract: The goal of this evaluation is to examine the impact of video-based observations and feedback on the classroom practices and student achievement of novice teachers (in their first year of teaching) and early career teachers (in their second through fourth years of teaching). This study, using a random assignment design, provides an important test of whether intensive, individualized support for teachers improves their instructional practices and ultimately student achievement. By focusing on novice teachers, the study has the potential to inform both teacher induction policies and teacher preparation programs. Examining the impact of this intervention on novice and early career teachers can also inform the effectiveness of providing individualized feedback as a model for teacher professional development programs. The study includes 12 districts and approximately 500 teachers who will be participating in the study.

FEDERAL TRADE COMMISSION**Agency Information Collection Activities; Proposed Collection; Comment Request; Extension**

AGENCY: Federal Trade Commission ("FTC" or "Commission").

ACTION: Notice.

SUMMARY: The FTC intends to ask the Office of Management and Budget ("OMB") to extend for an additional three years the current Paperwork Reduction Act ("PRA") clearance for the FTC's enforcement of the information collection requirements in its "Fair Credit Reporting Risk-Based Pricing Regulations" ("RBP Rule"), which applies to certain motor vehicle dealers, and its shared enforcement with the Consumer Financial Protection Bureau ("CFPB") of the risk-based pricing provisions (subpart H) of the CFPB's

SUPPLEMENTARY INFORMATION: On July 21, 2010, President Obama signed into law the Dodd-Frank Wall Street Reform and Consumer Protection Act ("Dodd-Frank Act").¹ The Dodd-Frank Act substantially changed the federal legal framework for financial services providers. Among the changes, the Dodd-Frank Act transferred to the CFPB most of the FTC's rulemaking authority for the risk-based pricing provisions of the Fair Credit Reporting Act ("FCRA"),² on July 21, 2011.³

The FTC retains rulemaking authority for the RBP Rule solely for motor vehicle dealers described in section 1029(a) of the Dodd-Frank Act that are predominantly engaged in the sale and servicing of motor vehicles, the leasing and servicing of motor vehicles, or both.⁴

In addition, the FTC retains its authority to enforce the risk-based pricing provisions of the FCRA and the FTC and CFPB rules issued under those provisions. Thus, the FTC and CFPB

¹ Public Law 111-203, 124 Stat. 1376 (2010).

² 15 U.S.C. 1681 *et seq.*

³ Dodd-Frank Act, § 1061. This date was the "designated transfer date" established by the Treasury Department under the Dodd-Frank Act. See Dep't of the Treasury, *Bureau of Consumer Financial Protection; Designated Transfer Date*, 75 FR 57252, 57253 (Sept. 20, 2010); see also Dodd-Frank Act, § 1062.

⁴ See Dodd-Frank Act, § 1029(a), (c).

have overlapping enforcement authority for many entities subject to the CFPB rule and the FTC has sole enforcement authority for the motor vehicle dealers subject to the FTC rule.

As an analytical framework to estimate PRA burden in the “Burden Statement” below, the FTC estimates burden pertaining to respondents over which both agencies have shared enforcement authority, divides the resulting total by one-half to reflect the FTC’s shared jurisdiction, and adds to the resulting subtotal the incremental estimated burden regarding the motor vehicle dealers described above over which the FTC retains exclusive enforcement (and rulemaking) authority.

Burden Statement

Under the PRA, 44 U.S.C. 3501–3521, Federal agencies must get OMB approval for each collection of information they conduct or sponsor. “Collection of information” includes agency requests or requirements to submit reports, keep records, or provide information to a third party. 44 U.S.C. 3502(3); 5 CFR 1320.3(c). The FTC is seeking clearance for its assumed share of the estimated PRA burden regarding the disclosure requirements under the FTC and CFPB Rules.

Pursuant to Section 3506(c)(2)(A) of the PRA, the FTC invites comments on: (1) Whether the disclosure requirements are necessary, including whether the information will be practically useful; (2) the accuracy of our burden estimates, including whether the methodology and assumptions used are valid; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of providing the required information to consumers. All comments should be filed as prescribed in the **ADDRESSES** section above, and must be received on or before May 2, 2017.

Under §§ 640.3–640.4 of the FTC’s RBP Rule⁵ and §§ 1022.72–1022.73 of the CFPB Rule,⁶ a creditor must provide a risk-based pricing notice to a consumer when the creditor uses a consumer report to grant or extend credit to the consumer on material terms that are materially less favorable than the most favorable terms available to a substantial proportion of consumers from or through that creditor. Additionally, these provisions require disclosure of credit scores and information relating to credit scores in risk-based pricing notices if a credit

score of the consumer is used in setting the material terms of credit.

The FTC’s currently cleared burden totals, post-adjustment for the effects of the Dodd-Frank Act, are 9,652,500 hours based on an estimated population of 160,875 entities apportioned to FTC enforcement and/or rulemaking authority.⁷

Using the currently cleared estimates (post-adjustment for the effects of the Dodd-Frank Act) for the number of applicable motor vehicle dealers and their assumed recurring disclosure burdens, in addition to the estimated number of and burden for other entities over which the FTC shares enforcement burden with the CFPB, the FTC proposes the following updated estimates:

A. *Estimated Number of Respondents*: 160,250.⁸

B. *Burden Hours*: 9,615,000. Yearly recurring burden of 60 hours per respondent⁹ to modify and distribute notices × 160,250 respondents = 9,615,000 hours, cumulatively.

C. *Labor Costs*: \$167,974,050. Labor costs are derived by applying appropriate estimated hourly cost figures to the burden hours described above. The FTC assumes that respondents will use correspondence

clerks, at a mean hourly wage of \$17.47,¹⁰ to modify and distribute notices to consumers, for a cumulative labor cost total of \$167,974,050.

D. *Capital/Non-Labor Costs*: \$0.

The FTC believes that the FTC and CFPB rules impose negligible capital or other non-labor costs, as the affected entities are likely to have the necessary supplies and/or equipment already (*e.g.*, offices and computers) for the information collections discussed above.

⁸ This estimate derives in part from an analysis of the figures obtained from the North American Industry Classification System (NAICS) Association’s database of U.S. businesses. See <http://www.naics.com/search.htm>. Commission staff identified categories of entities under its jurisdiction that also directly provide credit to consumers. Those categories include retail, vehicle dealers, consumer lenders, and utilities. The estimate also includes state-chartered credit unions, which are subject to the Commission’s jurisdiction. See 15 U.S.C. 1681s. For the latter category, Commission staff relied on estimates from the Credit Union National Association for the number of non-federal credit unions. See <https://www.ncua.gov/Legal/Documents/Reports/annual-report-2015.pdf>. For purposes of estimating the burden, Commission staff made the conservative assumption that all of the included entities engage in risk-based pricing. The resulting tally of entities numbered 199,500. From this amount, the FTC deducted an estimated portion attributable to motor vehicle dealers in order to calculate a net amount in which to split evenly with the CFPB for the remaining number of respondents for purposes of estimating the FTC’s overall share of PRA burden. The FTC estimates there are approximately 121,000 motor vehicle dealers, determined as follows: 86,442 car dealers per NAICS data (49,905 new car dealers, 36,537 used car dealers) + [3,191 Recreational Vehicle Dealers; 7,185 boat dealers; 24,157 motorcycle, ATV/All Other Motor Vehicle Dealers] = 120,975. See <https://www.naics.com/six-digit-naics/?code=4445>. Excluding the estimated number of motor vehicle dealers, 121,000, from the estimated overall number of affected entities, 199,500, leaves 78,500 as the number of respondents for the agencies’ 50:50 apportionment: 78,500, *i.e.*, 39,250 each. Thus, for the FTC, the estimated number of respondents for its calculations is 160,250 (121,000 + 39,250).

⁹ Assumption: 5 hours per month per respondent.

Centers for Disease Control and Prevention

Request for Nominations of Candidates To Serve on the Clinical Laboratory Improvement Advisory Committee (CLIAC)

The Centers for Disease Control and Prevention (CDC) is soliciting nominations for membership on CLIAC. CLIAC provides scientific and technical advice and guidance to the Secretary, Department of Health and Human Services (HHS); the Assistant Secretary for Health, HHS; the Director, Centers for Disease Control and Prevention (CDC); the Commissioner, Food and Drug Administration (FDA); and the Administrator, Centers for Medicare & Medicaid Services (CMS). The advice and guidance pertain to general issues related to improvement in clinical laboratory quality and laboratory medicine. In addition, the Committee provides advice and guidance on specific questions related to possible revision of the CLIA standards. Examples include providing guidance on studies designed to improve safety, effectiveness, efficiency, timeliness, equity, and patient-centeredness of laboratory services; revisions to the standards under which clinical laboratories are regulated; the impact of proposed revisions to the standards on medical and laboratory practice; and the modification of the standards and provision of non-regulatory guidelines to accommodate technological advances, such as new test methods, the electronic transmission of laboratory information, and mechanisms to improve the integration of public health and clinical laboratory practices.

CLIAC consists of 20 members including the Chair, represents a diverse membership across laboratory specialties, professional roles (laboratory management, technical specialists, physicians, nurses) and practice settings (academic, clinical, public health), and includes a consumer representative. In addition, the Committee includes three ex officio members (or designees), including the Director, CDC; the Administrator, CMS; and the Commissioner, FDA. A nonvoting representative from the Advanced Medical Technology Association (AdvaMed) serves as the industry liaison. The Designated Federal Official (DFO) or their designee and the Executive Secretary are present at all meetings to ensure meetings are within applicable statutory, regulatory and

HHS General Administration manual directives.

Request for Candidates: Nominations are being sought for individuals who have expertise and qualifications necessary to contribute to accomplishing CLIAC's objectives. Nominees will be selected by the HHS Secretary or designee from authorities knowledgeable across the fields of microbiology (including bacteriology, mycobacteriology, mycology, parasitology, and virology), immunology (including histocompatibility), chemistry, hematology, pathology (including histopathology and cytology), or genetic testing (including cytogenetics); representatives from the fields of medical technology, public health, and clinical practice; and consumer representatives. Members may be invited to serve for terms of up to four years.

The U.S. Department of Health and Human Services policy stipulates that Committee membership be balanced in terms of points of view represented, and the committee's function. Appointments shall be made without discrimination on the basis of age, race, ethnicity, gender, sexual orientation, gender identity, HIV status, disability, and cultural, religious, or socioeconomic status. Nominees must be U.S. citizens, and cannot be full-time employees of the U.S. Government. Current participation on federal workgroups or prior experience serving on a federal advisory committee does not disqualify a candidate; however, HHS policy is to avoid excessive individual service on advisory committees and multiple committee memberships. Committee members are Special Government Employees, requiring the filing of financial disclosure reports at the beginning and annually during their terms. CDC reviews potential candidates for CLIAC membership each year, and provides a slate of nominees for consideration to the Secretary of HHS for final selection. HHS notifies selected candidates of their appointment near the start of the term in July, or as soon as the HHS selection process is completed. Note that the need for different expertise and individuals to maintain the appropriate demographic balance varies from year to year and a candidate who is not selected in one year may be reconsidered in a subsequent year.

Candidates should submit the following items to be considered for nomination. The deadline for receipt of materials for the 2018 term is May 1, 2017:

- Current *curriculum vitae*, including complete contact information (name,

affiliation, mailing address, telephone number, email address).

