#### SUPPLEMENTARY INFORMATION:

#### **Comments Invited**

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation is available at <a href="http://www.reginfo.gov">http://www.reginfo.gov</a>. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

- (1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden;
- (3) Enhance the quality, utility, and clarity of the information to be collected: and
- (4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Consistent with the requirements of Executive Order (E.O.) 13771, Reducing Regulation and Controlling Regulatory Costs, and E.O. 13777, Enforcing the Regulatory Reform Agenda, TSA is also requesting comments on the extent to which this request for information could be modified to reduce the burden on respondents.

# **Information Collection Requirement**

OMB Control Number 1652–0051; Rail Transportation Security. TSA collects and uses information collected under 49 CFR part 1580 to enhance the security of the Nation's rail systems. Sections 1580.101 and 1580.201 require freight railroad carriers, certain rail hazardous materials shipper and receiver facilities, passenger railroad carriers, and rail mass transit systems to designate and submit contact information for a RSC and at least one alternate RSC to TSA.

Sections 1580.105 and 1580.203 require freight railroad carriers, certain rail hazardous materials shipper and receiver facilities, passenger railroad carriers, and rail mass transit systems to report to TSA significant security concerns, which include security incidents, suspicious activities, and threat information.

Section 1580.103 requires freight railroad carriers, shippers, and receivers in a high threat urban area (HTUA) that handle certain categories and quantities of hazardous materials set forth in § 1580.100(b), known as "rail security-sensitive materials" (RSSM), to provide location and shipping information on rail cars under their physical custody and control to TSA upon request. The specified categories and quantities of RSSM cover explosive materials, materials poisonous by inhalation, and radioactive materials.

Section 1580.107 requires a secure chain of physical custody for rail cars containing RSSM which, in turn, requires freight railroad carriers and certain hazardous materials shippers and receivers of RSSM to document the transfer of custody of certain rail cars in writing or electronically and to retain these records for a minimum of 60 calendar days. Specifically, § 1580.107 requires documentation of the secure exchange of custody of rail cars containing RSSM between: A rail hazardous materials shipper and a freight railroad carrier; two separate freight railroad carriers, when the transfer of custody occurs within a HTUA, or outside of an HTUA, but the rail car may subsequently enter an HTUA; and a freight railroad carrier and a rail hazardous materials receiver located within an HTUA. The documentation must uniquely identify that the rail car was attended during the transfer of custody, including car initial and number; identification of individuals who attended the transfer (names or uniquely identifying employee number); location of transfer; and date and time the transfer was completed.

The total annual burden for this collection is approximately 112,764 hours, which is 67,320 hours higher than the current annual inventory. This change is primarily due to an increase in the number of responses of transfer of custody.

Dated: March 1, 2018.

List of Programs Eligible for Inclusion in Funding Agreements Negotiated With Self-Governance Tribes by Interior Bureaus Other Than the Bureau of Indian Affairs and Fiscal Year 2018 Programmatic Targets

**AGENCY:** Office of the Secretary, Interior. **ACTION:** Notice.

SUMMARY: This notice lists programs or portions of programs that are eligible for inclusion in self-governance funding agreements with Indian Tribes and lists Fiscal Year 2018 programmatic targets for each of the non-Bureau of Indian Affairs (BIA) bureaus in the Department of the Interior (Department), pursuant to Title IV of the Indian Self-Determination and Education Assistance Act (Act), as amended.

**DATES:** These programs are eligible for inclusion in self-governance funding agreements until September 30, 2018.

ADDRESSES: Inquiries or comments regarding this notice may be directed to Ms. Sharee M. Freeman, Director, Office of Self-Governance (MS 355H–SIB), 1849 C Street NW, Washington, DC 20240–0001, telephone: (202) 219–0240, fax: (202) 219–1404, or to the bureauspecific points of contact listed below.

**FOR FURTHER INFORMATION CONTACT:** Dr. Kenneth D. Reinfeld, Office of Self-Governance, telephone: (703) 390–6551 or (202) 821–7107.

# SUPPLEMENTARY INFORMATION:

### I. Background

Title IV of the Act instituted a permanent self-governance program at the Department. Under the self-governance program, certain programs, services, functions, and activities, or portions thereof, in Department bureaus other than BIA are eligible to be planned, conducted, consolidated, and administered by a self-governance Tribe.

Under section 405(c) of the Act, the Secretary of the Interior (Secretary) is required to publish annually: (1) A list of non-BIA programs, services, functions, and activities, or portions thereof, that are eligible for inclusion in agreements negotiated under the selfgovernance program and (2) programmatic targets for non-BIA bureaus.

