AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: As a result of this sunset review, the Department of Commerce (Commerce) finds that revocation of the antidumping duty (AD) order on pure magnesium in granular form from the People's Republic of China (China) would be likely to lead to continuation or recurrence of dumping at the dumping margins identified in the "Final Results of Review" section of this notice.

DATES: Applicable January 9, 2018.

SUPPLEMENTARY INFORMATION:**Background**

On September 6, 2017, Commerce published the notice of initiation of the third sunset review of the antidumping duty order¹ on pure magnesium in granular form from China, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act).² On September 18, 2017, Commerce received notice of intent to participate on behalf of US Magnesium LLC (US Magnesium), within the applicable deadline specified in 19 CFR 351.218(d)(1)(i).³ US Magnesium claimed interested party status under section 771(9)(C) of the Act, as a manufacturer of pure magnesium in granular form in the United States.⁴ On October 2, 2017, Commerce received a complete substantive response from the domestic interested party within the 30-day deadline specified in 19 CFR

351.218(d)(3)(i).⁵ We received no substantive response from a respondent interested party in this proceeding. As a result, pursuant to 19 CFR 351.218(e)(1)(ii)(C), Commerce conducted an expedited, 120-day, sunset review of this *Order*.

Scope of the Order

There is an existing antidumping duty order on pure magnesium from the People's Republic of China.⁶ The scope of this *Order* excludes pure magnesium that is already covered by the existing *Order* on pure magnesium in ingot form, and currently classifiable under item numbers 8104.11.00 and 8104.19.00 of the Harmonized Tariff Schedule of the United States (HTSUS).

The scope of this order includes imports of pure magnesium products, regardless of chemistry, including, without limitation, raspings, granules, turnings, chips, powder, and briquettes, except as noted above.

Pure magnesium includes: (1) Products that contain at least 99.95 percent primary magnesium, by weight (generally referred to as "ultra pure" magnesium); (2) products that contain less than 99.95 percent but not less than 99.8 percent primary magnesium, by weight (generally referred to as "pure" magnesium); (3) chemical combinations of pure magnesium and other material(s) in which the pure magnesium content is 50 percent or greater, but less than 99.8 percent, by weight, that do not conform to an "ASTM Specification for Magnesium Alloy"⁷ (generally referred to as "off specification pure" magnesium); and (4) physical mixtures of pure magnesium and other material(s) in which the pure magnesium content is 50 percent or greater, but less than 99.8 percent, by weight. Excluded from this *Order* are mixtures containing 90 percent or less pure magnesium by weight and one or more of certain non-magnesium granular materials to make magnesium-based reagent mixtures. The non-magnesium granular materials of which Commerce is aware used to make

such excluded reagents are: Lime, calcium metal, calcium silicon, calcium carbide, calcium carbonate, carbon, slag coagulants, fluorspar, nepheline syenite, feldspar, aluminum, alumina (Al₂O₃), calcium aluminate, soda ash, hydrocarbons, graphite, coke, silicon, rare earth metals/mischmetal, cryolite, silica/fly ash, magnesium oxide, periclase, ferroalloys, dolomitic lime, and colemanite. A party importing a magnesium-based reagent which includes one or more materials not on this list is required to seek a scope clarification from Commerce before such a mixture may be imported free of antidumping duties.

The merchandise subject to this *Order* is currently classifiable under item 8104.30.00 of the HTSUS. Although the HTSUS subheading is provided for convenience and customs purposes, our written description of the scope of this *Order* is dispositive.

Analysis of Comments Received

All issues raised in this sunset review are addressed in the Issues and Decision Memorandum, which is hereby adopted by this notice.⁸ The issues discussed in the Issues and Decision Memorandum include the likelihood of continuation or recurrence of dumping and the magnitude of the margins likely to prevail if the *Order* was revoked. The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov> and to all parties in the Central Records Unit, room B8024 of the main Department of Commerce building. In addition, a complete version of the Issues and Decision Memorandum can be accessed at <http://enforcement.trade.gov/frn/>. The signed Issues and Decision Memorandum and the electronic version of the Issues and Decision Memorandum are identical in content.

Final Results of Review

Pursuant to section 751(c)(1) and 752(c)(1) and (3) of the Act, Commerce determines that revocation of the AD *Order* would be likely to lead to continuation or recurrence of dumping, and that the magnitude of the dumping margins likely to prevail would be