- Letter(s) of recommendation from person(s) not employed by the U.S. Department of Health and Human Services.

Background: The Advisory Board was established under the Energy Employees Occupational Illness Compensation Program Act of 2000 to advise the President on a variety of policy and technical functions required to implement and effectively manage the new compensation program. Key functions of the Advisory Board include providing advice on the development of probability of causation guidelines

which have been promulgated by the Department of Health and Human Services (HHS) as a final rule, advice on methods of dose reconstruction which have also been promulgated by HHS as a final rule, advice on the scientific validity and quality of dose estimation and reconstruction efforts being performed for purposes of the compensation program, and advice on petitions to add classes of workers to the Special Exposure Cohort (SEC).

In December 2000, the President delegated responsibility for funding, staffing, and operating the Advisory Board to HHS, which subsequently delegated this authority to the CDC. NIOSH implements this responsibility for CDC. The charter was issued on August 3, 2001, renewed at appropriate intervals, rechartered on March 22, 2016 pursuant to Executive Order 13708, and will expire on September 30, 2017.

Purpose: This Advisory Board is charged with (a) providing advice to the Secretary, HHS, on the development of guidelines under Executive Order 13179; (b) providing advice to the Secretary, HHS, on the scientific validity and quality of dose reconstruction efforts performed for this program; and (c) upon request by the Secretary, HHS, advising the Secretary on whether there is a class of employees at any Department of Energy facility who were exposed to radiation but for whom it is not feasible to estimate their radiation dose, and on whether there is reasonable likelihood that such radiation doses may have endangered the health of members of this class.

Title: Passenger and Crew Manifest (Advance Passenger Information System).

OMB Number: 1651-0088.

Form Number: None.

Abstract: The Advance Passenger Information System (APIS) is an automated method through which U.S. Customs and Border Protection (CBP) receives information about passengers and crew onboard inbound and outbound international flights before their arrival in or departure from the United States. APIS data includes biographical information for international air passengers arriving in or departing from the United States, allowing the data to be checked against CBP databases. The information is submitted for both commercial and private aircraft flights.

APIS is authorized under the Aviation and Transportation Security Act, Public Law 107-71. Under this statute, air carriers operating a passenger flight in foreign air transportation to the United States must electronically transmit to CBP a passenger and crew manifest containing specific identifying data elements and any other information that DHS determines is reasonably necessary to ensure aviation safety. The specific passenger and crew identifying information required by statute consists of the following: full name; date of birth; gender; citizenship; document type; passport number; country of issuance and expiration date; and alien registration number where applicable. The APIS regulatory requirements are specified in 19 CFR 122.49a, 122.49b, 122.49c, 122.75a, 122.75b, and 122.22. These provisions list all the required APIS data.

Respondents submit their electronic manifest either through a direct interface with CBP, or using eAPIS which is a web-based system that can be accessed at <https://eapis.cbp.dhs.gov/>.

The FRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: McEwen Mining Inc. (McEwen) proposes to develop a gold mine in the southwest portion of the Roberts Mountains approximately 30 miles northwest of Eureka, Nevada. The Plan boundary encompasses 5,362 acres of public land and 199 acres of private land located in Eureka County, Nevada. The proposed Project consists of a mining Plan of Operations (Plan) (NVN-091037) and involves the following activities: Four open pits; waste rock dump areas; crushing, screening, and agglomeration

facilities; heap leach pads, associated process solution pond, and an event pond; an adsorption, desorption, and recovery plant, including barren and pregnant solution tanks; ancillary and other facilities, including explosive storage area, ammonium nitrate prill silos, liquid natural gas cryostorage, or compressed natural gas generators and switch station, truck shop and wash bay, ready line, landfill, laydown areas, water and power infrastructure, buildings, yards, parking, storage, growth media stockpiles, production water wells (GBPW-210 and GBPW-211) and associated water supply pipeline, groundwater monitoring wells (GBMW-01, GBMW-03, and GBMW-04), communication facilities, potable water and fire water facilities, septic systems, and fencing; and mine access roads (Three Bars Road, Atlas Haul Road, North Roberts Creek Road, Bypass Road [NVN-91566], and Roberts Creek Road). Total proposed Project disturbance would be approximately 1,127 acres of surface disturbance, which includes both proposed new disturbance and existing disturbance that would be incorporated into the Project, with approximately 944 acres on public land administered by the BLM Mount Lewis Field Office and 183 acres on private land. The actions involved in the decision to be made by the U.S. Department of the Interior's BLM include authorization of the Gold Bar Plan of Operations. The Gold Bar Mine Project is in conformance with the 1986 Shoshone-Eureka Resource Area Resource Management Plan and Record of Decision.

The proposed pit depths would not intercept groundwater. No pit dewatering would be necessary and no pit lakes are anticipated to form after mining operations end.

The purpose of this comment period is for the public to comment on the Draft EIS. The Draft EIS, through scoping, has identified and analyzed impacts to the following resources areas: Water resources; air quality; vegetation resources (including noxious weed and special status species); wildlife (including migratory birds and special status species); grazing management; land use and access; aesthetics (noise and visual); cultural resources; paleontological resources; geological resources (including minerals and soils); recreation; social and economic values; hazardous materials; Native American cultural concerns; and wild horses. The project area does not have any lands with wilderness characteristics. The Pony Express National Historic Trail (NHT) crosses existing Three Bars and North Roberts Creek Roads; however,

public and recreational access to the NHT would not be affected by mining activities.

The Draft EIS describes and analyzes the proposed Project's direct, indirect, and cumulative impacts on all affected resources. In addition to the proposed Project, four alternatives were analyzed including the 25kV Overhead Distribution Line Alternative, the Three Bars Road/Atlas Haul Road as Only Access Alternative, the Mount Hope and North Roberts Creek Road for Light Vehicle Traffic Alternative, and the No Action Alternative. Development of alternatives focused on reducing impacts to Greater Sage-Grouse habitat.

On September 11, 2015, a Notice of Intent was published in the **Federal Register** inviting scoping comments on the Proposed Action (80 FR 54800). A public scoping meeting was held in Eureka on October 6, 2015. A total of 12 scoping comment letters were received during the scoping period. Concerns raised included impacts to water resources, air quality, wild horses, wildlife, and recreation.

The BLM has utilized and coordinated the NEPA scoping and comment process to help fulfill the public involvement process under the National Historic Preservation Act (NHPA) (54 U.S.C. 306108) as provided in 36 CFR 800.2(d)(3)—and the BLM continues to do so. The information about historic and cultural resources within the area potentially affected by the proposed Project has assisted the BLM in identifying and evaluating impacts to such resources in the context of both NEPA and Title 54 of the NHPA.

The BLM has consulted and continues to consult with Indian tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. Tribal concerns, including potential impacts to areas of critical cultural and spiritual significance and potential impacts to cultural resources, have been analyzed in the Draft EIS. Federal, State, and local agencies, along with tribes and other stakeholders that may be interested in or affected by the proposed Project that the BLM is evaluating, are invited to participate in the comment process.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

AGENCY: Bureau of Ocean Energy Management, Interior.

ACTION: Notice.

SUMMARY: Notice is hereby given of the availability of certain North American Datum of 1983 (NAD 83) based Outer Continental Shelf (OCS) Official Protraction Diagrams (OPDs) and Supplemental Official OCS Block Diagrams (SOBDs) depicting geographic areas located in the Atlantic Ocean. The Bureau of Ocean Energy Management (BOEM), in accordance with its authority and responsibility under the Outer Continental Shelf Lands Act, is announcing the availability of maps used for the description of renewable energy, mineral, and oil and gas lease sales in the geographic areas they represent.

FOR FURTHER INFORMATION CONTACT: Douglas Vandegraft, Chief, Mapping and Boundary Branch at (703) 787-1312 or via email at Doug.Vandegraft@boem.gov.

SUPPLEMENTARY INFORMATION: By correspondence dated July 27, 2016, the Commonwealth of Virginia requested that BOEM update official maps to reflect the offshore lateral boundaries that divide the waters within the Commonwealth of Virginia from the state waters of North Carolina and Maryland. This request is directly related to a current joint effort by the Commonwealth and BOEM to permanently immobilize the Submerged Lands Act Boundary offshore of Virginia through a decree from the U.S. Supreme Court. The lateral boundary dividing Virginia and North Carolina was determined by Congress through Public Law 92-588 of October 27, 1972. The lateral boundary dividing Virginia and Maryland was determined by Congress through Public Law 92-565 of October 25, 1972. The Submerged Lands Act boundaries depicted in the revised diagrams were prepared using the state boundaries established by Congress.

Accordingly, OPD NJ18-11 (Currituck Sound), dated November 1, 2016, has been revised to reflect the Virginia-North Carolina lateral boundary. OPD NJ18-05 (Salisbury) dated November 1, 2016, has been revised to reflect the Virginia-Maryland lateral boundary. Both lateral boundaries extend directly

east from the shoreline of the Atlantic Ocean and terminate at the Submerged Lands Act Boundary, which is located three nautical miles east and parallel to the shoreline. SOBDs 6505 and 6506, dated November 1, 2016, located within OPD NJ18-11 (Currituck Sound), have been revised to reflect the intersection of the Virginia-North Carolina lateral boundary with the Submerged Lands Act Boundary. SOBD 7117, dated November 1, 2016, located within NJ18-05 (Salisbury), has been revised to reflect the intersection of the Virginia-Maryland lateral boundary with the Submerged Lands Act Boundary. On December 12, 2016, the Commonwealth of Virginia signed the subject SOBDs, indicating its concurrence with the BOEM depiction of the lateral boundaries and boundary intersections.

SUPPLEMENTARY INFORMATION:

Background.—On February 6, 2017, the Commission determined that the domestic interested party group response to its notice of institution (81 FR 75848, November 1, 2016) of the subject five-year review was adequate and that the respondent interested party group response was inadequate. The Commission did not find any other circumstances that would warrant conducting a full review.¹ Accordingly, the Commission determined that it would conduct an expedited review pursuant to section 751(c)(3) of the

Tariff Act of 1930 (19 U.S.C. 1675(c)(3)).²

For further information concerning the conduct of this review and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A and B (19 CFR part 201), and part 207, subparts A, D, E, and F (19 CFR part 207).

Staff report.—A staff report containing information concerning the subject matter of the review will be placed in the nonpublic record on May 18, 2017, and made available to persons on the Administrative Protective Order service list for this review. A public version will be issued thereafter, pursuant to section 207.62(d)(4) of the Commission's rules.

Written submissions.—As provided in section 207.62(d) of the Commission's rules, interested parties that are parties to the review and that have provided individually adequate responses to the notice of institution,³ and any party other than an interested party to the review may file written comments with the Secretary on what determination the Commission should reach in the review. Comments are due on or before May 23, 2017 and may not contain new factual information. Any person that is neither a party to the five-year review nor an interested party may submit a brief written statement (which shall not contain any new factual information) pertinent to the review by May 23, 2017. However, should the Department of Commerce extend the time limit for its completion of the final results of its review, the deadline for comments (which may not contain new factual information) on Commerce's final results is three business days after the issuance of Commerce's results. If comments contain business proprietary information (BPI), they must conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission's rules. The Commission's rules with respect to filing were revised effective July 25, 2014. See 79 FR 35920 (June 25, 2014), and the revised Commission Handbook on E-filing, available from the

Commission's Web site at <https://edis.usitc.gov>.

