Amendment 31 to the Coastal Migratory Pelagics Fishery Management Plan

The draft amendment contains one action to revise the federal management system for Atlantic Migratory Group Cobia. Atlantic cobia are currently managed in federal waters from Georgia to New York. The amendment contains a range of alternatives from complementary management for Atlantic cobia with the Atlantic States Marine Fisheries Commission (ASMFC) to removal of Atlantic cobia from the federal management unit. Amendment 31 is expected to facilitate improved coordination of state and federal management of Atlantic cobia and provide for fair and equitable access to Atlantic cobia harvest opportunities.

During the public hearings, Council staff will present an overview of the amendment and will be available for informal discussions and to answer questions via webinar. Area Council members will be present at each of the Listening Stations. Members of the public will have an opportunity to go on record to record their comments for consideration by the Council.