Two categories of non-BIA programs are eligible for self-governance funding agreements:

(1) Under section 403(b)(2) of the Act, any non-BIA program, service, function, or activity that is administered by the Department that is "otherwise available to Indian tribes or Indians," can be administered by a Tribe through a selfgovernance funding agreement. The Department interprets this provision to authorize the inclusion of programs eligible for self-determination contracts under Title I of the Act. Section 403(b)(2) also specifies, "nothing in this subsection may be construed to provide any tribe with a preference with respect to the opportunity of the tribe to administer programs, services, functions, and activities, or portions thereof, unless such preference is otherwise provided for by law.'

(2) Under section 403(c) of the Act, the Secretary may include other programs, services, functions, and activities or portions thereof that are of "special geographic, historical, or cultural significance" to a self-

governance Tribe.

Under section 403(k) of the Act, funding agreements cannot include programs, services, functions, or activities that are inherently Federal or where the statute establishing the existing program does not authorize the type of participation sought by the Tribe. However, a Tribe (or Tribes) need not be identified in the authorizing statutes in order for a program or element to be included in a selfgovernance funding agreement. While general legal and policy guidance regarding what constitutes an inherently Federal function exists, the non-BIA bureaus will determine whether a specific function is inherently Federal on a case-by-case basis considering the totality of circumstances. In those instances where the Tribe disagrees with the bureau's determination, the Tribe may request reconsideration from the Secretary.

Subpart G of the self-governance regulations found at 25 CFR part 1000 provides the process and timelines for negotiating self-governance funding agreements with non-BIA bureaus.

Comments on a draft Federal Register Notice were requested in an April 3, 2017, memorandum sent by the Director, Office of Self-Governance to Tribal Self-Governance Coordinators and were discussed during a Tribal consultation session held during the Self-Governance Conference in Spokane, Washington, on April 25, 2017.

# II. Funding Agreements Between Self-Governance Tribes and Non-BIA Bureaus of the Department of the Interior for Fiscal Year 2018

- A. Bureau of Land Management (2) Council of Athabascan Tribal Governments
  - Duckwater Shoshone Tribe
- B. Bureau of Reclamation (5)
  Gila River Indian Community
  Chippewa Cree Tribe of Rocky Boy's
  Reservation
  Hoopa Valley Tribe
  Karuk Tribe of California
  Yurok Tribe
- C. Office of Natural Resources Revenue (none)
- D. National Park Service (2)
  Grand Portage Band of Lake Superior
  Chippewa Indians
  Yurok Tribe
- E. Fish and Wildlife Service (1) Council of Athabascan Tribal Governments
- F. U.S. Geological Survey (none)
- G. Office of the Special Trustee for American Indians (1) Confederated Salish and Kootenai Tribes of the Flathead Reservation

# III. Eligible Programs of the Department of the Interior Non-BIA Bureaus

Below is a listing by bureau of the types of non-BIA programs, or portions thereof, that may be eligible for self-governance funding agreements because they are either "otherwise available to Indians" under Title I of the Act and not precluded by any other law, or may have "special geographic, historical, or cultural significance" to a participating Tribe. The list represents the most current information on programs potentially available to Tribes under a self-governance funding agreement.

The Department will also consider for inclusion in funding agreements other programs or activities not listed below, but which, upon request of a selfgovernance Tribe, the Department determines to be eligible under either sections 403(b)(2) or 403(c) of the Act. Tribes with an interest in such potential agreements are encouraged to begin discussions with the appropriate non-BIA bureau.

# A. Eligible Bureau of Land Management (BLM) Programs

The BLM carries out some of its activities in the management of public lands through contracts and cooperative agreements. These and other activities, depending upon availability of funds, the need for specific services, and the self-governance Tribe's demonstration

of a special geographic, cultural, or historical connection, may also be available for inclusion in selfgovernance funding agreements. Once a Tribe has made initial contact with the BLM, more specific information will be provided by the respective BLM State office.

Some elements of the following programs may be eligible for inclusion in a self-governance funding agreement. This listing is not all-inclusive, but is representative of the types of programs that may be eligible for Tribal participation through a funding agreement.

### **Tribal Services**

1. Minerals Management. Inspection and enforcement of Indian oil and gas operations: Inspection, enforcement and production verification of Indian coal and sand and gravel operations are already available for contracts under Title I of the Act and, therefore, may be available for inclusion in a funding agreement.

2. Cadastral Survey. Tribal and allottee cadastral survey services are already available for contracts under Title I of the Act and, therefore, may be available for inclusion in a funding

agreement.