In accordance with sections 201.16(c) and 207.3 of the rules, each document filed by a party to the review must be served on all other parties to the review (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

Determination.—The Commission has determined this review to be extraordinarily complicated and therefore has determined to exercise its authority to extend the review period by up to 90 days pursuant to 19 U.S.C. 1675(c)(5)(B).

Authority: This review is being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.62 of the Commission's rules.

By order of the Commission.

[Investigation No. 731-TA-669 (Fourth Review)]

Cased Pencils From China; Notice of Commission Determination To Conduct a Full Five-Year Review and Scheduling of a Full Five-Year Review

AGENCY: United States International Trade Commission.

ACTION: Notice.

SUMMARY: The Commission hereby gives notice of its determination to conduct,

and scheduling of, a full review pursuant to the Tariff Act of 1930 ("the Act") to determine whether revocation of the antidumping duty order on cased pencils from China would be likely to lead to continuation or recurrence of material injury within a reasonably foreseeable time. The Commission has determined to exercise its authority to extend the review period by up to 90 days.

DATES: *Effective Date:* February 27, 2017.

FOR FURTHER INFORMATION CONTACT:

Jordan Harriman (202-205-2610), Office of Investigations, U.S. International Trade Commission, 500 E Street SW., Washington, DC 20436. Hearing-impaired persons can obtain information on this matter by contacting the Commission's TDD terminal on 202-205-1810. Persons with mobility impairments who will need special assistance in gaining access to the Commission should contact the Office of the Secretary at 202-205-2000. General information concerning the Commission may also be obtained by accessing its Internet server (<https://www.usitc.gov>). The public record for this review may be viewed on the Commission's electronic docket (EDIS) at <https://edis.usitc.gov>.

SUPPLEMENTARY INFORMATION:

Background.—On September 6, 2016, the Commission determined that it should proceed to a full review in the subject five-year review pursuant to section 751(c) of the Tariff Act of 1930 (19 U.S.C. 1675(c)). The Commission found that the domestic interested party group response to its notice of institution (81 FR 35059, June 1, 2016) was adequate. The Commission found that the respondent interested party group response was inadequate. The Commission also found that other circumstances warranted conducting a full review. A record of the Commissioners' votes, the Commission's statement on adequacy, and any individual Commissioner's statements will be available from the Office of the Secretary and at the Commission's Web site. Accordingly, a full review is being scheduled pursuant to section 751(c)(5) of the Tariff Act of 1930 (19 U.S.C. 1675(c)(5)).

Participation in the review and public service list.—Persons, including industrial users of the subject merchandise and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in this review as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11 of the

Commission's rules, by 45 days after publication of this notice. A party that filed a notice of appearance following publication of the Commission's notice of institution of the review need not file an additional notice of appearance. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the review.

For further information concerning the conduct of this review and rules of general application, consult the Commission's Rules of Practice and Procedure, part 201, subparts A and B (19 CFR part 201), and part 207, subparts A, D, E, and F (19 CFR part 207).

Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and BPI service list.—Pursuant to section 207.7(a) of the Commission's rules, the Secretary will make BPI gathered in this review available to authorized applicants under the APO issued in the review, provided that the application is made by 45 days after publication of this notice. Authorized applicants must represent interested parties, as defined by 19 U.S.C. 1677(9), who are parties to the review. A party granted access to BPI following publication of the Commission's notice of institution of the review need not reapply for such access. A separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

Staff report.—The prehearing staff report in the review will be placed in the nonpublic record on May 30, 2017, and a public version will be issued thereafter, pursuant to section 207.64 of the Commission's rules.

Hearing.—The Commission will hold a hearing in connection with the review beginning at 9:30 a.m. on Thursday, June 15, 2017, at the U.S. International Trade Commission Building. Requests to appear at the hearing should be filed in writing with the Secretary to the Commission on or before June 7, 2017. A nonparty who has testimony that may aid the Commission's deliberations may request permission to present a short statement at the hearing. All parties and nonparties desiring to appear at the hearing and make oral presentations should participate in a prehearing conference to be held on June 9, 2017, at the U.S. International Trade Commission Building, if deemed necessary. Oral testimony and written materials to be submitted at the public hearing are governed by sections 201.6(b)(2), 201.13(f), 207.24, and 207.66 of the Commission's rules. Parties must submit any request to

present a portion of their hearing testimony *in camera* no later than 7 business days prior to the date of the hearing.

Written submissions.—Each party to the review may submit a prehearing brief to the Commission. Prehearing briefs must conform with the provisions of section 207.65 of the Commission's rules; the deadline for filing is June 8, 2017. Parties may also file written testimony in connection with their presentation at the hearing, as provided in section 207.24 of the Commission's rules, and posthearing briefs, which must conform with the provisions of section 207.67 of the Commission's rules. The deadline for filing posthearing briefs is June 26, 2017. In addition, any person who has not entered an appearance as a party to the review may submit a written statement of information pertinent to the subject of the review on or before June 26, 2017. On July 19, 2017, the Commission will make available to parties all information on which they have not had an opportunity to comment. Parties may submit final comments on this information on or before July 21, 2017, but such final comments must not contain new factual information and must otherwise comply with section 207.68 of the Commission's rules. All written submissions must conform with the provisions of section 201.8 of the Commission's rules; any submissions that contain BPI must also conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission's rules. The Commission's Handbook on E-Filing, available on the Commission's Web site at <https://edis.usitc.gov>, elaborates upon the Commission's rules with respect to electronic filing.

Additional written submissions to the Commission, including requests pursuant to section 201.12 of the Commission's rules, shall not be accepted unless good cause is shown for accepting such submissions, or unless the submission is pursuant to a specific request by a Commissioner or Commission staff.

In accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the review must be served on all other parties to the review (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

The Commission has determined that this review is extraordinarily complicated and therefore has determined to exercise its authority to extend the review period by up to 90

days pursuant to 19 U.S.C. 1675(c)(5)(B).

Authority: This review is being conducted under authority of title VII of the Tariff Act of 1930; this notice is published pursuant to section 207.62 of the Commission's rules.

SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Nonmonetary Determination Activity Report (Form ETA-207) that collects data on the number and types of issues States adjudicate when unemployment insurance claims are filed. The form also collects data on the number of disqualifications issued for reasons associated with a claimant's separation from employment and reasons related to a claimant's continuing eligibility for benefits. The ETA, Office of Unemployment Insurance uses these data to determine workload counts for allocation of administrative funds, to analyze the ratio of disqualifications to determinations, and to examine and evaluate the program effect of nonmonetary activities. This information collection has been classified as a revision, because the ETA seeks to remove reporting requirements associated with the now expired Federal Emergency Unemployment Compensation Program. Social Security Act section 303(a)(6) authorizes this information collection. See 42 U.S.C. 503(a)(6).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1205-0150. The current approval is scheduled to expire on March 31, 2016; however, the DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month

extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on September 6, 2016 (81 FR 51253).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1205-0150. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA to reinstate, with changes from the most recent approval, the Contingent Work Supplement (CWS) to the Current Population Survey. The 2017 CWS will provide information on the characteristics of workers in contingent jobs, *i.e.*, jobs structured to last only a limited period. The CWS will also provide information about workers in several alternative employment arrangements, including independent contractors, on-call workers, temporary help agency workers, and workers provided by contract companies. The CWS was fielded every 2 years from 1995 to 2005; however, since then, there have been no reliable and comparable statistics to show how the number and characteristics of these workers have changed over time. In order to maintain data comparability, the 2017 CWS questionnaire will largely be the same as that used in 2005; however, because new types of work have emerged since the last CWS collection, the BLS proposes to add 4 new questions to the end of the CWS. These new questions will explore how the Internet and mobile device applications have changed the type of work people do and how they are paid. The BLS Authorizing

Statute authorizes this information collection. See 29 U.S.C. 1, 2.

This proposed information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on September 30, 2016 (81 FR 67394).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1220-0153. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Proposed Collection, Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed revision of the "Consumer Price Index Commodities and Services Survey." A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed below in the Addresses section of this notice.

DATES: Written comments must be submitted to the office listed in the **ADDRESSES** section of this notice on or before May 2, 2017.

ADDRESSES: Send comments to Nora Kincaid, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue NE., Washington, DC 20212. Written comments also may be transmitted by fax to, 202-691-5111. (This is not a toll free number.)

FOR FURTHER INFORMATION CONTACT: Nora Kincaid, BLS Clearance Officer, 202-691-7628 (this is not a toll free number). (See **ADDRESSES** section.)

SUPPLEMENTARY INFORMATION:

I. Background

Under the direction of the Secretary of Labor, the Bureau of Labor Statistics (BLS) is directed by law to collect,

collate, and report full and complete statistics on the conditions of labor and the products and distribution of the products of the same; the Consumer Price Index (CPI) is one of these statistics. The collection of data from a wide spectrum of retail establishments and government agencies is essential for the timely and accurate calculation of the Commodities and Services (C&S) component of the CPI.

The CPI is the only index compiled by the U.S. Government that is designed to measure changes in the purchasing power of the urban consumer's dollar. The CPI is a measure of the average change in prices over time paid by urban consumers for a market basket of goods and services. The CPI is used most widely as a measure of inflation, and serves as an indicator of the effectiveness of government economic policy. It is also used as a deflator of other economic series, that is, to adjust other series for price changes and to translate these series into inflation-free dollars. Examples include retail sales, hourly and weekly earnings, and components of the Gross Domestic Product.

A third major use of the CPI is to adjust income payments. Over 2 million workers are covered by collective bargaining contracts, which provide for increases in wage rates based on increases in the CPI. At least eleven states have laws that link the adjustment in state minimum wage to the changes in the CPI. In addition, as a result of statutory action, the CPI affects the income of millions of Americans. Over 51 million Social Security beneficiaries, and millions of military and Federal Civil Service retirees, have cost-of-living adjustments tied to the CPI. In addition, eligibility criteria for millions of food stamps recipients and millions of children who eat lunch at school are affected by changes in the CPI. Under the National School Lunch Act and Child Nutrition Act, national average payments for those lunches and breakfasts are adjusted annually by the Secretary of Agriculture on the basis of the change in the CPI series, "Food away from Home." Since 1985, the CPI has been used to adjust the Federal income tax structure to prevent inflation-induced tax rate increases.

II. Current Action

Office of Management and Budget clearance is being sought for the proposed revision of the Consumer Price Index Commodities and Services Survey.

In January 2018 a new geographic sample redesign will be implemented. The new sample design will expand the

coverage of the CPI-U from 89% to 94% of the U.S. population. The CPI will rotate its sample to new geographic areas on a continuous basis, over a 4-year transition period, until all new areas have been brought into the sample. A few of the notable methodological changes are the sample classification structure will change from four Census regions (Northeast, Midwest, South, and West) to nine Census divisions (New England, Middle Atlantic, East North Central, West South Central, South Atlantic, East South Central, West South Central, Mountain, and Pacific); PSU area definitions have been updated using the Office of Management and Budget's (OMB) Core-Based Statistical Areas (CBSAs) definitions; and the number of sampled PSUs in the CPI will be reduced from 87 to 75. This change will increase the average number of price quotes per index area.

