

marital status, and year of entry for COFA migrants residing in Guam and CNMI. Only questions pertaining to the needs of the legislation will be asked. The questionnaire content and data collection procedures will generally follow the American Community Survey (ACS) and Census 2010 procedures. Since data can be obtained for Hawaii from the ACS, it is not cost-effective to include Hawaii in the 2018 Survey of Compact of Free Association (COFA) Migrants. Because it would be cost prohibitive to design a survey resulting in reliable estimates of the small number of COFA migrants in American Samoa, the estimate for this area will be derived from existing Census 2010 data.

Affected Public: Residents of Guam and the Commonwealth of the Northern Mariana Islands.

Frequency: One time.

Respondent's Obligation: Voluntary.

Foreign-Trade Zones Board

[B–17–2018]

Foreign-Trade Zone (FTZ) 21—Charleston, South Carolina; Notification of Proposed Production Activity; AGRU America Charleston, LLC; (High Density Polyethylene Pipe); North Charleston, South Carolina

AGRU America Charleston, LLC (AGRU America) submitted a notification of proposed production activity to the FTZ Board for its facility in North Charleston, South Carolina. The notification conforming to the

requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on March 5, 2018.

AGRU America already has authority to produce high density polyethylene (HDPE) pipe within Site 5 of FTZ 21. The current request would add four foreign status materials/components to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status materials/components described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt AGRU America from customs duty payments on the foreign-status materials/components used in export production. On its domestic sales, for the foreign-status materials/components noted below, AGRU America would be able to choose the duty rate during customs entry procedures that applies to HDPE pipe. AGRU America would be able to avoid duty on foreign-status components which become scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The materials/components sourced from abroad include: Plastic pipe fittings; steel flanges; threaded steel bolts of more than six mm diameter; and, vulcanized rubber gaskets, washers, and seals (duty rate ranges from duty-free to 5.5%).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is April 23, 2018.

A copy of the notification will be available for public inspection at the Office of the Executive Secretary, Foreign-Trade Zones Board, Room 21013, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230–0002, and in the “Reading Room” section of the Board's website, which is accessible via www.trade.gov/ftz.