# Other Activities

- 1. Cultural Heritage. Cultural heritage activities, such as research and inventory, may be available in specific States.
- 2. Natural Resources Management. Activities such as silvicultural treatments, timber management, cultural resource management, watershed restoration, environmental studies, tree planting, thinning, and similar work, may be available in specific States.
- 3. Range Management. Activities, such as revegetation, noxious weed control, fencing, construction and management of range improvements, grazing management experiments, range monitoring, and similar activities, may be available in specific States.
- 4. Riparian Management. Activities, such as facilities construction, erosion control, rehabilitation, and other similar activities, may be available in specific States.
- 5. Recreation Management. Activities, such as facilities construction and maintenance, interpretive design and construction, and similar activities may be available in specific States.
- 6. Wildlife and Fisheries Habitat Management. Activities, such as construction and maintenance, implementation of statutory, regulatory and policy or administrative plan-based species protection, interpretive design

and construction, and similar activities may be available in specific States.

7. Wild Horse Management. Activities, such as wild horse roundups, adoption and disposition, including operation and maintenance of wild horse facilities, may be available in specific States.

For questions regarding selfgovernance, contact Bryon Loosle, Bureau of Land Management (WO-240), Bureau of Land Management, 1849 C Street NW, Washington, DC 20240, telephone (202) 912-7240, fax (202) 452-7701.

# B. Eligible Bureau of Reclamation (Reclamation) Programs

The mission of Reclamation is to manage, develop, and protect water and related resources in an environmentally and economically sound manner in the interest of the American public. To this end, most of Reclamation's activities involve the construction, operation and maintenance, and management of water resources projects and associated facilities, as well as research and development related to its responsibilities. Reclamation water resources projects provide water for agricultural, municipal and industrial water supplies; hydroelectric power generation; flood control, enhancement of fish and wildlife habitats; and outdoor recreation.

Components of the following water resource projects listed below may be eligible for inclusion in a selfgovernance annual funding agreement. This list was developed with consideration of the proximity of identified self-governance Tribes to Reclamation projects.

- 1. Klamath Project, California and Oregon
- 2. Trinity River Fishery, California
- 3. Central Arizona Project, Arizona
- 4. Rocky Boy's/North Central Montana Regional Water System, Montana
- 5. Indian Water Rights Settlement Projects, as authorized by Congress

Upon the request of a self-governance Tribe, Reclamation will also consider for inclusion in funding agreements other programs or activities which Reclamation determines to be eligible under Section 403(b)(2) or 403(c) of the Act.

For questions regarding selfgovernance, contact Mr. Kelly Titensor, Policy Analyst, Native American and International Affairs Office, Bureau of Reclamation (96-43000) (MS 7069-MIB); 1849 C Street NW, Washington, DC 20240, telephone: (202) 513-0558, fax: (202) 513-0311.

C. Eligible Office of Natural Resources Revenue (ONRR) Programs

The Office of Natural Resources Revenue (ONNR) collects, accounts for, and distributes mineral revenues from both Federal and Indian mineral leases.

The ONRR also evaluates industry compliance with laws, regulations, and lease terms, and offers mineral-owning Tribes opportunities to become involved in its programs that address the intent of Tribal self-governance. These programs are available to selfgovernance Tribes and are a good preparation for assuming other technical functions. Generally, ONRR program functions are available to Tribes because of the Federal Oil and Gas Royalty Management Act of 1983 (FOGRMA) at 30 U.S.C. 1701. The ONRR promotes Tribal self-governance and selfdetermination over trust lands and resources through the following program functions that may be available to self-governance Tribes:

- 1. Audit of Tribal Royalty Payments. Audit activities for Tribal leases, except for the issuance of orders, final valuation decisions, and other enforcement activities. (For Tribes already participating in ONRR cooperative audits, this program is offered as an option.)
- 2. Verification of Tribal Royalty Payments. Financial compliance verification, monitoring activities, and production verification.
- 3. Tribal Royalty Reporting, Accounting, and Data Management. Establishment and management of royalty reporting and accounting systems including document processing, production reporting, reference data (lease, payor, agreement) management, billing and general ledger.
- 4. Tribal Royalty Valuation. Preliminary analysis and recommendations for valuation, and allowance determinations and approvals.
- 5. Royalty Internship Program. An orientation and training program for auditors and accountants from mineralproducing Tribes to acquaint Tribal staff with royalty laws, procedures, and techniques. This program is recommended for Tribes that are considering a self-governance funding agreement, but have not yet acquired mineral revenue expertise via a FOGRMA section 202 cooperative agreement, as this term is defined in FOGRMA and implementing regulations at 30 CFR 228.4.