The continuation of the collection of prices for the CPI is essential since the

CPI is the nation's chief source of information on retail price changes. If the information on C&S prices were not collected, Federal fiscal and monetary policies would be hampered due to the lack of information on price changes in a major sector of the U.S. economy, and estimates of the real value of the Gross National Product could not be made. The consequences to both the Federal and private sectors would be far reaching and would have serious repercussions on Federal government policy and institutions.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the

proposed collection of information, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Type of Review: Extension without change of a currently approved collection.

SECURITIES AND EXCHANGE COMMISSION

[Investment Company Act Release No. 32511; 812–14692]

USAA ETF Trust, et al.; Notice of Application

February 27, 2017.

AGENCY: Securities and Exchange Commission (“Commission”).

ACTION: Notice of an application for an order under section 6(c) of the Investment Company Act of 1940 (the “Act”) for an exemption from sections 2(a)(32), 5(a)(1), 22(d), and 22(e) of the Act and rule 22c–1 under the Act, under sections 6(c) and 17(b) of the Act for an exemption from sections 17(a)(1) and 17(a)(2) of the Act, and under section 12(d)(1)(f) for an exemption from sections 12(d)(1)(A) and 12(d)(1)(B) of the Act. The requested order would permit (a) index-based series of certain open-end management investment companies (“Funds”) to issue shares redeemable in large aggregations only (“Creation Units”); (b) secondary market transactions in Fund shares to occur at negotiated market prices rather than at net asset value (“NAV”); (c) certain Funds to pay redemption proceeds, under certain circumstances, more than seven days after the tender of shares for redemption; (d) certain affiliated persons of a Fund to deposit securities into, and receive securities from, the Fund in connection with the purchase and redemption of Creation Units; (e) certain registered management investment companies and unit investment trusts outside of the same group of investment companies as the Funds (“Funds of Funds”) to acquire shares of the Funds; and (f) certain Funds (“Feeder Funds”) to create and redeem Creation Units in-kind in a master-feeder structure.

APPLICANTS: USAA ETF Trust, USAA Mutual Funds Trust (each, a “Trust” and collectively the “Trusts”), each a Delaware statutory trust that is or will be registered under the Act as an open-end management investment company with multiple series, USAA Asset Management Company (the “Initial Adviser”), a Delaware corporation that is registered as an investment adviser under the Investment Advisers Act of 1940, and USAA Investment

Management Company, a Delaware corporation (the "Initial Distributor" and, together with any future distributor, the "Distributor").

FILING DATES: The application was filed on August 18, 2016 and amended on January 31, 2017.

HEARING OR NOTIFICATION OF HEARING: An order granting the requested relief will be issued unless the Commission orders a hearing. Interested persons may request a hearing by writing to the Commission's Secretary and serving applicants with a copy of the request, personally or by mail. Hearing requests should be received by the Commission by 5:30 p.m. on March 24, 2017, and should be accompanied by proof of service on applicants, in the form of an affidavit, or for lawyers, a certificate of service. Persons who wish to be notified of a hearing may request notification by writing to the Commission's Secretary.

ADDRESSES: Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549-1090; Applicants: 9800 Fredericksburg Road, San Antonio, Texas 78288.

FOR FURTHER INFORMATION CONTACT: Jessica Shin, Attorney-Adviser, at (202) 551-5921 or David J. Marcinkus, Branch Chief, at (202) 551-6821 (Division of Investment Management, Chief Counsel's Office).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained via the Commission's Web site by searching for the file number, or for an applicant using the Company name box, at <http://www.sec.gov/search/search.htm> or by calling (202) 551-8090.

Summary of the Application

1. Applicants request an order that would allow Funds to operate as index-based exchange traded funds ("ETFs").¹ Fund shares will be purchased and redeemed at their NAV in Creation

¹ Applicants request that the order apply to the initial series of the Trust and any additional series of the Trust, and any other existing or future open-end management investment company or series thereof (each, included in the term "Fund"), each of which will operate as an ETF and will track a specified index comprised of domestic or foreign equity and/or fixed income securities (each, an "Underlying Index"). Any Fund will (a) be advised by the Initial Adviser or an entity controlling, controlled by, or under common control with the Initial Adviser (each, an "Adviser") and (b) comply with the terms and conditions of the application.

Units only. All orders to purchase Creation Units and all redemption requests will be placed by or through an "Authorized Participant", which will have signed a participant agreement with the Distributor. Shares will be listed and traded individually on a national securities exchange, where share prices will be based on the current bid/offer market. Certain Funds may operate as Feeder Funds in a master-feeder structure. Any order granting the requested relief would be subject to the terms and conditions stated in the application.

2. Each Fund will hold investment positions selected to correspond generally to the performance of an Underlying Index. In the case of Self-Indexing Funds, an affiliated person, as defined in section 2(a)(3) of the Act ("Affiliated Person"), or an affiliated person of an Affiliated Person ("Second-Tier Affiliate"), of the Trust or a Fund, of the Adviser, of any sub-adviser to or promoter of a Fund, or of the Distributor will compile, create, sponsor or maintain the Underlying Index.²

3. Shares will be purchased and redeemed in Creation Units and generally on an in-kind basis. Except where the purchase or redemption will include cash under the limited circumstances specified in the application, purchasers will be required to purchase Creation Units by depositing specified instruments ("Deposit Instruments"), and shareholders redeeming their shares will receive specified instruments ("Redemption Instruments"). The Deposit Instruments and the Redemption Instruments will each correspond pro rata to the positions in the Fund's portfolio (including cash positions) except as specified in the application.

4. Because shares will not be individually redeemable, applicants request an exemption from section 5(a)(1) and section 2(a)(32) of the Act that would permit the Funds to register as open-end management investment companies and issue shares that are redeemable in Creation Units only.

5. Applicants also request an exemption from section 22(d) of the Act and rule 22c-1 under the Act as secondary market trading in shares will take place at negotiated prices, not at a current offering price described in a

² Each Self-Indexing Fund will post on its Web site the identities and quantities of the investment positions that will form the basis for the Fund's calculation of its NAV at the end of the day. Applicants believe that requiring Self-Indexing Funds to maintain full portfolio transparency will help address, together with other protections, conflicts of interest with respect to such Funds.

Fund's prospectus, and not at a price based on NAV. Applicants state that (a) secondary market trading in shares does not involve a Fund as a party and will not result in dilution of an investment in shares, and (b) to the extent different prices exist during a given trading day, or from day to day, such variances occur as a result of third-party market forces, such as supply and demand. Therefore, applicants assert that secondary market transactions in shares will not lead to discrimination or preferential treatment among purchasers. Finally, applicants represent that share market prices will be disciplined by arbitrage opportunities, which should prevent shares from trading at a material discount or premium from NAV.

6. With respect to Funds that effect creations and redemptions of Creation Units in kind and that are based on certain Underlying Indexes that include foreign securities, applicants request relief from the requirement imposed by section 22(e) in order to allow such Funds to pay redemption proceeds within fifteen calendar days following the tender of Creation Units for redemption. Applicants assert that the requested relief would not be inconsistent with the spirit and intent of section 22(e) to prevent unreasonable, undisclosed or unforeseen delays in the actual payment of redemption proceeds.

7. Applicants request an exemption to permit Funds of Funds to acquire Fund shares beyond the limits of section 12(d)(1)(A) of the Act; and the Funds, and any principal underwriter for the Funds, and/or any broker or dealer registered under the Securities Exchange Act of 1934, to sell shares to Funds of Funds beyond the limits of section 12(d)(1)(B) of the Act. The application's terms and conditions are designed to, among other things, help prevent any potential (i) undue influence over a Fund through control or voting power, or in connection with certain services, transactions, and underwritings, (ii) excessive layering of fees, and (iii) overly complex fund structures, which are the concerns underlying the limits in sections 12(d)(1)(A) and (B) of the Act.

8. Applicants request an exemption from sections 17(a)(1) and 17(a)(2) of the Act to permit persons that are Affiliated Persons, or Second Tier Affiliates, of the Funds, solely by virtue of certain ownership interests, to effectuate purchases and redemptions in-kind. The deposit procedures for in-kind purchases of Creation Units and the redemption procedures for in-kind redemptions of Creation Units will be the same for all purchases and redemptions and Deposit Instruments

and Redemption Instruments will be valued in the same manner as those investment positions currently held by the Funds. Applicants also seek relief from the prohibitions on affiliated transactions in section 17(a) to permit a Fund to sell its shares to and redeem its shares from a Fund of Funds, and to engage in the accompanying in-kind transactions with the Fund of Funds.³ The purchase of Creation Units by a Fund of Funds directly from a Fund will be accomplished in accordance with the policies of the Fund of Funds and will be based on the NAVs of the Funds.

9. Applicants also request relief to permit a Feeder Fund to acquire shares of another registered investment company managed by the Adviser having substantially the same investment objectives as the Feeder Fund ("Master Fund") beyond the limitations in section 12(d)(1)(A) and permit the Master Fund, and any principal underwriter for the Master Fund, to sell shares of the Master Fund to the Feeder Fund beyond the limitations in section 12(d)(1)(B).

10. Section 6(c) of the Act permits the Commission to exempt any persons or transactions from any provision of the Act if such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. Section 12(d)(1)(J) of the Act provides that the Commission may exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provision of section 12(d)(1) if the exemption is consistent with the public interest and the protection of investors. Section 17(b) of the Act authorizes the Commission to grant an order permitting a transaction otherwise prohibited by section 17(a) if it finds that (a) the terms of the proposed transaction are fair and reasonable and do not involve overreaching on the part of any person concerned; (b) the proposed transaction is consistent with the policies of each registered investment company involved; and (c) the proposed transaction is consistent with the general purposes of the Act.

³ The requested relief would apply to direct sales of shares in Creation Units by a Fund to a Fund of Funds and redemptions of those shares. Applicants, moreover, are not seeking relief from section 17(a) for, and the requested relief will not apply to, transactions where a Fund could be deemed an Affiliated Person, or a Second-Tier Affiliate, of a Fund of Funds because an Adviser or an entity controlling, controlled by or under common control with an Adviser provides investment advisory services to that Fund of Funds.

For the Commission, by the Division of Investment Management, under delegated authority.

Eduardo A. Aleman,

Assistant Secretary.

ADDRESSES: Secretary, U.S. Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549-1090; Applicants: 605 Third Avenue, 2nd Floor, New York, NY 10158-0180.

FOR FURTHER INFORMATION CONTACT: Jill Ehrlich, Senior Counsel, at (202) 551-6819 or David J. Marcinkus, Branch Chief, at (202) 551-6821 (Division of Investment Management, Chief Counsel's Office).

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained via the Commission's Web site by searching for the file number, or an applicant using the Company name box, at <http://www.sec.gov/search/search.htm> or by calling (202) 551-8090.

Summary of the Application

1. Applicants request an order that would permit the applicants to participate in an interfund lending facility where each Fund could lend money directly to and borrow money directly from other Funds to cover unanticipated cash shortfalls, such as

borrowing under the facility do not apply to the Closed-End Funds.