For questions regarding selfgovernance, contact Paul Tyler, Program Manager, Office of Natural Resources Revenue, Denver Federal Center, 6th &

Kipling, Building 67, Room 698, Denver, Colorado 80225-0165, telephone: (303) 231-3413 or fax: (303) 231-3091.

D. Eligible National Park Service (NPS) Programs

NPS administers the National Park System, which is made up of national parks, monuments, historic sites, battlefields, seashores, lake shores and recreation areas. NPS maintains the park units, protects the natural and cultural resources, and conducts a range of visitor services such as law enforcement, park maintenance, and interpretation of geology, history, and natural and cultural resources.

Some elements of the following programs may be eligible for inclusion in a self-governance funding agreement. This list below was developed considering the proximity of an identified self-governance Tribe to a national park, monument, preserve, or recreation area and the types of programs that have components that may be suitable for administering through a self-governance funding agreement. This list is not all-inclusive, but is representative of the types of programs which may be eligible for Tribal participation through funding agreements.

Elements of Programs That May Be Eligible for Inclusion in a Self-Governance Funding Agreement

- 1. Archaeological Surveys
- 2. Comprehensive Management Planning
- 3. Cultural Resource Management Projects
- 4. Ethnographic Studies
- 5. Erosion Control
- 6. Fire Protection

# E. Eligible Fish and Wildlife Service (Service) Programs

The mission of the Service is to conserve, protect, and enhance fish, wildlife, and their habitats for the continuing benefit of the American people. Primary responsibilities are for migratory birds, endangered species, freshwater and anadromous fisheries, and certain marine mammals. The Service also has a continuing cooperative relationship with a number of Indian Tribes throughout the National Wildlife Refuge System and the Service's fish hatcheries. Any selfgovernance Tribe may contact a National Wildlife Refuge or National Fish Hatchery directly concerning participation in Service programs under the Tribal Self-Governance Act. This list is not all-inclusive, but is representative of the types of Service programs that may be eligible for Tribal participation through an annual funding agreement.

1. Subsistence Programs within the State of Alaska. Evaluate and analyze data for annual subsistence regulatory cycles and other data trends related to subsistence harvest needs and facilitate Tribal Consultation to ensure ANILCA

- Title VII terms are being met, as well as activities fulfilling the terms of Title VIII of ANILCA.
- 2. Technical Assistance, Restoration and Conservation. Conduct planning and implementation of population surveys, habitat surveys, restoration of sport fish, capture of depredating migratory birds, and habitat restoration activities.
- 3. Endangered Species Programs.
  Conduct activities associated with the conservation and recovery of threatened or endangered species protected under the Endangered Species Act (ESA) or candidate species under the ESA. These activities may include, but are not limited to, cooperative conservation programs, development of recovery plans and implementation of recovery actions for threatened and endangered species, and implementation of status surveys for high priority candidate species.
- 4. Education Programs. Provide services in interpretation, outdoor classroom instruction, visitor center operations, and volunteer coordination both on and off national Wildlife Refuge lands in a variety of communities, and assist with environmental education and outreach efforts in local villages.
- 5. Environmental Contaminants
  Program. Conduct activities associated
  with identifying and removing toxic
  chemicals, to help prevent harm to fish,
  wildlife and their habitats. The
  activities required for environmental
  contaminant management may include,
  but are not limited to, analysis of
  pollution data, removal of underground
  storage tanks, specific cleanup
  activities, and field data gathering
  efforts
- 6. Wetland and Habitat Conservation Restoration. Provide services for construction, planning, and habitat monitoring and activities associated with conservation and restoration of wetland habitat.
- 7. Fish Hatchery Operations. Conduct activities to recover aquatic species listed under the Endangered Species Act, restore native aquatic populations, and provide fish to benefit National Wildlife Refuges and Tribes. Such activities may include, but are not limited to: Tagging, rearing and feeding of fish, disease treatment, and clerical or facility maintenance at a fish hatchery.
- 8. National Wildlife Refuge
  Operations and Maintenance. Conduct
  activities to assist the National Wildlife
  Refuge System, a national network of
  lands and waters for conservation,
  management and restoration of fish,
  wildlife and plant resources and their
  habitats within the United States.
  Activities that may be eligible for a self-

governance funding agreement may include, but are not limited to:
Construction, farming, concessions, maintenance, biological program efforts, habitat management, fire management, and implementation of comprehensive conservation planning.