² Although the applicants do not currently operate any money market funds, applicants request that the order also apply to any future Fund that is a money market fund that complies with rule 2a-7 of the Act (each a "Money Market Fund"). Money Market Funds typically will not participate as borrowers under the interfund lending facility but may do so if it is determined to be in the best interests of such Funds by the Adviser (as defined below) and its respective portfolio manager(s).

unanticipated redemptions or trade fails.³ The Funds will not borrow under the facility for leverage purposes, and the loans' duration will be no more than 7 days.⁴

2. Applicants anticipate that the proposed facility would provide a borrowing Fund with significant savings at times when the cash position of the Fund is insufficient to meet temporary cash requirements. In addition, Funds making short-term cash loans directly to other Funds would earn interest at a rate higher than they otherwise could obtain from investing their cash in repurchase agreements or certain other short term money market instruments. Thus, applicants assert that the facility would benefit both borrowing and lending Funds.

3. Applicants agree that any order granting the requested relief will be subject to the terms and conditions stated in the application. Among others, the Adviser, through a designated committee, would administer the facility as a disinterested fiduciary as part of its duties under the investment management agreements with the Funds and would receive no additional fee as compensation for its services in connection with the administration of the facility. The facility would be subject to oversight and certain approvals by the Funds' Board, including, among others, approval of the interest rate formula and of the method for allocating loans across Funds, as well as review of the process in place to evaluate the liquidity implications for the Funds. A Fund's aggregate outstanding interfund loans will not exceed 15% of its net assets, and the Fund's loans to any one Fund will not exceed 5% of the lending Fund's net assets.⁵

4. Applicants assert that the facility does not raise the concerns underlying section 12(d)(1) of the Act given that the Funds are part of the same group of investment companies and there will be no duplicative costs or fees to the

Funds.⁶ Applicants also assert that the proposed transactions do not raise the concerns underlying sections 17(a)(1), 17(a)(3), 17(d) and 21(b) of the Act as the Funds would not engage in lending transactions that unfairly benefit insiders or are detrimental to the Funds. Applicants state that the facility will offer both reduced borrowing costs and enhanced returns on loaned funds to all participating Funds, and each Fund would have an equal opportunity to borrow and lend on equal terms based on an interest rate formula that is objective and verifiable. With respect to the relief from section 17(a)(2) of the Act, applicants note that any collateral pledged to secure an interfund loan would be subject to the same conditions imposed by any other lender to a Fund that imposes conditions on the quality of or access to collateral for a borrowing (if the lender is another Fund) or the same or better conditions (in any other circumstance).⁷

5. Applicants also believe that the limited relief from section 18(f)(1) of the Act that is necessary to implement the facility (because the lending Funds are not banks) is appropriate in light of the conditions and safeguards described in the application and because the Funds would remain subject to the requirement of section 18(f)(1) that all borrowings of the Fund, including combined interfund loans and bank borrowings, have at least 300% asset coverage.

6. Section 6(c) of the Act permits the Commission to exempt any persons or transactions from any provision of the Act if such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. Section 12(d)(1)(j) of the Act provides that the Commission may exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provision of section 12(d)(1) if the exemption is consistent with the public interest and the protection of investors. Section 17(b) of the Act authorizes the Commission to grant an order permitting a transaction otherwise prohibited by section 17(a) if it finds that (a) the terms of the proposed transaction are fair and reasonable and do not involve overreaching on the part

of any person concerned; (b) the proposed transaction is consistent with the policies of each registered investment company involved; and (c) the proposed transaction is consistent with the general purposes of the Act. Rule 17d-1(b) under the Act provides that in passing upon an application filed under the rule, the Commission will consider whether the participation of the registered investment company in a joint enterprise, joint arrangement or profit sharing plan on the basis proposed is consistent with the provisions, policies and purposes of the Act and the extent to which such participation is on a basis different from or less advantageous than that of the other participants.

For the Commission, by the Division of Investment Management, under delegated authority.

[Release No. 34-80114; File No. SR-LCH SA-2017-001]

Self-Regulatory Organizations; LCH SA; Notice of Filing and Immediate Effectiveness of Proposed Rule Change, Security-Based Swap Submission, or Advance Notice To Adopt Revised Fee Schedule and Establish Annual Fixed Fee for General Members

February 27, 2017.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on February 17, 2017, Banque Centrale de Compensation, which conducts business under the name LCH SA ("LCH SA"), filed with the Securities and Exchange Commission ("Commission") the proposed rule change described in Items I, II, and III below, which Items have been primarily prepared by LCH SA. LCH SA filed the proposal pursuant to Section 19(b)(3)(A) of the Act,³ and Rule 19b-4(f)(2)⁴ thereunder, so that the proposal was effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

³ Applicants request that the order also apply to any existing or future series of the Funds and to any other registered management investment company or its series for which NBIA and each successor thereto or a person controlling, controlled by, or under common control with NBIA serves as investment adviser (each such investment company or series thereof included in the term "Fund," and each such investment adviser an "Adviser"). A "successor" is defined as any entity resulting from a reorganization of NBIA into another jurisdiction or a change in the type of business organization.

⁴ Any Fund, however, will be able to call a loan on one business day's notice.

⁵ Under certain circumstances, a borrowing Fund will be required to pledge collateral to secure the loan.

⁶ Applicants state that the obligation to repay an interfund loan could be deemed to constitute a security for the purposes of sections 17(a)(1) and 12(d)(1) of the Act.

⁷ Applicants state that any pledge of securities to secure an interfund loan could constitute a purchase of securities for purposes of section 17(a)(2) of the Act.

I. Clearing Agency’s Statement of the Terms of Substance of the Proposed Rule Change, Security-Based Swap Submission, or Advance Notice

The proposed rule change will: (1) Modify the annual fixed fee that covers all self-clearing activity for a Clearing Member⁵ and its affiliates under the Unlimited Tariff, (2) establish an annual fixed fee for all General Members that participate in the CDS Clearing Services under the Introductory Tariff, and (3) remove the volume-based discounts currently in effect for the client clearing activities of the CDS Clearing Service.

II. Clearing Agency’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change, Security-Based Swap Submission, or Advance Notice

In its filing with the Commission, LCH SA included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. LCH SA has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Clearing Agency’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change, Security-Based Swap Submission, or Advance Notice

1. Purpose

The purpose of the proposed rule change is to: (1) Modify the annual fixed fee that covers all self-clearing activity for a Clearing Member and its affiliates under the Unlimited Tariff, (2) establish an annual fixed fee for all General Members that participate in the CDS Clearing Services under the Introductory Tariff, and (3) remove the volume-based discounts currently in effect for the client clearing activities of the CDS Clearing Service.

Unlimited Tariff

The proposed rule change will reduce the annual fixed fee for General Members that covers all self-clearing activity for Clearing Members and their affiliate(s) that have opted for the Unlimited Tariff. Currently, General Members that participate in the CDS Clearing Service can elect to pay an

annual fixed fee of €2,250,000 (the “Unlimited Tariff”), which covers all self-clearing fees for the Clearing Member and its affiliates. Clearing Members that select to pay this fixed fee are not charged any variable fee that would otherwise be assessed with each cleared CDS on their house activity.

General Clearing Members that do not select the Unlimited Tariff fall under the Introductory Tariff and are currently charged a variable volume based self-clearing fee. The fee is calculated and charged per million gross notional cleared (EUR/USD, as applicable) and varies depending on the type of CDS cleared, *i.e.*, European indices, European single names, US indices, US single names. The amount of variable fees paid for trades cleared by the General Clearing Member and its affiliates under the Introductory Tariff annually is currently capped at €2,250,000.

The rule change will reduce the annual fixed fee to be paid by General Members that select the Unlimited Tariff from €2,250,000 to €2,000,000. The cap on annual fees paid by General Members that select the Introductory Tariff will similarly be reduced from €2,250,000 to €2,000,000, and will include the fixed fee along with all variable fees for the Clearing Member and its affiliates.

LCH SA believes that the reduced fee more accurately reflects the proportionate costs and expenses that LCH SA will incur in connection with self-cleared transactions following the introduction of mandatory clearing of OTC derivatives and the anticipated increase in CDS client clearing activities.

Annual Clearing Fee (Introductory Tariff)

In addition, the proposed rule change will establish an annual fixed fee for all General Members that participate in the CDS Clearing Service under the Introductory Tariff. The annual fixed fee is independent from and in addition to the self-clearing and client clearing variable fees currently charged, but will count toward the €2,000,000 cap described above. Currently, General Members that participate in the CDS Clearing Service pay either the

Unlimited Tariff, which covers all self-clearing fees for the Clearing Member and its affiliates, or the Introductory Tariff, which is calculated per million gross notional cleared (EUR/USD, as applicable) and varies depending on the type of CDS cleared, *i.e.*, European indices, European single names, US indices, US single names. Therefore, Clearing Members under the Introductory Tariff with no clearing activity have full access to the CDS Clearing Service resources, are consulted on potential rules, product and service changes, and benefit from unlimited support for training and system training at no cost.

LCH SA believes that all General Members under the Introductory Tariff that have access to, and benefit from, the CDS Clearing Service resources should pay a fixed fee for such access, even if the General Member has no clearing activity. The rule change will require every General Member under the Introductory Tariff to pay an annual fixed fee of €200,000, which will increase to €400,000 for members with more than €15 billion gross notional in clearing activity per year, across self-clearing or clearing for clients. One-twelfth of the fee will be charged each month, and a pro-rata amount will be applied for Clearing Members starting or resigning during the calendar year.

Volume-Based Discount

Lastly, the proposed rule change will remove the volume-based discounts that had been in effect for CDS client clearing activities since early 2014. Currently, clients that participate in the CDS Clearing Service are charged a clearing fee per EUR/USD million gross notional cleared as follows:

European products	Base fees
Index (per million)	€4
Single Name (per million)	€12
U.S. Products	Base fees
Index (per million)	\$5
Single Name (per million)	\$17

In order to encourage client clearing of CDS back in 2014 ahead of the mandatory clearing requirement at the time, LCH SA has been offering volume-based discounts as follows:

Discounts for clients will be implemented as follows: Band	Benefit	Monthly gross notional cleared
Band A	Base Fee	€0 to €2 billion.
Band B	16% fee discount	€2 billion to €6 billion.
Band C	25% fee discount	€6 billion+.

⁵ Capitalized terms not defined herein are defined in LCH SA’s Rulebook, available at <http://www.lch.com/rules-regulations/rulebooks/sa>.

With mandatory clearing of CDS now becoming effective in 2017 in Europe, LCH SA believes it is no longer necessary or appropriate to provide these discounts in light of the costs and expenses that LCH SA will incur in providing the CDS Clearing Service to clients. The rule change, therefore, will remove the volume-based discounts for CDS client clearing activities.

2. Statutory Basis

Section 17A(b)(3)(D) of the Act requires that the rules of a clearing agency provide for the equitable allocation of reasonable dues, fees, and other charges.⁶ With respect to the Unlimited Tariff, LCH SA has determined that the reduction in the Unlimited Tariff fixed fee for General Members with respect to self-clearing activity on behalf of the Clearing Member and its affiliates is reasonable and appropriate given the costs and expenses to LCH SA. With CDS Clear now reaching a maturity stage in its development and the introduction of mandatory clearing of OTC derivatives in 2017, which will result in an increase in CDS client clearing activities, it is appropriate that the costs and expenses that LCH SA will incur in providing the CDS Clearing Service are shared more broadly among General Members and their clients that participate in the service. For the same reasons, LCH SA has determined that the cap on self-clearing fees, inclusive of the annual fixed fee, applicable to General Members electing the Introductory Tariff, should be lowered to the same amount as the revised Unlimited Tariff.

With respect to the annual fixed fee for General Members under the Introductory Tariff, LCH SA has determined that implementing an annual fixed fee for all General Members that participate in the CDS Clearing Service under the Introductory Tariff (which fee is separate from and in addition to the self-clearing and client clearing variable fees currently assessed), is reasonable and appropriate given the costs and expenses to LCH SA in providing the services to General Members. The fee assures that all General Members that benefit from the CDS Clearing Service pay an appropriate fee for such services, such as being consulted on potential rules, product and service changes, as well as benefiting from unlimited support for product and system training and testing, without regard to whether such General Members engage in CDS clearing activities. The proposed rule changes, therefore, are consistent with the

requirements of Section 17A of the Act⁷ and regulations thereunder applicable to it, because they provide for the equitable allocation of reasonable fees, dues, and other charges among clearing members and market participants by ensuring that General Members and their clients pay reasonable fees and dues for the services that LCH SA provides.

With respect to the removal of volume-based discounts, LCH SA has determined that removing the volume-based discounts for CDS client clearing activities is reasonable and appropriate, given the costs and expenses to LCH SA in providing such services. The elimination of volume-based discounts will assure that clients pay an appropriate proportionate share of the costs and expenses that LCH SA will incur in providing the CDS Clearing Service.

B. Clearing Agency's Statement on Burden on Competition

Section 17A(b)(3)(I) of the Act requires that the rules of a clearing agency not impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.⁸ LCH SA does not believe that the proposed rule change would impose any burden on competition. As noted above, LCH SA believes that the reduction in the annual Tariffs assessed on General Members with respect to self-clearing activity are reasonable and appropriate, as the Tariffs will apply equally to all General Members that self-clear CDS. Additionally, LCH SA believes that an annual fixed fee for all General Members that participate in the CDS Clearing Service under the Introductory Tariff, which fee is separate from and in addition to the self-clearing and client clearing variable fees currently assessed, is appropriate in light of the expenses incurred by LCH SA in providing its services. Further, LCH SA believes that removing the volume-based discounts for CDS client clearing activities is reasonable and appropriate, as the clearing fees will apply equally to all clients that participate in the CDS Clearing Service.

LCH SA does not believe that the proposed rule change would have a burden on competition because it does not adversely affect the ability of such Clearing Members or other market participants generally to engage in cleared transactions or to access clearing services.

C. Clearing Agency's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments relating to the proposed rule change have not been solicited or received. LCH SA will notify the Commission of any written comments received by LCH SA.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing proposed rule change has become effective upon filing pursuant to Section 19(b)(3)(A)⁹ of the Act and Rule 19b-4(f)(2)¹⁰ thereunder because it establishes a fee or other charge imposed by LCH SA on its Clearing Members. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such proposed rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

SECURITIES AND EXCHANGE COMMISSION

[Investment Company Act Release No. 32512; 812-14706]

Tortoise Index Solutions, LLC, et al.; Notice of Application

AGENCY: Securities and Exchange Commission ("Commission").

ACTION: Notice of an application for an order under section 6(c) of the Investment Company Act of 1940 (the "Act") for an exemption from sections 2(a)(32), 5(a)(1), 22(d), and 22(e) of the Act and rule 22c-1 under the Act, under sections 6(c) and 17(b) of the Act for an exemption from sections 17(a)(1) and 17(a)(2) of the Act, and under section 12(d)(1)(f) for an exemption from sections 12(d)(1)(A) and 12(d)(1)(B) of the Act. The requested order would permit (a) index-based series of certain open-end management investment companies ("Funds") to issue shares redeemable in large aggregations only ("Creation Units"); (b) secondary market transactions in Fund shares to occur at negotiated market prices rather than at net asset value ("NAV"); (c) certain

Funds to pay redemption proceeds, under certain circumstances, more than seven days after the tender of shares for redemption; (d) certain affiliated persons of a Fund to deposit securities into, and receive securities from, the Fund in connection with the purchase and redemption of Creation Units; and (e) certain registered management investment companies and unit investment trusts outside of the same group of investment companies as the Funds ("Funds of Funds") to acquire shares of the Funds.

APPLICANTS: Tortoise Index Solutions, LLC (the "Initial Adviser"), a Delaware limited liability company that is registered as an investment adviser under the Investment Advisers Act of 1940; Montage Managers Trust (the "Trust"), a Delaware statutory trust registered under the Act as an open-end management investment company with multiple series, and Foreside Fund Services, LLC (the "Distributor"), a Delaware limited liability company and broker-dealer registered under the Securities Exchange Act of 1934 ("Exchange Act").

FOR FURTHER INFORMATION CONTACT: Jean E. Minarick, Senior Counsel, at (202) 551-6811, or Daniele Marchesani, Assistant Chief Counsel, at (202) 551-

SUPPLEMENTARY INFORMATION: The following is a summary of the application. The complete application may be obtained via the Commission's Web site by searching for the file number, or for an applicant using the Company name box, at <http://www.sec.gov/search/search.htm> or by calling (202) 551-8090.

Summary of the Application

1. Applicants request an order that would allow Funds to operate as index-based exchange traded funds ("ETFs").¹ Fund shares will be purchased and redeemed at their NAV in Creation Units only. All orders to purchase Creation Units and all redemption requests will be placed by or through an "Authorized Participant", which will have signed a participant agreement with the Distributor. Shares will be listed and traded individually on a national securities exchange, where share prices will be based on the current bid/offer market. Any order granting the requested relief would be subject to the terms and conditions stated in the application.

2. Each Fund will hold investment positions selected to correspond generally to the performance of an Underlying Index. In the case of Self-Indexing Funds, an affiliated person, as defined in section 2(a)(3) of the Act ("Affiliated Person"), or an affiliated person of an Affiliated Person ("Second-Tier Affiliate"), of the Trust or a Fund, of the Adviser, of any sub-adviser to or promoter of a Fund, or of the Distributor will compile, create, sponsor or maintain the Underlying Index.²

3. Shares will be purchased and redeemed in Creation Units and generally on an in-kind basis. Except where the purchase or redemption will

¹ Applicants request that the order apply to the Tortoise North American Pipeline Fund series of the Trust and any additional series of the Trust, and any other open-end management investment company or series thereof that may be created in the future (each, included in the term "Fund") each of which will operate as an ETF and will track a specified index comprised of domestic or foreign equity and/or fixed income securities (each, an "Underlying Index"). Any Fund will (a) be advised by the Initial Adviser or an entity controlling, controlled by, or under common control with the Initial Adviser (such entity or any successor thereto is included in the term, an "Adviser") and (b) comply with the terms and conditions of the application.

² Each Self-Indexing Fund will post on its Web site the identities and quantities of the investment positions that will form the basis for the Fund's calculation of its NAV at the end of the day. Applicants believe that requiring Self-Indexing Funds to maintain full portfolio transparency will help address, together with other protections, conflicts of interest with respect to such Funds.

¹¹ 17 CFR 200.30-3(a)(12).

include cash under the limited circumstances specified in the application, purchasers will be required to purchase Creation Units by depositing specified instruments ("Deposit Instruments"), and shareholders redeeming their shares will receive specified instruments ("Redemption Instruments"). The Deposit Instruments and the Redemption Instruments will each correspond pro rata to the positions in the Fund's portfolio (including cash positions) except as specified in the application.

4. Because shares will not be individually redeemable, applicants request an exemption from section 5(a)(1) and section 2(a)(32) of the Act that would permit the Funds to register as open-end management investment companies and issue shares that are redeemable in Creation Units only.

5. Applicants also request an exemption from section 22(d) of the Act and rule 22c-1 under the Act as secondary market trading in shares will take place at negotiated prices, not at a current offering price described in a Fund's prospectus, and not at a price based on NAV. Applicants state that (a) secondary market trading in shares does not involve a Fund as a party and will not result in dilution of an investment in shares, and (b) to the extent different prices exist during a given trading day, or from day to day, such variances occur as a result of third-party market forces, such as supply and demand. Therefore, applicants assert that secondary market transactions in shares will not lead to discrimination or preferential treatment among purchasers. Finally, applicants represent that share market prices will be disciplined by arbitrage opportunities, which should prevent shares from trading at a material discount or premium from NAV.

6. With respect to Funds that effect creations and redemptions of Creation Units in kind and that are based on certain Underlying Indexes that include foreign securities, applicants request relief from the requirement imposed by section 22(e) in order to allow such Funds to pay redemption proceeds within fifteen calendar days following the tender of Creation Units for redemption. Applicants assert that the requested relief would not be inconsistent with the spirit and intent of section 22(e) to prevent unreasonable, undisclosed or unforeseen delays in the actual payment of redemption proceeds.

7. Applicants request an exemption to permit Funds of Funds to acquire Fund shares beyond the limits of section 12(d)(1)(A) of the Act; and the Funds, and any principal underwriter for the

Funds, and/or any broker or dealer registered under the Exchange Act, to sell shares to Funds of Funds beyond the limits of section 12(d)(1)(B) of the Act. The application's terms and conditions are designed to, among other things, help prevent any potential (i) undue influence over a Fund through control or voting power, or in connection with certain services, transactions, and underwritings, (ii) excessive layering of fees, and (iii) overly complex fund structures, which are the concerns underlying the limits in sections 12(d)(1)(A) and (B) of the Act.

8. Applicants request an exemption from sections 17(a)(1) and 17(a)(2) of the Act to permit persons that are Affiliated Persons, or Second Tier Affiliates, of the Funds, solely by virtue of certain ownership interests, to effectuate purchases and redemptions in-kind. The deposit procedures for in-kind purchases of Creation Units and the redemption procedures for in-kind redemptions of Creation Units will be the same for all purchases and redemptions and Deposit Instruments and Redemption Instruments will be valued in the same manner as those investment positions currently held by the Funds. Applicants also seek relief from the prohibitions on affiliated transactions in section 17(a) to permit a Fund to sell its shares to and redeem its shares from a Fund of Funds, and to engage in the accompanying in-kind transactions with the Fund of Funds.³ The purchase of Creation Units by a Fund of Funds directly from a Fund will be accomplished in accordance with the policies of the Fund of Funds and will be based on the NAVs of the Funds.

9. Section 6(c) of the Act permits the Commission to exempt any persons or transactions from any provision of the Act if such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act. Section 12(d)(1)(f) of the Act provides that the Commission may exempt any person, security, or transaction, or any class or classes of persons, securities, or transactions, from any provision of section 12(d)(1) if the exemption is consistent with the public

³ The requested relief would apply to direct sales of shares in Creation Units by a Fund to a Fund of Funds and redemptions of those shares. Applicants, moreover, are not seeking relief from section 17(a) for, and the requested relief will not apply to, transactions where a Fund could be deemed an Affiliated Person, or a Second-Tier Affiliate, of a Fund of Funds because an Adviser or an entity controlling, controlled by or under common control with an Adviser provides investment advisory services to that Fund of Funds.

interest and the protection of investors. Section 17(b) of the Act authorizes the Commission to grant an order permitting a transaction otherwise prohibited by section 17(a) if it finds that (a) the terms of the proposed transaction are fair and reasonable and do not involve overreaching on the part of any person concerned; (b) the proposed transaction is consistent with the policies of each registered investment company involved; and (c) the proposed transaction is consistent with the general purposes of the Act.