Locations of Refuges and Hatcheries With Close Proximity to Self-Governance Tribes

The Service developed the list below based on the proximity of identified self-governance Tribes to Service facilities that have components that may be suitable for administering through a self-governance funding agreement.

- 1. Alaska National Wildlife Refuges—Alaska
- 2. Alchesay National Fish Hatchery—Arizona
- 3. Humboldt Bay National Wildlife Refuge— California
- 4. Kootenai National Wildlife Refuge—Idaho
- Agassiz National Wildlife Refuge— Minnesota
- 6. Mille Lacs National Wildlife Refuge— Minnesota
- 7. Rice Lake National Wildlife Refuge— Minnesota
- 8. National Bison Range—Montana
- Ninepipe National Wildlife Refuge— Montana
- 10. Pablo National Wildlife Refuge-Montana
- Sequoyah National Wildlife Refuge— Oklahoma
- 12. Tishomingo National Wildlife Refute— Oklahoma
- 13. Bandon Marsh National Wildlife Refuge—Washington
- Dungeness National Wildlife Refuge— Washington
- 15. Makah National Fish Hatchery— Washington
- 16. Nisqually National Wildlife Refuge— Washington
- Quinault National Fish Hatchery— Washington
- 18. San Juan Islands National Wildlife Refuge—Washington
- 19. Tamarac National Wildlife Refuge—Wisconsin

For questions regarding self-governance, contact Scott Aikin, Fish and Wildlife Service, National Native American Programs Coordinator, 1211 SE Cardinal Court, Suite 100, Vancouver, Washington 98683, telephone (360) 604–2531 or fax (360) 604–2505.

F. Eligible U.S. Geological Survey (USGS) Programs

The mission of the USGS is to collect, analyze, and provide information on biology, geology, hydrology, and geography that contributes to the wise management of the Nation's natural resources and to the health, safety, and well-being of the American people. This information is usually publicly available and includes maps, data bases, and descriptions and analyses of the water,

plants, animals, energy, and mineral resources, land surface, underlying geologic structure, and dynamic processes of the earth. The USGS does not manage lands or resources. Selfgovernance Tribes may potentially assist the USGS in the data acquisition and analysis components of its activities.

For questions regarding selfgovernance, contact Monique Fordham, Esq., National Tribal Liaison, U.S. Geological Survey, 12201 Sunrise Valley Drive, Reston, Virginia 20192, telephone (703) 648–4437 or fax (703) 648–6683.

G. Eligible Office of the Special Trustee for American Indians (OST) Programs

The Department has responsibility for what may be the largest land trust in the world, approximately 56 million acres. OST oversees the management of Indian trust assets, including income generated from leasing and other commercial activities on Indian trust lands, by maintaining, investing and disbursing Indian trust financial assets, and reporting on these transactions. The mission of the OST is to serve Indian communities by fulfilling Indian fiduciary trust responsibilities. This is to be accomplished through the implementation of a Comprehensive Trust Management Plan (CTM) that is designed to improve trust beneficiary services, ownership information, management of trust fund assets, and self-governance activities.

A Tribe operating under selfgovernance may include the following programs, services, functions, and activities or portions thereof in a funding agreement:

1. Beneficiary Processes Program (Individual Indian Money Accounting Technical Functions).

2. Appraisal Services Program. Tribes/consortia that currently perform these programs under a self-governance funding agreement with the Office of Self-Governance (OSG) may negotiate a separate memorandum of understanding (MOU) with OST that outlines the roles and responsibilities for management of these programs.

The MOU between the Tribe/
consortium and OST outlines the roles
and responsibilities for the performance
of the OST program by the Tribe/
consortium. If those roles and
responsibilities are already fully
articulated in the existing funding
agreement with the OSG, an MOU is not
necessary. To the extent that the parties
desire specific program standards, an
MOU will be negotiated between the
Tribe/consortium and OST, which will
be binding on both parties and attached
and incorporated into the OSG funding
agreement.

If a Tribe/consortium decides to assume the operation of an OST program, the new funding for performing that program will come from OST program dollars. A Tribe's newly-assumed operation of the OST program(s) will be reflected in the Tribe's OSG funding agreement.

For questions regarding self-governance, contact Lee Frazier, Program Analyst, Office of External Affairs, Office of the Special Trustee for American Indians (MS 5140—MIB), 1849 C Street NW, Washington, DC 20240–0001, phone: (202) 208–7587, fax: (202) 208–7545.

### **IV. Programmatic Targets**

The programmatic target for Fiscal Year 2018 provides that, upon request of a self-governance Tribe, each non-BIA bureau will negotiate funding agreements for its eligible programs beyond those already negotiated.

### V. Public Disclosure

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