For the Commission, by the Division of Investment Management, under delegated authority.

Eduardo A. Aleman,
Assistant Secretary.

SOCIAL SECURITY ADMINISTRATION

[Docket No. SSA-2006-0140]

Rescission of Social Security Ruling 87-6; Policy Interpretation Ruling; Titles II and XVI: The Role of Prescribed Treatment in the Evaluation of Epilepsy

AGENCY: Social Security Administration.
ACTION: Notice of rescission of Social Security Ruling.

SUMMARY: In accordance with 20 CFR 402.35(b)(1), the Acting Commissioner of Social Security gives notice of the rescission of Social Security Ruling (SSR) 87-6.

DATES: This rescission is effective March 3, 2017.

FOR FURTHER INFORMATION CONTACT: Cheryl A. Williams, Office of Disability Policy, Social Security Administration, 6401 Security Boulevard, Baltimore, Maryland 21235-6401, (410) 965-1020. For information on eligibility or filing for benefits, call our national toll-free number 1-800-772-1213, or TTY 1-800-325-0778, or visit our Internet site, Social Security Online, at <http://www.socialsecurity.gov>.

SUPPLEMENTARY INFORMATION: Through SSRs, we make available to the public precedential decisions relating to the Federal old-age, survivors, disability, supplemental security income, and special veterans benefits programs. We may base SSRs on determinations or decisions made at all levels of administrative adjudication, Federal court decisions, Commissioner's decisions, opinions of the Office of the General Counsel, and other interpretations of the law and regulations.

Under our prior listings 11.02 and 11.03, and SSR 87–6, we evaluated epilepsy according to the type, frequency, duration, and sequelae of seizures.¹ If the claimant was following prescribed treatment and his or her epilepsy did not meet or medically equal the requirements of the listings, we would assess his or her residual functional capacity and evaluate the claimant's impairments under the remaining steps of the sequential evaluation process.

SSR 87–6 provided guidance to adjudicators on the role of prescribed treatment in the evaluation of epilepsy. The SSR stated the file must contain adequate information regarding the history of the treatment regimen and the claimant's response to it, and a satisfactory description of the treatment regimen by the treating physician. The SSR also required a record of anticonvulsant blood levels before we could allow a claim. Under SSR 87–6, without an ongoing treating relationship, we could not find the claimant's impairment to meet or medically equal the listing for epilepsy. When anticonvulsant blood levels were low, information obtained from the treating physician should explain why the levels were low and include the results of any relevant diagnostic studies.

On July 1, 2016, we published in the **Federal Register** a final rule, Revised Medical Criteria for Evaluating Neurological Disorders, in which we incorporated the portions of SSR 87–6 that continue to be relevant to the treatment of epilepsy. 81 FR 43048, 43049 (2016). The final rule became effective September 29, 2016. *Id.*, at 43048. Consequently, we are rescinding SSR 87–6 as obsolete.

**OFFICE OF THE UNITED STATES
TRADE REPRESENTATIVE**

[Docket No. USTR-2016-2009]

**2016/2017 Generalized System of
Preferences (GSP) Annual Product
Review: Notice of Availability of
Annual Statistics, Acceptance of
Public Comments and Withdrawal of
Certain Petitions**

AGENCY: Office of the United States Trade Representative.

ACTION: Request for comments.

SUMMARY: The Office of the United States Trade Representative (USTR) is announcing the availability of full 2016 calendar year import statistics relating to competitive need limitations (CNLs) under the Generalized System of Preferences (GSP) program. USTR will accept public comments submitted by March 22, 2017, regarding: (1) Possible *de minimis* CNL waivers; and (2) possible redesignations of articles currently not eligible for GSP benefits because they previously exceeded the CNL thresholds. USTR also is announcing the withdrawal by the petitioners of certain previously accepted CNL waiver petitions.

DATES: Written comments are due by midnight, Wednesday, March 22, 2017.

ADDRESSES: You should submit written comments through the Federal eRulemaking Portal: <http://www.regulations.gov> using docket number USTR-2016-0009. Follow the instructions for submitting comments in section III below. For alternatives to on-

line submissions, please contact USTR at gsp@ustr.eop.gov before transmitting a comment and in advance of the deadline.

FOR FURTHER INFORMATION CONTACT:

Naomi Freeman, Director for GSP, Office of the United States Trade Representative, 600 17th Street NW., Washington, DC 20508. The telephone number is (202) 395-2974 and the email address is gsp@ustr.eop.gov.

SUPPLEMENTARY INFORMATION:**I. Statutory Provisions Related to CNLs**

The GSP program provides for the duty-free importation of designated articles when imported from designated beneficiary developing countries (BDCs). The GSP program is authorized by Title V of the Trade Act of 1974 (19 U.S.C. 2461, *et seq.*), as amended (1974 Act). Section 503(c)(2)(A) of the 1974 Act sets out the two CNLs. When the President determines that a BDC exported to the United States during a calendar year either: (1) A quantity of a GSP-eligible article having a value in excess of the applicable amount for that year (\$175 million for 2016), or (2) a quantity of a GSP-eligible article having a value equal to or greater than 50 percent of the value of total U.S. imports of the article from all countries (the "50 percent" CNL), the President must terminate GSP duty-free treatment for that article from that BDC by no later than July 1 of the next calendar year, unless a waiver is granted.

***De minimis* waivers:** Under section 503(c)(2)(F) of the 1974 Act, the President may waive the 50 percent CNL with respect to an eligible article imported from a BDC if the value of total imports of that article from all countries during the calendar year did not exceed the applicable *de minimis* amount for that year (\$23 million for 2016).

Redesignations: Under section 503(c)(2)(C) of the 1974 Act, if imports of an eligible article from a BDC ceased to receive duty-free treatment due to exceeding a CNL in a prior year, the President may, subject to the considerations in sections 501 and 502 of the 1974 Act, redesignate such an article for duty-free treatment if imports in the most recently completed calendar year did not exceed the CNLs.

Exclusions from GSP duty-free treatment where CNLs have been exceeded will be effective July 1, 2017, unless the President grants a waiver. Any CNL-based exclusions, CNL waiver revocations, and decisions with respect to *de minimis* waivers and redesignations will be based on full 2016 calendar year import data.

II. 2016 Import Statistics

In order to provide notice of articles that have exceeded the CNLs for 2016 and to afford an opportunity for comment regarding (1) potential *de minimis* waivers and (2) potential redesignations for 2016, USTR has posted product lists on the USTR Web site at <https://ustr.gov/issue-areas/preference-programs/generalized-system-preferences-gsp/current-reviews/gsp-20162017> under the title "2016 Import Statistics Relating to Competitive Need Limitations for GSP". You also can find these lists at www.regulations.gov in Docket Number USTR-2016-0009. There were no articles that were subject to CNL waiver revocation for 2016 based on the provisions of section 503(d)(4)(B)(ii) of the 1974 Act, as amended by Public Law 109-432. You can view full 2016 calendar year data for individual tariff subheadings on the Web site of the U.S. International Trade Commission at <http://dataweb.usitc.gov>.

The lists available on the USTR Web site contain, for each article, the Harmonized Tariff Schedule of the United States (HTSUS) subheading and BDC country of origin, the value of imports of the article for the 2016 calendar year, and the percentage of total U.S. imports of that article from all countries.

The lists published on the USTR Web site are for informational purposes only. They may not include all articles to which the GSP CNLs may apply. All determinations and decisions regarding the CNLs of the GSP program will be based on full 2016 calendar year import data with respect to each GSP-eligible article. We advise each interested party to conduct its own review of 2016 import data with respect to the possible application of the GSP CNL provisions.

List I on the USTR Web site shows GSP-eligible articles from BDCs that exceeded a CNL by having been exported in excess of \$175 million, or in a quantity equal to or greater than 50 percent of the total U.S. import value, in 2016. These products will be removed from eligibility for GSP for the subject countries on July 1, 2017, unless the President grants a waiver for the product for the subject country in response to a petition filed by an interested party. Such petitions for CNL waivers must have been previously submitted in the 2016/2017 GSP Annual Review. (See 80 FR 50376 and 80 FR 71913). The last column in List I shows the product for which a petition has been accepted and is now under review.

List II identifies GSP-eligible articles from BDCs that are above the 50 percent

CNL, but that are eligible for a *de minimis* waiver of the 50 percent CNL. Articles eligible for *de minimis* waivers are automatically considered in the GSP annual review process, without the filing of a petition.

List III shows GSP-eligible articles from certain BDCs that currently are not receiving GSP duty-free treatment, but may be considered for GSP redesignation based on 2016 trade data and consideration of certain statutory factors. Recommendations to the President on *de minimis* waivers and redesignations will be made as part of the GSP annual review process, and public comments (including comments in support of or in opposition to *de minimis* waivers and redesignations) are invited in accordance with the Requirements for Submissions below.

III. Public Comments

Requirements for Submissions. You must submit written comments submitted in response to this notice electronically by midnight, Wednesday, March 22, 2017. All submissions must be made in English and submitted electronically via <http://www.regulations.gov> using docket number USTR–2016–0009. USTR will not accept hand-delivered submissions.

All submissions for the GSP Annual Review must conform to the GSP regulations set forth at 15 CFR part 2007, except as modified below. These regulations are available on the USTR Web site at <https://ustr.gov/issue-areas/trade-development/preference-programs/generalized-system-preference-gsp/gsp-program-inf>. We strongly advise any person or party making a submission to review the GSP regulations as well as the GSP Guidebook, which is available at the same link.

To make a submission using <http://www.regulations.gov>, enter docket number USTR–2016–0009 in the “Search for” field on the home page and click “Search.” The site will provide a search-results page listing all documents associated with this docket. Find a reference to this notice by selecting “Notice” under “Document Type” in the “Filter Results by” section on the left side of the screen and click on the link entitled “Comment Now.” The <http://www.regulations.gov> Web site offers the option of providing comments by filling in a “Type Comment” field or by attaching a document using the “Upload file(s)” field. We strongly prefer that you provide submissions in an attached document and, in such cases, that parties note “See attached” in the “Type Comment” field on the online submission form.

At the beginning of the submission, or on the first page (if an attachment), please note that the submission is in response to this **Federal Register** notice and indicate the specific product(s) (including the eight-digit HTSUS subheading) that is the subject of the comment and on which of the relevant lists described above, (e.g., List I) it appears. Submissions should not exceed 30 single-spaced, standard letter-size pages in 12-point type, including attachments. Any data attachments to the submission should be included in the same file as the submission itself, and not as separate files.

Each submitter will receive a submission tracking number upon completion of the submissions procedure at <http://www.regulations.gov>. The tracking number, which you should keep, is your confirmation that the submission was received into <http://www.regulations.gov>. USTR is not responsible for any delays in a submission due to technical difficulties, nor is it able to provide any technical assistance for the <http://www.regulations.gov> Web site. Documents not submitted in accordance with these instructions may not be considered in this review. If an interested party is unable to provide submissions as requested, please contact the GSP program at USTR to arrange for an alternative method of transmission.

Business Confidential Petitions. An interested party requesting that information contained in a submission be treated as business confidential information must certify that the information is business confidential and would not customarily be released to the public by the submitter. You must clearly designate confidential business information by marking the submission “BUSINESS CONFIDENTIAL” at the top and bottom of the cover page and on each succeeding page, and indicating via brackets, the specific information that is confidential. Additionally, “Business Confidential” must be included in the “Type Comment” field. For any submission containing business confidential information, you separately must submit a non-confidential version (*i.e.*, not as part of the same submission with the confidential version), indicating where confidential information has been redacted. We will place the non-confidential version in the docket and it will be open to public inspection.

Public Viewing of Review Submissions. Submissions in response to this notice, except for information granted “business confidential” status under 15 CFR part 2003.6, will be

available for public viewing pursuant to 15 CFR part 2007.6 at <http://www.regulations.gov> upon completion of processing, usually within two weeks of the relevant due date or date of the submission. We will make public versions of all documents relating to the 2016/2017 Annual Product Review available for public viewing in docket USTR–2016–0009 at www.regulations.gov upon completion of processing.

IV. Withdrawal of Certain CNL Waiver Petitions

In a January 23, 2017 **Federal Register** notice (82 FR 7915), USTR announced the acceptance of CNL waiver petitions for the 2016/2017 GSP Annual Review. Following the release of full 2016 calendar year trade data, the following CNL waiver petitions have been withdrawn from the 2016/2017 GSP Annual Review because the product imported from the subject GSP beneficiary country did not surpass the CNL thresholds for 2016:

- HTS 6802.99.00 from Brazil
- HTS 0714.90.10 from Ecuador
- HTS 0410.00.00 and HTS 4011.20.10 from Indonesia
- HTS 8525.80.30 and HTS 9001.50.00 from Thailand

The CNL waiver petition for HTS 4409.10.05 from Brazil is being considered in the 2016/2017 Annual Review.

Executive Order 13778 of February 28, 2017

The President

Restoring the Rule of Law, Federalism, and Economic Growth by Reviewing the “Waters of the United States” Rule

By the authority vested in me as President by the Constitution and the laws of the United States of America, it is hereby ordered as follows:

Section 1. Policy. It is in the national interest to ensure that the Nation’s navigable waters are kept free from pollution, while at the same time promoting economic growth, minimizing regulatory uncertainty, and showing due regard for the roles of the Congress and the States under the Constitution.

Sec. 2. Review of the Waters of the United States Rule. (a) The Administrator of the Environmental Protection Agency (Administrator) and the Assistant Secretary of the Army for Civil Works (Assistant Secretary) shall review the final rule entitled “Clean Water Rule: Definition of ‘Waters of the United States,’” 80 *Fed. Reg.* 37054 (June 29, 2015), for consistency with the policy set forth in section 1 of this order and publish for notice and comment a proposed rule rescinding or revising the rule, as appropriate and consistent with law.

(b) The Administrator, the Assistant Secretary, and the heads of all executive departments and agencies shall review all orders, rules, regulations, guidelines, or policies implementing or enforcing the final rule listed in subsection (a) of this section for consistency with the policy set forth in section 1 of this order and shall rescind or revise, or publish for notice and comment proposed rules rescinding or revising, those issuances, as appropriate and consistent with law and with any changes made as a result of a rulemaking proceeding undertaken pursuant to subsection (a) of this section.

(c) With respect to any litigation before the Federal courts related to the final rule listed in subsection (a) of this section, the Administrator and the Assistant Secretary shall promptly notify the Attorney General of the pending review under subsection (b) of this section so that the Attorney General may, as he deems appropriate, inform any court of such review and take such measures as he deems appropriate concerning any such litigation pending the completion of further administrative proceedings related to the rule.

Sec. 3. Definition of “Navigable Waters” in Future Rulemaking. In connection with the proposed rule described in section 2(a) of this order, the Administrator and the Assistant Secretary shall consider interpreting the term “navigable waters,” as defined in 33 U.S.C. 1362(7), in a manner consistent with the opinion of Justice Antonin Scalia in *Rapanos v. (b) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

Executive Order 13779 of February 28, 2017

White House Initiative To Promote Excellence and Innovation at Historically Black Colleges and Universities

By the authority vested in me as President by the Constitution and the laws of the United States of America, and in order to advance opportunities in higher education, it is hereby ordered as follows:

Section 1. Policy. Historically black colleges and universities (HBCUs) have made, and continue to make, extraordinary contributions to the general welfare and prosperity of our country. Established by visionary leaders, America's HBCUs have, for more than 150 years, produced many of our Nation's leaders in business, government, academia, and the military, and have helped create a black middle class. The Nation's more than 100 HBCUs are located in 20 States, the District of Columbia, and the U.S. Virgin Islands, and serve more than 300,000 undergraduate, graduate, and professional students. These institutions are important engines of economic growth and public service, and they are proven ladders of intergenerational advancement.

A White House Initiative on HBCUs would: advance America's full human potential; foster more and better opportunities in higher education; strengthen the capacity of HBCUs to provide the highest-quality education; provide equitable opportunities for HBCUs to participate in Federal programs; and increase the number of college-educated Americans who feel empowered and able to advance the common good at home and abroad.

Sec. 2. White House Initiative on HBCUs.

(a) *Establishment.* There is established the White House Initiative on Historically Black Colleges and Universities (Initiative), housed in the Executive Office of the President and led by an Executive Director designated by the President.

(b) *Mission and Functions.* The Initiative shall work with agencies, private-sector employers, educational associations, philanthropic organizations, and other partners to increase the capacity of HBCUs to provide the highest-quality education to an increasing number of students. The Initiative shall have two primary missions:

(i) increasing the private-sector role, including the role of private foundations, in:

(A) strengthening HBCUs through enhanced institutional planning and development, fiscal stability, and financial management; and

(B) upgrading institutional infrastructure, including the use of technology, to ensure the long-term viability of these institutions; and

(ii) enhancing HBCUs' capabilities to serve our Nation's young adults by:

(A) strengthening HBCUs' ability to equitably participate in Federal programs and exploring new ways of improving the relationship between the Federal Government and HBCUs;

(B) fostering private-sector initiatives and public-private partnerships while promoting specific areas and centers of academic research and program-based excellence throughout HBCUs;

(C) improving the availability, dissemination, and quality of information concerning HBCUs in the public policy sphere;

(D) sharing administrative and programmatic best practices within the HBCU community;

(E) partnering with elementary and secondary education stakeholders to build a “cradle-to-college” pipeline; and

(F) convening an annual White House Summit on HBCUs to address, among other topics, matters related to the Initiative’s missions and functions.

(c) *Federal Agency Plans.*

(i) The Secretary of Education (Secretary), in consultation with the Executive Director, shall identify those agencies that regularly interact with HBCUs.

(ii) Each agency identified by the Secretary under subsection (c)(i) of this section shall prepare an annual plan (Agency Plan) describing its efforts to strengthen the capacity of HBCUs to participate in applicable Federal programs and initiatives. Where appropriate, each Agency Plan shall address, among other things, the agency’s proposed efforts to:

(A) establish how the agency intends to increase the capacity of HBCUs to compete effectively for grants, contracts, or cooperative agreements;

(B) identify Federal programs and initiatives where HBCUs are not well represented, and improve HBCUs’ participation in those programs and initiatives; and

(C) encourage public-sector, private-sector, and community involvement in improving the overall capacity of HBCUs.

(iii) The head of each agency identified in subsection (c)(i) of this section shall submit its Agency Plan to the Secretary and the Executive Director no later than 90 days after being so identified, and submit an updated Agency Plan annually thereafter.

(iv) To help fulfill the objectives of the Agency Plans, the head of each agency identified by the Secretary may provide, as appropriate, technical assistance and information to the Executive Director to enhance communication with HBCUs concerning the agency’s program activities and the preparation of applications or proposals for grants, contracts, or cooperative agreements.

(v) Each agency identified by the Secretary shall appoint a senior official to report directly to the agency head on that agency’s progress under this order, and to serve as liaison to the Initiative.

(d) *Interagency Working Group.* There is established an Interagency Working Group, which shall be chaired by the Executive Director and shall consist of one representative from each agency identified by the Secretary pursuant to subsection (c)(i) of this section, to help advance and coordinate the work required by this order.

Sec. 3. *President’s Board of Advisors on HBCUs.*

(a) *Establishment.* There is established in the Department of Education the President’s Board of Advisors on Historically Black Colleges and Universities (Board). The Board shall consist of not more than 25 members appointed by the President. The Board shall include the Secretary, the Executive Director, representatives of a variety of sectors—such as philanthropy, education, business, finance, entrepreneurship, innovation, and private foundations—and sitting HBCU presidents. The President shall designate one member of the Board to serve as its Chair, who shall help direct the Board’s work in coordination with the Secretary and in consultation with the Executive Director. The Chair shall also consult with the Executive Director regarding the time and location of the Board’s meetings, which shall take place at least once every 6 months.

(b) *Mission and Functions.* The Board shall advise the President, through the Initiative, on all matters pertaining to strengthening the educational capacity of HBCUs. In particular, the Board shall advise the President in the following areas:

- (i) improving the identity, visibility, distinctive capabilities, and overall competitiveness of HBCUs;
- (ii) engaging the philanthropic, business, government, military, homeland-security, and education communities in a national dialogue regarding new HBCU programs and initiatives;
- (iii) improving the ability of HBCUs to remain fiscally secure institutions that can assist the Nation in achieving its educational goals and in advancing the interests of all Americans;
- (iv) elevating the public awareness of, and fostering appreciation of, HBCUs; and
- (v) encouraging public-private investments in HBCUs.

(c) *Administration.* The Department of Education shall provide funding and administrative support for the Board, consistent with applicable law and subject to the availability of appropriations. Members of the Board shall serve without compensation, but shall be reimbursed for travel expenses, including per diem in lieu of subsistence, as authorized by law. Insofar as the Federal Advisory Committee Act, as amended (5 U.S.C. App.), may apply to the Board, any functions of the President under that Act, except for those of reporting to the Congress, shall be performed by the Chair, in accordance with guidelines issued by the Administrator of General Services.

(d) *Report.* The Board shall report annually to the President on the Board's progress in carrying out its duties under this section.

Sec. 4. *Revocation of Executive Order.* Executive Order 13532 of February 26, 2010 (Promoting Excellence, Innovation, and Sustainability at Historically Black Colleges and Universities), as amended, is revoked.

Sec. 5. *General Provisions.* (a) For the purposes of this order, "historically black colleges and universities" shall mean those institutions listed in 34 CFR 608.2.

(b) This order shall apply to executive departments and agencies designated by the Secretary. Those departments and agencies shall provide timely reports and such information as is required to effectively carry out the objectives of this order.

(c) The heads of executive departments and agencies shall assist and provide information to the Board, consistent with applicable law, as may be necessary to carry out the functions of the Board. Each executive department and agency shall bear its own expenses of participating in the Initiative.

(d) Nothing in this order shall be construed to impair or otherwise affect:

- (i) the authority granted by law to an executive department or agency, or the head thereof; or

- (ii) the functions of the Director of the Office of Management and Budget relating to budgetary, administrative, or legislative proposals.

(e) This order shall be implemented consistent with applicable law and subject to the availability of appropriations.

(f) This order is not intended to, and does not, create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the United States, its departments, agencies, or entities, its officers, employees, or agents, or any other person.
